PARALLEL TABLE OF STATUTORY AUTHORITIES AND RULES

(Additions to 2 CFR; January–December 1962)

This table lists the sections of the U.S. Code which were added to 2 CFR as a result of new citations of authority carried in the *Federal Register* during the period January 1–December 31, 1962. Recent legislation not yet assigned within the U.S. Code is carried by public law number at the end of the list.

In order to determine the *Federal Register* page numbers of the parallel CFR citations, users should consult the Codification Guide above.

Title 3—THE PRESIDENT

Executive Order 10982

ADMINISTRATION OF THE ACT OF SEPTEMBER 26, 1961, RELATING TO EVACUATION PAYMENTS, ASSIGNMENTS, AND ALLOTMENTS, AND OTHER MATTERS.

By virtue of the authority vested in me by the act of September 26, 1961 (75 Stat. 662), and by section 301 of title 3 of the United States Code, and as President of the United States, it is ordered as follows:

SECTION 1. As used in this order:

(a) The term "the act" means the act of September 26, 1961 (Public Law 87–304), 75 Stat. 662.

(b) The term "Federal agency" means any executive department of the Government of the United States of America, any agency or independent establishment in the executive branch of the Government, and any corporation wholly owned or controlled by the Government.

(c) The term "foreign area" means any area (including the Trust Territory of the Pacific Islands) situated outside (1) the United States (including the District of Columbia), (2) the Commonwealth of Puerto Rico, (3) the Canal Zone, and (4) any territory or possession of the United States.

SEC. 2. (a) Except as otherwise provided by section 2(b) and section 3(c) of this order, the Secretary of State in respect of civilian employees of Federal agencies who are located in foreign areas immediately prior to an emergency evacuation, and the Civil Service Commission in respect of all other civilian employees of Federal agencies, are hereby designated and empowered, without the approval, ratification, or other action of the President, to perform the functions conferred upon the President by section 3(a), section 3(b), and section 6(a) of the act.

(b) The Civil Service Commission is hereby designated and empowered, without the approval, ratification, or other action of the President, to perform the functions conferred upon the President by the provisions of section 6 of the act with respect to allotments and assignments authorized by section 5 of the act.

SEC. 3. The following regulations are hereby prescribed as necessary and appropriate to carry out the provisions, accomplish the purposes, and govern the administration of the act:

(a) To the maximum extent practicable, the Secretary of State, the Civil Service Commission, and the heads of other Federal agencies shall exercise their authority under the act and this order so that employees of different Federal agencies evacuated from the same geographic area under the same general circumstances may be treated uniformly.

(b) Advance payments of compensation, allowances, and differentials, as authorized by section 2 of the act, shall be held to the minimum period during which the order for evacuation is anticipated to continue, and shall in no event be made for a period of more than thirty days.

(c) It is hereby determined to be in the interest of the United States that payments of monetary amounts as authorized by section 3 of the act to and for the account of an employee whose evacuation is ordered and who is prevented from performing the duties of his position, under the circumstances set forth in section 3 of the act, should be extended beyond sixty days for not more than one hundred and twenty additional days only upon determination, pursuant to regulations of the head of the Federal agency concerned, that such additional payments are reasonably necessary to maintain a civilian staff available for performance of duty. Such payments of monetary

amounts under the authority of section 3 of the act shall be terminated as of such dates as may be determined by the Secretary of State or the Civil Service Commission, as appropriate, but not later than the date on which an employee resumes his duties at the post from which he has been evacuated or is assigned to another position.

SEC. 4. (a) The head of each Federal agency shall issue as soon as practicable such regulations as may be necessary and appropriate to carry out his functions under the act and this order.

(b) In order to coordinate the policies and procedures of the executive branch of the Government, all regulations of any Federal agency prepared for issuance under the provisions of section 6(c) of the act and section 4(a) of this order shall be submitted for prior approval to the Secretary of State, or to the Civil Service Commission, as may be appropriate, under section 2 of this order. The Secretary of State and the Civil Service Commission shall review such regulations for conformance with the purpose and intent of the act and of the regulations contained in section 3 of this order. No Federal agency shall make any payment under the provisions of the act or this order until such regulations have been approved by the Secretary of State, or the Civil Service Commission, as appropriate.

Title 5—ADMINISTRATIVE PERSONNEL

Chapter I—Civil Service Commission

PART 25—FEDERAL EMPLOYEES' PAY REGULATIONS

Allotments and Assignments From Federal Employees

Effective March 25, 1962, Subpart F is added to Part 25 as follows:

SUBPART F—ALLOTMENTS AND ASSIGNMENTS FROM FEDERAL EMPLOYEES

Sec.
25.601 Definitions.
25.602 Authority of Federal agency.
25.603 Authorized allotters.
25.604 Circumstances under which allotments are permitted.
25.605 Purposes for which allotments may be made.
25.606 Authorized allottees.
25.607 Limitations on allotments.
25.608 Discontinuance of allotment.
25.609 Procedures.

AUTHORITY: §§ 25.601 to 25.609 issued under sec. 6, 75 Stat. 664.

Subpart F—Allotments and Assignments From Federal Employees

§ 25.601 Definitions.

For the purposes of this subpart, the following terms shall have the meanings as stated:

(a) "Act" means Public Law 87-304, approved September 26, 1961 (75 Stat. 662).

(b) "Allottee" is the person or institution to whom the allotment is made payable.

(c) "Allotter" is the officer or employee from whose civilian compensation the allotment is made.

(d) "Allotment" is either an allotment or assignment of a definite amount of the compensation of a civilian employee which is authorized to be paid to an allottee.

(e) "Compensation" is the net pay due an employee after all deductions authorized by law (such as retirement or social security deductions, Federal withholding tax, and others, when applicable) have been made.

(f) "Department" means each executive department of the Government of the United States of America, each agency or independent establishment in the executive branch of the Government, and each corporation wholly owned or controlled by such Government.

(g) "Continental United States" means the several States and the District of Columbia, but excluding Alaska and Hawaii.

§ 25.602 Authority of Federal agency.

(a) A department may permit allotments under section 5 of the Act only in accordance with the Act and the regulations in this subpart.

(b) Allotments may be permitted in the discretion of the head of the department concerned under such additional regulations, not inconsistent with the Act and the regulations in this subpart, as he deems necessary and appropriate.

§ 25.603 Authorized allotters.

Only those employees who are serving under appointments not limited to six months or less may be permitted to make allotments.

§ 25.604 Circumstances under which allotments are permitted.

(a) Allotments may be authorized on a current basis under the following circumstances:

(1) When an employee is assigned to a post of duty outside the continental United States; or

(2) When an employee is working on an assignment away from his regular post of duty when the assignment is expected to continue for three months or more; or

(3) When an employee is serving as an officer or a member of a crew on a vessel under the control of the Government of the United States.

(b) Allotments may be authorized to become effective when an order of evacuation is issued under the provisions of section 2 or section 3 of the Act. Payment of the allotments authorized under the provisions of this paragraph may not be made until the issuance of such evacuation order.

§ 25.605 Purposes for which allotments may be made.

(a) Allotments may be made for the following purposes:

(1) For the support of relatives or dependents of the allotter;

(2) For savings;

(3) For payment of commercial insurance premiums on the life of the allotter;

(4) For payment of U.S. Government or National Service Life Insurance; or

(5) For any other purpose, not otherwise prohibited, when approved by the head of the department or his authorized representative.

(b) Allotments may not be made for the following purposes:

(1) For payment of any indebtedness, except when the head of the agency specifically provides otherwise; or

(2) For contributions to charities; or

(3) For payment of dues to civic, fraternal, or other organizations.

§ 25.606 Authorized allottees.

(a) An allotment may be made to any person, or to any corporation, financial institution, or agency when the allotment is for one of the purposes permitted by § 25.605(a).

(b) The allottee must be specifically designated in writing by the allotter.

§ 25.607 Limitations on allotments.

The following limitations shall apply to the making or approving of allotments:

(a) Allotments shall be disbursed on one of the employee's regularly designated paydays and according to the conditions of the allotment except in those cases where the department and allotter may agree upon a later date;

(b) An employee may not have more than one allotment payable to the same allottee at the same time;

(c) Allotments cannot exceed the compensation due the allotter for a particular period.

§ 25.608 Discontinuance of allotment.

Allotments shall be discontinued under the following circumstances:

(a) On the retirement, separation from the Federal service, or death of the allotter.

(b) When an allottee's whereabouts are unknown or upon his death.

(c) Upon written notice from the allotter.

(d) Upon written notice from an authorized official of the department concerned.

(e) When the circumstances under which allotments are permitted under § 25.604 no longer exist.

§ 25.609 Procedures.

Each department shall prescribe and administer the necessary procedures to carry out the purposes of the Act and these regulations, and the procedures established shall be consistent with the provisions of the Act and these regulations.

[1961 C.C.C. Peanut Price Support Bulletin, Amdt. 2]

PART 446—PEANUTS

Subpart—1961 Crop Peanut Price Support Program

The regulations issued by Commodity Credit Corporation (hereinafter referred to as "CCC") with respect to the 1961 Crop Peanut Price Support Program (26 F.R. 7863 and 8247) are amended as follows in order to provide price support for peanuts in the Southwestern area which contain damaged kernels from 8 percent to 25 percent, inclusive.

The regulations in § 446.1301 to 446.1348 inclusive are amended as specified below:

1. The footnote in § 446.1305(d)(3) is amended to read as follows:

[1] Not eligible for price support, except as provided in paragraph (e) of this section, and in § 446.1306(a)(6).

2. Section 446.1305 is amended by adding the following paragraph (e) at the end thereof:

(e) Peanuts in the Southwestern area which contain damaged kernels from 8 percent to 25 percent, inclusive. Support prices (farmers stock basis) for peanuts in the Southwestern area which contain damaged kernels from 8 percent to 25 percent, inclusive, shall be as follows:

Peanuts containing damaged kernels of—	Support price (cents per pound)
8 or 9 percent	7.1
10 or 11 percent	6.8
12 or 13 percent	6.4
14 or 15 percent	6.0
16 to 19 percent, inclusive	5.6
20 to 25 percent, inclusive	5.3

3. Section 446.1306(a)(1) is amended to read as follows:

(1) Contain, except as provided in subparagraph (6) of this paragraph, not more than 10 percent foreign material and not more than 7 percent damaged kernels: *Provided, however*, That, in the Southwestern area, peanuts which contain more than 7 percent damaged kernels and which meet the other requirements of this section, shall be eligible for price support through a warehouse storage loan to the Association at the rates specified in § 446.1305(c);

(Sec. 4, 62 Stat. 1070, as amended; 15 U.S.C. 714b. Interpret or apply sec. 5, 62 Stat. 1072, secs. 101, 401, 63 Stat. 1051, 1054; sec. 201, 68 Stat. 899; 15 U.S.C. 714c, 7 U.S.C. 1441, 1421)

Effective as of date of signature.

Signed at Washington, D.C., on December 27, 1961.

PART 519—FRESH IRISH POTATOES

Subpart—Fresh Irish Potatoes—Livestock Feed Diversion Program CMD 3a

RATE OF PAYMENT

For the purpose of increasing the rate of payment for the month of January 1962, from 40 cents to 60 cents per hundredweight, § 519.205 of these regulations is amended as follows:

§ 519.205 **Rate of payment.**

The rate of payment per 100 pounds of potatoes which meet the requirements of Specification A as defined in § 519.211 and which are diverted as prescribed in § 519.210 will be 60 cents for potatoes diverted during the months of September, October, November, December 1961, and January 1962, 40 cents during the month of February 1962, and 30 cents during the months of March and April 1962. No payment will be made for any fractional part of 100 pounds and such quantities will be disregarded.

Effective date. This amendment shall become effective January 1, 1962.

Dated this 28th day of December 1961.

Title 14—AERONAUTICS AND SPACE

Chapter III—Federal Aviation Agency

SUBCHAPTER E—AIR NAVIGATION REGULATIONS

[Airspace Docket No. 61-LA-7]

PART 608—SPECIAL USE AIRSPACE

Alteration of Restricted Area

The purpose of this amendment to § 608.48 of the regulations of the Administrator is to alter the Sahwave Mountains, Nev., Restricted Area R-4805.

The Department of the Navy has advised that the ceiling of R-4805 may be reduced from unlimited to Flight Level 550 and the time of designation from "continuous" to "one hour prior to sunrise to 1 hour after sunset," Monday through Friday." In addition, the Department of the Navy has concurred in joint use of this area. Therefore, the changes recommended by the Navy are effected herein and the Oakland ARTC Center is designated the Controlling Agency.

Since this amendment imposes no additional burden on the public, notice and public procedure hereon are unnecessary and it may be made effective immediately.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (25 F.R. 12582), the following action is taken:

In § 608.48 Nevada, R-4805 Sahwave Mountains, Nev., Restricted Area (26 F.R. 7198) is amended to read:

R-4805 Sahwave Mountains, Nev.

Boundaries. Beginning at latitude 40°-40'00" N., longitude 118°49'00" W.; to latitude 40°04'00" N., longitude 118°49'00" W.; to latitude 40°00'00" N., longitude 118°57'00" W.; to latitude 40°00'00" N., longitude 119°13'00" W.; to latitude 40°40'00" N., longitude 119°13'00" W.; to the point of beginning.

Designated altitudes. Surface to Flight Level 550.

Time of designation. One hour before sunrise to 1 hour after sunset, Monday through Friday.

Controlling agency. Federal Aviation Agency, Oakland ARTC Center.

Using agency. Commander, Naval Air Bases, 12th Naval District, Alameda, Calif.

This amendment shall become effective upon the date of publication in the FEDERAL REGISTER.

(Sec. 307(a), 72 Stat. 749; 49 U.S.C. 1348)

Issued in Washington, D.C., on December 26, 1961.

COUNTY ALLOTMENT; ALLOCATIONS TO COUNTIES FROM STATE RESERVE; AND REMAINDER OF STATE RESERVE

PART 722—COTTON

Subpart—Regulations Pertaining to Acreage Allotments for the 1962 Crop of Extra Long Staple Cotton—Amendment 3

The purpose of this amendment is to delete wording pertaining to a national reserve which is not applicable to extra long staple cotton and to correct an error in the 1962 State reserve and total State allotment of extra long staple cotton for Florida. The amendment contained herein is issued pursuant to the Agricultural Adjustment Act of 1938, as amended (52 Stat. 31, as amended; 7 U.S.C. 1281 et seq.). Notice of the proposed issuance of acreage allotment regulations for the 1962 crop of extra long staple cotton was published in the FEDERAL REGISTER on August 25, 1961 (26 F.R. 7967), in accordance with section 4 of the Administrative Procedure Act (60 Stat. 238; 5 U.S.C. 1003) prior to issuance of such regulations.

In order that the Agricultural Stabilization and Conservation State and county committees may perform their assigned functions in an orderly manner, it is essential that this amendment be made effective as soon as possible. Accordingly, it is hereby determined and found that compliance with the notice and public procedure requirements and the 30-day effective date requirement of section 4 of the Administrative Procedure Act is impracticable and contrary to the public interest and this amendment shall be effective upon filing of this document with the Director, Office of the Federal Register.

Section 722.566(g)(1) of the regulations pertaining to acreage allotments for the 1962 crop of extra long staple cotton (26 F.R. 11481) is corrected as follows:

For all States, delete the words "and national reserve" from item c.

For the State of Florida, item b., "State reserve available for missed and reconstituted farms and correction of errors," is 70 instead of zero and item c., "Total allotment available from national allotment for distribution in State," is 705 instead of 635.

(Secs. 344, 347, 375, 63 Stat. 670, as amended, 675, as amended; 52 Stat. 66, as amended; 7 U.S.C. 1344, 1347, 1375)

Effective date: Date of filing this document with the Director, Office of the Federal Register.

Signed at Washington, D.C., on December 27, 1961.

CARL A. LARSON,
Acting Administrator, Agricultural Stabilization and Conservation Service.

Chapter IX—Agricultural Marketing Service (Marketing Agreements and Orders), Department of Agriculture

SUBCHAPTER A—MARKETING ORDERS

[Orange Reg. 1]

PART 906—ORANGES AND GRAPEFRUIT GROWN IN THE LOWER RIO GRANDE VALLEY IN TEXAS

Limitation of Shipments

§ 906.301 **Orange Regulation 1.**

(a) *Findings.* (1) Pursuant to the marketing agreement and Order No. 906 (7 CFR Part 906), regulating the handling of oranges and grapefruit grown in the Lower Rio Grande Valley in Texas, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674), and upon the basis of the recommendation of the Texas Valley Citrus Committee established under the aforesaid marketing agreement and order, and upon other available information, it is hereby found that the limitation of shipments of oranges, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (5 U.S.C. 1001-1011) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient; a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. Shipments of oranges, grown in the production area, are presently subject to regulation by grades and sizes, pursuant to the marketing agreement and order; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after an open meeting of the Texas Valley Citrus Committee on December 19, 1961, such meeting was held to consider recommendations for regulation, after giving due notice of such meeting, and interested persons were afforded an opportunity to submit their views at this meeting; the provisions of this section, including the effective time hereof, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such oranges; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period hereinafter set forth so as to provide for the continued regulation of the handling of oranges, and compliance with this section will not require any special preparation on the part of the persons subject thereto which cannot be completed by the effective time hereof.

(b) *Order.* (1) Terms used in the marketing agreement and order shall, when used herein, have the same meaning as is given to the respective term in said marketing agreement and order; and terms relating to grade and diameter, when used herin, shall have the same meaning as is given to the respective term in the United States Standards for Oranges (Texas and States other than Florida, California, and Arizona) (§§ 51.680-51.712 of this title).

(2) During the period beginning at 12:01 a.m., c.s.t., January 8, 1962, and ending at 12:01 a.m., c.s.t., February 5, 1962, no handler shall handle:

(i) Any Navel or Early and Midseason oranges, grown in the production area, unless such oranges grade at least U.S. No. 2 Russet;

(ii) Any Navel or Early and Midseason oranges, grown as aforesaid, which are of a size smaller than 2 7/16 inches in diameter, except that not more than ten (10) percent, by count, of such oranges in any lot of containers, and not more than fifteen (15) percent, by count, of such oranges in any individual container in such lot may be of a size smaller than 2 7/16 inches in diameter;

(iii) Any Valencia or similar late type oranges, grown as aforesaid, unless such oranges grade at least U.S. No. 1;

(iv) Any Valencia and similar late type oranges, grown as aforesaid, which are of a size smaller than 3 3/16 inches in diameter, except that not more than ten (10) percent, by count, of such oranges in any lot of containers, and not more than fifteen (15) percent, by count, of such oranges in any individual container in such lot, may be of a size smaller than 3 3/16 inches in diameter;

(v) Any oranges of any variety, grown as aforesaid, packed in any box or carton of inside dimensions other than those specified in subdivision (vi), unless the oranges are of a size within the diameter limits specified for one of the following pack sizes and otherwise are packed in accordance with the requirements of standard pack, except that not to exceed a total of 10 percent, by count, of the oranges in any such container may be outside such diameter limits:

Pack Sizes	Diameter limits in inches	
	Minimum	Maximum
100	3 7/16	3 13/16
125	3 3/16	3 9/16
163	2 13/16	3 3/16
200	2 11/16	3 1/16
252	2 7/16	2 13/16

(vi) Any oranges of any variety, grown as aforesaid, packed in a box or carton having inside dimensions of 19¾ x 13½ x 13½ inches, unless such container is packed in accordance with one of the following pack sizes and contains the applicable number of oranges specified for the pack size: *Provided*, such oranges are within the diameter limits specified in subdivision (v) for the particular pack size, except that not to exceed a total of 10 percent, by count, of the oranges in any such container may be outside such diameter limits:

Pack sizes:	Number of oranges
100	100
125	125
163	163
200	198
252	252

(vii) Any oranges of any variety, grown as aforesaid, for which inspection is required unless an appropriate inspection certificate has been issued with respect thereto not more than 48 hours prior to the time of shipment.

(viii) The provisions of subdivisions (v) and (vi) shall not apply to the oranges in any gift package of fruit.

All oranges of any variety, grown as aforesaid, handled during the period

specified in this section are subject to all applicable container regulations which are in effect pursuant to the aforesaid marketing agreement and order during such period.

[Navel Orange Reg. 220, Amdt. 1]

PART 914—NAVEL ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

Limitation of Handling

Findings. 1. Pursuant to the marketing agreement, as amended, and Order No. 14, as amended (7 CFR Part 914), regulating the handling of navel oranges grown in Arizona and designated part of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and upon the basis of the recommendations and information submitted by the Navel Orange Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such navel oranges, as hereinafter provided, will tend to effectuate the declared policy of the act by tending to establish and maintain such orderly marketing conditions for such oranges as will provide, in the interest of producers and consumers, an orderly flow of the supply thereof to market throughout the normal marketing season to avoid unreasonable fluctuations in supplies and prices, and is not for the purpose of maintaining prices to farmers above the level which it is declared to be the policy of Congress to establish under the act.

2. It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rulemaking procedure, and postpone the effective date of this amendment until 30 days after publication hereof in the FEDERAL REGISTER (5 U.S.C. 1001–1011) because the time intervening between the date when information upon which this amendment is based became available and the time when this amendment must become effective in order to effectuate the declared policy of the act is insufficient, and this amendment relieves restrictions on the handling of navel oranges grown in Arizona and designated part of California.

Order, as amended. The provisions in paragraph (b)(1)(i) of § 914.520 (Navel Orange Reg. 220, 26 F.R. 12494) are hereby amended to read as follows:

(i) District 1: 400,000 cartons.

SUBCHAPTER B—PROHIBITIONS OF IMPORTED COMMODITIES

[Orange Reg. 1, Amdt. 2]

PART 944—IMPORT REGULATION

Oranges

Pursuant to the provisions of section 8e of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), the provisions of paragraph (a) of § 944.300 (Orange Regulation 1; 26 F.R. 9668; 9905) are hereby amended to read as follows:

(a) On and after 12:01 a.m., e.s.t., January 8, 1962, the importation into the United States of any oranges is prohibited unless such oranges are inspected and meet the following applicable requirements:

(1) Navel or Early and Midseason oranges, shall grade at least U.S. No. 2 Russet, and be of a size not smaller than $2\frac{7}{16}$ inches in diameter, except that not more than 10 percent, by count, of such oranges in any lot of containers, and not more than 15 percent, by count, of such oranges in individual containers in such lot, may be of a size smaller than $2\frac{7}{16}$ inches in diameter; or

(2) Any Valencia or similar late type oranges, shall grade at least U.S. No. 1, and be of a size not smaller than $3\frac{3}{16}$ inches in diameter, except that not more than 10 percent, by count, of such oranges in any lot of containers, and not more than 15 percent, by count, of such oranges in individual containers in such lot may be of a size smaller than $3\frac{3}{16}$ inches in diameter.

It is hereby found that it is impracticable, unnecessary, and contrary to the public interest to give preliminary notice, engage in public rulemaking procedure, and postpone the effective time of this amendment beyond that hereinafter specified (5 U.S.C. 1001–1011) in that (a) the requirements of this amended import regulation are imposed pursuant to section 8e of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674; 75 Stat. 305), which makes such regulation mandatory; (b) such regulation imposes the same restrictions on imports of oranges as the grade and size restrictions being made applicable to the shipment of oranges grown in Texas under Orange Regulation 1 (§ 906.301) which becomes effective January 8, 1962; (c) compliance with this amended import regulation will not require any special preparation which cannot be completed by the effective time hereof; (d) notice hereof in excess of three days, the minimum that is prescribed by section 8e, is given with respect to this import regulation; and (e) such notice is hereby determined, under the circumstances, to be reasonable.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated, December 28, 1961, to become effective at 12:01 a.m., e.s.t., January 8, 1962.

Proposed Rule Making

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[43 CFR Part 161]

THE FEDERAL RANGE CODE FOR GRAZING DISTRICTS

Notice of Proposed Rule Making

Basis and purpose. Notice is hereby given that, pursuant to the authority vested in the Secretary of the Interior by the act of June 28, 1934 (48 Stat. 1269, 43 U.S.C. 315, 315a-315r), as amended and supplemented, it is proposed to amend and revise the regulations issued under the said act as set forth below. The purpose for these changes is to permit the establishment of a grazing fee based on a percentage adjustment in the rate which would be determined by the same formula that is now in effect.

It is the policy of the Department, whenever practicable, to afford the public an opportunity to participate in the rule making process. Accordingly, interested persons may submit written comments, suggestions, or objections with respect to the proposed amendments to the Bureau of Land Management, Washington 25, D.C., within 30 days of publication of this notice in the FEDERAL REGISTER.

1. Paragraph (b) of § 161.8 is amended to read as follows:

§ 161.8 Fees; time of payment; refunds.

• • • • •

(b) *Licenses and permits; rates.* (1) Each regular licensee or permittee, and holder of a nonrenewable license will be charged for use of the range and a range improvement fee, for the animal unit months authorized by the license or permit, at a rate per animal unit month. All billing shall be issued in accordance with the rates prescribed in subparagraph (2) of this paragraph. All livestock 6 months of age or over allowed on the Federal range will be considered at any point of time during the grazing period as a part of the total number for which a license or permit has been issued. No fees will be charged for livestock under 6 months of age. Range improvement fees may vary in accordance with the character or requirements of the various districts or portions thereof. Grazing fees may differ in any district or unit thereof in which the grazing capacity of the Federal range is increased by reason of the addition of land not owned by the United States, or by reason of a cooperative agreement or memorandum of understanding between the Bureau of Land Management, and any State or Federal agency, or any person, association, or corporation. A minimum annual charge of $10 will be made on all regular licenses or permits, and nonrenewal licenses.

(2) (i) The fee or fees for any fee year, beginning on March 1, will be established by the Secretary at a rate which is equivalent to a specified percentage, to be fixed by the Secretary, of the average of the prices per pound of beef and lamb, rounded to the nearest whole cent, which was paid to growers during the preceding calendar year in the markets of the 11 Western States, as determined by the Secretary based upon market prices as reported by the Agricultural Marketing Service of the Department of Agriculture.

(ii) The fee for any fee year may be changed by the Secretary from that of the preceding year by fixing a new specified percentage of the average of the prices per pound of beef and lamb. The fee for any fee year shall, in any event, be adjusted by the Secretary, in addition to any percentage adjustment that may be made, to conform to changes in market price conditions whenever in the preceding calendar year there is a change in the average of such prices, rounded off to the nearest whole cent, of 2 cents or more above or below the corresponding average for the preceding year.

(iii) The fee or fees established by the Secretary for any fee year, including announcement of the portion thereof to be credited to the range improvement fund, will be published as a notice in the FEDERAL REGISTER. All regular billings shall be issued in accordance with the rate or rates prescribed in the notice.

JOHN A. CARVER, JR.,
Acting Secretary of the Interior.

STATEMENT OF POLICY UNDER THE TWENTY-EIGHT HOUR LAW

Notice of Proposed Revision

Notice is hereby given that, pursuant to authority delegated under the Twenty-Eight Hour Law (34 Stat. 607; 45 U.S.C. 71-74. 19 F.R. 74, as amended), it is proposed to revise the statement of policy with respect to said act as set forth in Part 89, Title 9, Code of Federal Regulations, to read as follows:

It is the view of the Department of Agriculture that the feeding, watering, and resting of livestock in the course of transportation by railroad, from one State, Territory, or the District of Columbia, into or through another State, Territory, or the District of Columbia, in accordance with the recommendations set out herein will meet the requirements of the Twenty-Eight Hour Law (34 Stat. 607; 45 U.S.C. 71-74).

§ 89.1 Amount of feed.

(a) Under normal conditions, the amounts of feed designated in the following schedule will be considered as sustaining rations for livestock in transit when fed at the intervals required by the Twenty-Eight Hour Law:

Species and quantity of livestock	At first feeding station	At second and subsequent feeding stations
Cattle and beef type or range calves (for each car [1])	200 lbs. of hay [1 2]	300 lbs. of hay. [1 2]
Dairy calves (for each car deck [1])	100 lbs. of hay [1 2]	150 lbs. of hay. [1 2]
Horses and mules (for each car [1])	400 lbs. of hay [1 2]	400 lbs. of hay. [1 2]
Sheep and goats (for each car deck [1])	200 lbs. of hay [1 2]	300 lbs. of hay. [1 2]
Lambs and kids (for each car deck [1])	100 lbs. of hay [1 2]	150 lbs. of hay. [1 2]
Swine (for each carload lot, in single or double deck car, the amount of shelled corn,[2] indicated):		
Lots of not more than 18,000 lbs	2 bushels	2 bushels.
More than 18,000 lbs. but not more than 21,000 lbs	2½ bushels	2½ bushels.
More than 21,000 lbs. but not more than 24,000 lbs	3 bushels	3 bushels.
More than 24,000 lbs. but not more than 27,000 lbs	3½ bushels	3½ bushels.
More than 27,000 lbs. but not more than 30,000 lbs	4 bushels	4 bushels.
More than 30,000 lbs.—proportionately larger amounts		

[1] The requirements set forth the sustaining rations for a full load of livestock in a railroad car 40 feet in length. The requirements for a full load of livestock in railroad cars of different sizes should be modified proportionately, i.e., a load of livestock transported in a car 50 feet in length would require an additional 25 percent of feed or 2.5 percent for each additional foot of car over 40 feet.

[2] Or the equivalent in other suitable feed. Dairy calves too young to eat hay or grain, or shipped without their dams, should be given a sufficient amount of prepared calf feed, milk, raw eggs, or other suitable feed. All feed should be of good quality.

(b) When the owner of a consignment of livestock desires that they be fed larger amounts of feed than those designated in paragraph (a) of this section for the particular kind and quantity of livestock, or the carrier believes that they should be fed larger amounts, the amounts to be fed should be agreed upon, if practicable, by the owner and the carrier at the time the animals are offered for shipment.

(c) When emergency conditions arise, such as severe changes in the weather, which increase the rigors of transportation, the livestock should receive amounts of feed, additional to those designated in paragraph (a) of this section sufficient to sustain them until they arrive at the next feeding station or destination.

(d) When the movement of livestock is delayed en route so that the period of their confinement in the cars materially exceeds that specified by the Twenty-Eight Hour Law, the livestock should receive additional feed in proportion to such excess time.

§ 89.2 Two or more feedings at same station.

When livestock are held at a feeding station 12 hours after the last previous feed has been substantially consumed, they should again be fed the ration prescribed by § 89.1(a) for that station; *Provided, however,* That they may be held without such feeding for a period longer than 12 hours if the time they are so held, added to the time required to reach the next feeding station or destination, whichever is closer, would not ordinarily exceed 40 hours.

§ 89.3 Feeding, watering, and resting livestock in the car.

(a) Livestock should be unloaded into pens of the character described in § 89.5 (a) for feeding, watering, and resting, unless there is ample room in the car for all of the animals to lie down at the same time.

(b) If livestock are watered in the car, adequate facilities should be provided and ample water furnished to insure all the animals an opportunity to drink their fill. In the case of hogs, water should be available for not less than 1 hour.

(c) Livestock unloaded for feed and water and returned to the car for rest should be allowed to remain in the pens not less than 2 hours.

(d) Livestock unloaded for water and returned to the car for feed and rest should be allowed to remain in the pens not less than 1 hour.

(e) When livestock are fed in the car, the feed should be evenly distributed throughout the car.

§ 89.4 Watering.

Livestock should be furnished an ample supply of potable water. Water treated with chemicals for industrial or boiler use, or taken from streams or ponds containing sewage, mud, or other objectionable matter should not be used. Troughs and other receptacles should be clean. In cold weather, the water should be free from ice.

§ 89.5 Feeding pens.

(a) Stock pens and other enclosures for feeding, watering, and resting livestock in transit should have (1) sufficient space for all of the livestock to lie down at the same time, (2) properly designed facilities for feeding and watering the livestock, (3) reasonably well-drained, clean, and safe floors of concrete, cinders, gravel, hard-packed earth, or other suitable material, and (4) suitable protection from weather reasonably to be expected in the region in which the pens are located.

(b) Care should be taken to protect livestock unloaded en route at a point having marked difference in temperature from that at the point from which they were shipped.

Any person who wishes to submit written data, views, or arguments concerning the proposed revision may do so by filing them with the Director, Animal Disease Eradication Division, Agricultural Research Service, U.S. Department of Agriculture, Washington 25, D.C., within 45 days after publication of this notice in the FEDERAL REGISTER.

[7 CFR Part 911]

[Docket No. AO 262-A6]

MILK IN TEXAS PANHANDLE MARKETING AREA

Decision on Proposed Amendments to Tentative Marketing Agreement and to Order

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held at Amarillo, Tex., on April 14, 1961, pursuant to notice thereof issued on March 28, 1961 (26 F.R. 2750).

Upon the basis of the evidence introduced at the hearing and the record thereof, the Assistant Secretary, U.S. Department of Agriculture, on November 29, 1961 (26 F.R. 11495; F.R. Doc. 61-11497), filed with the Hearing Clerk, U.S. Department of Agriculture, his recommended decision containing notice of the opportunity to file written exceptions thereto. No exceptions were filed to the recommended decision.

The material issues on the record of the hearing relate to:

1. The classification and accounting for dietary products and other fortified fluid milk products.

2. Pooling requirements for pool plants distributing milk in more than one regulated area.

Findings and conclusions. The following findings and conclusions on the material issues are based on evidence presented at the hearing and the record thereof:

1. The classification and accounting for dietary products and other fortified fluid milk products.

Dietary products and other fortified fluid milk products should be classified as Class I only up to the extent of the weight of an unmodified product of the same nature and butterfat content, excluding the dry weight of any nonmilk additives such as flavoring, sugar, etc. The skim milk equivalent of the nonfat milk solids not classified as Class I should be considered a Class II disposition.

The existing order provisions provide for full skim milk equivalent accounting. Hence, when nonfat milk solids in the form of nonfat dry milk or condensed milk are added to a fluid milk product to increase the nonfat milk solids content, the skim milk equivalent of the total nonfat milk solids in the product is classified as Class I. Producer milk is given priority of assignment in Class I. When Class I utilization exceeds available producer receipts and other source milk is assigned to Class I a compensatory charge is applicable on the other source milk so assigned unless such milk has been classified and priced as Class I under another Federal order. When nonmilk products such as flavoring, etc., are used in making any milk product, the weight of such additives is deducted before reconciliation of the pounds of skim milk and butterfat to be classified.

Handlers proposed that fluid milk dietary foods be classified as Class II in lieu of the present Class I classification and that the skim milk equivalent accounting for nonfat milk solids used in fortification be discontinued. As an alternative, if the proposal to discontinue skim milk equivalent accounting was denied, handlers proposed that the skim milk equivalent be Class II. It was their position that the product cost resulting from the present Class I classification of dietary fluid milk products placed them at a competitive disadvantage with dietary milk products in dry form or in hermetically sealed containers made from non-Grade A milk and milk products distributed through grocery stores, drug stores, food establishments and similar outlets. They suggested that a lower classification and pricing would permit more competitive resale pricing and hence create a greater demand for their product. They contended that a Class I classification and pricing on the skim milk equivalent of nonfat milk solids used in the fortification of Class I products was unrealistic and resulted in undue cost to handlers. Their proposed change, they suggested, would serve to facilitate the economic disposition of the market's reserve supply.

Producers, on the other hand, opposed any change in the present accounting procedure. It was their position that full skim milk equivalent accounting is essential to protect the integrity of the classification scheme under the Federal order and that unless nonfat milk solids used in fortification are accounted for on a skim milk equivalent basis in Class I, handlers have opportunity to displace producer milk in Class I with lower priced other source milk.

A great deal of the testimony on the record was offered to substantiate that dietary milk products were, or were not, required to be made from locally approved milk under the health ordinance in effect in the marketing area. Regardless of the intent of the ordinance, it is apparent that the local health authority is not interpreting it in a manner so as to require that such products be made from locally approved milk. However, this is of little consequence since handlers are not permitted to bring fluid non-Grade A milk or skim milk into their fluid milk plants. Under any circumstances it is clear that, because of the perishability of the finished dietary product, handlers use only milk of the highest quality and hence they require and rely on local producers to furnish their full fluid milk require-

ments. Therefore, it is appropriate and necessary that the Class I classification be retained.

Fortified fluid milk products customarily result from the addition of nonfat milk solids in the form of condensed skim milk or nonfat dry milk to milk or skim milk in fluid form to yield a finished product of higher nonfat milk solids content than that of an equivalent amount of whole (producer) milk. Reconstituted products, on the other hand, generally involves the process of "floating" milk solids in the form of condensed milk or skim milk, dry milk, or nonfat dry milk in water to yield a weight of product approximately equal to the weight of milk from which the condensed or dried milk product was first made by the removal of water.

Nonfat dry milk and condensed milk or skim milk are ordinarily derived from unpriced milk or milk which has been priced as surplus under a Federal order. These products are not necessarily processed from producer milk and may be made from ungraded milk. An economic incentive exists for handlers to substitute, where possible, reconstituted fluid milk products for fluid milk products processed from current receipts of producer milk. Since such substitution would displace an equivalent amount of producer milk in Class I, the application of skim milk equivalent accounting in this circumstance is economically sound and is necessary to maintain orderly marketing.

The same economic incentive does not exist, however, with respect to the use of nonfat dry milk, or condensed milk or skim milk to fortify a fluid milk product. If nonfat milk solids are to be derived from producer milk, the skim milk must first be processed into usable form; i.e., nonfat dry milk or condensed skim milk. Such products processed from producer milk have no greater value for fortification purposes than similar products purchased on the open market. Such products are used in fortification to increase the palatability of, and hence the salability of, the finished product. Fortification only slightly increases the volume of the product and under no circumstances can it be concluded that the added solids displace producer milk in Class I beyond the minor increase in volume which results.

When the skim milk equivalent provision is applied to fortified milk products, it inflates significantly the utilization and disposition of Class I milk. The inflation in the case of dietary food products results in a Class I classification of about two and one-half times the actual volume. For reasons previously stated it is neither necessary nor appropriate that handlers continue to be required to account and pay for this inflated volume in Class I. Nevertheless, it is practical and administratively necessary to maintain full skim milk equivalent accounting. These conclusions can be reconciled by providing that fortified fluid milk products shall be classified as Class I only to the extent of the weight of an unmodified fluid milk product of the same nature and butterfat content, excluding the dry weight of any nonmilk ingredient such as flavoring, sugar, etc. The skim milk equivalent of the nonfat milk solids not classified in Class I should be considered as Class II disposition.

No change was proposed in the accounting procedure followed in cases where flavoring and other nonmilk ingredients are used in processing unfortified products. In such cases the dry weight of such additives also should be deducted in determining the amount of skim milk and butterfat to be accounted for. This is generally consistent with the procedure now employed and of the conclusions previously set forth relative to the accounting procedure to be employed for fortified products. The changes in the fluid milk products definition and the classification provisions hereinafter set forth will implement these conclusions.

2. *Modification of the requirements for pooling plants also meeting the pooling requirements of another Federal order.* The pooling provisions of the order should be modified to permit a distributing plant meeting the requirements for full regulation under both this order and another Federal order and with a greater proportion of its Class I disposition in the other market, but which was pooled under this order in the most recent month, to retain pooling status under this order until the third consecutive month in which a greater volume of Class I sales is made in such other marketing area. However, it must be recognized that the provisions of the other order may require such plant to be pooled under such other order. In such circumstances, the plant should be exempted from regulation under this order except for a requirement to file reports and permit verification. Provision also should be made to exempt a distributing plant doing a greater proportion of its total Class I business in this marketing area but which, nevertheless, retains pooling status for the month under another order. Federal orders generally provide that a distributing plant meeting the pooling requirements of more than one order shall be regulated under that order covering the area in which the greater volume of Class I sales are made. Nevertheless, it should be recognized that other orders may contain similar provisions to those herein proposed to deter plants from changing back and forth between two orders on a month-to-month basis.

Under the present order provision a distributing plant which distributes fifty percent of its receipts as Class I milk on routes or through plant stores, and fifteen percent of receipts are so disposed of in the marketing area, is subject to full regulation under this order unless a greater volume of Class I milk is disposed of to retail or wholesale outlets in another marketing area and the plant is fully regulated under such other order.

A regulated handler under the North Texas order, operating packaging plants in both Fort Worth and Dallas, and distributing milk in both the North Texas and Central West Texas markets, as well as the Texas Panhandle market, proposed that the order be amended to exempt from pooling under this order a plant meeting the pooling requirements of this order, unless its Class I sales in this market should exceed Class I sales in another Federal order market over an extended period of time. He indicated that because of his company's experience in making sales in the Central West Texas and North Texas Federal order markets, where sales in the two markets were of such nature that a small increase in sales in one market or decrease in the other market could result in regulation of his plant under one order one month and under the second order the next month, it was desirable that a provision similar to that herein recommended be included in this order.

Proponent's distribution in the Texas Panhandle market is not presently of a magnitude that either of his North Texas pool plants is likely to become regulated under this order. Nevertheless, it should be recognized, with recent technological changes in the processing and distribution field, that milk is moved great distances and distribution routes are being greatly extended. It is possible that at some future time this handler or some other handler presently regulated under another order may expand his distribution in the market to such an extent that sales in the two markets are approximately equal. In such event the loss of an account in one market or the adding of an account in the other market might result in a shift in regulation. In situations where sales in two markets are virtually the same, an inadvertent sale, the result of a management error or error on the part of a plant employee or a route salesman, might result in an unintended change in pooling. It would also be possible, as proponent suggests, that a change in classification during audit might have the same effect.

The prospective situation can be substantially removed by adoption of the changes herein recommended. Under this procedure a handler would have two months warning that his plant was changing from one regulation to another, thus providing reasonable time to permit adjustment of his business in cases where such change was not contemplated or desired. At the same time this change retains the principle of regulating a distributing plant under that order where the greater proportion of its business is done. Since government contracts normally are made for longer periods than two months there is no reason to expect that the changes recommended will have any significant effect in the length of time in which a plant is pooled in a particular market where the change in proportion of business is the result of gaining or losing a government contract. Accordingly, the provision should be adopted.

Supply plants are regulated under this order in any month in which 50 percent of receipts from dairy farmers are shipped to pool distributing plants. Any plant shipping 50 percent of its receipts to the local market should be considered primarily associated with this market and should therefore be fully regulated. The existing order so provides and no change is needed in this regard.

Rulings on proposed findings and conclusions. Briefs and proposed findings and conclusions were filed on behalf of certain interested parties. These briefs, proposed findings and conclusions and the evidence in the record were considered in making the findings and conclusions set forth above. To the extent that the suggested findings and conclusions filed by interested parties are inconsistent with the findings and conclusions set forth herein, the requests to make such findings or reach such conclusions are denied for the reasons previously stated in this decision.

General findings. The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order and of the previously issued amendments thereto; and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) The tentative marketing agreement and the order, as hereby proposed to be amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the Act;

(b) The parity prices of milk as determined pursuant to section 2 of the Act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the marketing area, and the minimum prices specified in the proposed marketing agreement and the order, as hereby proposed to be amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(c) The tentative marketing agreement and the order, as hereby proposed to be amended, will regulate the handling of milk in the same manner as, and will be applicable only to persons in the respective classes of industrial and commercial activity specified in, a marketing agreement upon which a hearing has been held.

Marketing agreement and order. Annexed hereto and made a part hereof are two documents entitled respectively, "Marketing Agreement Regulating the Handling of Milk in the Texas Panhandle Marketing Area", and "Order Amending the Order Regulating the Handling of Milk in the Texas Panhandle Marketing Area", which have been decided upon as the detailed and appropriate means of effectuating the foregoing conclusions.

It is hereby ordered, That all of this decision, except the attached marketing agreement, be published in the FEDERAL REGISTER. The regulatory provisions of said marketing agreement are identical with those contained in the order as hereby proposed to be amended by the attached order which will be published with this decision.

Determination of representative period. The month of November 1961, is hereby determined to be the representative period for the purpose of ascertaining whether the issuance of the attached order amending the order regulating the handling of milk in the Texas Panhandle marketing area, is approved or favored by producers, as defined under the terms of the order as hereby proposed to be amended, and who, during such representative period, were engaged in the production of milk for sale within the aforesaid marketing area.

Signed at Washington, D.C., on December 27, 1961.

CHARLES S. MURPHY,
Under Secretary.

Order[1] Amending the Order Regulating the Handling of Milk in the Texas Panhandle Marketing Area

§ 911.0 Findings and determinations.

The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order [and of the previously issued amendments thereto]; and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) *Findings upon the basis of the hearing record.* Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held upon certain proposed amendments to the tentative marketing agreement and to the order regulating the handling of milk in the Texas Panhandle marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order as hereby amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the act;

(2) The parity prices of milk, as determined pursuant to section 2 of the act, are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the said marketing area, and the minimum prices specified in the order as hereby amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(3) The said order as hereby amended, regulates the handling of milk in the same manner as, and is applicable only to persons in the respective classes of industrial or commercial activity specified in, a marketing agreement upon which a hearing has been held.

Order relative to handling. It is therefore ordered, that on and after the effective date hereof, the handling of milk in the Texas Panhandle marketing area shall be in conformity to and in compliance with the terms and conditions of the aforesaid order, as hereby amended, and the aforesaid order is hereby amended as follows:

1. Delete § 911.15 and substitute therefor the following:

§ 911.15 Fluid milk product.

"Fluid milk product" means milk (including concentrated milk), skim milk (including reconstituted skim milk), buttermilk, milk drinks (plain or flavored), cream, or any fluid mixture of cream and milk or skim milk (except storage cream, aerated cream products, eggnog, ice cream mix, evaporated or condensed milk, and sterilized products packaged in hermetically sealed containers): *Provided*, That when any such product is fortified with nonfat milk solids the amount of skim milk to be included within this definition shall be only that amount equal to the weight of skim milk in an equal volume of an unfortified product of the same nature and butterfat content.

§ 911.41 [Amendment]

2. Delete § 911.41(a) and substitute therefor the following:

(a) *Class I milk.* Class I milk shall be all skim milk and butterfat (1) disposed of in the form of a fluid milk product (except as provided in paragraph (b)(2) of this section) and (2) not accounted for as Class II milk;

3. Delete the word "and" at the end of subparagraph (3) of § 911.41(b), renumber subparagraph (4) as subparagraph (5) and insert a new subparagraph (4) to read as follows:

(4) Reflecting the skim milk equivalent of nonfat milk solids used in the fortification of any fluid milk product and not accounted for as Class I milk pursuant to § 911.41(a) by virtue of the proviso of § 911.15; and

4. Delete § 911.61 and substitute therefor the following:

§ 911.61 Plants subject to other Federal orders.

The provisions of this part shall not apply with respect to the operation of any plant specified in paragraphs (a) or (b) of this section except that the operator thereof shall, with respect to total receipts of skim milk and butterfat at such plant, make reports to the market administrator at such time and in such manner as the market administrator may require and allow verification of such reports by the market administrator.

(a) A distributing plant meeting the requirements of § 911.10(a) which also meets the pooling requirements of another Federal order and from which, the Secretary determines, a greater quantity of Class I milk is disposed of during the month on routes in such other Federal order marketing area than was disposed of to retail and wholesale outlets (excluding pool plants) in this marketing area, except that if such plant was subject to all the provisions of this order in the immediately preceding month, it shall continue to be subject to all the provisions of this order until the third consecutive month in which a greater proportion of its Class I disposition is made in such other marketing area un-

[1] This order shall not become effective unless and until the requirements of § 900.14 of the rules of practice and procedure governing proceedings to formulate marketing agreements and marketing orders have been met.

less notwithstanding the provisions of this paragraph it is regulated under such other order.

(b) A distributing plant meeting the requirements of § 911.10(a) which also meets the pooling requirements of another Federal order on the basis of distribution in such other marketing area and from which, the Secretary determines, a greater quantity of Class I milk is disposed of during the month to retail and wholesale outlets (excluding pool plants) in this marketing area than is disposed of on routes in such other marketing area but which plant is nevertheless fully regulated under such other Federal order.

FEDERAL AVIATION AGENCY

[14 CFR Part 610]

[Reg. Docket No. 1014; Draft Release No. 61-28]

MINIMUM EN ROUTE IFR ALTITUDES

Designated Mountainous Areas; Notice of Proposed Rule Making

Pursuant to the authority delegated to me by the Administrator (14 CFR 405.27) notice is hereby given that the Federal Aviation Agency is considering an amendment to §§ 610.3 and 610.8 of the regulations of the Administrator, as hereinafter set forth.

Interested persons may participate in the making of the proposed rules by submitting such written data, views, or arguments as they may desire. Communications should be submitted in duplicate to the Docket Section of the Federal Aviation Agency, Room C-226, 1711 New York Avenue NW., Washington 25, D.C. All communications received on or before February 19, 1962, will be considered by the Administrator before taking action upon the proposed rules. The proposals contained in this notice may be changed in the light of comments received. All comments submitted will be available in the Docket Section for examination by interested persons when the prescribed date for return of comments has expired.

The official docket will be available for examination by interested persons at the Docket Section, Federal Aviation Agency, Room C-226, 1711 New York Avenue NW., Washington 25, D.C.

Under Part 610, certain areas of the United States have been designated by the Administrator as mountainous areas. In these areas, it is necessary to establish, with appropriate exceptions, minimum IFR altitudes at 2,000 feet above the highest obstacle on the airway or off-airway route because of the accompanying weather phenomena, pressure differentials and disturbed air flow attending the passage of strong winds over the mountains. Since these conditions exist in the mountainous areas of the Aleutian Group of the State of Alaska and the State of Hawaii, it is deemed advisable to designate these areas as "Mountainous Areas." Accordingly, it is proposed to delete § 610.8(c)(2)(v) which excepts the Aleutian Group from that portion of Alaska presently designated as "Mountainous Area." It is also proposed to except from the designated Mountainous Area of Alaska a small coastal area in northern Alaska where mountainous terrain does not exist.

Consideration is also being given to including the Commonwealth of Puerto Rico as a designated "Mountainous Area." A considerable portion of Puerto Rico is mountainous terrain and would generally be considered to qualify for such designation although very little weather in the area would be accompanied by icing, turbulence or atmospheric eddies, vortices, and waves that would produce pressure differentials that would be hazardous to flight operations.

This proposal also contains an exception to the criteria used in the establishment of minimum en route altitudes to permit the designation of specific routes at altitudes less than 2,000 feet for the mountainous areas in Puerto Rico and Hawaii.

The proposed changes in designated mountainous terrain are depicted on the maps accompanying this proposal.

In consideration of the foregoing, it is proposed that Part 610 of the regulations of the Administrator (14 CFR Part 610) be amended as follows:

§ 610.3 [Amendment]

1. By amending the introductory paragraph of § 610.3(b)(2)(i) to read as follows:

(i) *Exceptions.* Altitudes may be established providing only 1,200 feet obstruction clearance in the designated mountainous areas of the eastern United States and the Commonwealth of Puerto Rico, and 1,600 feet obstruction clearance in the designated mountainous areas of the western United States and the States of Alaska and Hawaii: *Provided*, That consideration will be given to the following items before altitudes providing less than 2,000 feet obstruction clearance in these areas are established:

§ 610.8 [Amendment]

2. By amending § 610.8(c)(2)(v) to read as follows:

(v) Beginning at a point where latitude 69°30' intersects the northwest coast of Alaska and eastward along the 69°30' parallel to the 150° medidian, thence northward along the 150° Meridian to 69°50' north latitude, thence eastward along the 69°50' parallel to a point where 69°50' intersects the northeast coastline of Alaska.

3. By substituting the accompanying map of mountainous terrain, Alaska, for the present map of mountainous terrain, Alaska, following § 610.8.

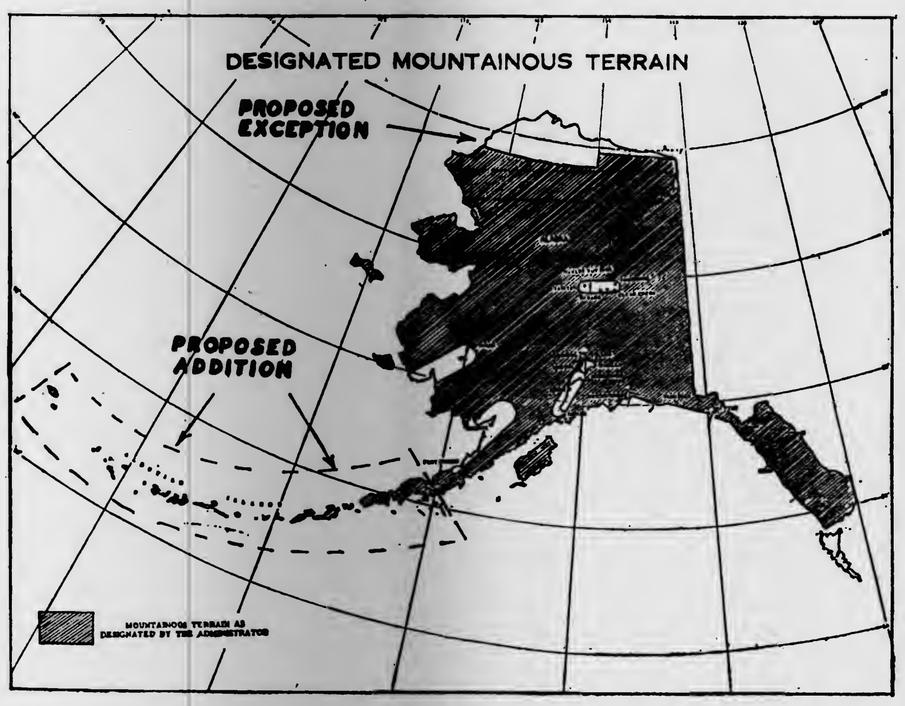
4. By amending § 610.8 by adding new paragraphs (d) and (e) to read as follows:

§ 610.8 Mountainous areas.

* * * * * *

(d) *Hawaii.*[11] All of the State of Hawaii.

(e) *Puerto Rico.*[12] All of the Commonwealth of Puerto Rico.



This amendment is proposed under section 313(a), 307(c), and 601 of the Federal Aviation Act of 1958.

(72 Stat. 752, 740, 775, 49 U.S.C. 1354(a), 1348(c), 1421)

Issued in Washington, D.C., on December 22, 1961.

GEORGE C. PRILL,
Director, Flight Standards Service.

[Airspace Docket No. 59-WA-379]

SPECIAL USE AIRSPACE

Withdrawal of Proposal To Revoke Restricted Areas

On November 11, 1959, a notice of proposed rule making was published in the FEDERAL REGISTER (24 F.R. 9210), stating that the Federal Aviation Agency (FAA) was considering a proposal to revoke the Patuxent, Md., Restricted Areas R-4005 (formerly R-39), R-4006 (formerly R-43), and R-4007 (formerly R-71), because of insufficient justification to warrant continued designation.

Subsequent to the publication of the notice, the Department of the Navy requested action be withheld pending further study of the Patuxent River restricted area complex.

The FAA concurred with this request and conducted studies of the Patuxent complex. These studies indicate apparent justification for continued designation of some special use airspace in this area, but of lesser dimensions than that presently designated. Thus, action is taken herein to withdraw Airspace Docket No. 59-WA-379; however, a proposal will be published in the near future advocating the release to general aviation of the portions of the Patuxent complex considered excess to the Navy's needs.

In consideration of the foregoing and pursuant to the authority delegated to me by the Administrator (14 CFR 409.13), notice is hereby given that the proposal contained in Airspace Docket No. 59-WA-379 is withdrawn.

(Sec. 307(a) of the Federal Aviation Act of 1958; 72 Stat. 749; 49 U.S.C. 1348)

Issued in Washington, D.C., December 27, 1961.

W. THOMAS DEASON,
Assistant Chief,
Airspace Utilization Division.

FEDERAL COMMUNICATIONS COMMISSION

[47 CFR Parts 7, 8, 14]

[Docket No. 14375]

IMPLEMENTATION OF CERTAIN REQUIREMENTS OF THE GENEVA RADIO REGULATIONS (1959)

Maritime Mobile and Maritime Radio Determination Operations

The Commission having under consideration a petition, filed December 18, 1961, by the Radio Technical Committee, U.S. Power Squadrons (RTC) requesting a 60-day extension of time in which to file comments in this proceeding; a petition, filed December 21, 1961, by the American Merchant Marine Institute, Inc., requesting a 30-day extension of time; and a petition, filed December 20, 1961, by the Central Committee on Communications Facilities of the American Petroleum Institute (API) requesting a 30-day extension of time;

It appearing, that RTC's request is made so that its membership can consider the proposal at its meeting to be held January 13, 1962; that AMMI's request is based upon the fact that review of the volume of material contained in the proposal cannot be completed and recommendations prepared prior to January 5, 1962, the present date by which comments must be filed; and that API's request is made because it cannot complete formulation of its position prior to January 5, 1962; and

It appearing, that it is desirable to have the views of these organizations in this proceeding; and

It appearing, that an additional 30 days for filing comments is an ample and reasonable extension of the time period;

It is ordered, That the time for filing comments in the subject docket is hereby extended from January 5, 1962, to February 5, 1962;

It is further ordered, That reply comments must be filed on or before February 15, 1962;

It is further ordered, That the petition of AMMI is granted; the petition of RTC is granted insofar as it is consistent with the action herein taken and is denied in all other respects; and the petition of API is granted.

Adopted: December 26, 1961.

Released: December 27, 1961.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] BEN F. WAPLE,
Acting Secretary.

PORTLAND CEMENT FROM JAPAN

Notice That There Is Reason To Believe or Suspect Purchase Price Is Less or Likely To Be Less Than Foreign Market Value

DECEMBER 27, 1961.

Pursuant to section 201(b) of the Antidumping Act, 1921, as amended (19 U.S.C. 160(b)), notice is hereby given that there is reason to believe or suspect, from information presented to me, that the purchase price of white portland cement imported from Japan is less or likely to be less than the foreign market value as defined by sections 203 and 205, respectively, of the Antidumping Act, 1921, as amended (19 U.S.C. 162 and 164).

Customs officers are being authorized to withhold appraisement of entries of white portland cement from Japan pursuant to section 14.9 of the Customs Regulations (19 CFR 14.9).

The complaint in this case was made by the firm of O'Melveny & Myers on behalf of the Riverside Cement Company, a division of the American Cement Corporation.

[SEAL] PHILIP NICHOLS, Jr.,
Commissioner of Customs.

LOUISIANA AND MISSISSIPPI

Designation of Areas for Emergency Loans

For the purpose of making emergency loans pursuant to section 321(a) of Public Law 87-128 (7 U.S.C. 1961), it has been determined that in the following counties in the States of Louisiana and Mississippi natural disasters have caused a need for agricultural credit not readily available from commercial banks, cooperative lending agencies, or other responsible sources.

LOUISIANA

Acadia	Madison
Bossier	Morehouse
Bienville	Pointe Coupee
Caddo	Rapides
Catahoula	Red River
Concordia	Richland
DeSoto	St. Landry
East Carroll	St. Martin
Franklin	Tensas
Lafayette	Union
LaSalle	West Carroll

MISSISSIPPI

Choctaw	Madison
Claiborne	Rankin
Jefferson	Simpson
Jefferson Davis	Webster
Lawrence	Winston

Pursuant to the authority set forth above, emergency loans will not be made in the above-named counties after June 30, 1962, except to applicants who previously received emergency or special livestock loan assistance and who can qualify under established policies and procedures.

Done at Washington, D.C., this 27th day of December 1961.

ORVILLE L. FREEMAN,
Secretary.

IDENTIFICATION OF CARCASSES OF CERTAIN HUMANELY SLAUGHTERED LIVESTOCK

List of Humane Slaughterers

Pursuant to section 4 of the Act of August 27, 1958 (7 U.S.C. 1904), and the statement of policy thereunder in 9 CFR Part 181 the following table lists the establishments operated under Federal inspection under the Meat Inspection Act (21 U.S.C. 71 et seq.), which were officially reported on December 1, 1961, as humanely slaughtering and handling on that date the species of livestock respectively designated for such establishments in the table. Establishments reported after December 1, as using humane methods on December 1 or a later date in December, will be listed in a supplemental list. Previously published lists represented establishments reported in November or December 1961, as humanely slaughtering and handling the designated species of livestock on November 1 or some later date in November 1961 (26 F.R. 11742 and 11915). The establishment number given with the name of the establishment is branded on each carcass of livestock inspected at that establishment. The table should not be understood to indicate that all species of livestock slaughtered at a listed establishment are slaughtered and handled by humane methods unless all species are listed for that establishment in the table. Nor should the table be understood to indicate that the affiliates of any listed establishment use only humane methods:

Bureau of the Census

ANNUAL SURVEYS IN MANUFACTURING AREA

Notice of Determination

In conformity with the Act of Congress approved August 31, 1954, Title 13, United States Code, section 181, and due notice having been published (26 F.R. page 10579, November 9, 1961) pursuant to said act, I have determined that annual data to be derived from the surveys listed below are needed to aid the efficient performance of essential governmental functions and have significant application to the needs of the public and industry and are not publicly available from nongovernmental or other government sources.

Report forms in most instances furnishing data on shipments and/or production and in some instances on stocks, unfilled orders, orders booked, consumption, etc., will be required of all establishments engaged in the production of the items covered by the following list of surveys with the exception of the lumber production and stocks survey which will be conducted on a sample basis. The surveys have been arranged under major group headings shown in the revised Standard Industrial Classification Manual (1957 edition) promulgated by the Bureau of the Budget for the use of Federal statistical agencies.

Major Group 20—Food and kindred products: Salad dressings, prepared animal feeds.

Major Group 22—Textile mill products: Stocks of wools (as of January 1, 1962), cotton and synthetic woven goods finished, broad woven fabrics, blends and mixtures; knit cloth, woolen and worsted machinery activity, yarn production.

Major Group 23—Apparel and other finished products made from fabrics and similar materials: Gloves and mittens, apparel, brassieres, corsets, and allied garments; sheets, pillowcases, and towels.

Major Group 24—Lumber and wood products, except furniture: Hardwood plywood, softwood plywood, softwood veneer, red cedar shingles, lumber.

Major Group 25—Furniture: Office furniture.

Major Group 26—Paper and allied products: Paper and board-detailed grades.

Major Group 28—Chemicals and allied products: Sulfuric acid, industrial gases, inorganic chemicals.

Major Group 32—Stone, clay and glass: Pressed and blown glassware.

Major Group 33—Primary metal industries: Steel mill products.

Major Group 34—Fabricated metal products, except ordnance, machinery, and transportation equipment: Aluminum foil, converted; steel power boilers; heating and cooking equipment.

Major Group 35—Machinery, except electrical: Internal combustion engines; tractors; farm machines and equipment; vending machines; refrigeration equipment; office, computing, and accounting machines; pumps and compressors.

Major Group 36—Electric machinery, equipment, and suplies: Radios, television and phonographs; motors and generators; wiring devices and supplies.

The following list of surveys represents annual counterparts of monthly, quarterly, an semi-annual surveys and will cover only those establishments which are not canvassed or do not report in the more frequent survey. Accordingly, there will be no duplication in reporting. The content of these annual reports will be identical with that of the monthly, quarterly, and semi-annual reports except for Construction Machinery which will additionally call for data on shipments of power cranes and shovels, concrete mixers, and attachments for contractors' off-highway type tractors. Also, reports on man-made fiber, silk, woolen and worsted fabrics, on finishing plants, and on piece goods inventories listed below will call for information relating to the monthly fluctuations of stocks and unfilled orders for woven fabrics in addition to the annual production data.

Major Group 20—Food and kindred products: Flour milling products, confectionery products.

Major Group 22—Textile mill products: Man-made fiber, silk, woolen and worsted fabrics; finishing plant report-broad woven fabrics; piece goods inventories and orders; broad woven goods (cotton, wool, silk, and synthetic); consumption of wool and other fibers, and production of tops and noils.

Major Group 25—Furniture and fixtures: Mattresses and bedsprings.

Major Group 26—Paper and allied products: Pulp, paper, and board; consumers of wood pulp; converted flexible packaging products.

Major Group 28—Chemicals and allied products: Superphosphates; paint, varnish, and lacquer.

Major Group 29—Petroleum refining and related industries: Asphalt and tar roofing and siding products.

Major Group 31—Leather and leather products: Shoes and slippers.

Major Group 32—Stone, clay and glass: Glass containers, refractories, clay construction products.

Major Group 33—Primary metal industries: Nonferrous castings; steel forgings; iron and steel foundries, blast furnaces, and steel ingot producers.

Major Group 34—Fabricated metal products, except ordnance, machinery, and transportation equipment: Plumbing fixtures; steel shipping barrels, drums, and pails; closures for containers; metal cans.

Major Group 35—Machinery, except electrical: Construction machinery; farm pumps; fans, blowers, and unit heaters.

Major Group 36—Electrical machinery, equipment, and supplies: Electric lamps, fluorescent lamp ballasts.

Major Group 37—Transportation equipment: Complete aircraft and aircraft engines; backlog of orders for aircraft, space vehicles, missiles, engines, and selected parts; aircraft propellers.

Also, the Annual Survey of Manufactures will be conducted and will call for general statistical data such as employment, payroll, man-hours, capital expenditures, cost of materials consumed, etc., in addition to information on value of products shipped and quantity data for selected classes of products. This survey, while conducted on a sample basis, will cover all manufacturing industries.

A survey of Research and Development Costs will also be conducted as an annual counterpart to the more detailed survey collected and compiled by the Bureau of the Census for the National Science Foundation. The data to be obtained by the Census under its mandatory authority will be limited to total research and development costs of work performed by the company, total cost of research and development work performed for the Federal Government, and, for comparative purposes, total net sales and receipts, and total employment of the company. As for all counterpart type surveys there will be no duplication since firms that furnish the equivalent data as part of the more detailed voluntary survey conducted for the National Science Foundation will not be asked to file the separate Census questionnaire.

The report forms will be furnished to firms included in these surveys and additional copies are available on request to the Director, Bureau of the Census, Washington 25, D.C.

I have, therefore, directed that annual surveys be conducted for the purpose of collecting the data hereinabove described.

Dated: December 14, 1961.

Director,
Bureau of the Census.

DISTRIBUTORS STOCKS OF CANNED FOODS

Notice of Determination To Continue Survey

In conformity with the Act of Congress approved August 31, 1954, 13 U.S.C. 181, 224, and 225, and due Notice of Consideration having been published November 25, 1961 (26 F.R. 11097), pursuant to said act, I have determined that year-end data on stocks of 29 canned and bottled products, including vegetables, fruits, juices, and fish, are needed to aid the efficient performance of essential governmental functions, and have significant application to the needs of the public and industry and are not publicly available from nongovernmental or other governmental sources. This is a continuation of the survey conducted in previous years.

All respondents will be required to submit information covering their December 31, 1961, inventories of 29 canned and bottled vegetables, fruits, juices, and fish. Reports will not be required from all firms but will be limited to a scientifically selected sample of wholesalers and retail multiunit organizations handling canned foods, in order to provide year-end inventories of the specified canned food items with measurable reliability. These stocks will be measured in terms of actual cases with separate data requested for "all sizes smaller than No. 10" and for "sizes No. 10 or larger."

Report forms will be furnished to firms covered by the survey. Additional copies of the forms are available on request to the Director, Bureau of the Census, Washington 25, D.C.

Reports are due 8 days after receipt of the report forms.

I have therefore directed that this annual survey be conducted for the purpose of collecting these data.

RICHARD M. SCAMMON,
Director,
Bureau of the Census.

[Docket 13313; Order No. E-17885]

UNITED AIR LINES, INC.

Passenger Fares; Order of Investigation and Suspension

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 28th day of December 1961.

On November 1, 1961, United Air Lines, Inc. (United), filed a tariff effective January 1, 1962, proposing to increase its first-class jet fares by $1 and its first-class propeller fares by approximately 6 percent plus $1; to increase its day coach fares (jet and piston) by 5 percent plus $1; and to cancel its night coach fares. United states that these fare changes would increase its passenger revenues by 6.5 percent.

Six other carriers—American, Eastern, Braniff, Delta, Northeast, and TWA—have set forth their proposals for fare increases in letters to the Board and have stated their intention to file new tariffs in the future. The proposals embrace a fairly wide range of fare changes, at least in detail. These carriers appear unanimous in their proposals to decrease the spread between first-class and coach fares, generally (but not in every instance) by increasing coach fares approximately 5 percent, or to a range of 83 to 85 percent of first-class fares. Generally, the carriers propose little or no increases in first-class fares. American, however, would reduce long-haul (over 1,200 miles) first-class fares by 5 percent and increase the corresponding coach fares by 5 percent. Various carriers would cancel certain discounts or promotional fares.[1] In support of their fare proposals, the carriers state that for the past few years the rate of return on invested capital has been inadequate and below the return found appropriate by the Board in the General Passenger Fare Investigation. The carriers point out that in 1960 the domestic trunklines earned only 3.25 percent on their investment and that for the first 9 months of 1961 there is evidence of further decline in earnings. The carriers assert that if the present low level of earnings is continued, the industry's financial structure will be threatened; and that there must be some fare increase to check and possibly reverse this unfavorable trend in earnings.

The principal problem of the industry, according to the carriers, is the continuing diversion of passenger traffic from first class to coach; that coach service, particularly on jets, has been such a tremendous bargain that first-class passengers have been diverted to this service in large numbers, thus reducing passenger mile yields and overall profits.[2]

The 11 domestic trunklines reported a composite return on investment of 2.1 percent[3] for the 12-month period ended September 30, 1961. That level of earnings is inadequate by any standard. Moreover, those results mark the low point in a declining trend of earnings experienced during the last 6 years, notwithstanding a series of fare adjustments starting in February of 1958 which to date have increased the average first class fare by 23 percent and the average coach fare by 27 percent. The overall fare level has increased by almost 25 percent in this period.

This same 6-year period has seen a substantial reduction in the year-to-year rate of passenger traffic growth from growth rates enjoyed during the first half of the 1950's. Capacity, however, during this period was increased at a faster rate than traffic with the result that industry passenger load factors have declined nearly 7 points from the favorable levels maintained during 1954 and 1955. Furthermore, aircraft now on order and scheduled for delivery during 1962 and 1963 represent very substantial potential capacity increases, even assuming that passenger traffic volume increases at a moderate pace.

The industry has also experienced sizeable increases in operating costs per seat-mile flown but those increases have been almost entirely matched by the aggregate impact of the fare increases described above. Stated differently, the trunkline industry's composite break-even load factor is currently very close to the level experienced in the favorable 1954–5 period and the disparity between current earnings and those of the earlier period appears to be attributable largely to the sharp decline in passenger load factor.

With this background in mind, the Board is convinced that while limited fare changes may improve revenues moderately, no fare program alone can restore earnings to reasonable levels. On the contrary, the industry's economic problems must be attacked on a broad front of which load factor improvement is the cornerstone. We will, therefore, institute an investigation of United's proposed fare changes, except their proposed cancellation of night coach fares.

The carriers attribute much of their current financial distress to the shift of passengers from first-class to coach services and the attendant loss of revenues without commensurate cost savings. However, we are not convinced at this time that the present fare differential of approximately 25 percent is greater than the difference between the seat-mile costs of the respective services or that the coach services are inherently less profitable than first class. Moreover, the effectuation of a general revenue increase primarily by raising coach fares might tend to inhibit the growth of traffic and magnify the difficulty in improving load factors.

As an interim revenue measure, however, the Board would permit the domestic industry to effect a general fare increase of not more than 3 percent. Any such tariffs would have to be filed on at least 30 days' notice and provide for expiration not more than 6 months after effectiveness. During that period a series of steps will be undertaken in a program to resolve the underlying economic problems. In addition the Board urges the carriers to undertake the closest scrutiny of the various remaining special fares or fare discounts and to discontinue those of doubtful economic validity. On the basis of available information, the maintenance of the family fare between points where coach service is offered appears of doubtful economic value, since it results in a first-class family fare ticket being offered at a price significantly below the corresponding coach fare. As measures to enhance the relative attractiveness of first-class service without undue burden on the coach passenger or the required coach fares, the Board would not object to an increase in the first-class free baggage allowance to 66 pounds (as suggested by at least one carrier) and the establishment of a rule permitting stopovers at reasonable charge in first-class service.

In other than passenger fare areas, several programs are already underway and others will be promptly commenced. The Board has authorized inter-carrier discussions of matters relating to cabin services, the "no-show" problem,[4] and the use of joint facilities. The Board believes that cabin services tend to be overemphasized today and there exist opportunities for significant operating economies without eliminating the real necessities. The elimination of service of alcoholic beverages without appropriate charge appears to present one important area for economy measures at a time when first-class fares are clearly inadequate in relation to the cost of service. Similarly, the use of common facilities by two or more carriers appears to be a useful area to explore.

The load factor improvement program will include short and long range steps. For the long range, we anticipate that programs currently being embarked upon will, directly or indirectly, result in improved load factors for the trunkline industry. However, this program, which includes an increased emphasis on consolidated services at regional airports, suspension of service to uneconomic points, substitution of local service for trunkline service where mutually beneficial, and route investigations looking toward reduction in excessive competitive carrier authorizations can be implemented only after formal proceedings.

It is evident that the time required to complete the regulatory procedures necessary to effectuate any action which the Board can take in these area forecloses these affording any real prospect of immediate relief. The urgency of the need for capacity reduction or other economic operation action aimed at improving the imbalance between traffic and capacity, particularly on the normally profitable high density markets in which load factors are currently abnormally low makes it incumbent upon the carriers to initiate a short range interim program to provide fairly immediate relief. Therefore, each carrier will be requested to submit to the Board by January 15, 1962, its suggestions as to actions it may take to improve its load factor.

Accordingly, pursuant to the Federal Aviation Act of 1958, and particularly sections 204(a) and 1002 thereof, *It is ordered*, That:

1. An investigation is instituted to determine whether the fares, charges and provisions described in Appendix A hereto are, or will be, unjust or unreasonable, unjustly discriminatory, unduly preferential, unduly prejudicial, or otherwise unlawful, and if found to be unlawful, to determine and prescribe the lawful fares, charges and provisions.

2. Pending hearing and decision by the Board, the fares, charges and provisions described in Appendix A hereto, so far as applicable to interstate air transportation, are suspended and their use deferred to and including March 31, 1962, unless otherwise ordered by the Board and that no changes be made therein during the period of suspension except by order or special permission of the Board.

3. The proceeding ordered herein be assigned for hearing before an examiner of the Board at a time and place hereafter to be designated.

4. Copies of this order shall be filed with the tariff and shall be served upon United Air Lines, Inc., which is hereby made a party to this proceeding.

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.[5]

FEDERAL COMMUNICATIONS COMMISSION

[Docket Nos. 14455, 14456; FCC 61–1504]

JEFFERSON RADIO CO. (WIXI) AND VOICE OF THE MID SOUTH

Order Designating Applications for Consolidated Hearing on Stated Issues

In re applications of W. D. Frink, tr/as Jefferson Radio Company (WIXI), Docket No. 14455, File No. BL–8187, for license to cover Construction Permit BP–10672 authorizing a new standard broadcast station at Irondale, Ala.; Fred H. Davis and W. D. Frink, d/b as Voice of The Mid South, Docket No. 14456, File No. BP–14110, for construction permit to build a new standard broadcast station at Centerville, Ala., Requests: 1590 kc, 1 kw, Day.

At a session of the Federal Communications Commission held at its offices in Washington, D.C., on the 20th day of December 1961;

The Commission having under consideration (1) the above-captioned applications, (2) ownership reports (FCC Form 323) filed by W. D. Frinck, tr/as Jefferson Radio Company and (3) correspondence and other documents submitted by or on behalf of W. D. Frink, Thomas L. Whitley, Harold F. Byrnes and others.

It appearing, that, on October 12, 1960, the Commission granted the application of W. D. Frink to construct a new standard broadcast station at Irondale, Ala., to which the call letters WIXI were assigned; and

It further appearing, that, on November 25, 1960, W. D. Frink filed an application for license to cover the said construction permit, which application is now pending before the Commission; and

It further appearing, that, Fred H. Davis and W. D. Frink, d/b as Voice of the Mid South on May 2, 1960, filed an application for a permit to construct a new standard broadcast station at Centreville, Ala., which application has been listed in the FEDERAL REGISTER as available for study, and which is now pending before the Commission; and

It further appearing, that on October 9, 1958, while his Irondale proposal was pending before the Commission, W. D. Frink entered into an agreement with Thomas L. Whitley and Harold F. Byrnes d/b as Southeastern Radio Management Company under which responsibility for management of the Irondale station was to be transferred to Southeastern, thus providing for the abdication of control with respect thereto; and

It further appearing, that, the above agreement with Thomas L. Whitley and Harold F. Byrnes also included a purchase option on a 49-percent interest in the proposed station; and

It further appearing, that, the above-described transactions, which were not reported to the Commission until some time after the construction permit was issued and the application for station license tendered, were effectuated through apparent concealment and misrepresentation of material facts in contravention of sections 308(b) and 310(b) of the Communications Act of 1934, as amended, and the Commission's rules and policies promulgated thereunder; and

It further appearing, that, with respect to the above-captioned Centreville proposal, it cannot be concluded from the information submitted that the applicant has adequate cash or liquid assets

[1] American, Eastern, Northwest, and TWA propose increases in day coach fares of approximately 5 percent; Eastern and Northeast, however, would implement an increase of approximately 5 percent by raising these day coach fares to 83⅓ percent of first-class fares; Braniff and Delta would increase such fares to 85 percent of propeller first-class fares, rounded to the next higher even dollar and then add a jet surcharge. In addition to the 5 percent fare increase, TWA would add $1 to each ticket sold. With regard to first-class fares, American would reduce such fares by 5 percent for trips of 1,200 miles or more but would leave the fares for distances under 1,200 miles unchanged, although it would not oppose a moderate increase in such fares if proposed by other carriers, Braniff and Delta would increase all fares to the next higher even dollar, while Eastern and Northeast would retain present jet fares and increase first-class propeller fares 5 percent. TWA would increase each passenger fare in both jet and propeller services by $1 and would increase by 5 percent all piston fares for flights of less than 1,200 miles.

American, Braniff, Eastern, and TWA would increase night coach fares approximately 5 percent; TWA would also apply an increase of $1 for each passenger ticket sold and Eastern would add jet surcharges where not presently applied.

Some carriers propose publishing a rule that no food or alcoholic beverages will be served to coach passengers. The general view is that the present promotional fares should be limited or reduced in scope, although the carriers differ in their approaches. Braniff, Continental, Eastern, Northeast, TWA, and Western would discontinue family fares, while United and Northwest would retain these fares. Eastern, Braniff, and Western oppose the continuation of the present 10 percent discount for official military traffic within the United States, which is the subject of a carrier agreement which expires December 31, 1961.

[2] American states that in the first 9 months of 1960 first-class traffic was 51 percent of total passenger traffic, and that in the same period of 1961 first-class traffic declined to 43 percent of the total traffic, while coach traffic increased to 57 percent.

[3] Before interest and after income taxes. In the same period, the carriers reported a net loss of $19,390,000 after interest, and taxes.

[4] The trunkline carriers have reached agreement on a program to deal with the "no-show" problem and have filed that agreement with the Board. We anticipate passing on the agreement in the very near future.

[5] Murphy, Vice Chairman, and Minetti, Member, joint concurrence and dissent, filed as part of original document.

available to finance the construction and initial operation of the proposed station; and

It further appearing, that, in view of the above-described matters, the Commission is unable to find that a grant of the instant applications would serve the public interest, convenience and necessity and that said applications must therefore be designated for hearing;

It is ordered, That, pursuant to sections 309(e) and 319(c) of the Communications Act of 1934, as amended, the above-captioned applications are designated for hearing in a consolidated proceeding at a time and place to be specified in a subsequent order, upon the following issues:

1. To determine whether W. D. Frink's failure to amend his original application (File No. BP-10672) to reflect ownership and management arrangements entered into after said application to construct the Irondale proposal was filed, constituted affirmative misrepresentation contrary to law and Commission policy.

2. To determine whether control of Radio Station WIXI has at any time been transferred by W. D. Frink contrary to the provisions of section 310(b) of the Communications Act of 1934, as amended, and the Commission's rules and policies promulgated thereunder.

3. To determine whether the instant applications and other documents filed by W. D. Frink contained misrepresentations and/or omissions of facts contrary to section 308(b) of the Communications Act of 1934, as amended.

4. To determine whether, during the period October 12, 1960, to February 27, 1961, W. D. Frink filed reports and copies of agreements reflecting outstanding station ownership and management arrangements, as required by the provisions of §§ 1.342 and 1.343 of the Commission's rules.

5. To determine whether Fred H. Davis and W. D. Frink, d/b as Voice of the Mid South, are financially qualified to construct and operate the proposed Centerville station.

6. To determine whether, in light of the evidence adduced with respect to the foregoing issues, Fred H. Davis and W. D. Frink, individually or jointly, are qualified to be a licensee or permittee of the Commission or to hold an ownership interest in a licensee or permittee of the Commission.

7. To determine whether, in light of the evidence adduced with respect to the foregoing issues, a grant of either or both of the above-captioned applications would serve the public interest, convenience and necessity:

It is further ordered, That, in the event of a grant of the Centerville proposal, the construction permit shall contain the condition that the permittee shall accept such interference as may result in the event of a subsequent grant of the application (File No. BP-14317) of Elton H. Darby, licensee of Radio Station WVNA, Tuscumbia, Ala., for permit to construct changed facilities.

It is further ordered, That, to avail themselves of an opportunity to be heard, the applicants herein, pursuant to § 1.140 of the Commission's rules, in person or by attorney, shall within 20 days of the mailing of this order, file with the Commission, in triplicate, a written appearance stating an intention to appear on the date fixed for the hearing and present evidence on the issues specified in this order.

It is further ordered, That, with respect to the above-captioned Centerville proposal (File No. BP-14110) the applicant shall, pursuant to section 311(a)(2) of the Communications Act of 1934, as amended, and § 1.362(b) of the Commission's rules, give notice of the hearing, within the time and in the manner prescribed in such Rule and shall advise the Commission of the publication of such notice as required by § 1.362(g) of the rules.

RAYMOND P. LAUBENSTEIN

Order To Show Cause

In the matter of Raymond P. Laubenstein, West Belmar, N.J.; order to show cause why there should not be revoked the license for Radio Station 2Q2459 in the Citizens Radio Service.

The Commission, by the Chief, Safety and Special Radio Services Bureau, under delegated authority, having under consideration the matter of certain alleged violations of the Communications Act of 1934, as amended, and the Commission's rules in connection with the operation of Citizens Radio Station 2Q2459, the license for which was granted April 14, 1961;

It appearing, that, at various times between April 1, 1961, and April 8, 1961, inclusive, prior to the issuance of the license for the captioned radio station, the licensee used or operated apparatus in the Citizens Radio Service for the transmission of communications by radio without a license in that behalf granted under the provisions of the Communications Act, in violation of section 301 of the Communications Act of 1934, as amended, and § 19.11 of the Commission's rules; and

It further appearing, that, on several occasions on July 14, 1961, the licensee failed to transmit the official call sign of his station at the beginning and termination of all communications, in violation of § 19.62 of the Commission's rules; and

It further appearing, that, at various times during October and November 1961, the licensee purported to transfer the operating authority conferred under the license for Citizens Radio Station 2Q2459 to one Marie Rogers, Spring Lake, N.J., in violation of section 310(b) of the Communications Act of 1934, as amended, and § 19.92 of the Commission's rules; and

It further appearing, that, on November 3, 1961, the Commission, pursuant to section 308(b) of the Communications Act of 1934, as amended, directed the licensee's attention to the above-mentioned violations and requested that he respond to certain interrogatories in connection therewith in order that it might have information upon which to base a determination as to whether or not the license for Citizens Radio Station 2Q2459 should be revoked; and

It further appearing, that, on or about November 15, 1961, the licensee furnished replies to the above-mentioned interrogatories in which he stated that he had permitted no person other than himself the use of the call sign 2Q2459, and that he did not operate a Citizens radio station between April 8, 1961, and June 29, 1961, which statements are false; and

It further appearing, that, in view of the foregoing, the licensee has repeatedly violated sections 301, 308(b), and 310(b) of the Communications Act of 1934, as amended, and §§ 19.11, 19.62, and 19.92 of the Commission's rules; and

It further appearing, that, in view of the foregoing, the licensee has knowingly made false statements in a statement of fact required pursuant to section 308 of the Communications Act of 1934, as amended;

It is ordered, This 22d day of December 1961, pursuant to section 312(a) (1) and (4) and (c) of the Communications Act of 1934, as amended, and section 0.291(b)(8) of the Commission's Statement of Delegations of Authority that the licensee show cause why the license for Citizens Radio Station 2Q2459 should not be revoked and appear and give evidence in respect thereto at a hearing to be held at a time and place to be specified by subsequent order; and

It is further ordered, That the Acting Secretary send a copy of this order by Certified Mail—Return Receipt Requested to Raymond P. Laubenstein, 1148 17th Avenue, West Belmar, N.J.

Released: December 27, 1961.

FEDERAL POWER COMMISSION

[Docket No. CP62-100]

COLORADO INTERSTATE GAS CO.

Notice of Application and Date of Hearing

DECEMBER 26, 1961.

Take notice that on October 19, 1961, Colorado Interstate Gas Company (Applicant), Colorado Springs National Bank Building, Colorado Springs, Colo., filed in docket No. CP62-100 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the construction and operation of a meter station and appurtenant facilities and the sale of natural gas through said facilities to Plateau Natural Gas Company (Plateau) for resale in Franktown, Douglas County, Colo., all as more fully

set forth in the application which is on file with the Commission and open to public inspection.

The proposed facilities would be constructed on Applicant's Amarillo to Denver pipeline at a point near Franktown, Douglas County, Colo. The cost is estimated to be $4,620, which would be financed from funds on hand.

Applicant proposes to render service to Plateau under Applicant's existing FPC Gas Rate Schedule SG-1 (First Revised Volume No. 1, Original Sheet Nos. 7 and 8 of Applicant's FPC Gas Tariff).

Estimated annual and peak day requirements for each of the first 3 years of operation are 5,557 and 56 Mcf, respectively, at 14.73 psia.

No increase in Plateau's contract demand is anticipated.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on January 30, 1962, at 9:30 a.m., e.s.t., in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D.C., concerning the matters involved in and the issues presented by such application: *Provided, however*, That the Commission may, after a noncontested hearing, dispose of the proceedings pursuant to the provisions of § 1.30(c) (1) or (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D.C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before January 19, 1962. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

JOSEPH H. GUTRIDE,
Secretary.

Notice of Application

DECEMBER 26, 1961.

Take notice that on December 19, 1961, an application was filed with the Federal Power Commission pursuant to section 204 of the Federal Power Act by El Paso Electric Company ("Applicant"), a corporation organized under the laws of the State of Texas and authorized to do business in the States of Texas and New Mexico with its principal business office at El Paso, Tex., seeking an order authorizing the issuance of up to $10,500,000 principal amount of First Mortgage Bonds (New Bonds), -- percent series due February 1, 1992.

On or about January 31, 1962, Applicant proposes to invite bids for the purchase of the New Bonds. The New Bonds will be sold pursuant to Applicant's First Indenture of Mortgage, dated October 1, 1946, to State Street Trust Company (now State Street Bank & Trust Company), Trustee, as supplemented by various supplemental indentures, to and including a Seventh Supplemental Indenture to be dated February 1, 1962. The interest rate on the New Bonds will be supplied by amendment.

Applicant proposes to use the proceeds from the sale of $7 million, principal amount of the New Bonds for corporate purposes such as a reimbursement of its treasury for construction expenditures and to finance additional construction. The proceeds from the sale of $3,500,000 principal amount of the New Bonds will be used to refund Applicant's outstanding $3,500,000 principal amount of First Mortgage Bonds, 5⅛ percent Series of 1989, if in Applicant's opinion the refunding of the 1989 Series Bonds would be economically advisable. Should it appear to Applicant that such refunding would be economically inadvisable, Applicant states it will notify prospective bidders at least two days prior to the date fixed for presentation and opening of bids and that if a bid is accepted it will be accepted for only $7 million principal amount of the New Bonds.

Any person desiring to be heard or to make any protest with reference to said application should on or before the 18th day of January 1962, file with the Federal Power Commission, Washington 25, D.C., petitions or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). The application is on file and available for public inspection.

JOSEPH H. GUTRIDE,
Secretary.

[Docket No. G-14740]

SOUTHERN NATURAL GAS CO.

Notice of Petition To Amend

DECEMBER 26, 1961.

Take notice that on August 28, 1961, Southern Natural Gas Company (Petitioner), Watts Building, Birmingham 2, Ala., filed a petition to amend the Commission's order issued August 26, 1958, in docket No. G-14740 so as to permit Petitioner to transport and deliver an additional 5,500 Mcf of natural gas per day on an interruptible basis to Mississippi Valley Portland Cement Company (Mississippi), served from Petitioner's Vicksburg lateral line near Vicksburg, Miss.

The order of August 26, 1958, authorized Petitioner to construct and operate certain facilities and to transport and deliver a maximum of 3,500 Mcf of natural gas per day on an interruptible basis to Mississippi. Petitioner requests herein permission to increase to 9,000 Mcf the maximum daily volumes of interruptible gas delivered to Mississippi.

Petitioner states that Mississippi will need additional natural gas commencing in the spring of 1962, as a result of an additional cement kiln that Mississippi proposes to install.

The estimated natural gas requirements of Mississippi are:

	Volumes in Mcf	
	Estimated daily maximum	Estimated yearly maximum
Present	3,500	1,190,000
1962	5,000	1,700,000
1963-64	7,500	2,550,000
1965	9,000	3,060,000

Petitioner proposes no additional facilities in order to make the requested increased deliveries.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D.C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before January 19, 1962.

JOSEPH H. GUTRIDE,
Secretary.

MIDDLE ATLANTIC & NEW ENGLAND TERRITORY

Detention of Motor Vehicles

DECEMBER 28, 1961.

On October 25, 1960, the Commission instituted the above-entitled rulemaking proceeding with a view to determining whether a uniform detention rule applicable to all motor common carriers operating within Middle Atlantic territory and between that territory and New England should be prescribed (25 F.R. 10585). Evidence was presented by verified statements, and the proceeding was referred to a hearing examiner for recommendation of an appropriate order accompanied by the reasons therefor. The recommended report and order of the hearing examiner, recommending that the proposed rule not be prescribed and that the proceeding be discontinued, was served on December 28, 1961. Exceptions to that report may be filed by interested parties within 30 days from that date.

Copies of the recommended report and order may be obtained by any interested person upon request of the Secretary, Interstate Commerce Commission, Washington, 25, D.C.

SECURITIES AND EXCHANGE COMMISSION

[File No. 2–13862 (22–2286) etc.]

BARTON DISTILLING CO.

Notice of Application and Opportunity for Hearing

DECEMBER 26, 1961.

In the matter of Barton Distilling Company, File Nos. 2–13862 (22–2286), 2–14212 (22–2395), 2–15322 (22–2608).

Notice is hereby given, that Barton Distilling Company (the Applicant) has filed an application under Clause (ii) of section 310(b)(1) of the Trust Indenture Act of 1933, as amended (the Act) for a finding by the Commission that the trusteeship of American National Bank and Trust Company of Chicago (American National) under the four indentures hereinafter described is not so likely to involve a material conflict of interest under the Act as to make it necessary in the public interest or for the protection of investors to disqualify American National from acting as trustee under all four indentures.

Section 310(b) of the Act provides, in part, that if an indenture trustee under an indenture qualified under the Act has or shall acquire any conflicting interest (as defined therein) it shall within ninety days after ascertaining that it has such conflicting interest, either eliminate such conflicting interest or resign. Subdivision (1) of this section provides, with certain exceptions stated therein, that a trustee is deemed to have a conflicting interest if it is acting as trustee under a qualified indenture and is trustee under another indenture of the same obligor. However, an issuer may sustain the burden of proving, on application to the Commission and after opportunity for hearing thereon, that trusteeship under a qualified indenture and such other indenture is not so likely to involve a material conflict of interest as to make it necessary in the public interest or for the protection of investors to disqualify such trustee from acting as trustee under one or more of such indentures.

Applicant alleges that:

1. It has outstanding the following issues:

(a) One million dollars aggregate principal amount of its 6½ percent Secured Notes, due October 1, 1962 (the 1962 Notes), issued under an Indenture (the 1962 Note Indenture) dated as of October 1, 1957, between the Applicant and American National, trustee (of which notes, $250,000 principal amount were called for redemption on December 18, 1961). These 1962 Notes were registered under the Securities Act of 1933 under Registration No. 2–13862, and in connection therewith the 1962 Note Indenture was qualified under the Trust Indenture Act, (File No. 22–2286) effective February 27, 1958, as of February 16, 1958.

(b) One million dollars aggregate principal amount of its 6 percent Secured Notes, due July 1, 1964 (the 1964 Notes), issued under a separate Indenture (the 1964 Note Indenture), dated as of July 1, 1958, between the Applicant and American National, trustee. These 1964 Notes were registered under the Securities Act under Registration No. 2–14212, and in connection therewith the 1964 Note Indenture was qualified under the Trust Indenture Act (File No. 22–2395), effective July 10, 1958, as of July 9, 1958.

(c) Two million dollars aggregate principal amount of its 6 percent Secured Notes, due July 1, 1965 (the 1965 Notes), issued under a separate Indenture (the 1965 Note Indenture) dated as of July 1, 1959, between the Applicant and American National, trustee. These 1965 Notes were registered under the Securities Act under Registration No. 2–15322 and in connection therewith the 1965 Note Indenture was qualified under the Trust Indenture Act (File No. 22–2608), effective August 6, 1959.

2. On July 10, 1958, the Securities and Exchange Commission (the Commission) entered an order, pursuant to section 310(b)(1)(ii) of the Act, granting the application, filed with the Commission by the Applicant on June 20, 1958, for a finding and declaration that the trusteeship of American National under the 1962 Note Indenture, the 1964 Note Indenture and an additional Indenture dated as of July 1, 1958, relating to the Applicant's 6 percent Secured Notes, due July 1, 1963 (which Indenture has since been satisfied and discharged), was not so likely to involve a material conflict of interest as to make it necessary, in the public interest or for the protection of investors, to disqualify American National from acting as trustee under any of the said Indentures.

3. On August 6, 1959, the Commission entered an order, pursuant to section 310(b)(1)(ii) of the Act, granting the application, filed with the Commission by the Applicant on July 2, 1959, for a finding and declaration that the trusteeship of American National under the 1962 Note Indenture, the 1964 Note Indenture, the 1965 Note Indenture and the other Indenture referred to in paragraph 2 hereof was not so likely to involve a material conflict of interest as to make it necessary, in the public interest or for the protection of investors, to disqualify American National from acting as trustee under any of said Indentures.

4. The Applicant proposes to issue and sell $2 million aggregate principal amount of its 6 percent Secured Notes, due ----------, 1968, (the New Notes), to be issued under an Indenture (the New Indenture) to be dated as of July 1, 1961, between the Applicant and American National.

5. The New Notes are to be issued and sold to a limited number of institutional investors, which will purchase the New Notes for investment and not with a view to distribution. It is asserted that this proposed transaction will not involve a public offering, therefore that the New Notes will be exempt from registration under the Securities Act by virtue of section 4(1) thereof and that the New Indenture will be exempt from qualification under the Trust Indenture Act by virtue of section 304(b)(1) thereof. Accordingly, the Applicant does not propose to register the New Notes under the Securities Act or to qualify the New Indenture under the Trust Indenture Act.

6. The New Notes are to be secured by the pledge of whiskey warehouse receipts for not less than 2,500,000 original proof gallons of whiskey. The 1962, 1964, and 1965 Notes referred to supra, are similarly secured by the pledge of whiskey warehouse receipts, with the Notes issued under each of the 1962, 1964, and 1965 Indentures being secured by separate and distinct whiskey. The present value of the collateral under the aforementioned Indentures and the present value of the collateral to be deposited under the New Indenture is stated to be in excess of the principal amount of notes outstanding. Moreover, the value of such collateral is expected to increase in the ordinary course as the whiskey becomes older. The Applicant is not in default under either the 1962, 1964, or 1965 Indenture.

7. The 1962, 1964, and 1965 Indentures each contain language following the requirements of section 310(b)(1) of the Act. The New Indenture contains the same provision; but it provides that such provision is not to become operative for any purpose unless and until the New Indenture shall be qualified under the Act.

8. The 1962, 1964, and 1965 Indentures contain identical language in subdivision (e) of section 7.1 thereof concerning an event of default except that in the 1965 Note Indenture the words "any obligor on the Notes" are substituted for the words "the Company." The New Indenture contains the same provision except that the New Indenture provides that the breach shall not be an event of default under the New Indenture if such breach is cured before the other debt is declared due and payable.

9. The minor differences between the 1962 Note Indenture, the 1964 Note Indenture, and the 1965 Note Indenture were set forth in the applications referred to in paragraphs 2 and 3 supra, which applications are incorporated by reference. The New Indenture is substantially the same as the 1964 Note Indenture except that the New Indenture authorizes the issuance of printed notes as well as coupon notes and fully registered notes; it deletes the requirements in section 3.1 for delivery to the trustee prior to authentication of the notes of the written statement from Janes Smith and Geiger, the written statement of the accountants and the instrument containing representations and warranties by Lester S. Abelson and Oscar Getz and

provides instead for a certificate of the Chairman of the Board and President of the Company; the New Indenture contains some minor differences in the covenants contained in Article IV; the New Indenture in section 5.2 provides for examination of Government reports with respect to the whiskey to be made under the supervision of the Chairman of the Board and President of the Company rather than by an independent person; the New Indenture provides in section 6.8 for certain changes in procedures for redemption if only printed notes are outstanding; the New Indenture deletes reference to the "Events of Acceleration" set forth in subsections (h) and (i) of section 7.1 of the 1964 Note Indenture; and the provisions contained in sections 8.8 and 9.6, Article XI and section 12.3 of the New Indenture are to become operative only upon qualification of the New Indenture under the Trust Indenture Act. Other minor differences between the New Indenture and the Old Indentures include differences as to principal amounts, dates, interest rates, redemption prices, denominations and interchangeability of Notes and identity of pledged whiskey warehouse receipts.

10. The trusteeship of American National under the New Indenture and the Old Indentures is not so likely to involve a material conflict of interest as to make it necessary in the public interest or for the protection of investors to disqualify American National from acting as trustee under any of said Indentures.

11. The Company proposes to issue and sell the New Notes as part of a continuing program for the financing of its whiskey inventories during their aging period. The Company anticipates that pursuant to this program it will issue and sell additional series of secured notes in the future, each such series to be issued under a separate indenture and to be secured by completely separate and distinct collateral, consisting in each case of whiskey warehouse receipts. Because of the number of indentures which will be involved, the company believes that this program would be impractical and overly expensive, unless the same trustee is allowed to serve as such under each of the indentures.

For a more detailed statement of the matters of fact and law asserted, all persons are referred to said application which is on file in the offices of the Commission at 425 Second Street NW., Washington, D.C.

Notice is further given, that an order granting the application may be issued by the Commission on or at any time after January 11, 1962, unless prior thereto a hearing upon the application is ordered by the Commission, as provided in Clause (ii) of section 310(b)(1) of the Act. Any interested person may, not later than January 9, 1962, submit to the Commission, in writing, his views or any additional facts bearing upon this application or the desirability of a hearing thereon. Any such communication or request should be addressed: Secretary, Securities and Exchange Commission, 425 Second Street NW., Washington 25, D.C., and should state briefly the nature of the interest of the person submitting such information or requesting a hearing, the reasons for such request, and the issues of fact and law raised by the application which he desires to controvert.

By the Commission.

IOWA INTERESTS CORP.

Notice of Filing of Application for Order Declaring That Company Has Ceased To Be an Investment Company

DECEMBER 22, 1961.

Notice is hereby given, that Iowa Interests Corporation ("Applicant"), 616 Insurance Exchange Building, Des Moines, Iowa, a corporation organized under Delaware law and a closed-end, nondiversified investment company registered under the Investment Company Act of 1940 ("Act"), has filed an application pursuant to section 8(f) of the Act for an order declaring that Applicant has ceased to be an investment company.

Applicant makes the following representations in its application:

On November 28, 1961, this Commission issued an order pursuant to section 17(b) of the Act exempting from the provisions of section 17(a) of the Act the proposed consolidation and merger of Applicant with and into International Bank ("International") (Investment Company Act Release No. 3370).

On November 29, 1961, in effectuation of the consolidation agreement between the companies, appropriate documents were filed with the Secretary of State for the State of Arizona, the state of incorporation of International, and with the Secretary of State for the State of Delaware. The consolidation of the two companies has been effected and the separate existence of Applicant has ceased. All securities issued by Applicant, of which there were ten holders, including International, have been assigned to the Secretary of Applicant for his cancellation, and all of its securities have now been canceled.

Section 8(f) of the Act provides, in relevant part, that whenever the Commission upon application finds that a registered investment company has ceased to be an investment company, it shall so declare by order, and upon the taking effect of such order the registration of such company shall cease to be in effect.

Notice is further given, that any interested person may, not later than January 8, 1962, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request and the issues of fact or law proposed to be controverted, or he may request that he be notified if the Commission should order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington 25, D.C. A copy of such request shall be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon applicant. Proof of such service (by affidavit or in case of an attorney-at-law by certificate) should be filed contemporaneously with the request. At any time after said date, as provided by Rule O-5 of the rules and regulations promulgated under the Act, an order disposing of the application herein may be issued by the Commission upon the basis of the showing contained in said application, unless an order for hearing upon said application shall be issued upon request or upon the Commission's own motion.

By the Commission.

Title 3—THE PRESIDENT

Proclamation 3443

ESTABLISHING THE BUCK ISLAND REEF NATIONAL MONUMENT IN THE VIRGIN ISLANDS OF THE UNITED STATES

By the President of the United States of America

A Proclamation

WHEREAS Buck Island, situated off the northeast coast of St. Croix Island in the Virgin Islands of the United States, was included in the public, government, or crown lands ceded to the United States by Denmark under the convention entered into August 4, 1916, and proclaimed by the President January 25, 1917 (39 Stat. 1706); and

WHEREAS all property thus acquired by the United States from Denmark, not reserved by the United States for public purposes prior to June 22, 1937, was placed under the control of the Government of the Virgin Islands by the act of June 22, 1936, 49 Stat. 1807 (48 U.S.C. 1405–1405c), with the legal title remaining in the United States; and

WHEREAS Buck Island was not reserved by the United States for public purposes prior to June 22, 1937, but has been owned by the United States continuously since the convention with Denmark in 1916; and

WHEREAS Buck Island and its adjoining shoals, rocks, and undersea coral reef formations possess one of the finest marine gardens in the Caribbean Sea; and

WHEREAS these lands and their related features are of great scientific interest and educational value to students of the sea and to the public; and

WHEREAS this unique natural area and the rare marine life which are dependent upon it are subject to constant threat of commercial exploitation and destruction; and

WHEREAS the Advisory Board on National Parks, Historic Sites, Buildings and Monuments, established pursuant to the act of August 21, 1935, 49 Stat. 666 (16 U.S.C. 463), impressed by the caliber and scientific importance of the coral reefs of Buck Island, has urged their prompt protection to prevent further despoliation; and

WHEREAS the Governor of the Virgin Islands, under the authority vested in him by the legislative assembly of the Virgin Islands by an act approved December 5, 1961, has relinquished to the United States, for the purposes of facilitating the establishment and administration of a national monument for the protection of the above-mentioned areas and objects of historic and scientific interest, such control as is vested in the Government of the Virgin Islands by the said act of Congress dated June 22, 1936, over the area hereinafter described; subject, however, to the condition that the United States, including any agency or instrumentality thereof, shall not adopt or attempt to enforce any rule, regulation or requirement limiting, restricting or reducing the existing fishing (including the landing of boats and the laying of fishpots outside of the marine garden), bathing or recreational privileges by inhabitants of the Virgin Islands, and shall not charge any fees for admission to the area.

WHEREAS it is in the public interest to preserve this area of outstanding scientific, aesthetic, and educational importance for the benefit and enjoyment of the people:

NOW, THEREFORE, I, JOHN F. KENNEDY, President of the United States of America, under and by virtue of the authority vested in me by section 2 of the act of June 8, 1906, 34 Stat. 225 (16 U.S.C. 431), do proclaim that, subject to valid existing rights, there is hereby

reserved and set apart, as the Buck Island Reef National Monument, the area embraced within lines drawn between the coordinates of latitude and longitude recited as follows:

Beginning at latitude 17°47'58" N., longitude 64°38'16" W.; thence approximately 10,450 feet to latitude 17°47'30" N., longitude 64°36'32" W.; thence approximately 1,500 feet to latitude 17°47'15" N., longitude 64°36'32" W.; thence approximately 4,500 feet to latitude 17°47'00" N., longitude 64°37'16" W.; thence approximately 8,600 feet to latitude 17°47'35" N., longitude 64°38'37" W.; and thence approximately 3,075 feet to latitude 17°47'58" N., longitude 64°38'16" W., the place of beginning, embracing an area of approximately 850 acres.

WARNING is expressly given to all unauthorized persons not to appropriate, injure, destroy, deface, or remove any feature of this monument and not to locate or settle upon any of the lands reserved for the monument by this proclamation.

The Secretary of the Interior shall have the supervision, management, and control of this monument as provided in the act of Congress entitled "An act to establish a National Park Service, and for other purposes," approved August 25, 1916, 39 Stat. 535 (16 U.S.C. 1–3), and all acts supplementary thereto and amendatory thereof: *Provided*, that neither the Department of the Interior, nor any other agency or instrumentality of the United States, shall adopt or attempt to enforce any rule, regulation or requirement limiting, restricting or reducing the existing fishing (including the landing of boats and the laying of fishpots outside of the marine garden), bathing or recreational privileges by inhabitants of the Virgin Islands, or charge any fees for admission to the area.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the Seal of the United States of America to be affixed.

DONE at the City of Washington this twenty-eighth day of December in the year of our Lord nineteen hundred and [SEAL] sixty-one, and of the Independence of the United States of America the one hundred and eighty-sixth.

JOHN F. KENNEDY

Executive Order 10983

DESIGNATING THE CARIBBEAN ORGANIZATION AS A PUBLIC INTERNATIONAL ORGANIZATION ENTITLED TO ENJOY CERTAIN PRIVILEGES, EXEMPTIONS, AND IMMUNITIES

By virtue of the authority vested in me by section 1 of the International Organizations Immunities Act, approved December 29, 1945 (59 Stat. 669; 22 U.S.C. 288), and by the joint resolution of June 30, 1961, 75 Stat. 194, I hereby designate the Caribbean Organization as a public international organization entitled to enjoy the privileges, exemptions, and immunities conferred by the said International Organizations Immunities Act.

The designation of the above-named organization as a public international organization within the meaning of the said Act is not intended to abridge in any respect privileges, exemptions, and immunities to which such international organization may otherwise be or become entitled.

This order revokes Executive Order No. 10025 of December 30, 1948, to the extent that such order relates to the Caribbean Commission.

Title 26—INTERNAL REVENUE

Chapter I—Internal Revenue Service, Department of the Treasury

SUBCHAPTER A—INCOME TAX

[T.D. 6587]

PART 1—INCOME TAX; TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1953

Distribution Pursuant to Bank Holding Company Act of 1956

On January 20, 1961, notice of proposed rule making with respect to sections 1101, 1102, and 1103 of the Internal Revenue Code of 1954, as added by the Bank Holding Company Act of 1956 (70 Stat. 139) was published in the FEDERAL REGISTER (26 F.R. 615). The regulations as proposed are hereby adopted, subject to the following changes:

PARAGRAPH 1. Paragraph (b)(7) of § 1.1101–3 is deleted.

PAR. 2. Section 1.1101–4 is revised.

[SEAL] MORTIMER M. CAPLIN,
Commissioner of Internal Revenue.

Approved: December 26, 1961.

STANLEY S. SURREY,
Assistant Secretary of the Treasury.

The following regulations relating to distributions by qualified bank holding corporations are hereby prescribed under sections 1101, 1102, and 1103 of the Internal Revenue Code of 1954, as added by section 10(a) of the Bank Holding Company Act of 1956 (70 Stat. 133, 139):

1.1101–3 Tax avoidance.
1.1101–4 Records to be kept and information to be filed with returns.
1.1102 Statutory provisions; distributions pursuant to Bank Holding Company Act of 1956; special rules.
1.1102–1 Basis of property acquired in distributions by qualified bank holding corporations.
1.1102–2 Filing of notification under section 1102(b) by qualified bank holding corporations.
1.1102–3 Allocation of earnings and profits in certain distributions by qualified bank holding corporations.
1.1103 Statutory provisions; distributions pursuant to Bank Holding Company Act of 1956; definitions.

AUTHORITY: §§ 1.1101 to 1.1103 issued under sec. 7805, Internal Revenue Code of 1954; 68A Stat. 917; 26 U.S.C. 7805.

DISTRIBUTIONS PURSUANT TO BANK HOLDING COMPANY ACT OF 1956

§ 1.1101 Statutory provisions; distributions pursuant to Bank Holding Company Act of 1956.

SEC. 1101. *Distributions pursuant to Bank Holding Company Act of 1956*—(a) *Distributions of certain non-banking property*—(1) *Distributions of prohibited property.* If—

(A) A qualified bank holding corporation distributes prohibited property (other than stock received in an exchange to which subsection (c)(2) applies)—

(i) To a shareholder (with respect to its stock held by such shareholder), without the surrender by such shareholder of stock in such corporation; or

(ii) To a shareholder, in exchange for its preferred stock; or

(iii) To a security holder, in exchange for its securities; and

(B) The Board has, before the distribution, certified that the distribution of such prohibited property is necessary or appropriate to effectuate section 4 of the Bank Holding Company Act of 1956,

then no gain to the shareholder or security holder from the receipt of such property shall be recognized.

(2) *Distributions of stock and securities received in an exchange to which subsection (c)(2) applies.* If—

(A) A qualified bank holding corporation distributes—

(i) Common stock received in an exchange to which subsection (c)(2) applies to a shareholder (with respect to its stock held by such shareholder), without the surrender by such shareholder of stock in such corporation; or

(ii) Common stock received in an exchange to which subsection (c)(2) applies to a shareholder, in exchange for its common stock; or

(iii) Preferred stock or common stock received in an exchange to which subsection (c)(2) applies to a shareholder, in exchange for its preferred stock; or

(iv) Securities or preferred or common stock received in an exchange to which subsection (c)(2) applies to a security holder, in exchange for its securities; and

(B) Any preferred stock received has substantially the same terms as the preferred stock exchanged, and any securities received have substantially the same terms as the securities exchanged,

then, except as provided in subsection (f), no gain to the shareholder or security holder from the receipt of such stock or such securities or such stock and securities shall be recognized.

(3) *Non pro rata distributions.* Paragraphs (1) and (2) shall apply to a distribution whether or not the distribution is pro rata with respect to all of the shareholders of the distributing qualified bank holding corporation.

(4) *Exception.* This subsection shall not apply to any distribution by a corporation which has made any distribution pursuant to subsection (b).

(5) *Distributions involving gift or compensation.* In the case of a distribution to which paragraph (1) or (2) applies, but which—

(A) Results in a gift, see section 2501, and following, or

(B) Has the effect of the payment of compensation, see section 61(a)(1).

(b) *Corporation ceasing to be a bank holding company*—(1) *Distributions of property which cause a corporation to be a bank holding company.* If—

(A) A qualified bank holding corporation distributes property (other than stock received in an exchange to which subsection (c)(3) applies)—

(i) To a shareholder (with respect to its stock held by such shareholder), without the surrender by such shareholder of stock in such corporation; or

(ii) To a shareholder, in exchange for its preferred stock; or

(iii) To a security holder, in exchange for its securities; and

(B) The Board has, before the distribution, certified that—

(i) Such property is all or part of the property by reason of which such corporation controls (within the meaning of section 2(a) of the Bank Holding Company Act of 1956) a bank or bank holding company, or such property is part of the property by reason of which such corporation did control a bank or a bank holding company before any property of the same kind was distributed under this subsection or exchanged under subsection (c)(3); and

(ii) The distribution is necessary or appropriate to effectuate the policies of such Act,

then no gain to the shareholder or security holder from the receipt of such property shall be recognized.

(2) *Distributions of stock and securities received in an exchange to which subsection (c)(3) applies.* If—

(A) A qualified bank holding corporation distributes—

(i) Common stock received in an exchange to which subsection (c)(3) applies to a shareholder (with respect to its stock held by such shareholder), without the surrender by such shareholder of stock in such corporation; or

(ii) Common stock received in an exchange to which subsection (c)(3) applies to a shareholder, in exchange for its common stock; or

(iii) Preferred stock or common stock received in an exchange to which subsection (c)(3) applies to a shareholder, in exchange for its preferred stock; or

(iv) Securities or preferred or common stock received in an exchange to which subsection (c)(3) applies to a security holder, in exchange for its securities; and

(B) Any preferred stock received has substantially the same terms as the preferred stock exchanged, and any securities received have substantially the same terms as the securities exchanged,

then, except as provided in subsection (f), no gain to the shareholder or security holder from the receipt of such stock or such securities or such stock and securities shall be recognized.

(3) *Non pro rata distributions.* Paragraphs (1) and (2) shall apply to a distribution whether or not the distribution is pro rata with respect to all of the shareholders of the distributing qualified bank holding corporation.

(4) *Exception.* This subsection shall not apply to any distribution by a corporation which has made any distribution pursuant to subsection (a).

(5) *Distributions involving gift or compensation.* In the case of a distribution to which paragraph (1) or (2) applies, but which—

(A) Results in a gift, see section 2501, and following, or

(B) Has the effect of the payment of compensation, see section 61(a)(1).

(c) *Property acquired after May 15, 1955*—(1) *In general.* Except as provided in paragraphs (2) and (3), subsection (a) or (b) shall not apply to—

(A) Any property acquired by the distributing corporation after May 15, 1955, unless (i) gain to such corporation with respect to the receipt of such property was not recognized by reason of subsection (a) or (b), or (ii) such property was received by it in exchange for all of its stock in an exchange to which paragraph (2) or (3) applies, or (iii) such property was acquired by the distributing corporation in a transaction in which gain was not recognized under section 305(a) or section 332, or under section 354 with respect to a reorganization described in section 368(a)(1)(E) or (F), or

(B) Any property which was acquired by the distributing corporation in a distribution with respect to stock acquired by such corporation after May 15, 1955, unless such stock was acquired by such corporation (i) in a distribution (with respect to stock held by it on May 15, 1955, or with respect to stock in respect of which all previous applications of this clause are satisfied) with respect to which gain to it was not recognized by reason of subsection (a) or (b), or (ii) in exchange for all of its stock in an exchange to which paragraph (2) or (3) applies, or (iii) in a transaction in which gain was not recognized under section 305(a) or section 332, or under section 354 with respect to a reorganization described in section 368(a)(1)(E) or (F), or

(C) Any property acquired by the distributing corporation in a transaction in which gain was not recognized under section 332, unless such property was acquired from a corporation which, if it had been a qualified bank holding corporation, could have distributed such property under subsection (a)(1) or (b)(1).

(2) *Exchanges involving prohibited property.* If—

(A) Any qualified bank holding corporation exchanges (i) property, which, under subsection (a)(1), such corporation could distribute directly to its shareholders or security holders without the recognition of gain to such shareholders or security holders, and other property (except property described in subsection (b)(1)(B)(i)), for (ii) all of the stock of a second corporation created and availed of solely for the purpose of receiving such property;

(B) Immediately after the exchange, the qualified bank holding corporation distributes all of such stock in a manner prescribed in subsection (b)(2)(A); and

(C) Before such exchange, the Board has certified (with respect to the property exchanged which consists of property which, under subsection (a)(1), such corporation could distribute directly to its shareholders or security holders without the recognition of gain) that the exchange and distribution are necessary or appropriate to effectuate section 4 of the Bank Holding Company Act of 1956,

then paragraph (1) shall not apply with respect to such distribution.

(3) *Exchanges involving interests in banks.* If—

(A) Any qualified bank holding corporation exchanges (i) property which, under subsection (b)(1), such corporation could distribute directly to its shareholders or security holders without the recognition of gain to such shareholders or security holders, and other property (except prohibited property), for (ii) all of the stock of a second corporation created and availed of solely for the purpose of receiving such property;

(B) Immediately after the exchange, the qualified bank holding corporation distributes all of such stock in a manner prescribed in subsection (b)(2)(A); and

(C) Before such exchange, the Board has certified (with respect to the property exchanged which consists of property which, under subsection (a)(1), such corporation could distribute directly to its shareholders or security holders without the recognition of gain) that—

(i) Such property is all or part of the property by reason of which such corporation controls (within the meaning of section 2(a) of the Bank Holding Company Act of 1956) a bank or bank holding company, or such property is part of the property by reason of which such corporation did control a bank or a bank holding company before any property of the same kind was distributed under subsection (b)(1) or exchanged under this paragraph; and

(ii) The exchange and distribution are necessary or appropriate to effectuate the policies of such Act,

then paragraph (1) shall not apply with respect to such distribution.

(d) *Distributions to avoid Federal income tax*—(1) *Prohibited property.* Subsection (a) shall not apply to a distribution if, in connection with such distribution, the distributing corporation retains, or transfers after May 15, 1955, to any corporation, property (other than prohibited property) as part of a plan one of the principal purposes of which is the distribution of the earnings and profits of any corporation.

(2) *Banking property.* Subsection (b) shall not apply to a distribution if, in connection with such distribution, the distributing corporation retains, or transfers after May 15, 1955, to any corporation, property (other than property described in subsection (b)(1)(B)(i)) as part of a plan one of the principal purposes of which is the distribution of the earnings and profits of any corporation.

(3) *Certain contributions to capital.* In the case of a distribution a portion of which is attributable to a transfer which is a contribution to the capital of a corporation, made after May 15, 1955, and prior to the date of the enactment of this part, if subsection (a) or (b) would apply to such distribution but for the fact that, under paragraph (1) or (2) (as the case may be) of this subsection, such contribution to capital is part of a plan one of the principal purposes of which is to distribute the earnings and profits of any corporation, then, notwithstanding paragraph (1) or (2), subsection (a) or (b) (as the case may be) shall apply to that portion of such distribution not attributable to such contribution to capital, and shall not apply to that portion of such distribution attributable to such contribution to capital.

(e) *Final certification*—(1) *For subsection (a).* Subsection (a) shall not apply with respect to any distribution by a corporation unless the Board certifies that, before the expiration of the period permitted under section 4(a) of the Bank Holding Company Act of 1956 (including any extensions thereof granted to such corporation under section 4(a)), the corporation has disposed of all the property the disposition of which is necessary or appropriate to effectuate section 4 of such Act (or would have been so necessary or appropriate if the corporation had continued to be a bank holding company).

(2) *For subsection (b)*—(A) Subsection (b) shall not apply with respect to any distribution by any corporation unless the Board certifies that, before the expiration of the period specified in subparagraph (B), the corporation has ceased to be a bank holding company.

(B) The period referred to in subparagraph (A) is the period which expires 2 years after the date of the enactment of this part or 2 years after the date on which the corporation becomes a bank holding company, whichever date is later. The Board is authorized, on application by any corporation, to extend such period from time to time with respect to such corporation for not more than one year at a time if, in its judgment, such an extension would not be detrimental to the public interest; except that such period may not in any case be extended beyond the date 5 years after the date of the enactment of this part or 5 years after the date on which the corporation becomes a bank holding company, whichever date is later.

(f) *Certain exchanges of securities.* In the case of an exchange described in subsection (a)(2)(A)(iv) or subsection (b)(2)(A)(iv), subsection (a) or subsection (b) (as the case may be) shall apply only to the extent that the principal amount of the securities received does not exceed the principal amount of the securities exchanged.

[Sec. 1101 as added by sec. 10(a), Bank Holding Company Act 1956 (70 Stat. 139)]

§ 1.1101–1 In general.

The Bank Holding Company Act of 1956 (12 U.S.C. ch. 17) requires, in certain cases, the separation of interests in nonbanking businesses held by a bank holding company, as defined in section 2(a) of the Act (12 U.S.C. 1841(a)), from its interests in banking and closely related businesses. In order to facilitate such separation, part VIII (section 1101 and following), subchapter O, chapter 1 of the Code, provides, to a limited extent, for the nonrecognition of gain on the receipt, by shareholders or security holders of a qualified bank holding corporation, of property distributed pursuant to a certification by the Board of Governors of the Federal Reserve System that such distribution is necessary or appropriate to effectuate the policies of the Act. The provisions of such part VIII of subchapter O supersede other provisions of chapter 1 of the Code only to the extent that such provisions of part VIII specifically apply to a transaction and, where they are not applicable, do not prevent the application of any other provisions of law under which nonrecognition of gain may occur. For example, a bank holding company may retain, under section 4(c)(5) of the Act (12 U.S.C. 1843(c)(5)), up to five percent of the voting stock of another company. In such a case, a distribution of all the stock of such other company pursuant to a certification by the Board would result in nonrecognition of gain under section 1101 as to only 95 percent of such distribution. However, assuming the distribution is one that qualifies for nonrecognition of gain under section 355, relating to distribution of stock and securities of a controlled corporation, as well as under section 1101, nonrecognition of gain may be obtained under section 355 with respect to the five percent not qualifying for nonrecognition under section 1101. Further, the provisions of such part VIII of subchapter O do not provide for nonrecognition of gain to the distributing bank holding company. Accordingly, gain will be recognized to the distributing corporation in appropriate cases. For example, if a bank holding company, in a distribution qualifying under section 1101, distributes installment obligations, LIFO inventory, or property subject to a liability in excess of its adjusted basis, gain may be recognized to the corporation under section 453(d) or section 311. If, pursuant to section 1101(c)(2) or 1101(c)(3), a bank holding company places the property to be disposed of in a newly created corporation in exchange for all its stock which is then distributed by the bank holding company to its shareholders, the extent, if any, to which gain will be recognized to the bank holding company on either the exchange or the subsequent distribution is not affected by such part VIII of subchapter O and must be determined under other provisions of the Internal Revenue Code. For example, if the conditions of section 351 are satisfied, the exchange of property for stock will result in nonrecognition of gain to the bank holding company under that section.

§ 1.1101–2 Certification by Board.

(a) *Requirement of certification.* Part VIII (section 1101 and following), subchapter O, chapter 1 of the Code, is applicable only with respect to distributions and exchanges by a qualified bank holding corporation as defined in section 1103(b). A bank holding company shall be treated as a qualified bank holding corporation only if the Board of Governors of the Federal Reserve System issues a certification that the company satisfies the requirements of section 1103(b). (See 12 CFR 222.5(c).)

(b) *Nonrecognition of gain.* Distributions of property (other than stock and securities in a corporation created in accordance with the provisions of section 1101(c)(2) or (c)(3)) will not result in nonrecognition of gain to the shareholders and security holders of a bank holding company under section 1101(a)(1) or (b)(1) unless, before the distribution, the Board has issued a certification pursuant to section 1101(a)(1)(B) or (b)(1)(B), whichever is applicable. Distributions of stock and securities in a corporation created in accordance with section 1101(c)(2) or (c)(3) will not result in nonrecognition of gain to the shareholders and security holders of a bank holding company under section 1101(a)(2) or (b)(2) unless, before the exchange described in section 1101(c)(2)(A) or (c)(3)(A), the Board has issued a certification pursuant to section 1101(c)(2)(C) or (c)(3)(C), whichever is applicable. Further, unless a final certification is also made by the Board in accordance with section 1101(c), section 1101(a) or (b) will not apply to any distribution made by a bank holding company. Provisionally, however, pending the issuance of such final certification, section 1101(a) or (b) shall be deemed applicable to distributions otherwise qualifying under such part VIII of subchapter O which are made within the period described in section 1101(e)(1) or (e)(2)(B), whichever is applicable.

(c) *Limitations.* The period of limitations in section 6501 with respect to any deficiency resulting solely from the receipt by a shareholder or security holder of property, in a distribution certified by the Board in accordance with section 1101(a)(1)(B), (b)(1)(B), (c)(2)(C), or (c)(3)(C), shall not expire prior to the period prescribed in section 1102(b), notwithstanding that the shareholder or security holder relied on a provision of law other than section 1101(a) or (b), for example section 355, to obtain nonrecognition of gain on the distribution. (See §,1.1102–2.)

§ 1.1101–3 Tax avoidance.

(a) *Recognition of gain.* Irrespective of whether the transaction meets the other requirements of sections 1101, 1102, and 1103, a distribution will not qualify for nonrecognition of gain pursuant to the provisions of section 1101 if, in connection with such distribution, the distributing corporation retains, or transfers to any corporation after May 15, 1955, property pursuant to a plan one of the principal purposes of which is the distribution of earnings and profits of a corporation so as to avoid the Federal income tax on dividends. A certification that a particular distribution of property is necessary or appropriate in order to comply with the Bank Holding Company Act of 1956 (12 U.S.C. ch. 17) shall not be considered as permitting nonrecognition of gain where such distribution is a part of a plan to distribute earnings and profits in avoidance of the Federal income tax on dividends.

(b) *Continuity and other factors.* Section 1101 contemplates a continuity of the enterprise as modified and a continuity of interest in all or part of the property received or retained on the part of those who, directly or indirectly, were the owners of the enterprise prior to the distribution or exchange. Whether or not a distribution is made under section 1101 in such a manner as to be in avoidance of Federal income tax is a question to be decided in the light of all the facts and circumstances surrounding the transaction. Some of the factors which may evidence a tax avoidance plan in appropriate circumstances are the following:

(1) A company making acquisitions of property shortly before May 15, 1955, in anticipation of the legislation in order to qualify under the Bank Holding Company Act of 1956.

(2) A greatly disproportionate shift to banking or nonbanking assets shortly before or after May 15, 1955, from the normal course of holdings or any unusual shift within such groups of assets that is inconsistent with prior holdings, particularly if made to such assets that are or may be more readily marketable.

(3) A separation of assets, the acquisition of which was substantially financed out of the earnings of particular properties, from such properties (whether or not such properties are retained), particularly where said assets are in the form of cash or highly marketable securities, stocks, or other investments, and where such separation is not necessary or appropriate to effectuate the policies of the Bank Holding Company Act of 1956.

(4) A transfer of "other property" in an exchange described in section 1101(c)(2) or (c)(3), which property is greater in amount than that reasonably required by the newly created corporation for its working capital or is disproportionate to or inconsistent with the holding operations previously engaged in.

(5) An indication that a liquidation of either of the corporations separated pursuant to section 1101(c)(2) or 1101(c)(3) is contemplated or that dominant shareholders thereof intended to sell the stock received or retained.

(6) An indication that dominant shareholders contemplated the sale of property distributed directly.

A shift of assets to a corporation to be separated will not in itself establish a plan to avoid tax if such action is consistent with the holding operations previously engaged in and in conformity with good business practice. Similiarly, a reasonable transfer of cash and securities to a corporation availed of under section 1101(c)(2) or 1101(c)(3) for the reasonable working capital needs of a newly organized corporation will not, by itself, establish an attempt to distribute earnings and profits. Where it is established that a contribution to capital was made after May 15, 1955, and prior to the enactment of the Bank Holding Company Act of 1956 with one of the principal purposes of distributing earnings and profits of any corporation, such action will not in itself cause the proportionate remainder of a distribution to fail to qualify for treatment under section 1101. (See section 1101(d)(3).)

§ 1.1101–4 Records to be kept and information to be filed with returns.

Each stock or security holder who receives stock or securities or other property upon a distribution made by a qualified bank holding corporation under section 1101 shall maintain records of, and file as a part of his income tax return for the taxable year in which such distribution is received a complete statement of, all facts pertinent to the nonrecognition of gain upon such distribution, including—

(a) Name and address of the corporation from which the distribution is received; the date the distribution is received; and that the distribution was made pursuant to the Bank Holding Company Act of 1956.

(b) A statement of the name or designation, type, class, number, and fair market value on the date of receipt of the stock or securities or other property received upon the distribution and a record of the disposition made thereof, or of any stock or securities retained in the distributing corporation in the year of receipt.

(c) If preferred stock is exchanged for preferred stock or securities are exchanged for securities within the meaning of section 1101(a)(2)(A) or section 1101(b)(2)(A), a statement of the terms and amount of such newly issued securities or preferred stock, as well as of those surrendered.

(d) A statement as to the distributee's holdings immediately prior to the record date for the distribution of each class of stock or securities outstanding of the distributing corporation, together with

the date and manner of acquisition thereof.

(e) The value of the distributing corporation's stock per share or securities immediately prior to and after the distribution.

In the case of a return filed on or before January 4, 1962, such information shall be filed on or before April 4, 1962, by the taxpayer with the district director for the internal revenue district in which such return was filed.

§ 1.1102 Statutory provisions; distributions pursuant to Bank Holding Company Act of 1956; special rules.

SEC. 1102. *Special rules*—(a) *Basis of property acquired in distributions.* If, by reason of section 1101, gain is not recognized with respect to the receipt of any property, then, under regulations prescribed by the Secretary or his delegate—

(1) If the property is received by a shareholder with respect to stock, without the surrender by such shareholder of stock, the basis of the property received and of the stock with respect to which it is distributed shall, in the distributee's hands, be determined by allocating between such property and such stock the adjusted basis of such stock; or

(2) If the property is received by a shareholder in exchange for stock or by a security holder in exchange for securities, the basis of the property received shall, in the distributee's hands, be the same as the adjusted basis of the stock or securities exchanged, increased by—

(A) The amount of the property received which was treated as a dividend, and

(B) The amount of gain to the taxpayer recognized on the property received (not including any portion of such gain which was treated as a dividend).

(b) *Periods of limitation.* The periods of limitation provided in section 6501 (relating to limitations on assessment and collection) shall not expire, with respect to any deficiency (including interest and additions to the tax) resulting solely from the receipt of property by shareholders in a distribution which is certified by the Board under subsection (a), (b), or (c) of section 1101, until five years after the distributing corporation notifies the Secretary or his delegate (in such manner and with such accompanying information as the Secretary or his delegate may by regulations prescribe) that the period (including extensions thereof) prescribed in section 4(a) of the Bank Holding Company Act of 1956, or section 1101(e)(2)(B), whichever is applicable, has expired; and such assessment may be made notwithstanding any provision of law or rule of law which would otherwise prevent such assessment.

(c) *Allocation of earnings and profits*—(1) *Distribution of stock in a controlled corporation.* In the case of a distribution by a qualified bank holding corporation under section 1101 (a)(1) or (b)(1) of stock in a controlled corporation, proper allocation with respect to the earnings and profits of the distributing corporation and the controlled corporation shall be made under regulations prescribed by the Secretary or his delegate.

(2) *Exchanges described in section 1101(c)(2) or (3).* In the case of any exchange described in section 1101(c)(2) or (3), proper allocation with respect to the earnings and profits of the corporation transferring the property and the corporation receiving such property shall be made under regulations prescribed by the Secretary or his delegate.

(3) *Definition of controlled corporation.* For purposes of paragraph (1), the term "controlled corporation" means a corporation with respect to which at least 80 percent of the total combined voting power of all classes of stock entitled to vote and at least 80 percent of the total number of shares of all other classes of stock is owned by the distributing qualified bank holding corporation.

(d) *Itemization of property.* In any certification under this part, the Board shall make such specification and itemization of property as may be necessary to carry out the provisions of this part.

[Sec. 1102 as added by sec. 10(a), Bank Holding Company Act 1956 (70 Stat. 139)]

§ 1.1102–1 Basis of property acquired in distributions by qualified bank holding corporations.

In the case of a distribution to a shareholder with respect to stock, without the surrender by such shareholder of stock, to which section 1101 (a) or (b) applies, the sum of the basis of all the stock in the distributing corporation held immediately after the transaction plus the basis of all the nonrecognition property received in the transaction shall be the same as the basis of all the stock in such corporation held immediately before the transaction allocated in proportion to the respective fair market value of each. In the case of an exchange to which section 1101 (a) or (b) applies, in which property is received by a shareholder in exchange for stock or by a security holder in exchange for securities, the basis of all the property received in the exchange and as a part thereof shall be the same as the adjusted basis of the stock or securities exchanged, increased by—

(a) The amount of the property received as part of the exchange which was treated as a dividend, and

(b) The amount of gain to the taxpayer recognized on the property received as part of the exchange (not including any portion of such gain which was treated as a dividend).

The basis, in a case involving an exchange, must be apportioned to the properties received, and for this purpose there must be allocated to such other property received as part of the exchange (not permitted to be received without the recognition of gain) an amount of such basis equivalent to the fair market value of such other property at the date of the exchange. Any other property received in connection with a transaction under section 1101 on which gain is realized shall receive a basis in accordance with whichever Code section may be applicable to that portion of the transaction.

§ 1.1102–2 Filing of notification under section 1102(b) by qualified bank holding corporations.

Every distributing corporation which is certified as being a qualified bank holding corporation under section 1103 (b) shall, as soon as practical, by written statement notify the Commissioner of Internal Revenue, Washington 25, D.C., Attention: T:R:R, that the period (including extensions thereof granted by the Board of Governors of the Federal Reserve System) prescribed in section 4(a) of the Bank Holding Company Act of 1956 (12 U.S.C. 1843(a)), or section 1101(e)(2)(B) of the Code, whichever is applicable, has expired. In order for such statement to satisfy the requirements for notification under section 1102 (b), there shall be included a complete statement of all facts pertinent to the divestment of assets under part VIII (section 1101 and following), subchapter O, chapter 1 of the Code, including the following:

(a) Name and address of the distributing corporation.

(b) A copy of the plan of divestment forming the basis of the issuance by the Board of any certification under section 1101(a)(1)(B), section 1101(b)(1)(B), section 1101(c)(2)(C), or section 1101(c)(3)(C), as the case may be.

(c) A copy of any such certifications issued to the distributing corporation by the Board.

(d) A certified copy of the corporate resolution authorizing every distribution under section 1101.

(e) Identification and date of acquisition by the distributing corporation of all property distributed under section 1101.

(f) Identification and date of acquisition by the distributing corporation of all property which was transferred to a new corporation under section 1101(c)(2) or (3).

(g) If the date of acquisition in paragraph (e) or (f) of this section was after May 15, 1955, a complete statement of details surrounding the acquisition. If any of such property was acquired in a distribution under section 1101, a copy of the certification covering such distribution.

(h) A statement as to whether any of the distributions under section 1101 contained installment obligations, LIFO inventory, or property either subject to a liability in excess of its basis or in connection with the receipt of which any shareholder assumed a liability in excess of its basis. If so, the statement shall include complete details, including dates of distribution.

(i) [Reserved.]

(j) Name and address of each distributee.

(k) Number of shares of outstanding stock of the corporation, by class, and amount of securities actually owned by each distributee prior to the distribution.

(l) If preferred stock was exchanged for preferred stock or securities were exchanged for securities under section 1101(g)(2)(A) or section 1101(b)(2)(A), the terms and amount of the newly issued securities or preferred shares received and of those surrendered.

(m) Identification of the property distributed to each distributee under section 1101, by date, together with the fair market value at date of distribution.

(n) Fair market value of the distributing corporation's outstanding securities and stock per share immediately after a distribution.

(o) The amount of the undistributed earnings and profits of the distributing corporation accumulated after February 28, 1913, to date of transfer to a new corporation in an exchange to which section 1101(c)(2) or (3) applies.

(p) If property was transferred to a new corporation under the provisions of section 1101(c)(2) or (3), a statement giving the value of the assets transferred together with the value of assets retained. If cash was transferred, a complete substantiation thereof.

(q) If stock in a controlled corporation within the meaning of section 1102(c)(3) is distributed under section 1101(a)(1) or (b)(1), a statement giving the accumulated earnings and profits of the controlled corporation (or deficit in earnings as the case may be) immediately prior to the distribution.

(r) A copy of the final certification if issued to the distributing corporation by the Board pursuant to section 1101(e).

(s) The date of expiration of the period (including extensions thereof) prescribed in section 4(a) of the Bank Holding Company Act of 1956 (12 U.S.C. 1843(a)), or section 1101(e)(2)(B), whichever is applicable.

(t) A statement showing, for the 5-year period preceding any exchange or distribution described in section 1101, the amount of income and expenditures attributable to each of the respective activities and holdings of the bank holding company and further showing the holdings and activities, after the distributions and exchanges described in section 1101, of the bank holding company and the corporations the stock of which is distributed under section 1101.

The periods of limitation (section 6501) with respect to any deficiency, including interest and additions to the tax, resulting solely from the receipt of property by shareholders in a distribution certified by the Board under subsection (a), (b), or (c) of section 1101 shall not expire until 5 years following the date of the notification required under section 1102(b) and this section.

§ 1.1102–3 Allocation of earnings and profits in certain distributions by qualified bank holding corporations.

(a) *Exchanges described in section 1101(c)(2) or (3).* Under section 1102(c), if a qualified bank holding corporation transfers property to a newly created corporation in exchange for all of its stock in a transaction described in section 1101(c)(2)(A) or (3)(A) and immediately thereafter the stock and securities of the controlled corporation are distributed in a distribution or exchange to which section 1101 (a)(2) or (b)(2) applies, the earnings and profits of the bank holding corporation immediately before the transaction shall be allocated between such bank holding corporation and the controlled corporation. Such allocation generally shall be made in proportion to the fair market value of the assets retained by the bank holding corporation and the assets of the controlled corporation immediately after the transaction. In a proper case, allocation shall be made in proportion to the net basis of the assets transferred and of the assets retained or by such other method as may be appropriate under the facts and circumstances of the case. The term "net basis" means the basis of the assets less liabilities assumed or liabilities to which such assets are subject. The part of the earnings and profits of the taxable year of the bank holding corporation in which the transaction occurs allocable to the controlled corporation shall be included in the computation of the earnings and profits of the first taxable year of the controlled corporation ending after the date of the transaction.

(b) *Distribution of stock in a controlled corporation under section 1101(a)(1) or (b)(1).* If a qualified bank holding corporation distributes stock of a controlled corporation (as defined in section 1102(c)(3)) in a distribution or exchange to which section 1101 (a)(1) or (b)(1) applies, the earnings and profits of the bank holding corporation shall be decreased by the lesser of the following amounts:

(1) The amount by which the earnings and profits of the bank holding corporation would have been decreased if it had transferred the stock of the controlled corporation to a new corporation in a transaction to which section 1101(c)(2) or (3) applied and immediately thereafter distributed the stock of such new corporation under section 1101 (a)(2) or (b)(2) or,

(2) The net worth of the controlled corporation. (For this purpose the term "net worth" means the sum of the bases of all of the properties plus cash minus all liabilities.)

If the earnings and profits of the controlled corporation immediately before the transaction are less than the amount of the decrease in earnings and profits of the bank holding corporation (including the case in which the controlled corporation has a deficit) the earnings and profits of the controlled corporation, after the transaction, shall be equal to the amount of such decrease. If the earnings and profits of the controlled corporation immediately before the transaction are more than the amount of the decrease in the earnings and profits of the bank holding corporation they shall remain unchanged.

(c) *Deficits.* A deficit of the distributing corporation shall in no case be allocated to a controlled corporation.

§ 1.1103 Statutory provisions; distributions pursuant to Bank Holding Company Act of 1956; definitions.

SEC. 1103. *Definitions*—(a) *Bank holding company.* For purposes of this part, the term "bank holding company" has the meaning assigned to such term by section 2 of the Bank Holding Company Act of 1956.

(b) *Qualified bank holding corporation*—(1) *In general.* Except as provided in paragraph (2), for purposes of this part the term "qualified bank holding corporation" means any corporation (as defined in section 7701 (a)(3)) which is a bank holding company and which holds prohibited property acquired by it—

(A) On or before May 15, 1955,

(B) In a distribution in which gain to such corporation with respect to the receipt of such property was not recognized by reason of subsection (a) or (b) of section 1101, or

(C) In exchange for all of its stock in an exchange described in section 1101 (c)(2) or (c)(3).

(2) *Limitations.* (A) A bank holding company shall not be a qualified bank holding corporation, unless it would have been a bank holding company on May 15, 1955, if the Bank Holding Company Act of 1956 had been in effect on such date, or unless it is a bank holding company determined solely by reference to—

(i) Property acquired by it on or before May 15, 1955,

(ii) Property acquired by it in a distribution in which gain to such corporation with respect to the receipt of such property was not recognized by reason of subsection (a) or (b) of section 1101, and

(iii) Property acquired by it in exchange for all of its stock in an exchange described in section 1101(c)(2) or (3).

(B) A bank holding company shall not be a qualified bank holding corporation by reason of property described in subparagraph (B) of paragraph (1) of clause (ii) of subparagraph (A) of this paragraph, unless such property was acquired in a distribution with respect to stock, which stock was acquired by such bank holding company—

(i) On or before May 15, 1955,

(ii) In a distribution (with respect to stock held by it on May 15, 1955, or with respect to stock in respect of which all previous applications of this clause are satisfied) with respect to which gain to it was not recognized by reason of subsection (a) or (b) of section 1101, or

(iii) In exchange for all of its stock in an exchange described in section 1101(c)(2) or (3).

(C) A corporation shall be treated as a qualified bank holding corporation only if the Board certifies that it satisfies the foregoing requirements of this subsection.

(c) *Prohibited property.* For purposes of this part, the term "prohibited property" means, in the case of any bank holding company, property (other than nonexempt property) the disposition of which would be necessary or appropriate to effectuate section 4 of the Bank Holding Company Act of 1956 if such company continued to be a bank holding company beyond the period (including any extensions thereof) specified in subsection (a) of such section or in section 1101(e)(2)(B) of this part, as the case may be. The term "prohibited property" does not include shares of any company held by a bank holding company to the extent that the prohibitions of section 4 of the Bank Holding Company Act of 1956 do not apply to the ownership by such bank holding company of such property by reason of subsection (c)(5) of such section.

(d) *Nonexempt property.* For purposes of this part, the term "nonexempt property" means—

(1) Obligations (including notes, drafts, bills of exchange, and bankers' acceptances) having a maturity at the time of issuance of not exceeding 24 months, exclusive of days of grace;

(2) Securities issued by or guaranteed as to principal or interest by a government or subdivision thereof or by any instrumentality of a government or subdivision; or

(3) Money, and the right to receive money not evidenced by a security or obligation (other than a security or obligation described in paragraph (1) or (2)).

(e) *Board.* For purposes of this part, the term "Board" means the Board of Governors of the Federal Reserve System.

PRODUCT DESCRIPTION, COLOR TYPES, STYLES, AND GRADES

§ 52.1481 Product description.

"Canned mushrooms", as defined in the definitions and standards of identity for canned vegetables (21 CFR 51.990) issued pursuant to the Federal Food, Drug, and Cosmetic Act, means the product prepared from the sound, succulent, fresh mushroom by proper trimming, washing, and sorting and is packed with the addition of water in hermetically sealed containers and sufficiently processed by heat to assure preservation of the product. Salt, or monosodium glutamate, or both may be added in a quantity sufficient to season the product. Ascorbic acid (Vitamin C) may be added in a quantity not to exceed 37.5 miligrams for each ounce of drained weight of mushrooms.

§ 52.1482 Color types of canned mushrooms.

(a) White or cream.
(b) Brown.

§ 52.1483 Styles of canned mushrooms.

(a) "Whole" is the style of canned mushrooms that consists of the caps with attached stems which are more than ⅛ inch in length when measured from the under side of the cap to the cut end of the stem.

(b) "Buttons" is the style of canned mushrooms that consists of the caps with attached stems which are cut transversely below the veil so that in 85 percent or more, by count, of the units the attached stem when measured from the under side of the cap to the cut end of the stem does not exceed ⅛ inch in length; and in the remaining units none of the attached stems may be more than ¼ inch in length.

(c) "Sliced whole" is the style of canned mushrooms that consists of units which have been sliced from whole mushrooms so that in 80 percent or more, by weight, of all the units the direction of the slice is approximately parallel to the longitudinal axis of the stem; and not more than 5 percent, by weight of all the units may be detached portions of stems.

(d) "Random sliced whole" is the style of canned mushrooms that consists of units which have been sliced from whole mushrooms in a random manner so that the direction of the slice may materially deviate from approximately parallel to the longitudinal axis of the stem; and not more than 15 percent, by weight of all the units may be detached portions of stem.

(e) "Sliced buttons" is the style of canned mushrooms that consists of units which have been sliced from button mushrooms so that in 90 percent or more, by weight, of all the units the direction of the slice is approximately parallel to the longitudinal axis of the stem.

(f) "Stems and pieces" or "pieces and stems" (hereinafter referred to as "stems and pieces") is the style of canned mushrooms that consists of units which do not conform to any of the foregoing styles and are predominantly cut or broken portions of the caps and stems and may contain units of any of the foregoing styles.

§ 52.1484 Grades of canned mushrooms.

(a) "U.S. Grade A" or ("U.S. Fancy") is the quality of canned mushrooms that possess similar varietal characteristics; that possess a normal flavor and odor; that possess a good color; that are practically uniform in size and shape, except for the style of "stems and pieces"; that are practically free from defects; that possess a good character, and that for those factors which are scored in accordance with the scoring system outlined in this subpart the total score is not less than 90 points: *Provided*, That canned mushrooms may be fairly uniform in size and shape for the applicable styles if the total score is not less than 90 points.

(b) "U.S. Grade B" or ("U.S. Extra Standard") is the quality of canned mushrooms that possess similar varietal characteristics; that possess a normal flavor and odor; that possess a fairly good color; that are fairly uniform in size and shape, except for the style of "stems and pieces"; that are fairly free from defects; that possess a fairly good character; and that for those factors which are scored in accordance with the scoring system outlined in this subpart the total score is not less than 80 points: *Provided*, That canned mushrooms may fail to meet the requirements for U.S. Grade B for the factor of uniformity of size and shape for the applicable styles if the total score is not less than 80 points.

(c) "Substandard" is the quality of canned mushrooms that fail to meet the requirements of U.S. Grade B.

SIZES, FILL OF CONTAINER, AND DRAINED WEIGHTS

§ 52.1485 Sizes of canned mushrooms in the styles of whole and buttons.

(a) **No. 0 (Midget)** size mushrooms will pass through a round opening ½ inch in diameter.

(b) **No. 1 (Tiny)** size mushrooms will pass through a round opening ⅝ inch in diameter but will not pass through a round opening ½ inch in diameter.

(c) **No. 2 (Small)** size mushrooms will pass through a round opening ⅞ inch in diameter but will not pass through a round opening ⅝ inch in diameter.

(d) **No. 3 (Medium)** size mushrooms will pass through a round opening 1⅛ inches in diameter but will not pass through a round opening ⅞ inch in diameter.

(e) **No. 4 (Large)** size mushrooms will pass through a round opening 1⅝ inches in diameter but will not pass through a round opening 1⅛ inches in diameter.

(f) **No. 5 (Extra Large)** size mushrooms are those too large to pass through a round opening 1⅝ inches in diameter.

§ 52.1486 Fill of container for canned mushrooms.

The standard for fill of container for canned mushrooms is not incorporated in the grades of the finished product, since fill of container, as such, is not a factor of quality for the purpose of these grades. The standard of fill of container for canned mushrooms is such that the drained weight of mushrooms is not less than 56 percent of the water capacity of the container if such capacity is less than 11.0 ounces avoirdupois; not less than 59 percent of the water capacity of the container if such capacity is 11.0 ounces or more but less than 25 ounces avoirdupois; and not less than 62 percent of the water capacity of the container if such capacity is 25 ounces avoirdupois or more. Canned mushrooms which do not meet this requirement are "Below Standard in Fill".

§ 52.1487 Minimum drained weights for canned mushrooms.

(a) *General.* The total weight of drained mushrooms (drained weight) shall be not less than that shown for the respective size of containers in Table I of this section.

(b) *Method of ascertaining the drained weight.* The total weight of drained mushrooms is determined by emptying the contents of the container upon a United States Standard No. 8 circular sieve of proper diameter containing 8 meshes to the inch (0.0937—±3 percent, square openings) so as to distribute the product evenly, inclining the sieve slightly to facilitate drainage, and allowing to drain for two minutes. The drained weight is the weight of the sieve and mushrooms less the weight of the dry sieve. A sieve 8 inches in diameter is used for the equivalent of a No. 3 size can (404 x 700) and smaller and a sieve 12 inches in diameter is used for containers larger than the equivalent of a No. 3 size can.

FACTORS OF QUALITY

§ 52.1488 Ascertaining the grade.

(a) The grade of canned mushrooms is ascertained by considering in conjunction with the requirements of the respective grade the respective ratings for the factors of color, uniformity of size and shape, defects, and character.

(b) The relative importance of each factor which is scored is expressed numerically on the scale of 100. The maximum number of points that may be given each such factor is:

Factors	Points
Color	30
Uniformity of size and shape	20
Defects	30
Character	20
Total score	100

(c) "Normal flavor and odor" means that the product is free from objectionable flavors and objectionable odors of any kind.

§ 52.1489 Ascertaining the rating for the factors which are scored.

The essential variations within each factor which is scored are so described that the value may be ascertained for each factor and expressed numerically. The numerical range within each factor which is scored is inclusive (for example, "18 to 20 points" means 18, 19, or 20 points).

§ 52.1490 Color.

(a) (*A*) *classification.* Canned mushrooms that possess a good color may be given a score of 27 to 30 points. "Good color" means that the canned mushrooms possess a color that is practically uniform, bright, and typical of canned mushrooms produced from mushrooms of similar varietal characteristics and meet the following additional requirements for the respective color type:

(1) *White or Cream.* The color of the surface of the individual caps or portions thereof is not darker than medium cream, which color may possess a slight tannish cast that does not more than slightly affect the overall color appearance of the units, individually or collectively; and with respect to the styles of sliced buttons, sliced whole, random sliced whole, and stems and pieces, the color of gills of the sliced units is not darker than light tannish gray: *Provided*, That in sliced units the contrast in color

between the gills and the surface of the cap of such sliced units does not more than slightly affect the overall color appearance of the product.

(2) *Brown.* The color of the surface of the individual caps is not darker than light brown, which color may possess a slight grayish cast that does not more than slightly affect the overall color appearance; and with respect to the styles of sliced buttons, sliced whole, random sliced whole, and stems and pieces, the color of the gills of the sliced units is not darker than medium brownish gray: *Provided*, That in sliced units the contrast in color between the gills and the surface of the cap of such sliced units does not more than slightly affect the overall color appearance of the product.

(b) *(B) classification.* Canned mushrooms that possess a fairly good color may be given a score of 24 to 26 points. Canned mushrooms that fall into this classification shall not be graded above U.S. Grade B, regardless of the total score for the product (this is a limiting rule). "Fairly good color" means that the canned mushrooms possess a color that is typical of canned mushrooms produced from mushrooms of similar varietal characteristics and that such color may be dull but not to the extent that the appearance of the product is seriously affected; and that the canned mushrooms meet the following additional requirements for the respective color types:

(1) *White or Cream.* The color of the surface of the individual caps may be dark cream, which color may possess a gray or brown cast that does not seriously affect the overall color appearance of the product; and with respect to the styles of sliced buttons, sliced whole, random sliced whole, and stems and pieces, the color of the gills of the sliced units is not darker than tannish gray: *Provided*, That in sliced units the contrast in color between the gills and surface of the cap of such sliced units does not seriously affect the overall color appearance of the product.

(2) *Brown.* The color of the surface of the individual caps may be medium brown in color which color may possess a grayish cast that does not seriously affect the overall color appearance of the product, and with respect to the styles of sliced buttons, sliced whole, random sliced whole, and stems and pieces, the color of the gills of the sliced units may be dark brownish gray: *Provided*, That in sliced units the contrast in color between the gills and surface of the cap of such sliced units does not seriously affect the overall color appearance of the product.

(c) *(SStd.) classification.* Canned mushrooms that fail to meet the requirements of paragraph (b) of this section may be given a score of 0 to 23 points and shall not be graded above Substandard, regardless of the total score for the product (this is a limiting rule).

§ 52.1491 Uniformity of size and shape.

(a) *General.* The factor of uniformity of size and shape for the style of stems and pieces of canned mushrooms is not scored; the other three factors (color, defects, and character, as applicable) are scored and the total multiplied by 100 and divided by 80, dropping any fractions to determine the total score.

(b) *Definitions of terms*—(1) *Diameter.* The diameter of a cap in the styles of whole, buttons, sliced whole mushrooms, and sliced buttons means the greatest width of the cap when measured parallel with the under side of the cap.

(2) *Center slice.* "Center slice" in the styles of sliced buttons and sliced whole mushrooms means a unit sliced from a mushroom button or from a whole mushroom approximately parallel to the longitudinal stem axis; possesses two cut surfaces; and measures more than ½ inch in the longest dimension.

(3) *Small side-slice.* "Small side-slice" in the styles of sliced buttons, sliced whole mushrooms, and random sliced whole mushrooms means a slice without attached stem or portion of stem; which possesses only one cut surface; and which measures ½ inch or less in the longest dimension.

(c) *(A) classification.* Except in the style of stems and pieces, canned mushrooms that are practically uniform in size and shape may be given a score of 18 to 20 points. "Practically uniform in size and shape" has the following meanings with respect to the applicable styles of canned mushrooms:

(1) *Whole; buttons.* The units are practically uniform in shape; the stems are cut transversely; and the diameter of the cap with the largest diameter does not exceed the diameter of the cap with the smallest diameter by more than ¼ inch; and of all the units in the container, in the 85 percent, by count, with the most uniform diameters, the diameter of the cap with the largest diameter does not exceed the diameter of the cap with the smallest diameter by more than ⅛ inch.

(2) *Sliced whole mushrooms, sliced buttons.* The presence of irregular-shaped units does not materially affect the appearance of the product; not more than 5 percent, by weight, of the units may be small side-slices; and the diameter of the center slice with the largest diameter does not exceed the diameter of the center slice with the smallest diameter by more than ⅜ inch.

(3) *Random sliced whole mushrooms.* Not more than 5 percent, by weight, of all the units may be small side-slices.

(d) *(B) classification.* Except in the styles of stems and pieces, canned mushrooms that are fairly uniform in size and shape may be given a score of 16 or 17 points. "Fairly uniform in size and shape" has the following meanings with respect to the applicable styles of canned mushrooms:

(1) *Whole; buttons.* The units are fairly uniform in shape; the stems are cut transversely; and of all the units in the container, in the 85 percent, by count, with the most uniform diameters, the diameter of the cap with the largest diameter does not exceed the diameter of the cap with the smallest diameter by more than ¼ inch.

(2) *Sliced whole mushrooms; sliced buttons.* The presence of irregular shaped units does not seriously affect the appearance of the product; not more than 10 percent, by weight, of the units may be small side-slices; and the diameter of the center slice with the largest diameter does not exceed the diameter of the center slice with the smallest diameter by more than ⅜ inch.

(3) *Random sliced mushrooms.* Not more than 10 percent, by weight, of the units may be small side-slices.

(e) *(SStd.) classification.* Canned mushrooms that fail to meet the requirements of paragraph (d) of this section may be given a score of 0 to 15 points. Canned mushrooms that fall into this classification shall not be graded above U.S. Grade B, regardless of the total score for the product (this is a partial limiting rule).

§ 52.1492 Defects.

(a) *General.* The factor of defects refers to the degree of freedom from units which are crushed or broken, damaged, or seriously damaged.

(b) *Definitions of terms.* (1) "Crushed or broken unit" with respect to all styles other than the style of "stems and pieces" means a unit that is crushed to the extent so as to destroy its normal shape or that is severed into two or more separate parts.

(2) "Damaged" means damaged by discoloration, pathological injury, mechanical injury, or damaged by other means to such an extent that the appearance or eating quality of the unit is materially affected. Knife marks resulting from the preparation of sliced whole mushrooms, random sliced whole mushrooms, or sliced buttons are not considered mechanical injury.

(3) "Seriously damaged" means damaged to such an extent that the appearance or eating quality of the unit is seriously affected.

(c) *(A) classification.* Canned mushrooms that are practically free from defects may be given a score of 27 to 30 points. "Practically free from defects" means:

(1) The product does not exceed the applicable allowances prescribed for the respective type of defect in Table II of this section; and

(2) Notwithstanding the specified allowances, the presence of crushed or broken units in the applicable styles, damaged, and seriously damaged units does not materially affect the appearance or eating quality of the product.

(d) *(B) classification.* Canned mushrooms that are fairly free from defects may be given a score of 24 to 26 points. Canned mushrooms that fall into this classification shall not be graded above U.S. Grade B, regardless of the total score for the product (this is a limiting rule). "Fairly free from defects" means:

(1) The product does not exceed the applicable allowances prescribed for the respective type of defect in Table II of this section; and

(2) Notwithstanding the specified allowances, the presence of crushed or broken units in the applicable styles, damaged, and seriously damaged units does not seriously affect the appearance or eating quality of the product.

(e) *(SStd.) classification.* Canned mushrooms that fail to meet the requirements of paragraph (d) of this section may be given a score of 0 to 23 points and shall not be graded above Substandard, regardless of the total score for the product (this is a limiting rule).

[1] One unit in a container is permitted to be seriously damaged: *Provided*, That the total number of such seriously damaged units in all of the containers comprising the sample is within the percentage permitted for such defect.

§ 52.1493 Character.

(a) *General.* The factor of character refers to the tenderness and texture of the canned mushrooms and the development of the cap in the styles of whole, buttons, sliced whole mushrooms, random sliced whole, and sliced buttons.

(b) *Definition of closed veil.* "Closed veil" means that the membrane which extends from the inner edge of the cap to the stem practically covers the gills.

(c) *(A) classification.* Canned mushrooms that possess a good character may be given a score of 18 to 20 points. "Good character" means that the units are firm and tender; the product is practically free from fibrous or rubbery units; and that with respect to the styles of "Whole", "Buttons", "Sliced whole", "Random sliced whole", and "Sliced buttons" not less than 95 percent, by weight, of all the units possess closed veils. One unit which fails to meet the requirements for closed veil is permitted in a container: *Provided*, That the average for such units in all the containers comprising the sample does not exceed 5 percent, by weight.

(d) *(B) classification.* Canned mushrooms that possess a fairly good character may be given a score of 16 or 17 points. Canned mushrooms that fall into this classification shall not be graded above U.S. Grade B, regardless of the total score for the product (this is a limiting rule). "Fairly good character" means that the units are reasonably tender; may be slightly soft; the product is reasonably free from fibrous or rubbery units; and that with respect to the styles of "Whole", "Buttons", "Sliced whole", "Random sliced whole", and "Sliced buttons" not less than 90 percent, by weight, of all the units possess closed veils. One unit which fails to meet the requirements for closed veil is permitted in a container: *Provided*, That the average for such units in all the containers comprising the sample does not exceed 10 percent, by weight.

(e) *(SStd.) classification.* Canned mushrooms that fail to meet the requirements of paragraph (d) of this section may be given a score of 0 to 23 points and shall not be graded above Substandard, regardless of the total score for the product (this is a limiting rule).

LOT INSPECTION AND CERTIFICATION

§ 52.1494 Ascertaining the grade of a lot.

The grade of a lot of canned mushrooms covered by these standards is determined by the procedures set forth in the Regulations Governing Inspection and Certification of Processed Fruits and Vegetables, Processed Products Thereof, and Certain Other Processed Food Products (7 CFR §§ 52.1 through 52.87 of this title).

Chapter VII—Agricultural Stabilization and Conservation Service (Farm Marketing Quotas and Acreage Allotments), Department of Agriculture

[Amdt. 16]

PART 728—WHEAT

Subpart—Regulations Pertaining to Farm Acreage Allotments for 1960 and Subsequent Crops of Wheat

INCREASED DURUM WHEAT (CLASS II) ALLOTMENTS FOR 1962

The amendments herein are issued pursuant to and in accordance with the Agricultural Adjustment Act of 1938, as amended, including the amendments in section 125 of the Agricultural Act of 1961, and prescribe the percentage of increase and govern the establishment of increased 1962 farm wheat acreage allotments and marketing quotas in designated counties for the purpose of increasing the production of Durum Wheat (Class II) for 1962.

Section 125 of the Agricultural Act of 1961 amended 334(e) of the Agricultural Adjustment Act of 1938, as amended, to authorize the Secretary of Agriculture to determine with respect to each of the 1962, 1963 and 1964 crops of Durum Wheat (Class II) whether the acreage allotments for such crop for farms producing such wheat will be inadequate to provide for the production of a sufficient quantity of Durum Wheat (Class II) to satisfy the demand therefor (but not including export demand involving a subsidy by, or loss to, the Federal Government). If with respect to any such year's crop of Durum Wheat (Class II) the Secretary should determine that the acreage allotments of farms producing such wheat are inadequate to provide for the production of a sufficient quantity to satisfy such demands, the statute directs him to determine and designate the counties in the States of North Dakota, Minnesota, Montana, South Dakota, and California which are capable of producing Durum Wheat (Class II) and which have produced such wheat for commercial food products during one or more of the five years immediately preceding the year in which such crop is harvested, and determine the percentage factor by which the average annual production of Durum Wheat (Class II) in the two years 1960 and 1961 must be increased to supply such demand.

Notice was given (26 F.R. 9912) that the Secretary of Agriculture was preparing to make such determination with respect to the 1962 crop of Durum Wheat (Class II); and growers and millers of Durum Wheat (Class II), manufacturers of semolina products, and other interested persons were invited to submit data, views, and recommendations with respect thereto. The data, views, and recommendations which were submitted pursuant to such notice have been duly considered in the issuance of the amendments herein within the limits permitted by the Agricultural Adjustment Act of 1938, as amended.

In making the determination of counties in which the increased allotments and quotas for 1962 will be applicable and which are to be designated in § 728.-1026, paragraph (h), the Durum Wheat (Class II) acreage estimates of the Statistical Reporting Service, farm data obtained from wheat producers' production as reported by the grain trade, and reports from agronomists and experiment stations will be used to determine whether Durum Wheat (Class II) has been produced for commercial food products in one or more of the five years 1957 through 1961, which are the five years immediately preceding the crop year 1962.

The amendments herein which govern the increase in farm wheat acreage allotments provide for the determination

with respect to an eligible farm of an "original" allotment, which is the 1962 farm acreage allotment after the reduction required by § 728.1020a; a "conditional" allotment, computed by multiplying the average acreage of durum wheat on the farm during the years 1960 and 1961 by the percentage prescribed in § 728.1027(a) and adding such product to the original allotment; and a "final" allotment, determined after performance on the farm has been checked.

Section 334(e) of the Agricultural Adjustment Act of 1938, as amended, also provides that the increased allotments under that section shall be conditioned upon the producer planting to Durum Wheat (Class II) an acreage equal to the 1960–61 average acreage of Durum Wheat (Class II) plus the amount of increase. In view of the fact that wheat allotments for 1962 are ten percent less than they were for 1960 and 1961, this provision, if applied literally, would require some producers who receive increased allotments for 1962 and who planted all or nearly all their 1960 and 1961 allotments to Durum Wheat (Class II) to produce excess wheat in order to be eligible for the increase. Accordingly, in order to prevent such a result, provision is made in § 728.1027 to have the increased allotment and final allotment determinations for such farms made on the basis of the smaller of the 1960–61 average acreage of Durum Wheat (Class II) or the 1962 original allotment.

Section 334(e) of the 1938 Act, as amended, would also place many producers who planted Durum Wheat (Class II) in excess of the 1960–61 average acreage of such wheat but who did not plant to Durum Wheat (Class II) in 1962 the full amount of the increase in an excess position with respect to the original allotment for the farm. Therefore, in order to avoid the necessity of a producer planting to Durum Wheat (Class II) the exact amount of his increased allotment, § 728.1027 provides that the final allotment will be the 1962 original allotment plus the amount by which the 1962 acreage of Durum Wheat (Class II) on the farm exceeds the 1960–1961 average acreage of such wheat on the farm, but not to exceed the conditional allotment.

As indicated above, public notice was given that the Secretary of Agriculture was preparing to make certain determinations required by section 334(e) of the Agricultural Adjustment Act of 1938, as amended, with respect to the 1962 crop of wheat. Public notice was not specifically given of the proposed issuance of amendments to the regulations for determining wheat acreage allotments for 1962 to provide for the increases in allotment necessary to increase the production of Durum Wheat (Class II) for 1962. In order that producers may proceed with plans for seeding Durum Wheat (Class II) and other classes of wheat of the 1962 crop of wheat as expeditiously as possible and particularly to enable producers to determine whether to participate in the 1962 wheat stabilization program, it is hereby found that with respect to the amendments herein of which public notice has not been given compliance with the public notice and procedure requirements of section 4 of the Administrative Procedure Act is impracticable and contrary to the public interest; and that as to all the amendments herein compliance with the 30-day effective date provisions of section 4 of the Administrative Procedure Act is impracticable and contrary to the public interest. Therefore, the amendments herein shall become effective upon filing of this document with the Director, Office of the Federal Register.

§ 728.1011 [Amendment]

1. Section 728.1011 is amended by adding a new paragraph (k) to read as follows:

(k) "Cropland well suited to wheat" means that acreage of cropland which is determined by the county committee in accordance with generally accepted local standards to be well suited to the production of wheat, considering topography, type of soil, drainage, freedom from overflow, and freedom from serious wind erosion.

2. A new § 728.1027 is added to read as follows:

§ 728.1027 Increase in 1962 acreage allotments for production of Durum Wheat (Class II).

(a) It is estimated that the domestic utilization of the 1962 crop of durum wheat will be from 27 to 30 million bushels, exports of such crop (without benefit of subsidy by, or loss to, the Federal Government) will be from 5 to 7 million bushels, and carry-over requirements of such crop will be from 5 to 8 million bushels, making total requirements of from 37 to 45 million bushels. For the purposes hereof the demands for the 1962 crop of such wheat are determined to be 37,856,000 bushels. It is determined that the average acreage planted to durum wheat during the years 1960 and 1961 was 1,690,000 acres. It is determined that because of less than average current subsoil conditions the estimated yield for the 1962 crop of durum wheat will be 16 bushels per planted acre. A 1962 planted acreage of durum wheat of 1,690,000 acres (the 1960–1961 average acreage) at a yield of 16 bushels per planted acre would produce a 1962 crop of durum wheat of 27,040,000 bushels, which is determined to be inadequate to meet the demands determined above. The increase in acreage planted to the 1962 crop of durum wheat over the average acreage planted to such wheat during the years 1960 and 1961 (i.e., 1,690,000) which would be required, at an estimated average yield of 16 bushels per acre, to produce a 1962 crop of such wheat required to meet the demands for the 1962 crop of such wheat determined at 37,856,000 bushels, would be 40 per centum. It is therefore determined that the acreage allotments for the 1962 crop of wheat for farms eligible for increases under this section shall be increased by forty per centum of the average acreage planted to durum wheat on such farms during the years 1960 and 1961, as determined under paragraph (e) of this section.

(b) Upon written application signed by the producer prior to the closing of the spring signup period under the 1962 wheat stabilization program, which will be March 30, 1962, the conditional acreage allotment established under the provisions of this section for any farm in any of the approved Durum Wheat (Class II) counties designated in paragraph (i) of this section shall be computed by multiplying the average acreage of Durum Wheat (Class II) on the farm during the years 1960 and 1961, as determined under paragraph (e) of this section, by 40 percent and adding such product to the 1962 farm acreage allotment after reduction as required by § 728.1020a, hereinafter referred to as the "original allotment": *Provided*, That such conditional allotment shall not exceed the cropland on the farm well suited to wheat.

(c) The final allotment for the farm shall, upon proof of performance, be the 1962 original allotment increased by the amount by which the 1962 acreage of Durum Wheat (Class II) on the farm is greater than the average acreage of Durum Wheat (Class II) on the farm during the two years 1960 and 1961, as determined under paragraph (e) of this section: *Provided*, That the final allotment shall not exceed the smaller of the conditional allotment or the 1962 acreage of Durum Wheat (Class II) on the farm plus the 1962 acreage of other wheat on the farm. Notwithstanding the above, if the total of all wheat acreage for 1962 does not exceed the original allotment, or if the 1962 acreage of Durum Wheat (Class II) is not greater than the average Durum Wheat (Class II) acreage on the farm during the years 1960 and 1961, as determined in paragraph (e) of this section, the final allotment shall be the original allotment.

(d) The increase in wheat acreage allotments authorized by this section shall be in addition to the National, State, and county wheat acreage allotments, and the acreage of Durum Wheat (Class II) on such increased allotments shall not be considered in establishing future State, county, and farm acreage allotments.

(e) For the purpose of the determinations in paragraphs (b) and (c) of this section, the 1960–61 average acreage of Durum Wheat (Class II) shall be considered to be the smaller of the actual 1960–61 average acreage of Durum Wheat (Class II) or the 1962 original allotment.

(f) For purposes of the determinations in paragraphs (b) and (c) of this section, in the counties of Modoc and Siskiyou, California, the 1962 original allotment shall be considered to be the allotment established under provisions of § 728.1020a or, if applicable to the farm, the special acreage allotment determined therefor under § 728.1026.

(g) If the total 1962 acreage of all wheat on the farm exceeds the final allotment, any wheat acreage in excess of such final allotment shall be regarded as excess wheat acreage.

(h) Any farm receiving an increased allotment in accordance with paragraphs (b) and (c) of this section shall not be permitted to participate in the 1962 wheat stabilization program.

(i) Approved Durum Wheat (Class II) counties are counties which (1) are capable of producing Durum Wheat (Class II), (2) have produced such wheat for commercial food products during one or more of the five years 1957 through 1961, and (3) are located in the States of North Dakota, Minnesota, Montana, South Dakota and California. A listing of such counties will be provided by a subsequent amendment.

Chapter VIII—Agricultural Stabilization and Conservation Service (Sugar), Department of Agriculture

SUBCHAPTER G—DETERMINATION OF PROPORTIONATE SHARES

[Sugar Determination 850.145]

PART 850—DOMESTIC BEET SUGAR PRODUCING AREA

Proportionate Shares for Farms—1962 Crop

Pursuant to the provisions of section 302 of the Sugar Act of 1948, as amended (hereinafter referred to as "act"), the following determination is hereby issued:

§ 850.145 Proportionate shares for farms in the domestic beet sugar area.

(a) *Definitions.* For the purpose of this section, the terms:

(1) "Secretary" means the Secretary of Agriculture of the United States, or any officer or employee of the United States Department of Agriculture to whom authority has been delegated, or to whom authority may hereafter be delegated, to act in his stead.

(2) "State Committee" means the persons in a State designated by the Secretary as the Agricultural Stabilization and Conservation State Committee, under section 8(b) of the Soil Conservation and Domestic Allotment Act, as amended.

(3) "County Committee" means the persons elected within a county as the County Committee pursuant to regulations governing the selection and function of Agricultural Stabilization and Conservation County and Community Committees, under section 8(b) of the Soil Conservation and Domestic Allotment Act, as amended.

(4) "Planted acres" means the acreage of sugar beets which is either harvested for the extraction of sugar or liquid sugar or was determined by a member of the County Committee to have been bona fide abandoned acreage to the extent of fulfilling at least the requirements for abandonment payment set forth in subparagraphs (1) through (5) of § 842.2(a) of this chapter, as shown by the office records of the County Committee.

(5) "Operator" means the person (or persons) who controls and directs the sugar beet operations on the farm and who bears the major portion of the risk of financial loss or the opportunity for financial gain resulting from such operations.

(6) "Farm" shall have the meaning set forth in Part 822 of this chapter.

(7) "Producer" shall have the meaning set forth in section 101(k) of the act.

(b) *Proportionate shares.* The proportionate share of the 1962 crop for each farm in the Domestic Beet Sugar Area shall be the number of acres planted thereon for the production of sugar beets to be marketed (or processed by the producer) for the extraction of sugar or liquid sugar during the 1962-crop season. For the purpose of establishing farm proportionate shares for subsequent crops, the sugar beet production record for any of the crop years 1958 through 1962 of any land removed from sugar beet production either because of transfer of such land by sale, lease or donation to any Federal, State or other agency or entity having the right of eminent domain, shall, upon application to the appropriate State Committee within three years from the date of such transfer, be added to the sugar beet production record for such crop years, if any, of other land within the State owned or purchased by the owner of the land so transferred.

(c) *Eligibility for payment under the act.* For any producer of 1962-crop sugar beets on the farm to be eligible for payment under the act, the requirements of the act with respect to child labor shall have been met and the requirements of the act and of the regulations issued pursuant thereto with respect to wage rates, and, in the case of a processor-producer (a producer who is also a processor), prices paid for sugar beets shall have been met.

(d) *Filing application for payment.* Application for payments authorized under Title III of the act with respect to sugar beets planted on a farm for harvest during the 1962-crop season shall be made on Form SU–110 by the producer on the farm, or his legal representative, who must sign the form and file it in the ASCS county office for the county wherein the farm is located, or with a representative of such office, no later than December 31, 1964.

(e) *Determination of eligibility and basis for payment; and appeals for review thereof.* Compliance with the conditions prescribed by the act and regulations for any payment authorized under Title III of the act, the facts constituting the basis for any such payment, and the amount thereof, shall be determined by the County Committee, such determination to be subject to review and approval or reversal and redetermination by the State Committee or by the Secretary. Determinations by the County Committee and redeterminations by the State Committee or the Secretary shall be made and decided in accordance with the applicable provisions of the act and regulations issued by the Secretary thereunder, and on the facts in the individual case. Within 15 days after the notice of a determination by the County Committee is mailed to or otherwise made available to a producer, he may request the County Committee in writing to reconsider such determination. Within 5 days after all facts in the case have been considered, the County Committee shall notify him of its decision in writing. If the producer is dissatisfied with the decision of the County Committee, he may, within 15 days after the date of mailing of the decision to him, appeal in writing to the State Committee. The State Committee shall notify him in writing of its decision within 5 days after all facts in the case have been considered. The producer or his representative shall be afforded the opportunity of appearing in person before the County Committee with respect to his request for reconsideration of a determination, and before the State Committee in regard to his appeal. If the producer is dissatisfied with the decision of the State Committee, he may, within 15 days after the notice of the decision is forwarded to or otherwise made available to him, appeal the decision of the State Committee to the Secretary. The appeal to the Secretary shall be in writing, and the decision of the Secretary to affirm or modify the decision of the State Committee shall be final. The procedures applicable to claims for unpaid wages are provided for under regulations pertaining thereto, as issued by the Secretary.

(f) *Obtaining information regarding eligibility for payment.* Where it is necessary to obtain information to assist the County Committee in determining compliance with the conditions prescribed by the act and regulations for any payment authorized under Title III of the act, the facts constituting the basis for any such payment or the amount thereof, or to assist the State Committee or the Secretary in reviewing, and acting upon, any such determination by the County Committee, any such information with respect to acreage or compliance shall be obtained to the extent possible as provided in the applicable provisions of Part 718 of Chapter VII of this title (24 F.R. 4223), as amended. In the absence of a provision in such Part 718 for obtaining any such information, any employee of the County Committee or employees of the State Committees designated respectively by the County Office Manager or by the State Executive Director to be qualified to perform such a duty may obtain such information. If the operator, or his representative, of any farm with respect to which application is made for any payment authorized under Title III of the act prevents the obtaining of the information necessary to determine compliance with the conditions for any such payment, the facts constituting the basis of any such payment or the amount thereof, as provided in this paragraph, the conditions prescribed by the act and regulations for any such payment shall be deemed not to have been met until such farm operator or his representative permits such information to be obtained.

STATEMENT OF BASES AND CONSIDERATIONS

Sugar Act requirements. As a condition for payment, section 301(b) of the act provides that there shall not have been marketed (or processed), except for livestock feed or for the production of livestock feed, an acreage of sugar beets grown on the farm and used for the production of sugar or liquid sugar in excess of the proportionate share for the farm, as determined by the Secretary pursuant to section 302 of the act.

Section 302(a) of the act provides that the amount of sugar with respect to which payment may be made shall be the amount of sugar commercially recoverable from the sugar beets grown on a farm and marketed (or processed by the producer) for sugar or liquid sugar not in excess of the proportionate share established for the farm.

Section 302(b) provides that in determining the proportionate share for a farm, the Secretary may take into consideration the past production on the farm of sugar beets marketed (or processed) within the proportionate share for the extraction of sugar or liquid sugar and the ability to produce such sugar beets, and that the Secretary shall, insofar as practicable, protect the interests of new producers and small producers, and the interests of producers who are cash tenants, share tenants, or sharecroppers, and of the producers in any local producing area whose past production has been adversely, seriously and generally affected by drought, storm, flood, freeze, disease or insects, or other similar abnormal and uncontrollable conditions.

General. Pursuant to the foregoing provisions of the act, proportionate shares for sugar beet farms are established for each crop for use in determining the amounts of sugar for payment on individual farms. Restrictive proportionate shares are required in an area for any crop when the indicated production will be greater than the quantity needed to enable the area to meet the quota (and provide a normal carryover inventory) as estimated by the Secretary for such area for the calendar year during which the larger part of the sugar from such crop normally would be marketed. For a restricted crop, the marketing of sugar beets within the restrictive proportionate shares established constitutes one of the conditions of payment.

Acreage limitations were in effect in the Domestic Beet Sugar Producing Area for each of the crops of 1955 through 1960. During this period, the national acreage limitations ranged from 850,000 acres (for the 1955 and 1956 crops) to 1,000,000 acres (for the 1960 crop). When unfavorable weather conditions and a shortage of irrigation water resulted in a considerable underplanting of the 1960-crop acreage, provision was made for reallocating unused acreages between States to permit the covering in under proportionate shares of overplanted acreages and to permit limited additional plantings so as to more fully utilize the acreage limitation.

During recent years, the quota for the beet area has been augmented by large deficit reallocations from Hawaii and Puerto Rico. Such augmented quotas have made it difficult for processors in the area to fully supply their market during the months of high demand and have, likewise, necessitated a large degree of dependence upon new-crop sugar during the last several months of the year. In each of the last three years, the area has not fully met its quota, despite substantial constructive deliveries of beet sugar.

To permit the production of sufficient 1961-crop beet sugar to meet anticipated quota and carryover requirements, the acreage of that crop was not restricted by the Government. Based upon the most recent information available, about 1,120,000 acres were planted to the crop, an increase of about 16 percent over the 1960-crop level. Yields of sugar per acre have been disappointing and it is now expected that production will be only slightly larger than that from the 1960 crop. Recent estimates of both production and marketing indicate that the effective carryover inventory of sugar (i.e. sugar on hand at the beginning of 1962 plus sugar produced after January 1 from 1961-crop sugar beets) on January 1, 1962, will be less than on January 1 of this year by at least 100,000 tons. Information concerning the yields, of course, became available after the public hearing.

Public hearing. In accordance with established practice and as announced in a press release of August 16, 1961, an informal public hearing was held by the Department in Denver, Colorado, on August 29 for the purpose of obtaining the views and recommendations of sugar beet producers, processors and other interested persons as to whether there would be a need to invoke the provisions of the act in restricting 1962-crop sugar beet acreages. To provide a basis for full discussion at the hearing, the Department sent a letter to sugar beet grower associations and to sugar beet processors on August 18 re-stating the purpose of the hearing and containing suggestions on how a restrictive program might operate should restrictions become necessary. Views were also invited on the desirable level of the effective inventory of beet sugar at the end of 1962 and, if the Department later determined that acreage restrictions would be necessary, the desirable level of the national acreage limitation. The hearing was attended by about 170 persons, many of whom presented testimony. Numerous briefs have been filed with the Department since the hearing.

At the hearing and in subsequent briefs, representatives of grower groups in several States wherein there is a desire to expand acreage, as well as spokesmen for districts in certain States where sugar beets are not now grown, strongly urged that 1962 beet acreage be unrestricted. Many of the latter submitted testimony favoring an increase in the quota for the beet area and expressed hope that their districts would be included in any acreage expansion that might result. Some of the grower groups recommending unrestricted acreage suggested that growers and processors working together could exercise the needed control by judicious contracting of acreage. Spokesmen for the majority of the established sugar beet growers in the country went on record at the hearing or in briefs submitted subsequent thereto as favoring acreage restrictions. The problems of storing and marketing large quantities of beet sugar and the resultant effects on net returns for sugar and prices for sugar beets were important considerations in the testimony of this group. Dissenting opinions were presented with respect to both viewpoints.

Of the processors testifying at the hearing or submitting briefs, three recommended that 1962-crop acreages be restricted to avoid an oversupply of beet sugar with the resultant detrimental effects on price. Four recommended that the crop be unrestricted. The uncertainty in the world situation, the need for flexibility in contracting for acreage to meet crop rotation problems, and the probability of an increase in the quota for the area, were the main reasons expressed by this latter group. Two processors suggested, in effect, that the decision as to whether or not acreage restrictions are required be made by the Department in light of probable marketing opportunities and other pertinent factors. Two testifying suggested that any necessary controls to avoid excessive supplies be exercised by grower and processor cooperation.

The recommendations with respect to the advisable national acreage limitation, if restrictions were determined necessary by the Department, ranged from 950,000 to not less than the estimated 1961 acreage level of 1,120,000.

Determination. This determination provides that the 1962-crop proportionate share for each farm in the domestic beet sugar producing area shall be the number of acres planted thereon for the production of sugar beets to be marketed (or processed by the producers) for the extraction of sugar or liquid sugar during the 1962-crop season. This determination of proportionate shares for the 1962 crop has been made upon a finding that it is not necessary to restrict farm proportionate shares for such crop to prevent the area from accumulating a quantity of sugar in excess of that needed to enable the Domestic Beet Sugar Area to meet its qouta as estimated for the calendar year during which the larger part of such crop normally would be marketed and to provide a normal carryover inventory.

The present Sugar Act expires June 30, 1962. Hence, anticipation of the quantity of beet sugar that will be needed from the 1962 crop to meet requirements in 1963, when most of the sugar from the crop will be marketed, involves assumptions as to future legislation. For the purposes of this determination it is assumed that the act will be extended and that the marketing opportunities for the area in 1962 will not be greatly less than in 1961 and that such opportunities may be somewhat higher in 1963.

It is recognized that the absence of legislation increasing the quota for the beet area in 1962 could, in conjunction with favorable weather conditions, result in a moderate increase in the effective inventory of sugar. However, except in a few areas, such as those wherein the lack of irrigation water and lack of farmer interest in acreage resulted in plantings below factory capacity, sugar beet production from the unrestricted 1961 crop represented nearly the maximum tonnages that existing processing facilities can handle. The processing of these beets has required considerable extension of the slicing period and unfavorable weather conditions could result in some losses of sugar beets in certain localities. If any processor did contract for more 1961-crop sugar beets than reasonable processing seasons dictate, it is presumed that appropriate adjustments will be made for the 1962 crop. Hence, it is not believed that unrestricted acreage in 1962 will result in any appreciable overall increase in sugar beet acreage from the 1961 level.

The absence of a Government acreage control program for the 1961 crop made possible (1) the general upward adjustment of the acreages of many producers whose operations had been too small to be economically feasible on a continuing basis, (2) the movement of acreages from areas wherein disease has made production uneconomical to areas better-suited to production, and (3) some desirable upward adjustments of sugar beet acreages for factories previously operating at levels far below capacity and in some instances below levels which would sustain future operation of the factories. In addition, many farmers who were able to obtain new-producer shares under unrestrictive programs received processor contracts in 1961. Many of these favorable changes would have been difficult under any type of Government restrictive program. No cases have been brought to the attention of the Department which would indicate that, in the absence of restrictions, processors have made downward adjustments in the contracted acreages of growers unless such adjustments were justified by desirable agronomic reasons or sound economics.

The possibilities of increased marketing opportunities for beet sugar, necessitating larger inventories, appear to outweigh the possibility of an excessive build up of inventories.

Accordingly, I hereby find and conclude that the aforestated determination will effectuate the applicable provisions of the act.

Title 12—BANKS AND BANKING

Chapter V—Federal Home Loan Bank Board

SUBCHAPTER C—FEDERAL SAVINGS AND LOAN SYSTEM

[No. 15,342]

PART 545—OPERATIONS

Distribution of Earnings

DECEMBER 29, 1961.

Resolved that the Federal Home Loan Bank Board, upon the basis of consideration by it of the advisability of amendment of § 545.1–1 of the rules and regulations for the Federal Savings and Loan System (12 CFR 545.1–1) as hereinafter set forth, and for the purpose of effecting said amendment, hereby amends said § 545.1–1 as follows, effective immediately:

1. Paragraph (b) of said section is hereby amended to read as follows:

(b) *Quarterly.* A Federal association which has a charter in the form of Charter N or Charter K (rev.) may, after adoption by its board of directors of a resolution so providing and while such resolution remains in effect, distribute earnings on savings accounts as of March 31, June 30, September 30, and December 31 of each year, or as of the last business day of each March, June, September, and December, after providing as of March 31 and September 30 for the payment of expenses, and for the pro rata portion of credits to reserves required by section 10 of Charter N and Charter K (rev.) for the six-month period ending on June 30 and December 31, respectively, next succeeding: *Provided,* That no such Federal association may so distribute earnings prior to June 30, 1963, if the home office of such Federal association is in a State, district, or territory (including Puerto Rico, Guam, and the Virgin Islands) where building and loan or savings and loan associations, homestead associations, cooperative banks, and mutual savings banks are prohibited by the laws of such State, district, or territory from distributing earnings quarterly.

2. The last proviso of paragraph (c) of said section is hereby amended to read as follows: "*Provided further,* That, prior to June 30, 1963, no such Federal association may so distribute earnings on amounts so withdrawn if the home office of such Federal association is in a State, district, or territory (including Puerto Rico, Guam, and the Virgin Islands) where building and loan or savings and loan associations, homestead associations, cooperative banks, and mutual savings banks are prohibited by the laws of such State, district, or territory from distributing earnings on amounts withdrawn between the dates as of which earnings are regularly distributed."

(Sec. 5, 48 Stat. 132, as amended; 12 U.S.C. 1464, Reorg. Plan No. 3 of 1947, 12 F.R. 4981, 3 CFR, 1947 Supp.)

Resolved further that, as said amendments only relieve restrictions, the Board hereby finds that notice and public procedure thereon are unnecessary under the provisions of § 508.12 of the General Regulations of the Federal Home Loan Bank Board (12 CFR 508.12) or section 4(a) of the Administrative Procedure Act and, as said amendments relieve restrictions, deferment of the effective date thereof is not required under section 4(c) of said Act.

By the Federal Home Loan Bank Board.

Title 21—FOOD AND DRUGS

Chapter I—Food and Drug Administration, Department of Health, Education, and Welfare

SUBCHAPTER B—FOOD AND FOOD PRODUCTS

PART 121—FOOD ADDITIVES

Subpart C—Food Additives Permitted in Animal Feed and Animal-Feed Supplements

HYGROMYCIN B

The Commissioner of Foods and Drugs, having evaluated the data submitted in petitions filed by Elanco Products Company, Division of Eli Lilly and Company, Indianapolis 6, Indiana, and other relevant material, has concluded that the following regulation should issue with respect to permitting the addition of tylosin phosphate as a growth promotant to the food additive hygromycin B in swine feed, and deleting the statement that hygromycin B may not be fed continuously for more than 8 weeks. Therefore, pursuant to the provisions of the Federal Food, Drug, and Cosmetic Act (sec. 409(c)(1), 72 Stat. 1786; 21 U.S.C. 348(c)(1)), and under the authority delegated to the Commissioner by the Secretary of Health, Education, and Welfare (25 F.R. 8625), § 121.213 of the food additive regulations (21 CFR 121.213; 26 F.R. 1213) is amended and changed to read as follows:

§ 121.213 Hygromycin B.

Hygromycin B may be safely used in medicated feed when incorporated therein in accordance with the following prescribed conditions:

(a) It is used or intended for use, as follows:

(1) In chicken feed as an aid in the control of infestation of large roundworms (Ascaris galli), cecal worms (Heterakis gallinae), and capillary worms (Capillaria columbae) whereby the finished medicated feed contains 8 grams (8,000,000 units) of hygromycin B activity per ton of feed.

(2) In swine feed as an aid in the control of infestation of large roundworms (Ascaris suis), nodular worm (Oesophagostemum dentatum), and whipworm (Trichuris suis) whereby the finished medicated feed contains 12 grams (12,-

000,000 units) of hygromycin B activity per ton of feed when used alone or in combination with one of the following:

(i) Chlortetracycline in accordance with the conditions prescribed in § 121.208.

(ii) Tylosin in accordance with the conditions prescribed in § 121.217(a)(1).

(b) To assure safe use of the additive, the label and labeling of the additive and that of any intermediate premix prepared therefrom shall bear, in addition to the other information required by the act, the following:

(1) The name of the additive.

(2) A statement of the concentration or strength of the additive contained therein.

(3) The word "medicated" prominently and conspicuously, wherever the term "feed" or "premix" is used, and in juxtaposition therewith.

(4) Adequate mixing directions to provide for a finished feed with the proper concentration of the additive, whether or not intermediate premixes are to be used.

(5) Adequate use directions to provide a finished feed labeled as provided in paragraph (c) of this section.

(c) To assure safe use of the additive, the label and labeling of the finished medicated feed shall bear, in addition to the other information required by the act, the following:

(1) The name of the additive.

(2) A statement of the concentration or strength of the additive contained therein.

(3) The word "medicated" prominently and conspicuously, wherever the term "feed" appears on the label.

(4) An appropriate statement of the conditions for which the feed is to be used.

(5) If the additive is to be used as prescribed in paragraph (a)(2) of this section, the label and labeling shall also include:

(i) A statement that the medicated feed is for swine only.

(ii) A statement that the medicated feed must be withdrawn 48 hours prior to slaughtering for food.

Any person who will be adversely affected by the foregoing order may at any time prior to the thirtieth day from the date of its publication in the FEDERAL REGISTER file with the Hearing Clerk, Department of Health, Education, and Welfare, Room 5440, 330 Independence Avenue SW., Washington 25, D.C., written objections thereto. Objections shall show wherein the person filing will be adversely affected by the order and specify with particularity the provisions of the order deemed objectionable and the grounds for the objections. If a hearing is requested, the objections must state the issues for the hearing. A hearing will be granted if the objections are supported by grounds legally sufficient to justify the relief sought. Objections may be accompanied by a memorandum or brief in support thereof. All documents shall be filed in quintuplicate.

Effective date. This order shall be effective on the date of its publication in the FEDERAL REGISTER.

SLIMICIDES

The Commissioner of Food and Drugs, having evaluated the data submitted in a petition filed by Shell Chemical Company, 110 West Fifty-first Street, New York 20, New York, and other relevant material, has concluded that the following amendment should be made with respect to the regulation concerning food additives resulting from the use of slimicides in the manufacture of paper and paperboard for use in food packaging. Under the prescribed conditions of safe usage, substances approved for use in slimicides are not expected to become components of food in any significant amount. Therefore, pursuant to the provisions of the Federal Food, Drug, and Cosmetic Act (sec. 409(c)(1), 72 Stat. 1786; 21 U.S.C. 348(c)(1)), and under the authority delegated to the Commissioner by the Secretary of Health, Education, and Welfare (25 F.R. 8625), the food additive regulations (21 CFR 121.2505 (26 F.R. 352, 4740, 8974)), are amended as follows:

Paragraphs (c) and (d) of § 121.2505 are changed to read:

§ 121.2505 Slimicides.

* * * * *

(c) Slime-control substances permitted for use in the preparation of slimicides include substances subject to prior sanction or approval for such use and the following:

List of substances	Limitations
Acrolein	
N-Alkyl (C_{12}-C_{16}) dimethylbenzyl ammonium chloride.	
bis(1,4-Bromoacetoxy)-2-butene	
Cupric nitrate	
3,5-Dimethyl-1,3,5,2*H*-tetrahydrothiadiazine-2-thione.	
Disodium cyanodithioimidocarbonate.	
2-Mercaptobenzothiazole	
Potassium *N*-methyldithiocarbamate.	
Potassium pentachlorophenate	
Potassium trichlorophenate	
Silver fluoride	Limit of addition to process water not to exceed 0.624 pound, calculated as silver fluoride, per ton of paper produced.
Silver nitrate	
Sodium dimethyldithiocarbamate	
Sodium 2-mercaptobenzothiazole	
Sodium pentachlorophenate	
Sodium trichlorophenate	

(d) Adjuvant substances permitted to be used in the preparation of slimicides include substances generally recognized as safe for use in food, substances generally recognized as safe for use in paper and paperboard, substances permitted to be used in paper and paperboard by other regulations in this chapter, and the following:

Acetone.
Ethanolamine.
Ethylenediamine.

Any person who will be adversely affected by the foregoing order may at any time prior to the thirtieth day from the date of its publication in the FEDERAL REGISTER file with the Hearing Clerk, Department of Health, Education, and Welfare, Room 5440, 330 Independence Avenue SW., Washington 25, D.C., written objections thereto. Objections shall show wherein the person filing will be adversely affected by the order and specify with particularity the provisions of the order deemed objectionable and the grounds for the objections. PART 121—FOOD ADDITIVES

Subpart F—Food Additives Resulting From Contact With Containers or Equipment and Food Additives Otherwise Affecting Food

ANIMAL GLUE

The Commissioner of Food and Drugs, having evaluated the data submitted in petitions filed by National Association of Glue Manufacturers, 55 West 42d Street, New York 36, New York, and Polyvinyl Acetate Emulsion Industry Technical Committee, c/o Colton Chemical Company, Division of Air Reduction Company, Inc., 6620 Union Avenue, Cleveland 5, Ohio, and other relevant material, has concluded that the following regulation should issue with respect to food additives resulting from the use of animal glue as a component of articles that contact food. Therefore, pursuant to the provisions of the Federal Food, Drug, and Cosmetic Act (sec. 409(c)(1), 72 Stat. 1786; 21 U.S.C. 348(c)(1)), and under the authority delegated to the Commissioner by the Secretary of Health, Education, and Welfare (25 F.R. 8625), the food additive regulations (21 CFR Part 121) are amended by adding to Subpart F the following new section:

§ 121.2534 Animal glue.

Animal glue may be safely used as a component of articles intended for use in producing, manufacturing, packing, processing, preparing, treating, packaging, transporting, or holding food, subject to the provisions of this section.

(a) Animal glue consists of the proteinaceous extractives obtained from hides, bones, and other collagen-rich substances of animal origin (excluding diseased or rotted animals), to which may be added other optional adjuvant substances required in its production or added to impart desired properties.

(b) The quantity of any substance employed in the production of animal glue does not exceed the amount reasonably required to accomplish the intended physical or technical effect nor any limitation further provided.

(c) Any substance employed in the production of animal glue and which is the subject of a regulation in this subpart conforms with any specifications in such regulation; and any substance that is not the subject of a regulation in this subpart conforms with the specifications, if any, prescribed by an order extending the effective date of the statute for such substance as an indirect additive to food.

(d) Optional adjuvant substances employed in the production of animal glue include:

(1) Substances generally recognized as safe in food.

(2) Substances subject to prior sanction or approval for use in animal glue and used in accordance with such sanction or approval.

(3) Substances identified in this subparagraph and subject to such limitations as are provided:

List of substances	Limitations
Alum (double sulfate of aluminum and ammonium, potassium, or sodium).	
4-Chloro-3-methylphenol (*p*-chloro-metacresol).	For use as preservative only.
3,5-Dimethyl-1,3,5,2*H*-tetrahydrothiadiazine-2-thione.	Do.
Disodium cyanodithioimidocarbonate.	Do.
Defoaming agents	As provided in § 121.2519.
Ethanolamine	
Ethylenediamine	
Formaldehyde	For use as a preservative only.
Potassium *N*-methyldithiocarbamate.	Do.
Potassium pentachlorophenate	Do.
Rosin and rosin derivatives	As provided in § 121.2514(b)(3)(v)
Sodium chlorate	
Sodium dodecylbenzenesulfonate	
Sodium 2-mercaptobenzothiazole	For use as preservative only.
Sodium pentachlorophenate	Do.
Sodium *o*-phenylphenate	Do.
Zinc dimethyldithiocarbamate	Do.
Zinc 2-mercaptobenzothiazole	Do.

(e) The conditions of use are as follows:

(1) The use of animal glue in any substance or article that is the subject of a regulation in this subpart conforms with any specifications or limitations prescribed by such regulation for the finished form of the substance or article.

(2) It is used as an adhesive or component of an adhesive in accordance with the provisions of § 121.2520 of this subpart.

(3) It is used as a colloidal flocculant added to the pulp suspension prior to the sheet-forming operation in the manufacture of paper and paperboard.

(4) It is used as a protective colloid in resinous and polymeric emulsion coatings.

Any person who will be adversely affected by the foregoing order may at any time prior to the thirtieth day from the date of its publication in the FEDERAL REGISTER file with the Hearing Clerk, Department of Health, Education, and Welfare, Room 5440, 330 Independence Avenue SW., Washington 25, D.C., written objections thereto. Objections shall show wherein the person filing will be adversely affected by the order and specify with particularity the provisions of the order deemed objectionable and the grounds for the objections. If a hearing is requested, the objections must state the issues for the hearing. A hearing will be granted if the objections are supported by grounds legally sufficient to justify the relief sought. Objections may be accompanied by a memorandum or brief in support thereof. All documents shall be filed in quintuplicate.

Effective date. This order shall be effective on the date of its publication in the FEDERAL REGISTER.

Title 45—PUBLIC WELFARE

Chapter I—Office of Education, Department of Health, Education, and Welfare

PART 145—NATIONAL DEFENSE GRADUATE FELLOWSHIP PROGRAM

Programs Approved and Fellowships Awarded After September 22, 1961

In view of the emphasis on most urgent needs reflected in the provision of the Department of Health, Education, and Welfare Appropriation Act, 1962 (Public Law 87-290; 75 Stat. 589, 596), relating to the appropriation for "Defense Educational Activities", Part 145 of Title 45 of the Code of Federal Regulations (25 F.R. 9289, Sept. 29, 1960) issued pursuant to title IV of the National Defense Education Act of 1958, as amended (72 Stat. 1590-1591, 20 U.S.C. 461-465), is hereby amended by adding a new section, § 145.9.

The new § 145.9 reads as follows:

§ 145.9 Fellowships awarded after September 22, 1961.

After September 22, 1961, no graduate programs shall be approved under § 145.3 and no fellowships shall be awarded initially under § 145.6 unless there has been a finding by the Commissioner that the fields of graduate study which would be supported by such approvals or awards are those where there is the most urgent need to train college-level teachers in order to insure trained manpower of sufficient quality and quantity to meet the national defense needs of the United States.

(Sec. 1001, 72 Stat. 1602; 20 U.S.C. 581)

[SEAL] STERLING M. MCMURRIN,
U.S. Commissioner of Education.

Approved: December 28, 1961.

ABRAHAM RIBICOFF,
Secretary of Health, Education, and Welfare.

Proposed Rule Making

DEPARTMENT OF THE TREASURY

Internal Revenue Service

[26 CFR Part 1]

INCOME TAX; TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1953

Corporations Improperly Accumulating Surplus, Personal Holding Companies, and Foreign Personal Holding Companies; Notice of Proposed Rule Making

Notice is hereby given, pursuant to the Administrative Procedure Act, approved June 11, 1946, that the regulations set forth in tentative form in the appendix below are proposed to be prescribed by the Commissioner of Internal Revenue, with the approval of the Secretary of the Treasury or his delegate. Prior to the final adoption of such regulations, consideration will be given to any comments or suggestions pertaining thereto which are submitted in writing, in duplicate, to the Commissioner of Internal Revenue, Attention: T:P, Washington 25, D.C., within the period of 30 days from the date of publication of this notice in the FEDERAL REGISTER. Any person submitting written comments or suggestions who desires an opportunity to comment orally at a public hearing on these proposed regulations should submit his request, in writing, to the Commissioner within the 30-day period. In such a case, a public hearing will be held, and notice of the time, place, and date will be published in a subsequent issue of the FEDERAL REGISTER. The proposed regulations are to be issued under the authority contained in section 7805 of the Internal Revenue Code of 1954 (68A Stat. 917; 26 U.S.C. 7805).

[SEAL] MORTIMER M. CAPLIN,
Commissioner.

The Income Tax Regulations (26 CFR Part 1) are hereby amended to reflect the changes made in section 304 of the Small Business Investment Act of 1958 (15 U.S.C. 684) by section 6 of the Small Business Investment Act Amendments of 1960 (74 Stat. 196), and the changes made to the Internal Revenue Code of 1954 by the Act of April 22, 1960 (Public Law 86-435, 74 Stat. 77).

PARAGRAPH 1. Paragraph (d) of § 1.533-1 is amended to read as follows:

§ 1.533-1 Evidence of purpose to avoid income tax.

* * * * *

(d) *Small business investment companies.* A corporation which is licensed to operate as a small business investment company under the Small Business Investment Act of 1958 (15 U.S.C. ch. 14B) and the regulations thereunder (13 CFR Part 107) will generally be considered to be a "mere holding or investment company" within the meaning of section 533(b). However, the presumption of the existence of the purpose to avoid income tax with respect to shareholders which results from the fact that such a company is a "mere holding or investment company" will be considered overcome so long as such company—

(1) Complies with all the provisions of the Small Business Investment Act of 1958 and the regulations thereunder; and

(2) Actively engages in the business of providing a source of equity capital for incorporated small business concerns, in such manner and under such terms as the company may fix in accordance with regulations promulgated by the Small Business Administration.

On the other hand, if such a company violates or fails to comply with any of the provisions of the Small Business Investment Act of 1958 or the regulations thereunder, or ceases to be actively engaged in the business of providing a source of equity capital for incorporated small business concerns in the manner provided in subparagraph (2) of this paragraph, it will not be considered to have overcome the presumption by reason of any rules provided in this paragraph.

§ 1.542-3 [Amendment]

PAR. 2. Section 1.542-3 is amended by deleting paragraph (d).

PAR. 3. Section 1.543 is amended by revising paragraph (1) of section 543(a), by adding a new sentence at the end of paragraph (6) of section 543(a), by adding a new paragraph (9) to section 543 (a), and by adding a historical note at the end of the section. These amended provisions and historical note read as follows:

§ 1.543 Statutory provisions; definition of personal holding company income.

SEC. 543. *Personal holding company income*—(a) *General rule.* For purposes of this subtitle, the term "personal holding company income" means the portion of the gross income which consists of:

(1) *Dividends, etc.* Dividends, interest, royalties (other than mineral, oil, or gas royalties or copyright royalties), and annuities. This paragraph shall not apply to interest constituting rent as defined in paragraph (7) or to interest on amounts set aside in a reserve fund under section 511 or 607 of the Merchant Marine Act, 1936.

* * * * *

(6) *Use of corporation property by shareholder.* Amounts received as compensation (however designated and from whomsoever received) for the use of, or right to use, property of the corporation in any case where, at any time during the taxable year, 25 percent or more in value of the outstanding stock of the corporation is owned, directly or indirectly, by or for an individual entitled to the use of the property; whether such right is obtained directly from the corporation or by means of a sublease or other arrangement. This paragraph shall apply only to a corporation which has personal holding company income for the taxable year, computed without regard to this paragraph and paragraph (7), in excess of 10 percent of its gross income. For purposes of the preceding sentence, copyright royalties constitute personal holding company income.

* * * * *

(9) *Copyright royalties.* Copyright royalties, unless—

(A) Such royalties (exclusive of royalties received for the use of, or right to use, copyrights or interests in copyrights on works created in whole, or in part, by any shareholder) constitute 50 percent or more of the gross income,

(B) The personal holding company income for the taxable year not taking into account—

(i) Copyright royalties, other than royalties received for the use of, or right to use, copyrights or interests in copyrights in works created in whole, or in part, by any shareholder owning more than 10 percent of the total outstanding capital stock of the corporation, and

(ii) Dividends from any corporation in which the taxpayer owns at least 50 percent of all classes of stock entitled to vote and at least 50 percent of the total value of all classes of stock and which corporation meets the requirements of this subparagraph and subparagraphs (A) and (C)

is 10 percent or less of the gross income, and

(C) The deductions allowable under section 162 (other than deductions for compensation for personal services rendered by the shareholders and other than deductions for royalties to shareholders) constitute 50 percent or more of the gross income.

For purposes of this subsection, the term "copyright royalties" means compensation, however designated, for the use of, or the right to use, copyrights in works protected by copyright issued under title 17 of the United States Code (other than by reason of section 2 or 6 thereof), and to which copyright protection is also extended by the laws of any country other than the United States of America by virtue of any international treaty, convention or agreement, or interests in any such copyrighted works, and includes payments from any person for performing rights in any such copyrighted work. For purposes of this paragraph the term "shareholder" shall include any person who owns stock within the meaning of section 544. This paragraph shall not apply to compensation which is rent within the meaning of paragraph (7), determined without regard to the requirement that rents constitute 50 percent or more of the gross income.

* * * * *

[Sec. 543 as amended by the Act of Apr. 22, 1960 (Public Law 86-435, 74 Stat. 77)]

PAR. 4. Paragraph (b) of § 1.543-1 is amended by revising subparagraph (3), by revising subdivision (i) (b) of subparagraph (8), by revising subparagraph (9), and by adding a new subparagraph (12). These amended provisions read as follows:

§ 1.543-1 Personal holding company income.

* * * * *

(b) *Definitions.* * * *

(3) *Royalties (other than mineral, oil, or gas royalties or certain copyright royalties).* The term "royalties" (other than mineral, oil, or gas royalties or certain copyright royalties) includes amounts received for the privilege of using patents, copyrights, secret processes and formulas, good will, trade marks, trade brands, franchises, and other like property. It does not, however, include rents. For rules relating to rents see section 543(a)(7) and subparagraph (10) of this paragraph. For rules relating to mineral, oil, or gas royalties, see section 543(a)(8) and subparagraph (11) of this paragraph. For rules relating to certain copyright royalties for taxable years beginning after December 31, 1959, see section 543(a)(9) and subparagraph (12) of this paragraph.

* * * * *

(8) *Personal service contracts.* (i) * * *

(*b*) At any time during the taxable year 25 percent or more in value of the outstanding stock of the corporation is owned, directly or indirectly, by or for the individual who has performed, is to perform, or may be designated (by name or by description) as the one to perform, such services. For this purpose, the amount of stock outstanding and its value shall be determined in accordance with the rules set forth in the last two sentences of paragraph (b) and in paragraph (c) of § 1.542-3. It should be noted that the stock ownership requirement of section 543(a)(5) and this subparagraph relates to the stock ownership at any time during the taxable year. For rules relating to the determination of stock ownership, see section 544 and §§ 1.544-1 through 1.544-7.

* * * * *

(9) *Compensation for use of property.* Under section 543(a)(6) amounts received as compensation for the use of, or right to use, property of the corporation shall be included as personal holding company income if, at any time during the taxable year, 25 percent or more in value of the outstanding stock of the corporation is owned, directly or indirectly, by or for an individual entitled to the use of the property. Thus, if a shareholder who meets the stock ownership requirement of section 543(a)(6) and this subparagraph uses, or has the right to use, a yacht, residence, or other property owned by the corporation, the compensation to the corporation for such use, or right to use, the property constitutes personal holding company income. This is true even though the shareholder may acquire the use of, or the right to use, the property by means of a sublease or under any other arrangement involving parties other than the corporation and the shareholder. However, if the personal holding company income of the corporation (after excluding any such income described in section 543(a)(6) and this subparagraph, relating to compensation for use of property, and after excluding any such income described in section 543(a)(7) and subparagraph (10) of this paragraph, relating to rents) is not more than 10 percent of its gross income, compensation for the use of property shall not constitute personal holding company income. For purposes of the preceding sentence, in determining whether personal holding company income is more than 10 percent of gross income, copyright royalties constitute personal holding company income, regardless of whether such copyright royalties are excluded from personal holding company income under section 543(a)(9) and subparagraph (12)(ii) of this paragraph. For purposes of applying section 543(a)(6) and this subparagraph, the amount of stock outstanding and its value shall be determined in accordance with the rules set forth in the last two sentences of paragraph (b) and in paragraph (c) of § 1.542-3. It should be noted that the stock ownership requirement of section 543(a)(6) and this subparagraph relates to the stock outstanding at any time during the entire taxable year. For rules relating to the determination of stock ownership, see section 544 and §§ 1.544-1 through 1.544-7.

* * * * *

(12) *Copyright royalties*—(i) *In general.* The income from copyright royalties constitutes, generally, personal holding company income. However, for taxable years beginning after December 31, 1959, those copyright royalties which come within the definition of "copyright royalties" in section 543(a)(9) and subdivision (iv) of this subparagraph shall be excluded from personal holding company income only if the conditions set forth in subdivision (ii) of this subparagraph are satisfied.

(ii) *Exclusion from personal holding company income.* For taxable years beginning after December 31, 1959, copyright royalties (as defined in section 543 (a)(9) and subdivision (iv) of this subparagraph) shall be excluded from personal holding company income only if the conditions set forth in (*a*), (*b*), and (*c*) of this subdivision are met.

(*a*) Such copyright royalties for the taxable year must constitute 50 percent or more of the corporation's gross income. For this purpose, copyright royalties shall be computed by excluding royalties received for the use of, or the right to use, copyrights or interests in copyrights in works created, in whole or in part, by any person who, at any time during the corporation's taxable year, is a shareholder.

(*b*) Personal holding company income for the taxable year must be 10 percent or less of the corporation's gross income. For this purpose, personal holding company income shall be computed by excluding (*1*) copyright royalties (except that there shall be included royalties received for the use of, or the right to use, copyrights or interests in copyrights in works created, in whole or in part, by any shareholder owning, at any time during the corporation's taxable year, more than 10 percent in value of the outstanding stock of the corporation), and (*2*) dividends from any corporation in which the taxpayer owns, on the date the taxpayer becomes entitled to the dividends, at least 50 percent of all classes of stock entitled to vote and at least 50 percent of the total value of all classes of stock, provided the corporation which pays the dividends meets the requirements of subparagraphs (A), (B), and (C) of section 543(a)(9).

(c) The aggregate amount of the deductions allowable under section 162 must constitute 50 percent or more of the corporation's gross income for the taxable year. For this purpose, the deductions allowable under section 162 shall be computed by excluding deductions for compensation for personal services rendered by, and deductions for copyright and other royalties to, shareholders of the corporation.

(iii) *Determination of stock value and stock ownership.* For purposes of section 543(a)(9) and this subparagraph, the following rules shall apply:

(*a*) The amount and value of the outstanding stock of a corporation shall be determined in accordance with the rules set forth in the last two sentences of paragraph (b) and in paragraph (c) of § 1.542-3.

(*b*) The ownership of stock shall be determined in accordance with the rules set forth in section 544 and §§ 1.544-1 through 1.544-7.

(*c*) Any person who is considered to own stock within the meaning of section 544 and §§ 1.544-1 through 1.544-7 shall be a shareholder.

(iv) *Copyright royalties defined.* For purposes of section 543(a)(9) and this subparagraph, the term "copyright royalties" means compensation, however designated, for the use of, or the right to use, copyrights in works protected by copyright issued under Title 17 of the United States Code (other than by reason of section 2 or 6 thereof), and to which copyright protection is also extended by the laws of any foreign country as a result of any international treaty, convention, or agreement to which the United States is a signatory. Thus, "copyright royalties" includes not only royalties from sources within the United States under protection of United States laws relating to statutory copyrights but also royalties from sources within a foreign country with respect to United States statutory copyrights protected in such foreign country by any international treaty, convention, or agreement to which the United States is a signatory. The term "copyright royalties" includes compensation for the use of, or right to use, an interest in any such copyrighted works as well as payments from any person for performing rights in any such copyrighted works.

(v) *Compensation which is rent.* Section 543(a)(9) and subdivisions (i) through (iv) of this subparagraph shall not apply to compensation which is "rent" within the meaning of the second sentence of section 543(a)(7).

PAR. 5. Section 1.544 is amended by revising so much of section 544(a) as precedes paragraph (1), by revising paragraph (4)(B) of section 544(a), by revising section 544(b), and by adding a historical note at the end of the section. These amended provisions and historical note read as follows:

§ 1.544 Statutory provisions; rules for determining stock ownership.

SEC. 544. *Rules for determining stock ownership*—(a) *Constructive ownership.* For purposes of determining whether a corporation is a personal holding company, insofar as such determination is based on stock ownership under section 542(a)(2), section

543(a)(5), section 548(a)(6), or section 543(a)(9)—

• • • • •

(4) *Application of family-partnership and option rules.* Paragraphs (2) and (3) shall be applied—

(A) For purposes of the stock ownership requirement provided in section 542(a)(2), if, but only if, the effect is to make the corporation a personal holding company;

(B) For purposes of section 543(a)(5) (relating to personal service contracts), of section 543(a)(6) (relating to use of property by shareholders), or of section 543(a)(9) (relating to copyright royalties), if, but only if, the effect is to make the amounts therein referred to includible under such paragraph as personal holding company income.

• • • • •

(b) *Convertible securities.* Outstanding securities convertible into stock (whether or not convertible during the taxable year) shall be considered as outstanding stock—

(1) For purposes of the stock ownership requirement provided in section 542(a)(2), but only if the effect of the inclusion of all such securities is to make the corporation a personal holding company;

(2) For purposes of section 543(a)(5) (relating to personal service contracts), but only if the effect of the inclusion of all such securities is to make the amounts therein refered to includible under such paragraph as personal holding company income;

(3) For purposes of section 543(a)(6) (relating to the use of property by shareholders), but only if the effect of the inclusion of all such securities is to make the amounts therein referred to includible under such paragraph as personal holding company income; and

(4) For purposes of section 543(a)(9) (relating to copyright royalties), but only if the effect of the inclusion of all such securities is to make the amounts therein referred to includible under such paragraph as personal holding company income.

The requirement in paragraphs (1), (2), (3), and (4) that all convertible securities must be included if any are to be included shall be subject to the exception that, where some of the outstanding securities are convertible only after a later date than in the case of others, the class having the earlier conversion date may be included although the others are not included, but no convertible securities shall be included unless all outstanding securities having a prior conversion date are also included.

[Sec. 544 as amended by the Act of Apr. 22, 1960 (Public Law 86-435, 74 Stat. 77).]

PAR. 6. Section 1.544-1 is amended by making clerical revisions to subparagraphs (1) and (2) of paragraph (a), by adding a new subparagraph (4) to paragraph (a), and by revising the last sentence of paragraph (b). As so amended, paragraphs (a) and (b) of § 1.544-1 read as follows:

§ 1.544-1 Constructive ownership.

(a) Rules relating to the constructive ownership of stock are provided by section 544 for the purpose of determining whether the stock ownership requirements of the following sections are satisfied:

(1) Section 542(a)(2), relating to ownership of stock by five or fewer individuals.

(2) Section 543(a)(5), relating to personal holding company income derived from personal service contracts.

(3) Section 543(a)(6), relating to personal holding company income derived from property used by shareholders.

(4) Section 543(a)(9), relating to personal holding company income derived from copyright royalties.

(b) Section 544 provides four general rules with respect to constructive ownership. These rules are:

(1) Constructive ownership by reason of indirect ownership. See section 544(a)(1) and § 1.544-2.

(2) Constructive ownership by reason of family and partnership ownership. See section 544(a)(2), (4), (5), and (6), and §§ 1.544-3, 1.544-6, and 1.544-7.

(3) Constructive ownership by reason of ownership of options. See section 544(a)(3), (4), (5), and (6), and §§ 1.544-4, 1.544-6, and 1.544-7.

(4) Constructive ownership by reason of ownership of convertible securities. See section 544(b) and § 1.544-5.

Each of the rules referred to in subparagraphs (2), (3), and (4) of this paragraph is applicable only if it has the effect of satisfying the stock ownership requirement of the section to which applicable; that is, when applied to section 542(a)(2), its effect is to make the corporation a personal holding company, or when applied to section 543(a)(5), section 543(a)(6), or section 543(a)(9), its effect is to make the amounts described in such provisions includible as personal holding company income.

PAR. 7. Section 1.553 is amended by striking out "all royalties, whether or not mineral, oil, or gas royalties" in section 553 and inserting in lieu thereof "all royalties, whether or not mineral, oil, or gas royalties or copyright royalties", and by adding a historical note at the end of the section. As so amended, § 1.553 and the historical note read as follows:

§ 1.553 Statutory provisions; foreign personal holding company income.

SEC. 553. *Foreign personal holding company income.* For purposes of this subtitle, the term "foreign personal holding company income" means the portion of the gross income, determined for purposes of section 552, which consists of personal holding company income, as defined in section 543, except that all interests, whether or not treated as rent, and all royalties, whether or not mineral, oil, or gas royalties or copyright royalties, shall constitute "foreign personal holding company income".

[Sec. 553 as amended by the Act of Apr. 22, 1960 (Public Law 86-435, 74 Stat. 77).]

PAR. 8. Paragraph (b)(1) of § 1.553-1 is amended to read as follows:

§ 1.553-1 Foreign personal holding company income.

Foreign personal holding company income shall consist of the items defined under section 543 and §§ 1.543-1 and 1.543-2, relating to personal holding company income, with the following exceptions:

• • • • •

(b)(1) The entire amount received as "royalties", whether or not mineral, oil, or gas royalties, or copyright royalties, shall be considered to be foreign personal holding company income. Thus, subparagraphs (A) and (B) of section 543(a)(8) and paragraph (b)(11)(i) (*a*) and (*b*) of § 1.543-1 (relating to mineral, oil, or gas royalties), and subparagraphs (A), (B), and (C) of section 543(a)(9) and paragraph (b)(12)(ii) of § 1.543-1 (relating to copyright royalties), are inapplicable for the purpose of determining foreign personal holding company income.

INCOME TAX; TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1953

Income Attributable to Several Taxable Years; Notice of Proposed Rule Making

Notice is hereby given, pursuant to the Administrative Procedure Act, approved June 11, 1946, that the regulations set forth in tentative form in the appendix below are proposed to be prescribed by the Commissioner of Internal Revenue, with the approval of the Secretary of the Treasury or his delegate. Prior to the final adoption of such regulations, consideration will be given to any comments or suggestions pertaining thereto which are submitted in writing, in duplicate, to the Commissioner of Internal Revenue, Attention: T:P, Washington 25, D.C., within the period of 30 days from the date of publication of this notice in the FEDERAL REGISTER. Any person submitting written comments or suggestions who desires an opportunity to comment orally at a public hearing on these proposed regulations should submit his request, in writing, to the Commissioner within the 30-day period. In such case, a public hearing will be held, and notice of the time, place, and date will be published in a subsequent issue of the FEDERAL REGISTER. The proposed regulations are to be issued under the authority contained in section 7805 of the Internal Revenue Code of 1954 (68A Stat. 917; 26 U.S.C. 7805).

[SEAL] MORTIMER M. CAPLIN,
Commissioner of Internal Revenue.

The Income Tax Regulations (26 CFR Part 1) are hereby amended to reflect the changes in law made by sections 1, 2, and 3 of the Act of August 26, 1957 (Public Law 85-165, 71 Stat. 413, 414), relating to breach of contract damages, and by section 58 of the Technical Amendments Act of 1958 (72 Stat. 1646), relating to damages for injuries under the antitrust laws. Except as otherwise provided, the regulations, as so amended, are applicable to taxable years beginning after December 31, 1953, and ending after August 16, 1954.

PARAGRAPH 1. Section 1.1306 is renumbered to be § 1.1307 and as so renumbered is amended to read as follows:

§ 1.1307 Statutory provisions; rules applicable to part I (section 1301 and following), subchapter Q, chapter 1 of the Code.

SEC. 1307. *Rules applicable to this part—*
(a) *Fractional parts of a month.* For purposes of this part, a fractional part of a month shall be disregarded unless it amounts to more than half a month, in which case it should be considered as a month.

(b) *Tax on self-employment income.* This part shall be applied without regard to, and shall not affect, the tax imposed by chapter 2 relating to self-employment income.

(c) *Computation of tax attributable to income allocated to prior period.* For the purpose of computing the tax attributable to the amount of an item of gross income allocable under this part to a particular taxable year, such amount shall be considered income only of the person who would be required to include the item of gross income in a separate return filed for the taxable year in which such item was received or accrued.

(d) *Effective date of certain subsections.* Subsection (c) of section 1301 and subsection (c) of this section shall apply only to amounts received or accrued after March 1, 1954. Notwithstanding any other provision of this title, section 107 of the Internal Revenue Code of 1939 shall apply to amounts received or accrued as a partner on or before March 1, 1954, under this section and to the computation of tax on amounts received or accrued on or before March 1, 1954.

[Section 1307 as renumbered by sec. 1, Act of Aug. 11, 1955 (Public Law 366, 84th Cong., 69 Stat 688); sec. 1, Act of Aug. 26, 1957 (Public Law 85-165, 71 Stat. 413); sec. 58, Technical Amendments Act 1958 (72 Stat. 1646).]

PAR. 2. Section 1.1306-1 is renumbered to be § 1.1307-1 and as so renumbered is amended to read as follows:

§ 1.1307-1 Rules applicable to part I (section 1301 and following), subchapter Q, chapter 1 of the Code.

(a) *Fractional parts of a month.* For purposes of sections 1301, 1302, 1303, 1304, 1305, and 1306, and the regulations thereunder, a fractional part of a month shall be disregarded unless it amounts to more than one half of a month, in which case it shall be considered as a month.

(b) *Tax on self-employment income.* The provisions of sections 1301, 1302, 1303, 1304, 1305, and 1306, and the regulations thereunder, shall be applied without regard to, and shall not affect, the tax imposed by chapter 2 of the Internal Revenue Code of 1954 and section 480 of the Internal Revenue Code of 1939, relating to the tax on self-employment income.

(c) *Computation of tax attributable to income allocated to prior period.* In the case of either a husband or wife receiving income to which the provisions of section 1301, 1302, 1303, 1304, 1305, or 1306 apply, the tax attributable to the portion of the income allocated to a prior period shall be computed by considering such income as includible by the spouse who would have been required to include it in a separate return for the taxable year in which such income was received or accrued, assuming a separate return had been filed for such year. For example, A, an attorney on a calendar year basis, resides in a State in which the common law with respect to the ownership of property is applicable. In 1955, A receives compensation upon the completion of an employment which began in 1945. All the requirements for the application of section 1301(a) are satisfied. A and his wife file a joint income tax return for the taxable year 1955. They filed separate returns for the years 1945, 1946, and 1947 and joint returns in 1948 and subsequent years. The entire portion of such compensation allocable to the years for which separate returns were were filed shall be includible in A's return and no part thereof shall be includible in the separate return filed by A's wife for such years.

(d) *Effective date.* Section 1307(c) and paragraph (c) of this section shall apply only to amounts received or accrued after March 1, 1954. Pursuant to section 7851(a)(1)(C), the regulations prescribed in paragraph (c) of this section shall also apply to taxable years beginning before January 1, 1954, and ending after December 31, 1953, and to taxable years beginning after December 31, 1953, and ending before August 17, 1954, although such years are generally subject to the Internal Revenue Code of 1939. Notwithstanding any other provision of the Internal Revenue Code of 1954, section 107 of the Internal Revenue Code of 1939 shall apply to amounts received or accrued on or before March 1, 1954, and to the computation of tax on amounts received or accrued on or before March 1, 1954.

PAR. 3. Sections 1.1305-1, 1.1305-2, 1.1306, and 1.1306-1, as set forth below, are inserted immediately after § 1.1305.

§ 1.1305-1 Breach of contract damages.

(a) *Qualifications for limitation on tax.* If an amount of $3,000 or more representing damages is received or accrued by a taxpayer during a taxable year as a result of a single award in a civil action for breach of contract, or breach of a fiduciary duty or relationship, then the tax attributable to the inclusion in gross income for the taxable year of that part of such amount which would have been received or accrued by the taxpayer in a prior taxable year or years but for the breach of contract, or breach of a fiduciary duty or relationship, shall not be greater than the aggregate of the increases in taxes which would have resulted had such part been included in gross income for such prior taxable year or years.

(b) *Definition of damages for breach of contract or for breach of a fiduciary duty or relationship.* (1) For purposes of section 1305 and this section, the term "damages" used with respect to an award in a civil action for breach of contract, or breach of a fiduciary duty or relationship, means an amount awarded pursuant to a judgment or decree by a court as a result of such civil action. The term "damages" is limited to that portion of the award which represents damages to compensate the taxpayer for loss of income which he would have received or accrued but for the breach of contract, or breach of a fiduciary duty or relationship. The term does not include that portion of the award which represents damages awarded by the court over and above the amount found adequate to compensate for the breach, nor does it include attorney's fees, interest, or costs.

(2) An amount awarded pursuant to a consent decree or judgment may be considered damages for breach of contract, or breach of a fiduciary duty or relationship, for the purposes of section 1305 and this section.

(3) An amount received or accrued pursuant to a settlement of the action, after a decree or judgment awarding damages to the taxpayer has been entered, may be considered as damages for breach of contract, or breach of a fiduciary duty or relationship, even though such amount is not made a part of a consent decree. In such a case the taxpayer must show which portion of the amount received or accrued represents damages.

(4) An amount received or accrued pursuant to a settlement of the action where no judgment or decree, or consent judgment or decree, is entered will not constitute damages for breach of contract, or breach of a fiduciary duty or relationship.

(c) *Allocation of damages.* (1) If possible a portion or all of the damages shall be allocated to a prior taxable year or years during which the taxpayer would have received or accrued such income but for the breach of contract, or breach of a fiduciary duty or relationship. Such allocation is to be determined upon the facts of each case, for example, by reference to the decree or judgment awarding damages, information contained in court records, pleadings, or other pertinent matter.

(2) If any portion of the damages is not allocable to a particular taxable year or years, or to periods within any taxable year or years, in accordance with the rule prescribed in subparagraph (1) of this paragraph, then such portion shall be allocated equally to each of the calendar months (including those of the current taxable year and subsequent taxable years) which fall within the period during which the taxpayer would have received or accrued such income but for the breach and to which no portions previously have been allocated.

(3) The amount of damages, if any, which is allocated under this paragraph to taxable years subsequent to the taxable year of receipt or accrual shall be treated as income for such taxable year of receipt or accrual. The methods enumerated in this paragraph are not mutually exclusive; thus, it is possible that allocations with respect to an award may be made under more than one method. If more than one method is applicable they shall be used only in the order of their enumeration.

(d) *Computation of tax.* (1) The following computations shall be made in order to determine whether the limitation on tax prescribed in section 1305 and paragraph (a) of this section applies to damages received or accrued in the taxable year:

(i) Compute the tax for the current taxable year by including in the gross income of such year the entire amount of damages received or accrued in such year. In computing such tax the taxpayer shall be allowed all credits and deductions for depletion, depreciation, and other items to which he would have

been entitled if the entire amount of such damages were attributable to such year.

(ii) Compute the tax for the current taxable year without the inclusion prescribed in subdivision (i) of this subparagraph.

(iii) (*a*) Compute the tax attributable to the portion of the damages allocated to each of the taxable years (including the year in which the award is received or accrued) in accordance with paragraph (c) of this section. For this purpose taxable income (or net income) and the tax shall be computed with the allowance of all credits and deductions for depletion, depreciation, and other items to which the taxpayer would have been entitled had such damages been received or accrued by the taxpayer in the year during which he would have received or accrued the damages except for the breach of contract, or for the breach of fiduciary duty or relationship.

(*b*) The amount of tax attributable to the portion of damages allocated to each of such taxable years is the difference between the tax for each year computed with the inclusion in gross income of the portion of such damages so allocated to each year and the tax for each year computed without such inclusion.

(iv) The tax for the current taxable year shall be the lesser of (*a*) the tax for the current taxable year as computed under subdivision (i) of this subparagraph, or (*b*) the tax for such year as computed under subdivision (ii) of this subparagraph, plus the aggregate of the taxes attributable to the allocated damages as computed under subdivision (iii) of this subparagraph.

The credits, deductions, or other items referred to in subdivisions (i) and (iii) of this subparagraph shall include only deductions for expenditures actually made by the taxpayer and credits or deductions arising from actual use of capital or receipt of income. Thus, if the award represents gross income which the taxpayer should have received but did not, less costs and expenses which the taxpayer would have paid but did not, no deduction shall be allowed for such costs and expenses. Furthermore, credits, deductions, or other items, attributable to property, shall be allowed only with respect to that part of the award which represents the taxpayer's share of income from the actual operation of the property. Accordingly, if the property is subject to depreciation on the units-of-production method and the taxpayer receives an award based upon certain units of production which the paying party should have produced but did not, the taxpayer shall not be entitled to a depreciation deduction with respect to such units which were not produced. However, where an award is received by the taxpayer representing the gross income from mineral property less expenses that would have been imposed upon the taxpayer but for the breach, the deduction for percentage depletion will be computed with reference to both the reconstructed gross income and taxable income from the property.

(2) If damages of the type specified in paragraph (a) of this section are received or accrued by a partnership which initially instituted the civil action then, for purposes of subparagraph (1) of this paragraph, the partnership shall take such amount into account in computing taxable income (or net income) but the limitation on the tax under section 1305 shall apply to the individual partners. Thus, in recomputing his income tax, each partner shall take into account separately his distributive share of the partnership items enumerated in section 702(a) as recomputed by the partnership under subparagraph (1) of this paragraph. Section 1305 and this section shall not apply to a partner unless his total distributive share of the amount of damages is $3,000 or more. It is not necessary for the partner to have been a member of the partnership for the prior taxable years to which the amount of damages is allocable in order to have the limitation on tax provided by section 1305 apply.

(3) For effect of allocation of income on items based on amount of income and with respect to a net operating loss or a capital loss carryover, see paragraph (d) (2) of § 1.1301–2.

(4) See paragraph (d) (4) of § 1.1301–2 for the computations which are necessary when an amount of breach of contract damages is allocated to a period to which there has also been allocated other income entitled to the benefits of the provisions of part I (section 1301 and following), subchapter Q, chapter 1 of the Code.

(e) *Treatment of intangible drilling and development costs.* If the breach of contract damages have been awarded as a result of a suit involving the taxpayer's claim to ownership in a developing oil or gas well and section 1305 applies with respect to such damages, he shall not be entitled to deduct as expenses intangible drilling and development costs incurred in the prior taxable year or years unless he makes or has made the election to deduct such costs as expenses in the manner prescribed by § 1.612–4.

(f) *Limitation on amount of award.* Section 1305 and this section are not applicable unless the amount representing damages is $3,000 or more and such amount is received or accrued in a taxable year as a result of a single award for breach of contract, or breach of a fiduciary duty or relationship.

(g) *Applicability of another section under part I, subchapter Q, chapter 1 of the Code.* In any case where the amounts involved in a particular breach of contract, or breach of a fiduciary duty or relationship, are also covered by the particular terms of another section in part I, subchapter Q, chapter 1 of the Code, the rules for such other section shall apply, since those sections are directed to more specific situations than the provisions of section 1305. Thus, if a taxpayer receives an amount representing damages awarded in a civil action for breach of contract, or breach of fiduciary duty or relationship, and such award also constitutes the payment of an amount which qualifies for treatment prescribed in section 1302 and the regulations thereunder, such amount shall be subject to the provisions of section 1302 and § 1.1302–1, and section 1305 shall not apply.

(h) *Effective date of this section.* The provisions of section 1305 and this section apply with respect to taxable years ending after December 31, 1954, but only as to amounts received or accrued after such date as the result of awards made after such date.

§ 1.1305–2 Illustrations.

The provisions of section 1305 and § 1.1305–1 may be illustrated by the following examples:

Example (1). On December 31, 1957, a consent judgment is entered in favor of A, an accrual method taxpayer, for $500,000 damages to compensate him for the failure of the XYZ Company to pay royalties due him under the terms of a contract involving the operation by the XYZ Company of an oil lease. The court determined that the breach of contract covered the period from July 1, 1953, through December 31, 1957. The award of $500,000 includes $40,000 representing legal fees and court costs, and $460,000 representing compensation for loss of oil royalties for the period during which the contract was breached. Of the $460,000, the court determined that $110,000 was attributable to 1956 and $130,000 to January through October 1957. Information in the court records disclosed that $60,000 was attributable to 1955. A makes his income tax return on a calendar year basis. For purposes of determining the limitation on tax under section 1305, A must first compute the tax for 1957 under paragraph (d) (1) (i) of § 1.1305–1 by including the entire amount of damages ($460,000) in gross income for such year and then compute the tax for 1957 without including the $460,000 in gross income in accordance with paragraph (d) (1) (ii) of such section. A must then compute the tax for the current year and all prior years to which the amount of the award is allocable pursuant to paragraph (d) (1) (iii) of § 1.1305–1. In making such computation, A must allocate $110,000 to 1956, $130,000 to the first ten months of 1957, and $60,000 to 1955 in accordance with paragraph (c) (1) of § 1.1305–1. The remaining $160,000 of the $460,000 would be prorated over the unallocated twenty months, two in 1957, twelve in 1954, and six in 1953 or $8,000 per month in accordance with paragraph (c) (2) of § 1.1305–1. Thus, the proper allocations would be $146,000 to 1957, $110,000 to 1956, $60,000 to 1955, $96,000 to 1954, and $48,000 to 1953. In addition, A is entitled to a deduction for percentage depletion with respect to the amounts allocated to the current taxable year and to prior taxable years. For such purpose, A must reconstruct his gross income and taxable income from the property for 1957 and for the years 1953, 1954, 1955, and 1956. A is also entitled to all credits, deductions, or other items to which he would have been entitled had the royalties been received and included in the gross income in those years. Thus, if, for 1953, prior to the allocation of a part of the award to such year, A had no gains from the sale or exchange of capital assets and no taxable income and he had a capital loss carryover of $1,500 to such year, A may deduct $1,000 as a capital loss in computing the tax for 1953 as provided in paragraph (d) (1) (iii) of § 1.1305–1. See sections 1211(b) and 1212 and the regulations thereunder.

Example (2). B, a cash method taxpayer, is the author of a play presented in New York City, Chicago, and San Francisco. The play ran from April 6, 1957, through December 27, 1959. In September 1959, B sues the producer, M, for breach of contract respecting the agreement entered into between M and B. M contends that under the terms of the contract B was entitled to a payment of $25,000 on the production of the play and royalties thereafter limited to its earnings in New York City. B insists that he is also entitled to royalties on the earnings of the two companies established by M to present the play in Chicago and San Francisco. On December 29, 1959, the court awards B the sum of $38,000 representing compensation for the loss of royalty income over the period during which the play was presented in Chicago and San Francisco, including legal fees and other costs. This award is paid to B in 1960. In its decree, the court designates royalty payments to B for such period (April 6, 1957, to December 27, 1959) of $1,000 per month or a total of $33,000 for the full period. Although B is entitled to the benefits of section 1305, he must first ascertain whether section 1302 applies, since the other sections under part I (section 1301 and following), subchapter Q, chapter 1 of the Code, have prior applicability. However, B determines that section 1302 is not applicable for the reason that he worked only 18 months on the play. For the purpose of section 1305(a) and paragraph (a) of § 1.1305–1, B may allocate the $33,000 at the rate of $1,000 per month over the 33 months extending from April 1957 through December 1959. Upon receipt of the award and pursuant to agreement with his literary agent, B pays the agent $2,500 as agent's commission; had B received his royalties when due, he would have paid his agent $3,300 under his contract with the agent. In computing his taxable income for 1960 and for the years reflected in the period April 1957 through December 1959, B may, under the limitation prescribed in paragraph (d) (1) of § 1.1305–1, deduct only $2,500 for commissions paid to his agent.

§ 1.1306 Statutory provisions; damages for injuries under the antitrust laws.

SEC. 1306. *Damages for injuries under the antitrust laws.* If an amount representing damages is received or accrued during a taxable year as a result of an award in, or settlement of, a civil action brought under section 4 of the Act entitled "An Act to supplement existing laws against unlawful restraints and monopolies, and for other purposes", approved October 15, 1914 (commonly known as the Clayton Act), for injuries sustained by the taxpayer in his business or property by reason of anything forbidden in the antitrust laws, then the tax attributable to the inclusion of such amount in gross income for the taxable year shall not be greater than the aggregate of the increases in taxes which would have resulted if such amount had been included in gross income in equal installments for each month during the period in which such injuries were sustained by the taxpayer.

[Section 1306 as added by sec. 58(a), Technical Amendments Act 1958 (72 Stat. 1646)]

§ 1.1306–1 Damages for injuries under the antitrust laws.

(a) *Qualifications for limitation on tax.* If an amount representing damages is received or accrued during a taxable year as a result of an award in, or settlement of, a civil action instituted under section 4 of the Act of October 15, 1914 (15 U.S.C. 15), commonly known as the Clayton Act, for injuries sustained by the taxpayer in his business or property by reason of anything forbidden in the antitrust laws, then the tax attributable to the inclusion of such amount in gross income for the taxable year shall not be greater than the aggregate of the increases in taxes which would have resulted if such amount had been included in gross income in equal installments for each month during the period in which such injuries were sustained by the taxpayer.

(b) *Definition of damages.* (1) For purposes of section 1306 and this section the term "damages" means an amount awarded pursuant to a judgment or decree by a court as the result of a civil action instituted under section 4 of the Act of October 15, 1914, for injuries sustained by the taxpayer in his business or property by reason of anything forbidden in the antitrust laws. The term "damages" includes treble damages awarded under section 4 of the Act but it does not include attorney's fees, interest, or costs.

(2) An amount awarded as damages pursuant to a consent decree or judgment shall be treated as provided in paragraph (a) of this section.

(3) An amount received or accrued as damages pursuant to a settlement of such action (after commencement of such action) shall be treated as provided in paragraph (a) of this section, regardless of whether such amount is received or accrued after a decree or judgment has been entered or whether any decree or judgment is entered.

(4) An amount received or accrued as a result of a settlement where no civil action has been brought under section 4 of the Act will not constitute damages to which section 1306 and this section are applicable.

(c) *Allocation of damages.* The amount representing damages of the type described in section 1306 is to be treated as if it had been received in equal portions in each of the calendar months (including those of the current taxable year) which fall within the period during which the injury in the taxpayer's business or property by reason of anything forbidden in the antitrust laws is determined to have been sustained. The period during which the injury was sustained is the period established in the action, except that, if no such period is established in the action, such period is to be determined upon the basis of the facts of the particular case. The portion of the damages allocable to each taxable year involved in such period of injury is an amount equal to the entire amount of damages, divided by the entire number of calendar months included within such period, and multiplied by the number of such calendar months falling within the particular taxable year.

(d) *Computation of tax.* (1) The computations set forth below in this subparagraph shall be made in order to determine whether the limitation on tax prescribed in section 1306 and paragraph (a) of this section applies to damages for injury sustained under the antitrust laws received or accrued in the taxable year:

(i) Compute the tax for the current taxable year by including in the gross income of such year the entire amount of damages received or accrued in such year.

(ii) Compute the tax for the current taxable year without the inclusion prescribed in subdivision (i) of this subparagraph.

(iii) Compute the tax attributable to the portion of the damages allocated to each of the taxable years in accordance with paragraph (c) of this section. The amount of tax attributable to the damages in each of such years is the difference between the tax for each year computed with the inclusion in gross income of each year of the portion of such damages so allocated to each year and the tax for such year computed without such inclusion.

(iv) The tax for the current taxable year shall be the lesser of (*a*) the tax for the current taxable year as computed under subdivision (i) of this subparagraph, or (*b*) the tax for such year computed under subdivision (ii) of this subparagraph, plus the aggregate of the taxes attributable to the allocated damages as computed under subdivision (iii) of this subparagraph.

(2) For the effect of allocation of income on items based on amount of income and with respect to a net operating loss or capital loss carryover, see paragraph (d) (2) of § 1.1301–2.

(3) See paragraph (d) (4) of § 1.1301–2 for the computations which are necessary when an amount of damages is allocated to a period to which there has also been allocated other income entitled to the benefits of Part I (section 1301 and following), subchapter Q, chapter 1 of the Code.

(e) *Effective date of this section.* The provisions of section 1306 and this section are applicable with respect to taxable years ending after September 2, 1958, but only with respect to amounts of damages received or accrued after such date as a result of awards or settlements made after such date.

(f) *Illustrations.* The provisions of section 1306 may be illustrated by the following example:

Example. A, the proprietor of a drug manufacturing concern, brings suit against the XYZ Pharmaceutical Corporation under section 4 of the Act alleging that, by reason of an unfair contract, his competitor had succeeded in pre-empting the supply of a chemical which was essential to the manufacture of his product. A wins his suit and in the course of the action it is established that A sustained losses resulting from the injury totaling $330,000 over the period from March 1959 through November 1961. The court in November 1961, accordingly, awards A treble damages of $990,000, $25,000 in attorney's fees, and $5,000 in costs. The XYZ Pharmaceutical Corporation in the same month pays A the amount of $1,020,000 covering the damages, fees, and costs. For the purpose of determining the limitation on tax under section 1306, A may allocate only the $990,000 received as damages. A makes his return on a calendar year basis. A must therefore allocate the amount of $990,000 over the 33 calendar months at the rate of $30,000 per month as follows: $300,000 to 1959, $360,000 to 1960, and $330,000 to 1961.

[P. & S. Docket No. 402]

MARKET AGENCIES AT UNION STOCK YARDS, CHICAGO, ILL.

Notice of Petition for Modification of Rate Order

Pursuant to the provisions of the Packers and Stockyards Act, 1921, as amended (7 U.S.C. 181 et seq.), an order was issued on December 21, 1961, continuing in effect to and including February 28, 1962, an order issued on December 16, 1959 (18 A.D. 1396), authorizing the respondents, Market Agencies at Union Stock Yards, Chicago, Illinois, to assess the current temporary schedule of rates and charges.

On December 11, 1961, a petition was filed on behalf of the respondents requesting authority to modify the current temporary schedule of rates and charges in several respects. The proposed modifications would:

(1) Define the term "Commission";

(2) Increase by 10 cents per head the charges for selling cattle;

(3) Increase by $3.50 the maximum charge for selling a consignment of cattle weighing 24,400 pounds or less, and increase by one and one-half cents the charge for selling each 100 pounds or fraction thereof in excess of the first 24,400 pounds of a consignment;

(4) Increase by 10 cents per head the charges for selling calves;

(5) Increase by $3.00 the maximum charge for selling each 100 calves or less of a consignment;

(6) Increase by 10 cents per head the charges for selling bulls;

(7) Increase by 10 cents per head the charges for selling tagged cattle;

(8) Increase by 5 cents per head the charges for selling hogs;

(9) Increase by $3.60 the maximum charge for selling a consignment of hogs weighing 18,000 pounds or less, and increase by one cent the charge for selling each 100 pounds or fraction thereof in excess of 18,000 pounds of a consignment;

(10) Increase by 5 cents per head the charges for selling boars;

(11) Increase by 5 cents per head the charges for selling sheep or goats;

(12) Establish a distinction between 40-foot and 50-foot double deck cars for purposes of determining the applicable maximum charge for buying a consignment of hogs moving out by rail, and increase by $10.00 such charge with respect to each 50-foot double deck car;

(13) Increase the per head charge for reselling for their account livestock purchased at the Chicago Union Stock Yards by registered dealers or registered market agencies, and without having been removed from said market, as follows: (1) 10 cents on bulls, 700 pounds or over, (2) 5 cents on other cattle, (3) 5 cents on calves, (4) 7 cents on boars, (5) 3 cents on other hogs, and (6) 4 cents on sheep or goats;

(14) With respect to livestock entered and/or exhibited in the International Livestock Exposition or in the Chicago Feeder Cattle Show, (1) restate existing service charges and auctioneers' fees relating to carlot and trucklot entries to make it clear that such charges are minimum charges based upon stated maximums of the number of head constituting a carlot or trucklot, viz, 15 fat cattle, 20 feeder cattle or calves, 25 sheep, or 10 hogs; (2) provide that for any entry constituting a lot which exceeds the stated maximum of a carlot or trucklot (a) the service charges are on a per head basis, viz, $1.66 for fat cattle, 50 cents for stocker and feeder cattle and calves, 20 cents for sheep, and 50 cents for hogs, and (b) the auctioneers' charges are on a per head basis, viz, 33 cents for fat cattle, 25 cents for stocker feeder cattle and calves, 8 cents for sheep, and 20 cents for hogs; and (3) establish separate service charges applicable to livestock sold for registered dealers at the same rates which apply to resales of livestock for the account of such dealers;

(15) Increase by 10 cents per head (1) the charges for purchasing feeder cattle or calves at auction by direct bid, and (2) the charges for having feeder cattle or calves which have been purchased by direct bid by a buyer weighed to or through a market agency for the buyer.

(16) Increase by $3.50 the maximum charge for the first 24,400 pounds of feeder cattle purchased for a buyer at auction by direct bid, and increase by one and one-half cents the charge for each 100 pounds or fraction thereof of such cattle in excess of 24,400 pounds;

(17) Increase by $3.00 the maximum charge for each 100 feeder calves or less purchased for a buyer at auction by direct bid;

(18) Increase by $2.50 the maximum charge for the first 24,400 pounds of feeder cattle which have been purchased at auction by direct bid by a buyer weighed to or through a market agency for the buyer, and increase by one and one-half cents the charge for each 100 pounds or fraction thereof of such cattle in excess of 24,400 pounds;

(19) Increase by $2.00 the maximum charge for each 100 feeder calves or less which have been purchased at auction by direct bid by a buyer and weighed to or through a market agency for the buyer;

(20) Increase by 10 cents per head the charge for any stockyard services rendered in connection with feeder cattle or calves acquired by a buyer at auction but which have been neither purchased nor paid for by the market agency;

(21) Increase by $1.75 the maximum charge for any stockyard services rendered in connection with the first 24,400 pounds of feeder cattle acquired by a buyer at auction but which have been neither purchased or paid for by the market agency, and increase by three-fourths cent the charge for rendering such services in connection with each 100 pounds or fraction thereof of such cattle in excess of 24,400 pounds;

(22) Increase by $1.50 the maximum charge for any stockyard services rendered in connection with each 100 feeder calves or less acquired by a buyer at auction but which have been neither purchased nor paid for by the market agency.

The portions of the current temporary schedule modified as indicated above would read as follows:

ATOMIC ENERGY COMMISSION

[Docket No. 50-154]

MARTIN-MARIETTA CORP.

Notice of Issuance of Facility License

Please take notice that the Atomic Energy Commission has issued License No. CX-18 authorizing Martin-Marietta Corporation to possess and operate, at power levels up to ten watts (thermal), its liquid fluidized bed reactor critical experiments facility on its site near Middle River, Maryland. The license is substantially as published in the FEDERAL REGISTER on September 28, 1960, 25 F.R. 9255, except that (1) the name of the applicant has been changed to Martin-Marietta Corporation from The Martin Company, (2) a condition has been added regarding the procedures which are to be followed with respect to operations with the reactor shut down which might involve a change in core reactivity, (3) a condition has been added requiring the submission of a report no later than 60 days after the initial criticality of the reactor which describes measured values of certain operating conditions or characteristics and evaluates any significant variation of a measured value from the corresponding predicted value, and (4) a condition has been added requiring a prompt report of any significant variation from a predicted value of the operating conditions or characteristics of the facility which might affect nuclear safety.

In view of the changes in the license from that which was published on September 27, 1960, 25 F.R. 9255, the Commission will, in accordance with its rules of practice (10 CFR Part 2), direct the holding of a formal hearing on the matter of the issuance of License No. CX-18 upon receipt of a request therefor from the licensee or a petition to intervene within 30 days after the issuance of the license. Petitions for leave to intervene and requests for a formal hearing shall be filed by mailing a copy to the Office of the Secretary, Atomic Energy Commission, Washington 25, D.C., or by delivery of a copy in person to the Office of the Secretary, Germantown, Maryland, or the Commission's Public Document Room, 1717 H Street NW., Washington, D.C.

For further details see the application submitted by The Martin Company (now Martin-Marietta Corporation) and amendments thereto filed under Docket No. 50-154 available for public inspection at the Commission's Public Document Room.

Dated at Germantown, Md., this 28th day of December 1961.

For the Atomic Energy Commission.

CIVIL AERONAUTICS BOARD

[Docket Nos. 13224, 13171; Order No. E-17888]

ARTHUR J. BROWN ET AL.

Order Granting Tentative Approval

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 29th day of December 1961.

In the matter of the application of Arthur J. Brown, ABC Freight Forwarding Corporation, et al., Docket 13224, for approval of certain control and interlocking relationships pursuant to sections 408 and 409 of the Federal Aviation Act of 1958, as amended; in the matter of the application of Isadore Richman, ABC Air Freight Co., Inc., et al., Docket 13171, for approval of certain interlocking relationships pursuant to section 409 of the Federal Aviation Act of 1958, as amended.

On September 21, 1961, the Board approved, after hearing, pursuant to section 408 of the Federal Aviation Act of 1958, as amended (the Act), the holding by Arthur J. Brown directly or indirectly

of the controlling interest in ABC Freight Forwarding Corporation (ABC Freight), ABC Air Freight Co., Inc. (ABC Air), Paramount Freight Handling, Inc., ABCO Consolidators, Inc., ABC International, Inc. (ABC International), Blue Ribbon Express, Inc., Blue Seal Consolidators, Inc., Midland Forwarding Corp., Midland Terminal Corp., Vendors Consolidating Co., Association Consolidators, Inc., Freight Consolidators, Inc., Association Freight Agents, Inc. and Scat Cartage Company. In addition, the Board approved, pursuant to section 409 of the Act, interlocking relationships between the above companies arising from Arthur J. Brown's controlling interest in all of them and from his positions as president and director of several of them, and also permitted him to hold generally other positions within the same system of affiliated companies.[1]

ABC Air presently is authorized to operate as a domestic and international air freight forwarder, while ABC International is a foreign surface freight forwarder under the authority of the Federal Maritime Board, and is also an approved cargo agent for certain airline members of the International Air Transport Association. The other affiliates are engaged in such activities as surface freight forwarding, shippers agent, package consolidation, and local pick up and delivery service.

Subsequent to the issuance of Order E–17480, applicants decided to separate the domestic and international air freight forwarding activities which ABC Air is currently authorized to perform and, accordingly, ABC International filed an application seeking an international air freight forwarder authorization.[2] Concurrently, on November 29, 1961, Arthur J. Brown and the companies named above filed an application under sections 408 and 409 of the Act for approval of the relationships which would result from the grant of the requested international air freight forwarder authorization to ABC International. Applicants state, in effect, that ABC International will be able to conduct international air freight forwarding operations with greater efficiency and at lower cost than would be the case if ABC Air were to undertake actively such operations.

By separate application filed November 8, 1961, Isadore Richman and the companies named above, except Scat Cartage Co., request approval under section 409 of the Act for interlocking relationships which will result from Mr. Richman serving as director and/or officer of ABC Air and such of the affiliated companies to which he may be hereafter elected or appointed. The application states that Mr. Richman was elected a director of ABC Air on or about October 1, 1961, but presently holds no position as officer or director of any of the other companies, although it is contemplated that he will so serve with some or all of the companies.

No objections to the applications have been filed.

The Board, upon consideration of the applications, concludes that relationships within the purview of section 408(a) of the Act are created by the control of ABC Freight and affiliated companies by Arthur J. Brown as described supra. However, the Board further concludes tentatively that such relationships do not affect the control of an air carrier directly engaged in the operation of aircraft in air transportation, do not result in creating a monopoly, and do not tend to restrain competition. Furthermore, the Board notes that no person disclosing a substantial interest in the matter is currently requesting a hearing. In view of the recently concluded formal proceeding in Docket 10240, the present application does not appear to present any new issues of substance. Since such approval, there has been no change in the activities of the various affiliated companies except as described herein. Similar arrangements have previously been approved by the Board.[3] It would therefore appear that approval of the control relationships would not be inconsistent with the public interest.

The Board further finds that interlocking relationships within the scope of section 409(a) of the Act will exist between ABC Freight and its affiliated companies enumerated herein from the holding by Messrs. Brown and Richman of the positions described herein. For the reasons expressed above, the Board finds that the parties have made a due showing in the form and manner prescribed that the interlocking relationships will not adversely affect the public interest and should be approved.

In view of the foregoing, the Board intends to approve the control relationships involved herein without a hearing, pursuant to the provisions of section 408(b). In accordance therewith, this order constituting notice of such intention will be published in the FEDERAL REGISTER and interested persons will be afforded an opportunity to comment on the Board's tentative decision.[4]

Therefore, it is ordered:

1. That this order be published in the FEDERAL REGISTER;

2. That the Attorney General be furnished a copy of this order within one day of its publication; and

3. That interested persons are afforded a period of fifteen days within which to file comments or request a hearing with respect to the Board's proposed action herein.[5]

By the Civil Aeronautics Board.

[SEAL] HAROLD R. SANDERSON,
Secretary.

ZANTOP AIR TRANSPORT, INC., AND COASTAL AIR LINES

Notice of Oral Argument

In the matter of the joint application of Zantop Air Transport, Inc. and Coastal Air Lines for acquisition of ownership and control and transfer of Coastal Air Lines' temporary certificate of public convenience and necessity for supplemental air service.

Notice is hereby given, pursuant to the provisions of the Federal Aviation Act of 1958, as amended, that oral argument in the above-entitled proceeding is assigned to be heard on January 17, 1962, at 10 a.m., e.s.t., in Room 1027, Universal Building, Connecticut and Florida Avenues NW., Washington, D.C., before the Board.

FEDERAL POWER COMMISSION

[Docket No. G-9510 etc.]

CITIES SERVICE PRODUCTION CO. ET AL.

Order Approving Recess of Hearing for More Than Thirty Days

DECEMBER 27, 1961.

On December 4, 1961, at the conclusion of the presentation of Respondents' rebuttal case in the above-entitled proceedings, staff counsel requested a recess until March 6, 1962, for cross-examination of Respondents' rebuttal case. There was no opposition to this request and it was granted by the presiding examiner subject to Commission approval. On December 6, 1961, the presiding examiner certified the record to the Commission for its consideration of the request.

In support of the request, staff counsel states that additional time is necessary for preparation for cross-examination of Respondents' rebuttal case, which consists of "* * * approximately eight witnesses and about 20 exhibits. * * *".

The Commission finds: Good cause exists for granting staff's request to recess the subject hearing until March 6, 1962.

The Commission orders: The hearing in these proceedings is hereby recessed until March 6, 1962, at which time staff shall proceed with its cross-examination of Respondents' rebuttal case. Thereafter, the presiding examiner shall grant such recesses and specify such procedures as may be authorized by the Commission's rules of practice and procedure.

By the Commission.

[Docket No. G-4769 etc.]

EL PASO NATURAL GAS CO.

Order Approving Presiding Examiner's Continuance of Hearing for More Than 30 Days

DECEMBER 27, 1961.

El Paso Natural Gas Company Docket Nos. G-4769, G-12948, G-17929, RP60-3.

The Presiding Examiner's certification of a continuance of the hearing herein for more than 30 days was submitted November 28, 1961 pursuant to § 1.13(e) of the Commission's rules of practice and procedure.

Docket No. G-4769 is being heard pursuant to the decision of the Circuit Court of Appeals in *El Paso Natural Gas Company* v. *Federal Power Commission*, 281 F2d 567 and is for the limited purpose of receiving "such evidence as may be necessary to enable it (Commission) to fix a just and reasonable rate to permit a fair return on the wellmouth investment and provide the incentive necessary to attract capital to the exploration and development activities of the company." In each of the other proceedings, suspension orders have been issued and the hearing is upon all issues relevant to a section 4 rate case.

All of El Paso's direct case has been submitted (including rate of return and cost of service) and cross-examination thereon has been completed. In addition, all of the evidence (direct and cross) of all participants, including the staff, on the rate-of-return issue has been adduced. The next step is the presentation of the direct evidence of the staff on all issues other than rate of return. The staff has requested until January 5, 1962, for the preparation and service of such evidence. Interveners, not presently informed as to the specific position of the staff with respect to a number of the issues, request the period between January 5 and January 22, 1962, for the preparation and service of any direct evidence they may wish to offer. All parties agree that February 12, 1962, would afford sufficient opportunity for the preparation of cross-examination of all direct testimony which will have been served as above set out. Upon the showing made the Presiding Examiner on November 27, 1961, recessed the hearing to reconvene at 2:00 o'clock p.m. on February 12, 1962.

The Commission finds: Good cause has been shown herein for the approval of the continuance of the hearing for more than 30 days.

The Commission orders: Continuance of the hearing until February 12, 1962, in Washington, D.C., at 2:00 p.m., in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D.C., as fixed by the Presiding Examiner is approved.

By the Commission.

Secretary.

[4] The pressure base is 14.65 psia.

[1] This order does not provide for the consolidation for hearing or disposition of the several matters covered herein, nor should it be so construed.

[1] Order E-17480 (Docket 10240) adopted the initial decision of Examiner Richard A. Walsh.

[2] Applicants propose that the authorization of ABC Air as an international air freight forwarder be terminated upon the grant of such an authorization to ABC International. For the purposes of this proceeding ABC International is considered to be an air carrier.

[3] The common control of Barnett Aircargo, Inc., a domestic air freight forwarder, and Barnett International Airfreight Corp., an international air freight forwarder, was approved by Order E-11296, May 3, 1957 (Docket 8394). A similar arrangement involving Allied Air Freight, Inc., and Allied Airfreight International Corporation was approved by Order E-13456, January 30, 1959.

[4] Further action on the interlocking relationships under section 409 will be deferred pending final resolution of the control relationships which are subject to section 408.

[5] Such comments shall in all respects conform to the requirements of the Board's rules of practice for the filing of documents.

The proposed increased rates exceed the applicable area price levels.

The increased rates and charges so proposed may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds: It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon hearings concerning the lawfulness of the several proposed changes and that the above-designated supplements be suspended and the use thereof deferred as hereinafter ordered.

The Commission orders:

(A) Pursuant to the authority of the Natural Gas Act, particularly sections 4 and 15 thereof, the Commission's rules of practice and procedure, and the regulations under the Natural Gas Act (18 CFR Ch. I), publi hearings shall be held upon dates to be fixed by notice from the Secretary concerning the lawfulness of the several proposed increased rates and charges contained in the above-designated supplements.

(B) Pending hearings and decisions thereon, the above-designated rate supplements are hereby suspended and the use thereof deferred until the date indicated in the above "Date Suspended Until" column, and thereafter until such further time as they are made effective in the manner prescribed by the Natural Gas Act.

(C) Neither the supplements hereby suspended, nor the rate schedules sought to be altered thereby, shall be changed until these proceedings have been disposed of or until the periods of suspension have expired, unless otherwise ordered by the Commission.

(D) Notices of intervention or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D.C., in accordance with the rules of practice and procedure (18 CFR 1.8 and 1.37) on or before February 5, 1962.

By the Commission.

[Docket No. CP62-108]

TRANSCONTINENTAL GAS PIPE LINE CORP.

Notice of Application and Date of Hearing

DECEMBER 27, 1961.

Take notice that on October 30, 1961, as supplemented on November 2, 1961, and November 27, 1961, Transcontinental Gas Pipe Line Corporation (Applicant), P.O. Box 296, Houston 1, Texas, filed in Docket No. CP62-108 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the construction and operation of two 4-inch taps located on Applicant's 12-inch Woodbury Line and 20-inch Marcus Hook Loop, respectively, at milepost 12.49 on each line, in Gloucester County, New Jersey, all as more fully set forth in the application, as supplemented, which is on file with the Commission and open to public inspection.

The application, as supplemented, states that the proposed taps would be used as additional delivery points to provide gas service to South Jersey Gas Company (South Jersey), an existing customer, for resale to Shell Chemical Company (Shell Chemical). South Jersey desires to render service to Shell Chemical, a new industrial customer, on a firm basis, which service South Jersey would be unable to render from its existing facilities.

Applicant states that South Jersey proposes to construct and own all facilities between the proposed taps and the Shell Chemical plant, including a meter station to be operated by Applicant. The meter station would be located adjacent to Applicant's lines at the subject taps. Section 5(a) of the General Terms and Conditions of Applicant's FPC Gas Tariff, Original Volume No. 1, provides that Applicant must construct and install measuring facilities at its own expense in a case such as that which is the subject of the application herein. Applicant requests that the forementioned provision of its FPC Gas Tariff be waived in the subject application inasmuch as the subject facilities are for the sole benefit of South Jersey.

The proposed volumes of natural gas which would be sold and delivered through the subject facilities would come out of South Jersey's presently authorized allocations sold to it under Applicant's rate schedules on file with the Commission.

Applicant estimates the cost of the proposed facilities to be $3,500, which would be financed from general funds.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on January 31, 1962, at 9:30 a.m., e.s.t., in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D.C., concerning the matters involved in and the issues presented by such application, as supplemented: *Provided, however,* That the Commission may, after a non-contested hearing, dispose of the proceedings pursuant to the provisions of § 1.30(c) (1) or (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D.C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before January 19, 1962. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

JOSEPH H. GUTRIDE,
Secretary.

PAN AMERICAN PETROLEUM CORP. ET AL.

Order Providing for Hearing on and Suspension of Proposed Changes in Rates and Allowing Proposed Increased Rates [1] To Become Effective Subject to Refund

DECEMBER 27, 1961.

Pan American Petroleum Corporation, Docket No. RI62-261; The Altex Corporation, Docket No. RI62-262; Sohio Petroleum Company, Docket Nos. RI62-263, 269; The Tarpon Oil Corporation, Docket No. RI62-264; J. C. Trahan Drilling Contractor, Inc. (Operator), et al., Docket No. RI62-265; Berkshire Oil Company, Docket No. RI62-266; Northern Pump Company (Operator), et al., Docket No. RI62-267; John B. Hawley, Jr., Docket No. RI62-268,

The above-named Respondents have tendered for filing proposed changes in presently effective rate schedules for sales of natural gas subject to the jurisdiction of the Commission. Sales made in Docket Nos. RI62-261, RI62-262, RI62-267, and RI62-268 are made at a pressure base of 14.65 psia, and all other sales are made at a pressure base of 15.025 psia. The Altex Corporation has submitted a proposed rate increase reflecting reimbursement of the Texas dedicated reserve tax applicable to gas sold to Tennessee Gas Transmission Company, which will be suspended for one day consistent with our action taken in similar matters. The proposed changes are designated as follows:

[1] Redetermined increase by letter agreement.
[2] Suspended for one day from Jan. 1, 1962, the date of expiration of the 30-day statutory notice.
[3] Periodic increase by contract.
[4] Includes 0.5 cent per Mcf for amortization of facilities deducted by buyer.
[5] Increase under favored-nation contract provision.

The proposed rates in each of the above-described filings exceeds the applicable area price levels.

The increased rates and charges so proposed may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds: It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon hearings concerning the lawfulness of the several proposed changes and that the above-designated supplements be suspended and the use thereof deferred as hereinafter ordered.

The Commission orders:

(A) Pursuant to the authority of the Natural Gas Act, particularly sections 4 and 15 thereof, the Commission's rules of practice and procedure, and the regulations under the Natural Gas Act (18 CFR, Ch. I), public hearings shall be held upon the dates to be fixed by notices from the Secretary concerning the lawfulness of the several proposed changes and that the above-designated supplements be suspended and the use thereof deferred as hereinafter ordered.

(B) Pending hearings and decisions thereon, the above-designated supplements are hereby suspended and the use thereof deferred until the date indicated in the above "Date Suspended Until" column, and thereafter until such further time as they are made effective in the manner prescribed by the Natural Gas Act: *Provided, however,* That Supplement No. 3 to The Altex Corporation FPC Gas Rate Schedule No. 1, shall become effective on the date and in the manner herein prescribed if within 20 days from the date of the issuance of this order The Altex Corporation shall execute and file under Docket No. RI62-262 with the Secretary of the Commission its agreement and undertaking to comply with the refunding and reporting procedure required by the Natural Gas Act and § 154.102 of the regulations thereunder, accompanied by a certificate showing service of copies thereof upon all purchasers under the rate schedule involved. Unless The Altex Corporation is advised to the contrary within 15 days after the filing of such agreement and undertaking, its agreement and undertaking shall be deemed to have been accepted.

(C) Neither the supplements hereby suspended, nor the rate schedules sought to be altered thereby, shall be changed until these proceedings have been disposed of or until the periods of suspension have expired, unless otherwise ordered by the Commission.

(D) Notices of intervention or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D.C., in accordance with the rules of practice and procedure (18 CFR 1.8 and 1.37(f)) on or before February 15, 1962.

FEDERAL AVIATION AGENCY

[OE Docket No. 61-WE-25]

PROPOSED TELEVISION ANTENNA STRUCTURE

Hearing

The American Broadcasting Company, Television Station KGO-TV, has petitioned the Administrator for a hearing with respect to the determination by the Agency Obstruction Evaluation Branch that the antenna structure proposed by it at Mt. Sutro, San Francisco, California, would be a hazard to air navigation. The Administrator has determined that the petition has an adequate foundation and has granted the hearing on the construction proposal in order to determine the effect of such construction on the safety of aircraft and the efficient utilization of the navigable airspace.

Notice is hereby given that a prehearing conference will be held beginning at 10:00 a.m., January 15, 1962, in the 7th Floor Conference Room of the Federal Aviation Agency's Building C, 1711 New York Avenue NW., Washington, D.C.

The following are designated as parties to the hearing:

Air Line Pilots Association.
Aircraft Owners and Pilots Association.
Air Transport Association.
American Broadcasting Company—KGO-TV.
California Aeronautics Commission.
California Association of Airport Executives, Inc.
Chronicle Publishing Company—KRON-TV.

Department of the Air Force.
Department of the Army.
Department of the Navy.
Federal Communications Commission.
National Association of State Aviation Officials.
National Aviation Trades Association.
National Pilots Association.
Oakland International Airport.
San Francisco International Airport.

Designation as a party does not require participation in the hearing. Any person not designated who believes his activities would be substantially affected by the proposed construction may request the Presiding Officer for designation as a party to the hearing.

Issued: December 27, 1961.

CHARLES W. CARMODY,
Presiding Officer.

SECURITIES AND EXCHANGE COMMISSION

[File No. 1-1615]

TEXAS AND PACIFIC RAILWAY CO.

Notice of Application To Strike From Listing and Registration and of Opportunity for Hearing

DECEMBER 28, 1961.

In the matter of the Texas and Pacific Railway Company, Common Stock File No. 1-1615.

New York Stock Exchange has filed an application with the Securities and Exchange Commission pursuant to section 12(d) of the Securities Exchange Act of 1934 and Rule 12d2-1(b) promulgated thereunder, to strike the specified security from listing and registration thereon.

The reasons alleged in the application for striking this security from listing and registration include the following: The stock is no longer suitable for listing on the Exchange by reason of its limited distribution. Shares exclusive of concentrated holdings are only 79,427.

Upon receipt of a request, on or before January 12, 1962, from any interested person for a hearing in regard to terms to be imposed upon the delisting of this security, the Commission will determine whether to set the matter down for hearing. Such request should state briefly the nature of the interest of the person requesting the hearing and the position he proposes to take at the hearing with respect to imposition of terms. In addition, any interested person may submit his views or any additional facts bearing on this application by means of a letter addressed to the Secretary of the Securities and Exchange Commission, Washington 25, D.C. If no one requests a hearing on this matter, this application will be determined by order of the Commission on the basis of the facts stated in the application and other information contained in the official files of the Commission pertaining to the matter.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
Secretary.

PART 52—PROCESSED FRUITS AND VEGETABLES, PROCESSED PRODUCTS THEREOF, AND CERTAIN OTHER PROCESSED FOOD PRODUCTS

Subpart—United States Standards for Grades of Frozen Carrots [1]

On September 23, 1960, a notice of proposed rule making was published in the FEDERAL REGISTER (25 F.R. 9148) regarding a proposed issuance of the United States Standards for Grades of Frozen Carrots. Such standards will supplant the United States Standards for Grades of Frozen Diced Carrots (7 CFR 52.701–52.711).

After consideration of all relevant matters presented, including the proposal set forth in the aforesaid notice, the following United States Standards for Grades of Frozen Carrots are hereby promulgated pursuant to the authority contained in the Agricultural Marketing Act of 1946 (secs. 202–208, 60 Stat. 1087, as amended; 7 U.S.C. 1621–1627).

SCORE SHEET

52.711 Score sheet for frozen carrots.

AUTHORITY: §§ 52.701 to 52.711 issued under secs. 202–208, 60 Stat. 1087, as amended; 7 U.S.C. 1621–1627.

PRODUCT DESCRIPTION, STYLES, AND GRADES

§ 52.701 Product description.

Frozen carrots are the clean and sound product prepared from the fresh root of the carrot plant (Daucus carota) by washing, sorting, peeling, trimming, and blanching, and are frozen in accordance with good commercial practice and maintained at temperatures necessary for the preservation of the product.

§ 52.702 Styles of frozen carrots.

(a) "Whole" or "whole carrots" means carrots that retain the approximate conformation of a whole carrot.

(b) "Halves" or "halved" means carrots cut longitudinally into two units.

(c) "Quarters" or "quartered" means carrots cut longitudinally into four approximately equal units. Carrots cut longitudinally or cut longitudinally and crosswise into six or eight units approximating the size and appearance of quartered carrots are also permitted in this style.

(d) "Slices" or "sliced" means carrots sliced transversely to the longitudinal axis.

(e) "Diced" means carrots consisting of approximate cube-shaped units.

(f) "Double-diced" means carrots that consist of approximate rectangular shapes which resemble the equivalent of two cube-shaped units.

(g) "Strips" means carrots that consist of longitudinally-cut strips and includes such forms as French style (or shoestring).

(h) "Chips" means carrots that consist of predominantly small-sized units (such as less than one-half cube) and variously shaped pieces or slivers in which the longest-edge dimension approximates not more than one-half inch.

(i) "Cut" means carrots consisting of cut units which do not conform to any of the foregoing styles.

§ 52.703 Grades of frozen carrots.

(a) "U.S. Grade A" (or "U.S. Fancy") is the quality of frozen carrots of any style other than chips that possess similar varietal characterictics; that possess a normal flavor and odor; that possess a good color; that are practically uniform in size and shape for the applicable style; that are practically free from defects; that are tender; and that score not less than 90 points when scored in accordance with the scoring system outlined in this subpart.

(b) "U.S. Grade B" (or "U.S. Extra Standard") is the quality of frozen carrots of any style that possess similar varietal characteristics; that possess a normal flavor and odor; that possess a reasonably good color; that are reasonably uniform in size and shape for the applicable style; that are reasonably free from defects; that are reasonably tender; and that score not less than 80 points when scored in accordance with the scoring system outlined in this subpart.

(c) "Substandard" is the quality of frozen carrots that fail to meet the requirements of U.S. Grade B.

FACTORS OF QUALITY

§ 52.704 Ascertaining the grade of a sample unit.

(a) *General.* In addition to considering other requirements outlined in the standards, the following quality factors are evaluated in ascertaining the grade of the product.

(1) *Factors not rated by score points.*
(i) Varietal characteristics.
(ii) Flavor and odor.

(2) *Factors rated by score points.* The relative importance of each factor which is scored is expressed numerically on the scale of 100. The maximum number of points that may be given each such factor is:

Factors:	Points
Color	20
Uniformity of size and shape	20
Absence of defects	30
Texture	30
Total score	100

(b) *Evaluation of quality.* The score for the factors of color, uniformity of size and shape, and absence of defects in frozen carrots is determined immediately after thawing to the extent that the product is substantially free from ice crystals and can be handled as individual units. A representative sample of the product is cooked to determine texture and flavor and odor.

(c) *Definition of normal flavor and odor.* "Normal flavor and odor" means a good characteristic flavor and odor of properly prepared frozen carrots that are free from objectionable flavors and objectionable odors of any kind, as evaluated after thawing and after cooking.

§ 52.705 Ascertaining the rating for the factors which are scored.

The essential variations within each factor which is scored are so described that the value may be ascertained for each factor and expressed numerically. The numerical range within each factor which is scored is inclusive (for example, "18 to 20 points" means 18, 19, or 20 points).

§ 52.706 Color.

(a) *General.* The evaluation of color shall be determined on the thawed product. The color is based upon the uniformity and the brightness of the typical exterior yellow to orange-yellow color of the units. The presence of green, white, or orange-brown units are scored under this factor when the over-all color is affected.

(b) *(A) classification.* Frozen carrots that possess a good color may be given a score of 18 to 20 points. "Good color" means that the frozen carrots possess an orange-yellow color that is bright and typical of frozen carrots and that the presence of green, white, or orange-brown units does not more than slightly affect the appearance or eating quality of the product.

(c) *(B) classification.* If the frozen carrots possess a reasonably good color, a score of 16 or 17 points may be given. Frozen carrots that fall into this classification shall not be graded above U.S. Grade B, regardless of the total score for the product (this is a limiting rule). "Reasonably good color" means that the frozen carrots possess a typical color of frozen carrots and such color may be slightly dull but not off color and that the presence of green, white, or orange-brown units does not materially affect the appearance or eating quality of the product.

(d) *(SStd) classification.* Frozen carrots that fail to meet the requirements of paragraph (c) of this section may be given a score of 0 to 15 points and shall not be graded above Substandard, regardless of the total score for the product (this is a limiting rule).

§ 52.707 Uniformity of size and shape.

(a) *Ascertaining dimensions.* Size dimensions of the various units are measured as follows:

(1) *Diameter of whole carrots.* The diameter of a whole carrot is the shortest diameter at the greatest circumference measured at right angles to the longitudinal axis of the carrot.

(2) *Width of halved carrots.* The width of a half is the widest cut surface measured at right angles to the length.

(3) *Width of quartered carrots.* The width of a quarter is the widest cut surface measured at right angles to the length.

(4) *Diameter and thickness of sliced carrots.* The diameter of a slice is the shortest diameter of the larger of the two cut surfaces of the slice. The thickness of a slice is measured at its thickest portion.

(5) *Size of diced carrots.* The size of a dice is the length of the edge (other than rounded outer edges) which is most representative of the cube's size.

(b) *Definitions of shapes and sizes.* (1) "Other shapes and sizes" with respect to all styles include, but are not limited to, noticeably large units much in excess of normal size units for the style and large, irregularly-shaped units not normal for the style; and with respect to diced and double-diced styles include units of irregular shapes which are noticeably smaller than the equivalent of one-half the volume of an average size cube or double-diced cube, as the case may be.

(2) "Very small pieces" with respect to diced style means pieces smaller than the equivalent of one-fourth the volume of an average size cube, and with respect to double-diced style means pieces smaller than the equivalent of one-fourth the volume of an average size double-diced unit.

(c) *(A) classification.* Frozen carrots of styles other than "chips" that are practically uniform in size and shape may be given a score of 18 to 20 points. "Practically uniform in size and shape" means that:

(1) The carrots comply with the measurement, shape, and uniformity requirements for (A) classification in Table I of this subpart; and, in addition

(2) The over-all appearance of the product for the applicable style is not materially affected by sizes and shapes other than that of normal-shaped units which may vary moderately in shape.

(d) *(B) classification.* If the frozen carrots of any style are reasonably uniform in size and shape, a score of 16 or 17 points may be given. Frozen carrots that fall into this classification shall not be graded above U.S. Grade B, regardless of the total score for the product (this is a limiting rule). "Reasonably uniform in size and shape" means that:

(1) The carrots comply with the measurement, shape, and uniformity requirements for (B) classification in Table I of this subpart; and, in addition

(2) The overall appearance of the product for the applicable style is not seriously affected by sizes and shapes other than that of normal-shaped units which may vary considerably in shape.

(e) *(SStd) classification.* Frozen carrots that fail to meet the requirements of paragraph (d) of this section may be given a score of 0 to 15 points and shall not be graded above Substandard, regardless of the total score for the product (this is a limiting rule).

TABLE I—UNIFORMITY OF SIZE AND SHAPE REQUIREMENTS FOR FROZEN CARROTS

Styles	(A) Classification: Measurement and/or shape of individual units	(A) Classification: Uniformity in 90%, by count, of units that are most uniform	(B) Classification: Measurement and/or shape individual units	(B) Classification: Uniformity in 90%, by count, of units that are most uniform
Whole	1⅝-inch maximum diameter.	Unit with largest diameter, or width, does not exceed unit with smallest diameter, or width, by more than 50%.	2¼-inch maximum diameter.	Unit with largest diameter, or width, is not more than twice that of unit with smallest diameter, or width.
Halved	1⅝-inch maximum width.		1¾-inch maximum width.	
Quartered	1¼-inch maximum width.		1¾-inch maximum width.	
Sliced	2-inch maximum diameter.	Unit with largest diameter is not more than twice that of unit with smallest diameter and uniformity of thickness does not vary markedly.	2½-inch maximum diameter.	No limits as to uniformity between largest and smallest diameters but variations in diameters and thickness do not seriously affect over-all appearance.
	Approximate ¾-inch maximum thickness.		Approximate ¾-inch maximum thickness.	
Diced	Approximate cube-shapes, ½ inch or less in size.	10%, by weight, maximum may be other shapes and sizes.[1]	Approximate cube-shapes, ½ inch or less in size.	20%, by weight, maximum may be other shapes and sizes.[2]
Double-diced	Approximate double-cube shapes, 1 inch or less long; ½ inch or less in cross-section diameter.	12%, by weight, maximum may be other shapes and sizes.[1]	Approximate double-cube shapes of varying sizes and shapes.	25%, by weight, maximum may be other shapes and sizes.[2]
Strips	Approximate french-cut shapes, ½ inch or more long.	12%, by weight, maximum may be less than ½ inch long.	Approximate french-cut shapes of varying sizes and shapes.	25%, by weight, maximum may be less than ½ inch long.
Cuts	Units may vary considerably in size and shape provided over-all appearance is not materially affected.		Units may vary considerably in size and shape provided over-all appearance is not seriously affected.	
Chips	[Limited to Grade B or lower]		Units are small (such as less than ½ cube), individually reasonably uniform in weight, may be variously shaped, approximating not more than ½ inch in longest-edge dimension.	

[1] Provided, presence of very small pieces does not materially affect appearance of product.
[2] Provided, presence of very small pieces does not seriously affect appearance of product.

§ 52.708 Absence of defects.

(a) *General.* The factor of absence of defects refers to the degree of freedom from defective units or defects. "Defective units" or "defects" are units damaged by mechanical injury or other means; unpeeled units; units blemished or seriously blemished by brown or black internal or external discoloration, sunburn, or green or white colored units, pathological injury or insect injury; and units blemished or seriously blemished by other means.

(b) *Definitions of defective units and defects.* (1) "Damaged by mechanical injury or other means" include crushed, broken, or cracked units; units with excessively frayed edges and surfaces; excessively or poorly trimmed units; or damaged by other similar means to an extent that the appearance or eating quality of the unit is seriously affected.

(2) "Unpeeled areas" are considered defects when on whole, halved, or quartered units the unpeeled area is greater than the area of a circle three-eighths inch in diameter; and on smaller units the unpeeled area is greater than the area of a circle one-eighth inch in diameter.

(3) "Blemished" means any unit blemished to the extent that the appearance or eating quality is materially affected.

(4) "Seriously blemished" means any unit blemished to the extent that the appearance or eating quality is seriously affected.

(c) *(A) classification.* Frozen carrots that are practically free from defects may be given a score of 27 to 30 points. "Practically free from defects" means that:

(1) The limits for allowable defects or defective units in the applicable styles do not exceed the maximum limits for (A) classification in Table II of this subpart; and

(2) Notwithstanding the applicable allowances in Table II the defects or defective units (whether or not specifically defined), individually and collectively, do not materially affect the appearance or edibility of the product.

(d) *(B) classification.* If the frozen carrots are reasonably free from defects, a score of 24 to 26 points may be given. Frozen carrots that fall into this classification shall not be graded above U.S. Grade B, regardless of the total score for the product (this is a limiting rule).

[1] Compliance with the provisions of these standards shall not excuse failure to comply with the provisions of the Federal Food, Drug, and Cosmetic Act or with applicable State laws and regulations.

"Reasonably free from defects" means that:

(1) The limits for allowable defects or defective units in the applicable styles do not exceed the maximum limits for (B) classification in Table II of this subpart; and

(2) Notwithstanding the applicable allowances in Table II the defects or defective units (whether or not specifically defined), individually and collectively, do not seriously affect the appearance or edibility of the product.

(e) *(SStd) classification.* Frozen carrots that fail to meet the requirements of paragraph (d) of this section may be given a score of 0 to 23 points and shall not be graded above Substandard, regardless of the total score for the product (this is a limiting rule).

TABLE II—MAXIMUM ALLOWANCES FOR DEFECTS OR DEFECTIVE UNITS IN FROZEN CARROTS

Defects (For styles, as indicated)	(A) Classification	(B) Classification
Whole, halved, quartered: Total all defects, including blemished and seriously blemished.	15%, by count, of all units	25%, by count, of all units.
Blemished and seriously blemished.	Limitations [1]—7½%, by count, but no more than 2%, by count, seriously blemished.	Limitations [1]—12½%, by count, but no more than 4%, by count, seriously blemished.
Sliced, cut: Total all defects, including blemished and seriously blemished.	15%, by weight, of all units	25%, by weight, of all units.
Blemished and seriously blemished.	Limitations [1]—7½%, by weight, but no more than ¾ of 1%, by weight, seriously blemished.	Limitations [1]—12½%, by weight, but no more than 1½%, by weight, seriously blemished.
Diced, Double-diced, strips: Total all defects, including blemished and seriously blemished.	10%, by weight, of all units	16%, by weight, of all units.
Blemished and seriously blemished.	Limitations [1]—5%, by weight, but no more than ¾ of 1%, by weight, seriously blemished.	Limitations [1]—8%, by weight, but no more than 1½%, by weight, seriously blemished.
Chips: Total all defects, including blemished and seriously blemished.	Limited to Grade B or lower classification.	16%, by weight, of all units.
Blemished and seriously blemished.		Limitations [1]—8%, by weight, but no more than 1½%, by weight, seriously blemished.

[1] Provided such blemished and/or seriously blemished units do not materially affect the appearance or edibility of the product.
[2] Provided such blemished and/or seriously blemished units do not seriously affect the appearance or edibility of the product.

§ 52.709 Texture.

(a) *General.* The factor of texture refers after cooking to the tenderness and freedom from mushiness of the carrots and the degree of freedom from coarse or fibrous units.

(b) *(A) classification.* Frozen carrots that possess a tender texture may be given a score of 27 to 30 points. "Tender texture" means that the carrots are tender, not fibrous nor mushy, and possess a practically uniform texture.

(c) *(B) classification.* If the frozen carrots possess a reasonably tender texture, a score of 24 to 26 points may be given. Frozen carrots that fall into this classification shall not be graded above U.S. Grade B, regardless of the total score for the product (this is a limiting rule). "Reasonably tender texture" means that the carrots are reasonably tender, may be variable in texture but not generally tough, hard, nor mushy, and there may be present a few units which possess a coarse, fibrous, or mushy texture.

(d) *(SStd) classification.* Frozen carrots that fail to meet the requirements of paragraph (c) of this section may be given a score of 0 to 23 points and shall not be graded above Substandard, regardless of the total score for the product (this is a limiting rule).

LOT INSPECTION AND CERTIFICATION

§ 52.710 Ascertaining the grade of a lot.

The grade of a lot of frozen carrots covered by these standards is determined by procedures set forth in the Regulations Governing Inspection and Certification of Processed Fruits and Vegetables, Processed Products Thereof, and Certain Other Processed Food Products (§§ 52.1 through 52.87).

Chapter VII—Agricultural Stabilization and Conservation Service (Agricultural Adjustment), Department of Agriculture

SUBCHAPTER B—FARM MARKETING QUOTAS AND ACREAGE ALLOTMENTS

PART 728—WHEAT

Subpart—1962–63 Marketing Year

DETERMINATION OF COUNTY NORMAL YIELDS

The regulations contained in § 728.1208 are issued pursuant to the Agricultural Adjustment Act of 1938, as amended, and govern the determination of county normal yields of wheat for 1962, including the appraisal of yields for years in the 10-year period used in determining county normal yields for which the data are not available, or in which there were no actual yields.

Prior to preparing the regulations in § 728.1208, public notice (26 F.R. 3723) was given in accordance with the Administrative Procedure Act. No data, views, or recommendations pertaining to the regulations in § 728.1208 were submitted pursuant to such notice.

§ 728.1208 Determination of the county normal yields for the 1962 crop of wheat.

(a) A county normal yield shall be determined for each wheat producing county except counties in States designated by the Secretary as being outside the commercial wheat-producing area. The county normal yield for 1962 shall be determined on the basis of the average of the yields per harvested acre of wheat for the county during the 10 calendar years, 1951 through 1960, adjusted for abnormal weather conditions and trends in yields. In adjusting for abnormal weather conditions: (1) If the yield for the crop for any year of the 10-year period 1951 through 1960 is less than 75 per centum of the average of the remaining 9 years, such year shall be eliminated in calculating the normal yield per acre; (2) if the yield for the crop for any year of the 10-year period is determined to be abnormally low due to abnormal weather conditions, and is 75 per centum or more of the average of the remaining 9 years, such yield shall be adjusted by substituting therefor the average yield for the years remaining after the elimination of any of the annual yields required to be eliminated under the provisions of subparagraph (1) of this paragraph; (3) (i) if the yield for the crop for any year is determined to be abnormally high due to abnormal weather conditions, such yield shall be adjusted by substituting therefor 125 per centum of the average yield for the years remaining after the elimination of any of the annual yields required to be eliminated under the provisions of subparagraph (1) of this paragraph; (ii) if five or more years of the 10-year period are eliminated as required under the provisions of subparagraph (1) of this paragraph, and it is determined that the yield for any other year is abnormally high due to abnormally favorable weather conditions, and that the adjusted yield as determined under the provisions of subdivision (i) of this subparagraph is inappropriate because of the elimination of five or more years of the 10-year period, the yield for such year shall be adjusted by substituting therefor 128 per centum of the unadjusted 10-year average yield.

(b) The adjustment for trend in yields shall be made by averaging the 10-year average of the annual yields as adjusted for abnormal weather conditions as described above with the average of the annual yields for the 5-year period, 1956–60 inclusive, adjusted for abnormal weather conditions as described above, giving equal weight to each. No adjustment for trend shall be made in those counties in which it is determined that due to abnormally unfavorable weather conditions it is impossible to determine if there has been any trend in yields for the county.

(c) (1) If for any year of the 10-year period 1951 through 1960 the yield data are not available, or there was no actual yield, the yield for such year shall be appraised, taking into consideration the yields for years for which data are available and the yield for such year in nearby or adjacent counties or crop reporting districts recognized by the Statistical Reporting Service in which the production of wheat is similar.

(2) In those counties in which the production of wheat is partially on irrigated land, partially on summer fallow land, and partially on continuous cropping land, a normal yield computed in accordance with the method described above shall be determined for the land devoted to irrigation, summer fallow, and continuous cropping cultural practices, respectively. The normal yield for land devoted to each of these practices shall be averaged, using for weights the latest data available as to the acreage devoted to each practice.

(d) County normal yields are as follows:

Chapter IX—Agricultural Marketing Service (Marketing Agreements and Orders), Department of Agriculture

[Tangerine Reg. 1]

PART 905—ORANGES, GRAPEFRUIT, TANGERINES, AND TANGELOS GROWN IN FLORIDA

Limitation of Shipments

§ 905.301 Tangerine Regulation 1.

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 905 as amended (7 CFR Part 905), regulating the handling of oranges, grapefruit, tangerines, and tangelos grown in Florida, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and upon the basis of the recommendations of the committees established under the aforesaid amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of shipments of tangerines, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (5 U.S.C. 1001–1011) because the time intervening between the date when information upon which this section is based became available and the time when the section must become effective in order to effectuate the declared policy of the act is insufficient; a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. Shipments of tangerines, grown in the pro-

duction area, are presently subject to regulation by grades and sizes, pursuant to the amended marketing agreement and order; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after an open meeting of the Growers Administrative Committee on January 2, 1962, such meeting was held to consider recommendations for regulation, after giving due notice of such meeting, and interested persons were afforded an opportunity to submit their views at this meeting; the provisions of this section, including the effective time hereof, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such tangerines; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period hereinafter set forth so as to provide for the continued regulation of the handling of tangerines, and compliance with this section will not require any special preparation on the part of the persons subject thereto which cannot be completed by the effective time hereof.

(b) *Order.* (1) Terms used in the amended marketing agreement and order shall, when used herein, have the same meaning as is given to the respective term in said amended marketing agreement and order; and terms relating to grade, diameter, and standard pack, as used herein, shall have the same meaning as is given to the respective term in the United States Standards for Florida Tangerines (§§ 51.1810–51.1834; 25 F.R. 8216 of this title).

(2) Tangerine Regulation 228 (§ 933.1080; 26 F.R. 11281) is hereby terminated effective at 12:01 a.m., e.s.t., January 5, 1962.

(3) During the periods beginning at 12:01 a.m., e.s.t., January 5, 1962, and ending at 12:01 a.m., e.s.t., January 22, 1962, no handler shall ship between the production area and any point outside thereof in the continental United States, Canada, or Mexico:

(i) Any tangerines, grown in the production area, that do not grade at least U.S. No. 1; or

(ii) Any tangerines, grown in the production area, that are of a size smaller than the size that will pack 246 tangerines, packed in accordance with the requirements of a standard pack, in a half-standard box (inside dimensions 9½ x 9½ x 19⅛ inches; capacity 1,726 cubic inches).

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: January 3, 1962.

PAUL A. NICHOLSON,
Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[Grapefruit Reg. 1]

PART 906—ORANGES AND GRAPEFRUIT GROWN IN LOWER RIO GRANDE VALLEY IN TEXAS

Limitation of Shipments

§ 906.302 Grapefruit Regulation 1.

(a) *Findings.* (1) Pursuant to the marketing agreement and Order No. 906 (7 CFR Part 906), regulating the handling of oranges and grapefruit grown in the Lower Rio Grande Valley in Texas, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and upon the basis of the recommendation of the Texas Valley Citrus Committee established under the aforesaid marketing agreement and order, and upon other available information, it is hereby found that the limitation of shipments of grapefruit, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (5 U.S.C. 1001–1011) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient; a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. Shipments of all grapefruit, grown in the production area, are presently subject to regulation by grades and sizes, pursuant to the marketing agreement and order; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after an open meeting of the Texas Valley Citrus Committee on December 19, 1961, such meeting was held to consider recommendations for regulation, after giving due notice of such meeeting, and interested persons were afforded an opportunity to submit their views at this meeting; the provisions of this section, including the effective time hereof, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such grapefruit; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period hereinafter set forth so as to provide for the continued regulation of the handling of grapefruit, and compliance with this section will not require any special preparation on the part of the persons subject thereto which cannot be completed by the effective time hereof.

(b) *Order.* (1) Terms used in the marketing agreement and order shall, when used herein, have the same meaning as is given to the respective term in said marketing agreement and order; and terms relating to grade and diameter when used herein, shall have the same meaning as is given to the respective term in the United States Standards for Grapefruit (Texas and States other than Florida, California, and Arizona) (§§ 51.620–51.658 of this title).

(2) During the period beginning at 12:01 a.m., c.s.t., January 8, 1962, and ending at 12:01 a.m., c.s.t., February 5, 1962, no handler shall, except as otherwise provided, handle:

(i) Any container of grapefruit of any variety, grown in the production area, unless such grapefruit meet the requirements of one of the following grades:

(*a*) U.S. Fancy;

(*b*) U.S. No. 1 Bright;

(*c*) U.S. No. 1 with not more than one-third of the surface, in the aggregate, affected by discoloration;

(*d*) U.S. Combination with not less than 80 percent, by count, of the grapefruit meeting the requirements of (*c*) of this subdivision and the remainder of such grapefruit meeting the requirements of (*e*) of this subdivision;

(*e*) U.S. No. 2 with not more than one-half of the surface, in the aggregate, affected by discoloration; or

(*f*) U.S. No. 2 Russet.

(ii) Any seedless grapefruit, grown as aforesaid, which are of a size smaller than $3^{9}/_{16}$ inches in diameter, except that not more than 10 percent, by count, of such grapefruit in any lot of containers, and not more than 15 percent, by count, of such grapefruit in any individual container in such lot, may be of a size smaller than $3^{8}/_{16}$ inches in diameter: *Provided*, That none of such grapefruit may be smaller than $3^{6}/_{16}$ inches in diameter;

(iii) Any seeded grapefruit, grown as aforesaid, which are of a size smaller than $3^{13}/_{16}$ inches in diameter, except that not more than ten (10) percent, by count, of such seeded grapefruit in any lot of containers may be of a size smaller than $3^{13}/_{16}$ inches in diameter, but not more than fifteen (15) percent, by count, of such seeded grapefruit in any individual container in any lot may be of a size smaller than $3^{13}/_{16}$ inches in diameter.

(iv) Any grapefruit of any variety, grown as aforesaid, in any box or carton having inside dimensions other than those specified in subdivision (v) unless (*a*) the grapefruit are packed in accordance with the requirements of standard pack; or (*b*) are of a diameter within the diameter limits specified for one of the following pack sizes except that not more than 10 percent, by count, of the grapefruit in such container may be outside of such diameter limits:

Pack size	Diameter limits in inches	
	Minimum	Maximum
46	$4^{5}/_{16}$	5

(v) Any grapefruit of any variety, grown as aforesaid, in a container having inside dimensions of 19¾ x 13½ x 13½ inches unless such container is packed in accordance with one of the following pack sizes and contain the applicable number of grapefruit that are within the diameter limits specified for the particular pack size, except that not more than 10 percent, by count, of such grapefruit in such container may be outside such diameter limits:

Pack size:	Number of grapefruit
46	48
54 or 56	56
64	64
70 or 72	72
80	80
96	96

(vi) Any grapefruit of any variety, grown as aforesaid, for which inspection is required unless an appropriate inspection certificate has been issued with respect thereto not more than 48 hours prior to the time of shipment.

(vii) The provisions of subdivisions (iv) and (v) shall not apply to the grapefruit in any gift package of fruit.

All grapefruit of any variety, grown as aforesaid, handled during the period specified in this section are subject to all applicable container regulations which are in effect pursuant to the aforesaid marketing agreement and order during such period.

AUTHORITY: §§ 912.0 to 912.75, inclusive, issued under secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674.

§ 912.0 Findings and determinations.

(a) *Findings upon the basis of the hearing record.* Pursuant to the Agricultural Marketing Agreement Act of 1937, as amended (Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674), and the applicable rules of practice and procedure, as amended, effective thereunder (7 CFR Part 900), a public hearing was held at Vero Beach, Florida, August 30–31, 1961, upon a proposed marketing agreement and a proposed marketing order regulating the handling of grapefruit grown in the Indian River District in Florida. Upon the basis of the evidence introduced at such hearing, and the record thereof, it is found that:

(1) This order, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the act;

(2) This order regulates the handling of grapefruit grown in the Indian River District in Florida in same manner as, and is applicable only to persons in the respective classes of commercial or industrial activity specified in, a proposed marketing agreement upon which a hearing has been held;

(3) This order is limited in its application to the smallest regional production area which is practicable, consistently with carrying out the declared policy of the act, and the issuance of several orders applicable to subdivisions of the production area would not effectively carryout the declared policy of the act;

(4) There are no differences in the production and marketing of grapefruit grown in the Indian River District in Florida which make necessary different terms and provisions applicable to different parts of such area; and

(5) All handling of grapefruit grown in the Indian River District, as defined in the order, is in the current of interstate or foreign commerce or directly burdens, obstructs, or affects such commerce.

(b) *Additional findings.* It is hereby found on the basis hereinafter indicated that good cause exists for making the provisions of this order effective January 8, 1962; and that it would be contrary to the public interest to postpone such effective date until 30 days after publication (5 U.S.C. 1001–1011). As soon as practical after such effective time it will be necessary to establish the Indian River Grapefruit Committee, the agency charged with administration of the program. Subsequently, and prior to imposition of regulations, it will be necessary for the committee and the Secretary to initiate, and complete, various actions of both organizational and regulatory natures, including the formulation and promulgation of rules and regulations to govern operations under the program. Shipments of grapefruit normally extend from October into May. The period during which volume regulations are most likely to be imposed begins with the second full calendar week in January and ends with and includes the third full calendar week in April. Hence, for the program to be of maximum benefit during the 1961–62 shipping season the order should be made effective on January 8, 1962, the last Monday prior to the start of the aforesaid period. The provisions of the order are well known to handlers of Indian River grapefruit since the public hearing in connection with the order was completed August 31, 1961, and the recommended decision and the final decision were published in the FEDERAL REGISTER on November 25, 1961 (26 F.R. 11062), and December 14, 1961 (26 F.R. 11982), respectively. Copies of the regulatory provisions of this order were made available to all known interested parties; such provisions do not place any restrictions on handlers until regulations are issued thereunder and shipment of grapefruit takes place; and, therefore, compliance with such provisions will not require advance preparation on the part of persons subject thereto which cannot be completed prior to the effective date of regulation pursuant hereto.

(c) *Determinations.* It is hereby determined that:

(1) A marketing agreement regulating the handling of grapefruit grown in the Indian River District in Florida, upon which the aforesaid public hearing was held, has been signed by handlers (excluding cooperative associations of producers who were not engaged in proc-

essing, distributing, or shipping the grapefruit covered by this order) who, during the period beginning August 1, 1960, through July 31, 1961, handled not less than 50 percent of the volume of grapefruit covered by this order; and

(2) The issuance of this order is favored or approved by at least two-thirds of the producers who participated in a referendum on the question of its approval and who, during the determined representative period (August 1, 1960, through July 31, 1961) were engaged, within the production area specified in this order, in the production of grapefruit for market; such producers having also produced for market at least two-thirds of the volume of grapefruit represented in such referendum.

It is, therefore, ordered, That, on and after the effective date hereof, the handling of grapefruit grown in the said Indian River District shall be in conformity to, and in compliance with, the terms and conditions of this order; and such terms and conditions are as follows:

DEFINITIONS

§ 912.1 Secretary.

"Secretary" means the Secretary of Agriculture of the United States, or any officer or employee of the Department to whom authority has heretofore been delegated, or to whom authority may hereafter be delegated, to act in his stead.

§ 912.2 Act.

"Act" means Public Act No. 10, 73d Congress (May 12, 1933), as amended and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674).

§ 912.3 Person.

"Person" means an individual, partnership, corporation, association, or any other business unit.

§ 912.4 Fruit or grapefruit.

"Fruit" or "grapefruit" means any or all varieties of Citrus grandis, Osbeck, grown in the Indian River District.

§ 912.5 Producer or grower.

"Producer" is synonymous with "grower" and means any person who is engaged in the production for market of grapefruit in the Indian River District and who has a proprietary interest in the grapefruit so produced.

§ 912.6 Handler or shipper.

"Handler" is synonymous with "shipper" and means any person (except a common or contract carrier transporting grapefruit for another person) who, as owner, agent, or otherwise, handles grapefruit in fresh form, or causes grapefruit to be handled.

§ 912.7 Handle or ship.

"Handle" or "ship" means to sell or transport grapefruit, or in any other way to place grapefruit, in the current of commerce between the regulation area and any point outside thereof in the United States, Canada, or Mexico.

§ 912.8 Standard packed box.

"Standard packed box" means a unit of measure equivalent to one and three-fifths (1⅗) United States bushels of grapefruit, whether in bulk or in any container.

§ 912.9 Fiscal period.

"Fiscal period" means the period of time from August 1 of any year until July 31 of the following year, both dates inclusive: *Provided,* That the initial fiscal period shall begin on the effective date of this part.

§ 912.10 Committee.

"Committee" means Indian River Grapefruit Committee.

§ 912.11 Central marketing organization.

"Central marketing organization" means any organization which markets grapefruit for more than one handler pursuant to a written contract between such organization and each such handler.

§ 912.12 Regulation area.

"Regulation area" means that portion of the State of Florida which is bounded by the Suwannee River, the Georgia border, the Atlantic Ocean, and the Gulf of Mexico.

§ 912.13 Indian River District or district.

"Indian River District" or "district" means that part of the State of Florida particularly described as follows: Beginning at a point on the shore of the Atlantic Ocean where the line between Flagler and Volusia Counties intersects said shore, thence follow the line between said two counties to the southwest corner of Section 23, Township 14 South, Range 31 East; thence continue south to the southwest corner of Section 35, Township 14 South, Range 31, East; thence east to the northwest corner of Township 18 South, Range 32 East; thence south to the southwest corner of Township 17 South, Range 32 East; thence east to the northwest corner of Township 18 South, Range 33 East, thence south to the St. Johns River; thence along the main channel of the St. Johns River and through Lake Harney, Lake Poinsett, Lake Winder, Lake Washington, Sawgrass Lake, and Lake Helen Blazes to the range line between Ranges 35 East and 36 East; thence south to the south line of Brevard County; thence east to the line between Ranges 36 East and 37 East; thence south to the southwest corner of St. Lucie County; thence east to the line between Ranges 39 East and 40 East; thence south to the south line of Martin County; thence east to the line between Ranges 40 East and 41 East; thence south to the West Palm Beach Canal (also known as the Okeechobee Canal); thence follow said canal eastward to the mouth thereof; thence east to the shore of the Atlantic Ocean; thence northerly along the shore of the Atlantic Ocean to the point of beginning.

ADMINISTRATIVE BODY

§ 912.20 Establishment and membership.

There is hereby established an Indian River Grapefruit Committee consisting of twelve members, each of whom shall have an alternate who shall be nominated and selected in the same manner, and who shall have the same qualifications, as the member for whom each is an alternate. Six of the members and their respective alternates shall be growers who shall not be handlers, or employees of handlers, or employees of central marketing organizations. Six of the members and their respective alternates shall be handlers, or employees of handlers, or employees of central marketing organizations.

§ 912.21 Term of office.

The term of office of members and alternate members shall begin on the first day of August and continue for one year. Members and alternate members shall serve in such capacities for the portion of the term of office for which they are selected and have qualified and until their successors are selected and have qualified. The consecutive terms of office of a member shall be limited to three terms. The terms of office of alternate members shall not be so limited.

§ 912.22 Nomination of grower members for the Indian River Grapefruit Committee.

(a) The Secretary shall give public notice of a meeting or meetings of producers to be held not later than July 10th of each year, for the purpose of making nominations for grower members and alternate members of the committee: *Provided,* That the initial nomination meeting or meetings shall be held as soon as practicable following the effective date of this part.

(b) The Secretary shall prescribe uniform rules to govern such meeting or meetings and the balloting thereat. The chairman of each meeting shall publicly announce at such meeting the names of the persons nominated and the total number of votes cast for each, and the chairman and secretary of each such meeting shall transmit to the Secretary their certificate as to the number of votes so cast, the names of the persons nominated, and such other information as the Secretary may request. All nominations shall be submitted to the Secretary on or before the 20th day of July, except that the nomination made for membership on the initial committee shall be so submitted within 10 days after the close of the nomination meetings.

§ 912.23 Selection of grower members of the Indian River Grapefruit Committee.

From the nominations made pursuant to § 912.22, or from other qualified persons, the Secretary shall select six members and six alternate members of the committee. Three such members and their alternates shall be affiliated with bona fide cooperative fresh fruit marketing organizations, and three such members and their alternates shall not be so affiliated.

§ 912.24 Nomination of handler members for the Indian River Grapefruit Committee.

(a) The Secretary shall give public notice of meetings of handlers to be held not later than July 10th of each year, for the purpose of making nominations for handler members and alternate members of the committee: *Provided,* That the initial nomination meetings shall be held as soon as practicable following the effective date of this part. Separate meetings shall be held for bona fide cooperative marketing organizations and for other handlers.

(b) The Secretary shall prescribe uniform rules to govern such meetings and the balloting thereat. In voting for nominees each handler shall be entitled to cast but one vote, which shall be weighted by the volume of fruit shipped by such handler during the then current fiscal period: *Provided,* That each such vote cast at the meetings to nominate the initial members and alternate members shall be weighted by the volume of fruit handled by such handler during the preceding fiscal period. The chairman of each meeting shall publicly announce at such meeting the names of the persons nominated and the total number of votes cast for each, and the chairman and secretary of each such meeting shall transmit to the Secretary their certificate as to the number of votes so cast, the names of the persons nominated, and such other information as the Secretary may request. All nominations shall be submitted to the Secretary on or before the 20th day of July, except that the nominations made for membership on the initial committee shall be so submitted within 10 days after the close of the nomination meetings.

§ 912.25 Selection of handler members of the Indian River Grapefruit Committee.

From the nominations made pursuant to § 912.24, or from other qualified persons, the Secretary shall select six members and six alternate members of the committee. Three such members and their alternates shall be affiliated with bona fide cooperative fresh fruit marketing organizations, and three such members and their alternates shall not be so affiliated.

§ 912.26 Failure to nominate.

In the event nominations for a member or an alternate member of the committee are not made pursuant to the provisions of § 912.22 or § 912.24 the Secretary may select such member or alternate member without regard to nominations.

§ 912.27 Acceptance of membership.

Any person selected by the Secretary as a member or alternate member of the committee shall qualify by filing a written acceptance with the Secretary within 10 days after being notified of such selection.

§ 912.28 Inability of members to serve.

(a) An alternate for a member of the committee shall act in the place and stead of such member (1) in his absence, or (2) in the event of his removal, resignation, disqualification, or death, and until a successor for his unexpired term has been selected.

(b) In the event of the death, removal, resignation, or disqualification of any person selected by the Secretary as a member or an alternate member of the committee, a successor for the unexpired term of such person shall be selected by the Secretary. Such selection may be made without regard to the provisions of this subpart as to nominations.

§ 912.29 Powers of the Indian River Grapefruit Committee.

The committee, in addition to the power to administer the terms and provisions of this subpart, as herein specifically provided, shall have power (a) to make, only to the extent specifically permitted by the provisions contained in this subpart, administrative rules and regulations; (b) to receive, investigate and report to the Secretary complaints of violations of this subpart; and (c) to recommend to the Secretary amendments to this subpart.

§ 912.30 Duties of the Indian River Grapefruit Committee.

It shall be the duty of the committee:

(a) To select a chairman from its membership, and to select such other officers and adopt such rules and regulations for the conduct of its business as it may deem advisable;

(b) To keep minutes, books, and records which will clearly reflect all of its acts and transactions, which minutes, books, and records shall at all times be subject to the examination of the Secretary;

(c) To act as intermediary between the Secretary and producers and handlers;

(d) To furnish the Secretary with such available information as he may request;

(e) To appoint such employees as it may deem necessary and to determine the salaries and define the duties of such employees;

(f) To cause its books to be audited by one or more certified or registered public accountants at least once for each fiscal period, and at such other times as it deems necessary or as the Secretary may request, and to file with the Secretary copies of all audit reports;

(g) To prepare and publicly issue a monthly statement of financial operations of the committee; and

(h) To provide an adequate system for determining the total crop of grapefruit, and to make such determinations, as it may deem necessary, or as may be prescribed by the Secretary, in connection with the administration of this subpart.

§ 912.31 Compensation and expenses of committee members.

The members and alternate members of the committee shall serve without compensation but may be reimbursed for expenses necessarily incurred by them in attending committee meetings and in the performance of their duties under this subpart.

§ 912.32 Procedure of committee.

(a) Except as provided in paragraph (b) of this section, eight members of the committee shall constitute a quorum and any decision or action of the committee shall require at least eight concurring votes.

(b) For any decision or recommendation with respect to regulations to be effective during any calendar week except a week during the period beginning with and including the second full calendar week in January and ending with and including the third full calendar week in April, twelve members shall constitute a quorum and twelve concurring votes shall be required. The same quorum and voting requirements shall be necessary to make a recommendation for regulation for any week immediately following three or more continuous weeks of regulation. The requirements of this paragraph shall not apply to recommendations to amend an existing regulation.

(c) The votes of each member cast for or against any recommendations made pursuant to this subpart, shall be duly recorded. Each member must vote in person.

(d) In the event any member of the committee and his alternate are not present at any meeting of the committee, any alternate for any other member selected by a majority of the committee present, may serve in the place and stead of the absent member and his alternate: *Provided,* That, to the extent practical, the representation provided in §§ 912.23 and 912.25 shall be maintained.

(e) The committee shall give to the Secretary the same notice of meetings of the committee as is given to the members thereof.

§ 912.33 Funds.

(a) All funds received by the committee pursuant to the provisions of this subpart shall be used solely for the purposes herein specified and shall be accounted for in the manner provided in this subpart.

(b) The Secretary may, at any time, require the committee and its members to account for all receipts and disbursements.

(c) Upon the removal or expiration of the terms of office of any member of the committee, such member shall account for all receipts and disbursements and deliver all property and funds, together with all books and records in his possession, to his successor in office, and shall execute such assignments and other instruments as may be necessary or appropriate to vest in such successor full title to all of the property, funds, and claims vested in such member pursuant to this subpart.

EXPENSES AND ASSESSMENTS

§ 912.40 Expenses.

The committee is authorized to incur such expenses as the Secretary finds are reasonable and necessary to carry out the functions of the committee under this subpart during each fiscal period. The funds to cover such expenses shall be acquired by the levying of assessments upon handlers as provided in § 912.41.

§ 912.41 Assessments.

(a) Each handler who first handles fruit shall pay to the committee, upon demand, such handler's pro rata share of the expenses which the Secretary finds will be incurred by such committee for its maintenance and functioning during each fiscal period. Each such handler's share of such expenses shall be that proportion thereof which the total quantity of fruit shipped by such handler as the first handler thereof during the applicable fiscal period is of the total quantity of fruit so shipped by all handlers during the same fiscal period. The Secretary shall fix the rate of assessment per standard packed box of fruit to be paid by each such handler. The payment of assessments for the maintenance and functioning of the committee may be required under this part throughout the period it is in effect irrespective of whether particular provisions thereof are suspended or become inoperative.

(b) At any time during or after the fiscal period, the Secretary may increase the rate of assessment so that the sum of money collected pursuant to the provisions of this section shall be adequate to cover the said expenses. Such increase shall be applicable to all fruit shipped during the given fiscal period. In order to provide funds to carry out the functions of the committee, handlers may make advance payment of assessments.

§ 912.42 Handler's accounts.

If, at the end of a fiscal period, it shall be determined that assessments collected are in excess of expenses incurred, each handler entitled to a proportionate refund shall be credited with such refund against the operations of the following fiscal period unless he demands payment of the sum due him, in which case such sum shall be paid to him.

REGULATION

§ 912.45 Marketing policy.

(a) Prior to the first recommendation for regulation during any marketing season, the committee shall submit to the Secretary its marketing policy for such season. Such marketing policy shall contain the following information: (1) The estimated available crop of grapefruit in the district, including estimated quality; (2) the estimated utilization of the crop that will be marketed in domestic, export, and byproduct channels, together with quantities otherwise to be disposed of; (3) a schedule of estimated weekly shipments of grapefruit during the ensuing season; (4) the available supplies of competitive deciduous fruits in all producing areas of the United States; (5) level and trend in consumer income; (6) estimated supplies of competitive citrus commodities; and (7) any other pertinent factors bearing on the marketing of grapefruit. In the event that it becomes advisable substantially to modify such marketing policy, the committee shall submit to the Secretary a revised marketing policy.

(b) All meetings of the committee held for the purpose of formulating such marketing policies shall be open to growers and handlers.

(c) The commitee shall transmit a copy of each marketing policy report or revision thereof to the Secretary and to each grower and handler who files a request therefor. Copies of all such reports shall be maintained in the office of the committee where they shall be available for examination by growers and handlers.

§ 912.46 Recommendations for volume regulation.

(a) The committee may, during any week, recommend to the Secretary the total quantity of grapefruit which it deems advisable to be handled during the next succeeding week: *Provided*, That such regulations shall not be recommended during the period beginning with and including the second full calendar week in January and ending with and including the third full calendar week in April after regulations during such period have limited the volume of grapefruit handled during 10 weeks.

(b) In making its recommendations, the committee shall give due consideration to the following factors: (1) Market prices for grapefruit; (2) supply of grapefruit on track at, and en route to, the principal markets; (3) supply, maturity, and condition of grapefruit in the production area; (4) market prices and supplies of citrus fruits from competitive producing areas, and supplies of other competitive fruits; (5) trend and level in consumer income; and (6) other relevant factors.

(c) At any time during a week for which the Secretary, pursuant to § 912.47, has fixed the quantity of grapefruit which may be handled, the committee may recommend to the Secretary that such quantity be increased for such week. Each such recommendation, together with the committee's reason for such recommendation, shall be submitted promptly to the Secretary.

§ 912.47 Issuance of volume regulation.

Whenever the Secretary finds, from the recommendations and information submitted by the committee, or from other available information, that to limit the quantity of grapefruit which may be handled during a specified week will tend to effectuate the declared policy of the act, he shall fix such quantity: *Provided*, That such regulations shall not, in the aggregate, limit the volume of grapefruit shipments during more than 10 weeks of the period beginning with and including the second full calendar week in January and ending with and including the third full calendar week in April. The quantity so fixed for any week may be increased by the Secretary at any time during such week. The Secretary may upon the recommendation of the committee, or upon other available information, terminate or suspend any regulation at any time.

§ 912.48 Prorate bases.

(a) Each person who desires to handle grapefruit, shall submit to the committee, at such time and in such manner as may be designated by the committee, and upon forms made available by it, a written application for a prorate base and for allotments as provided in this section and § 912.49.

(b) Such application shall be substantiated in such manner and shall be supported by such information as the committee may require.

(c) The committee shall determine the accuracy of the information submitted pursuant to this section. Whenever the committee finds that there is an error, omission, or inaccuracy in any such information, it shall correct the same and shall give the person who submitted the information a reasonable opportunity to discuss with the committee the factors considered in making the correction.

(d) Each week during the marketing season when volume regulation is likely to be recommended, the committee shall compute a prorate base for each person who has made application in accordance with the provisions of this section. Such prorate base for each handler shall, except as provided in paragraph (e) of this section, be the average weekly quantity of grapefruit shipped by him in all of the weeks in the period beginning with and including the second full calendar week in January and ending with and including the third full calendar week in April during the immediately preceding three marketing seasons.

(e) If an applicant for a prorate base is a new handler, the committee shall compute a prorate base based upon his prior shipments of grapefruit, if any, packinghouse facilities, grapefruit under contract, trade outlets, and other factors which, in the judgment of the committee, are relevant and proper to be used in arriving at an equitable prorate base for such handler. Any person who has made no shipments of grapefruit in the season immediately preceding the season for which prorate bases are established shall be considered a new handler.

§ 912.49 Allotments.

Whenever the Secretary has fixed the quantity of grapefruit which may be handled during any week, the committee shall calculate the quantity of grapefruit which may be handled during such week by each person who has applied for a prorate base. Such quantity shall be the allotment of such person and shall be that portion of the total quantity fixed by the Secretary which, expressed in terms of percent, is equal to the percentage that such applicant's prorate base is of the aggregate of the prorate bases of all such applicants. The committee shall give reasonable notice to each person of the allotment computed for him pursuant to this section.

§ 912.50 Overshipments.

During any week for which the Secretary has fixed the total quantity of grapefruit which may be handled, any person who has received an allotment may handle, in addition to the total allotment available to him for use during such week, an amount of grapefruit equivalent to 10 percent of such total allotment, or 500 boxes, whichever is greater. The quantity of grapefruit so handled in excess of the total allotment which such person had available for use during such week (but not exceeding an amount equivalent to the excess shipments permitted under this section) shall be deducted from such person's allotment for the next week. If such person's allotment for such week is in an amount less than the excess shipments permitted under this section, the remaining quantity shall be deducted from succeeding weekly allotments issued to such person until such excess has been entirely offset: *Provided*, That at any time there is no volume regulation in effect it shall be deemed to cancel all requirements to undership allotments because of previous overshipments pursuant to this part.

§ 912.51 Undershipments.

If any person handles during any week a quantity of grapefruit, covered by a regulation issued pursuant to § 912.47, in an amount less than the total allotment available to him for such week, he may handle, during the next succeeding week, a quantity of grapefruit, in addition to that permitted by the allotment available to him for such week, equivalent to such undershipment or 50 percent of the allotment issued to him for the week during which the undershipment was made, whichever is the lesser: *Provided*, That the committee, with the approval of the Secretary, may increase or decrease such percentage.

§ 912.52 Allotment loans.

(a) A person to whom allotments have been issued may lend such allotments to other persons to whom allotments have also been issued. Each party to any such loan agreement shall, prior to completion of the agreement, notify the committee of the proposed loan and obtain the committee's approval of the agreement. Each such agreement shall specify that such loan is to be repaid from the borrower's allotment the next succeeding week or, if such borrower's allotment for such week is insufficient to repay all of such loan, that he will repay the balance of such loan as soon thereafter as he has allotment available to him.

(b) The committee may act on behalf of persons desiring to arrange allotment loans. In each case, the committee shall confirm all such transactions immediately after the completion thereof by memorandum addressed to the parties concerned, which memorandum shall be deemed to satisfy the requirements of paragraph (a) of this section as to an approval of the loan agreement.

§ 912.53 Inspection and certification.

Whenever the handling of grapefruit is regulated pursuant to § 912.47, each handler who handles any grapefruit shall, prior to the handling of any lot of grapefruit, cause such lot to be inspected by the Federal or Federal-State Inspection Service and certified by it as meeting all applicable requirements of such regulation: *Provided*, That such inspection and certification shall not be required if the particular lot of fruit previously had been so inspected and certified.

REPORTS

§ 912.60 Reports.

Upon request of the committee, made with approval of the Secretary, each handler shall maintain such records and furnish to the committee, in such manner and at such time as it may prescribe, reports of overshipments and undershipments and such other reports and information as may be necessary for the committee to perform its duties under this part.

MISCELLANEOUS PROVISIONS

§ 912.65 Fruit not subject to regulation.

Except as otherwise provided in this section, any person may, without regard to the provisions of §§ 912.47 through 912.53 and the regulations issued thereunder, ship grapefruit for the following purposes: (a) To a charitable institution for consumption by such institution; (b) to a relief agency for distribution by such agency; (c) to a commercial processor for conversion by such processor into canned or frozen products or into a beverage base; (d) by parcel post; and (e) in such minimum quantities, types of shipments, or for such purposes as the committee with the approval of the Secretary may specify. No assessment shall be levied on fruit so shipped. The committee shall, with the approval of the Secretary, prescribe such rules, regulations, or safeguards as it may deem necessary to prevent grapefruit handled under the provisions of this section from entering channels of trade for other than the purposes authorized by this section. Such rules, regulations, and safeguards may include the requirements that handlers shall file applications with the committee for authorization to handle grapefruit pursuant to this section, and that such applications be accompanied by a certification by the intended purchaser or receiver that the grapefruit will not be used for any purpose not authorized by this section.

§ 912.66 Compliance.

Except as provided in this part, no person shall handle grapefruit during any week in which a regulation issued by the Secretary pursuant to § 912.47 is in effect, unless such grapefruit are, or have been, handled pursuant to an allotment therefor, or unless such person is otherwise permitted to handle such grapefruit under the provisions of this part; and no person shall handle grapefruit except in conformity with the provisions of this part and the regulations issued under this part.

§ 912.67 Right of the Secretary.

The members of the committee (including successors and alternates), and any agents, employees, or representatives thereof, shall be subject to removal or suspension by the Secretary at any time. Each and every regulation, decision, determination, or other act of the committee shall be subject to the continuing right of the Secretary to disapprove of the same at any time. Upon such disapproval, the disapproved action of the committee shall be deemed null and void, except as to acts done in reliance thereon or in compliance therewith prior to such disapproval by the Secretary.

§ 912.68 Effective time.

The provisions of this part shall become effective at such time as the Secretary may declare above his signature to this part, and shall continue in force until terminated in one of the ways specified in § 912.69.

§ 912.69 Termination.

(a) The Secretary may at any time terminate the provisions of this part by giving at least one day's notice by means of a press release or in any other manner which he may determine.

(b) The Secretary shall terminate the provisions of this part at the end of any fiscal period whenever he finds that such termination is favored by a majority of producers who, during the preceding fiscal period, have been engaged in the production for market of fruit: *Provided*, That such majority have, during such period, produced for market more than 50 percent of the volume of such fruit produced for market, but such termination shall be effective only if announced on or before July 31 of the then current fiscal period.

(c) The provisions of this part shall, in any event, terminate whenever the provisions of the act authorizing it cease to be in effect.

§ 912.70 Proceedings after termination.

(a) Upon the termination of the provisions of this part, the then functioning members of the committee shall continue as joint trustees, for the purpose of liquidating the affairs of the same committee, of all the funds and property then in the possession of or under control of such administrative committee, including claims for any funds unpaid or property not delivered at the time of such termination.

(b) The said trustees (1) shall continue in such capacity until discharge by the Secretary; (2) shall, from time to time, account for all receipts and disbursements, or deliver all property on hand, together with all books and records of the committee and of the joint trustees, to such person as the Secretary may direct; and (3) shall, upon the request of the Secretary, execute such assignments or other instruments necessary or appropriate to vest in such person full title and right to all of the funds, property, and claims vested in the committee, or the joint trustees pursuant to this part.

(c) Any funds collected pursuant to § 912.41, over and above the amounts necessary to meet outstanding obligations and expenses necessarily incurred during the operation of this part and during the liquidation period, shall be returned to handlers as soon as practicable after the termination of this part. The refund to each handler shall be represented by the excess of the amount paid by him over and above his pro rata share of the expenses.

(d) Any person to whom funds, or claims have been transferred or delivered by the committee, or its members, pursuant to this section, shall be subject to the same obligations imposed upon the members of said committee and upon the said joint trustees.

§ 912.71 Duration of immunities.

The benefits, privileges, and immunities conferred upon any person by virtue

of this part shall cease upon its termination, except with respect to acts done under and during the existence of this part.

§ 912.72 Agents.

The Secretary may, by designation in writing, name any person, including any officer or employee of the Government, or name any bureau or division in the United States Department of Agriculture, to act as his agent or representative in connection with any of the provisions of this part.

§ 912.73 Derogation.

Nothing contained in this part is, or shall be construed to be in derogation or in modification of the rights of the Secretary or of the United States (a) to exercise any powers granted by the act or otherwise, or (b) in accordance with such powers, to act in the premises whenever such action is deemed advisable.

§ 912.74 Personal liability.

No member or alternate of the committee, nor any employee or agent thereof, shall be held personally responsible, either individually or jointly with others, in any way whatsoever, to any handler or to any other person for errors in judgment, mistakes, or other acts, either of commission or omission, as such member, alternate, or employee, except for acts of dishonesty.

§ 912.75 Separability.

If any provision of this part is declared invalid, or the applicability thereof to any person, circumstance, or thing is held invalid, the validity of the remainder of this part or the applicability thereof to any other person, circumstance, or thing shall not be affected thereby.

Issued at Washington, D.C., this 29th day of December 1961 to become effective January 8, 1962.

JAMES T. RALPH,
Assistant Secretary.

PART 912—GRAPEFRUIT GROWN IN THE INDIAN RIVER DISTRICT IN FLORIDA

Subpart—Rules and Regulations

The order[1] regulating the handling of grapefruit grown in the Indian River District in Florida (Order 912), filed simultaneously herewith, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), provides in §§ 912.22 and 912.24 thereof that the Secretary shall prescribe uniform rules to govern meetings for nominating members and alternate members of the Indian River Grapefruit Committee (the agency established for the local administration of such order) and the balloting thereat. In order that eligible persons may participate in selecting nominees for member and alternate member positions on the Indian River Grapefruit Committee, the following rules and regulations, governing the procedure to be followed in effecting such nominations, are hereby promulgated:

§ 912.120 Nomination procedure.

Meetings shall be called by the designated representative of the Secretary in accordance with §§ 912.22 and 912.24, for the purpose of making nominations for members and alternate members of the Indian River Grapefruit Committee. The time of the meetings for nominating the initial members and alternate members shall be not later than 10 days after the effective date of this part. The manner of nominating members and alternate members shall be as follows:

(a) At each such meeting the said agent shall announce the requirements as to eligibility for voting for nominees and the procedure for balloting, and shall explain the functions of the committee under §§ 912.1 to 912.75, inclusive.

(b) A chairman and a secretary of each meeting shall be selected.

(c) At each meeting of growers there shall be presented for nomination and there shall be nominated not less than six grower members, all of whom shall have the qualifications specified in §§ 912.20 and 912.23. Each grower voting at such meeting shall submit his name and address to the chairman or secretary of the meeting.

(d) At each meeting of handlers there shall be presented for nomination and there shall be nominated not less than six handler members, all of whom shall have the qualifications specified in §§ 912.20 and 912.25. Any person authorized to represent a handler may cast a ballot for such handler. Each person voting at such meeting shall submit his name and address to the chairman or secretary of the meeting.

(e) All voting shall be by ballot and all ballots shall be delivered by the chairman or the secretary of the meeting to the said agent of the Secretary. The number of ballots to be cast in selecting the nominees shall be determined at the respective meeting. Each person eligible to cast a ballot for a nominee for a member or alternate member position may cast one ballot for each such position to be filled.

(f) The agent of the Secretary shall give reasonable notice of each meeting to be held pursuant to this section.

It is hereby found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (5 U.S.C. 1001–1011) for the reasons set forth in § 912.0 (b) *Additional findings* of said Order 912, and to enable eligible persons to participate within the limited time available in the selection of nominees for member and alternate member positions on the committee.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated December 29, 1961, to become effective January 8, 1962.

JAMES T. RALPH,
Assistant Secretary.

PART 927—BEURRE D'ANJOU, BEURRE BOSC, WINTER NELIS, DOYENNE DU COMICE, BEURRE EASTER, AND BEURRE CLAIRGEAU VARIETIES OF PEARS GROWN IN OREGON, WASHINGTON, AND CALIFORNIA

Handling Limitations

§ 927.0 Findings and determinations.

The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations made in connection with the issuance of the order and of the previously issued amendments thereto; and all of said previous findings and determinations are hereby ratified and affirmed except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) *Findings upon the basis of the hearing record.* Pursuant to the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and the applicable rules of practice and procedure effective thereunder (7 CFR Part 900), a public hearing was held at Portland, Oregon, on July 13, 1961, upon proposed amendments to the marketing agreement, as amended, and Order No. 39, as amended (7 CFR Part 939), regulating the handling of Beurre D'Anjou, Beurre Bosc, Winter Nelis, Doyenne du Comice, Buerre Easter, and Beurre Clairgeau varieties of pears grown in Oregon, Washington, and California. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order, as amended, and as hereby further amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the act;

(2) The said order, as amended, and as hereby further amended, regulates the handling of Beurre D'Anjou, Beurre Bosc, Winter Nelis, Doyenne du Comice, Beurre Easter, and Beurre Clairgeau varieties of pears grown in the States of Oregon, Washington, and California in the same manner as, and is applicable only to persons in the respective classes of industrial and commercial activity specified in, the marketing agreement upon which hearings have been held;

(3) The said order, as amended, and as hereby further amended, is limited in its application to the smallest regional production area that is practicable, consistent with carrying out the declared policy of the act; and the issuance of several orders applicable to subdivisions of such regional production area would not effectively carry out the declared policy of the act; and

(4) The said order, as amended, and as hereby further amended, prescribes such different terms, applicable to different production and marketing areas, as are necessary to give due recognition to differences in the production and marketing of such pears.

(b) *Determinations.* It is hereby determined that:

(1) The marketing agreement, as amended, regulating the handling of Beurre D'Anjou, Beurre Bosc, Winter Nelis, Doyenne du Comice, Beurre Easter, and Beurre Clairgeau varieties of pears grown in Oregon, Washington, and California, upon which the aforesaid public hearing was held, has been signed by handlers (excluding cooperative associations of producers who were not engaged in processing, distributing, or shipping the pears covered by this order) who, during the period July 1, 1960, through June 30, 1961, shipped not less than 50 percent of the pears covered by said order, as amended, and hereby further amended;

(2) The aforesaid marketing agreement, as amended, and as hereby further amended, has been executed by handlers who were signatory parties to said marketing agreement and who during the preceding fiscal period shipped not less than 67 percent of the volume of pears, covered by the said order, as amended, and as hereby further amended, shipped by all signatory handlers to said marketing agreement during such representative period;

(3) The issuance of this order, amending the aforesaid order, is favored or approved by at least two-thirds of the producers who participated in a referendum on the question of its approval and who, during the determined representative period (July 1, 1960, through June 30, 1961) were engaged within the area in the production for market of the pears covered by the said order; and

(4) The issuance of this order, amending the aforesaid order, is favored or approved by producers who, during the aforesaid representative period, produced for market at least two-thirds of the volume of the said varieties of pears produced for market within the States of Oregon, Washington, and California.

It is therefore ordered, That, on and after the effective date hereof, all handling of Beurre D'Anjou, Beurre Bosc, Winter Nelis, Doyenne du Comice, Beurre Easter, and Beurre Clairgeau varieties of pears grown in the States of Oregon, Washington, and California shall be in conformity to, and in compliance with, the terms and conditions of the said order, as amended, and as hereby further amended as follows:

1. Section 927.42 *Handler accounts* is revised to read as follows:

§ 927.42 Accounting.

(a) If, at the end of a fiscal period, the assessments collected are in excess of expenses incurred, the committee, with the approval of the Secretary, may carryover such excess into subsequent fiscal periods as a reserve: *Provided,* That funds already in the reserve do not exceed aproximately one fiscal period's expenses. Such reserve may be used (1) to cover any expense authorized under this part and (2) to cover necessary expenses of liquidation in the event of termination of this part. Any such excess not retained in a reserve or applied to any outstanding obligation of the person from whom it was collected shall be refunded proportionately to the persons from whom it was collected. Upon termination of this part, any funds not required to defray the necessary expenses of liquidation shall be disposed of in such manner as the Secretary may determine to be appropriate: *Provided,* That to the extent practical, such funds shall be returned pro rata to the persons from whom such funds were collected.

(b) All funds received by the committee pursuant to the provisions of this part shall be used solely for the purpose specified in this part and shall be accounted for in the manner provided in this part. The Secretary may at any time require the committee and its members to account for all receipts and disbursements.

2. A new § 927.47 is added as follows:

§ 927.47 Research and development.

The committee, with the approval of the Secretary, may establish or provide for the establishment of marketing research and development projects designed to assist, improve, or promote the marketing, distribution, and consumption of pears.

§ 927.60 [Amendment]

3. Section 927.60 *Inspection and certification* is amended as follows:

a. The following is added at the beginning of the first sentence: "(a) Except as hereinafter provided,".

b. A new paragraph (b) is added as follows:

(b) Any handler may ship pears, on any one conveyance and in such quantity as the committee, with the approval of the Secretary, may prescribe, exempt from the inspection and certification requirements of paragraph (a) of this section.

§ 927.32 [Amendment]

4. The following phrase is deleted from § 927.32(c): "to engage in such research and service activities relative to the handling of pears as may be approved by the Secretary."

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated December 29, 1961, to become effective 30 days after publication in the FEDERAL REGISTER.

JAMES T. RALPH,
Assistant Secretary.

Chapter X—Agricultural Stabilization and Conservation Service (Marketing Agreements and Orders), Department of Agriculture

[Milk Order No. 15]

PART 1015—MILK IN CONNECTICUT MARKETING AREA

Order Amending Order

§ 1015.0 Findings and determinations.

The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order and of the previously issued amendments thereto; and all of the said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) *Findings upon the basis of the hearing record.* Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held upon certain proposed amendments to the tentative marketing agreement and to the order regulating the handling of milk in the Connecticut marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order as hereby amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the Act;

(2) The parity prices of milk, as determined pursuant to section 2 of the Act, are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the said marketing area, and the minimum prices specified in the order as hereby amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(3) The said order as hereby amended, regulates the handling of milk in the same manner as, and is applicable only to persons in the respective classes of industrial or commercial activity specified in, a marketing agreement upon which a hearing has been held.

(b) *Additional findings.* It is necessary in the public interest to make this order amending the order effective not later than January 1, 1962. Any delay beyond that date would tend to disrupt the orderly marketing of milk in the marketing area.

The provisions of the said order are known to handlers. The recommended decision of the Assistant Secretary was issued October 5, 1961, and the decision

[1] F.R. Doc. 62-80, *supra.*

of the Acting Secretary containing all amendment provisions of this order was issued December 15, 1961. The changes effected by this order will not require extensive preparation or substantial alteration in method of operation for handlers. In view of the foregoing, it is hereby found and determined that good cause exists for making this order amending the order effective January 1, 1962, and that it would be contrary to the public interest to delay the effective date of this amendment for 30 days after its publication in the FEDERAL REGISTER (sec. 4(c), Administrative Procedure Act, 5 U.S.C. 1001–1011).

(c) *Determinations.* It is hereby determined that:

(1) The refusal or failure of handlers (excluding cooperative associations specified in section 8c(9) of the Act) of more than 50 percent of the milk, which is marketed within the marketing area, to sign a proposed marketing agreement, tends to prevent the effectuation of the declared policy of the Act;

(2) The issuance of this order, amending the order, is the only practical means pursuant to the declared policy of the Act of advancing the interests of producers as defined in the order as hereby amended; and

(3) The issuance of the order amending the order is approved or favored by at least two-thirds of the producers who participated in a referendum and who during the determined representative period were engaged in the production of milk for sale in the marketing area.

Order relative to handling. It is therefore ordered, that on and after the effective date hereof, the handling of milk in the Connecticut marketing area shall be in conformity to and in compliance with the terms and conditions of the aforesaid order, as amended, and as hereby further amended as follows:

§ 1015.2 [Amendment]

1. Delete § 1015.2(e) and substitute the following:

(e) "Producer" means any dairy farmer (except a producer-handler under any Federal order, a dairy farmer with respect to exempt milk delivered, or a dairy farmer who is a producer under another Federal order) who produces milk which is received during the month at a pool plant, or is diverted by a pool handler from a pool plant to a nonpool plant in accordance with subparagraph (1), (2) or (3) of this paragraph, if such pool handler, in filing the report required pursuant to § 1015.30, reports such milk as received from a producer at such pool plant: *Provided*, That any dairy farmer whose milk is diverted during any month of July through March, inclusive, on more than the number of days specified shall not be considered to qualify under this paragraph with respect to any of his deliveries of milk during such month.

(1) To a nonpool plant (except a plant of a producer-handler) during any month of July through September on not more than 10 days (5 days in the case of every-other-day delivery) during such month: *Provided*, That the dairy farmer producing such milk delivered milk to a pool plant earlier in such month, or held producer status during the immediately preceding month.

(2) To a nonpool plant (except a plant of a producer-handler) during any month of October through March on not more than 12 days (6 in the case of every-other-day delivery) during such month: *Provided*, That the dairy farmer producing such milk delivered milk to a pool plant earlier in such month, or held producer status during the immediately preceding month.

(3) To a nonpool plant (except a plant of a producer-handler) during any month of April through June if the dairy farmer producing such milk held producer status throughout the two months immediately preceding such month and delivered all his pool milk to a pool plant(s) in the same zone location as the plant from which diversion is claimed: *Provided*, That this requirement or the requirements set forth in the provisos of subparagraphs (1) and (2) of this paragraph, shall not be applicable in the case of a dairy farmer whose milk is moved from the farm in a tank truck in which it is commingled with milk from other producers, the majority of which meet such requirement.

2. Delete the periods at the end of paragraphs 1015.2 (g) and (h), insert commas, and add the following to each such paragraph: "or with respect to the milk of any producer lost or destroyed by such association under the conditions set forth in 1015.4(f)".

3. In § 1015.2(i) insert the word "transferred" after the word "products" where it appears for the second time before the first proviso.

4. Add prior to the second proviso in § 1015.2(i), the following: "*Provided further*, That any fluid milk product which such person, his agent, partner or other associate acquired or purchased from a nonpool source, which was not physically received at his plant, and which such person distributed to or caused to be delivered at retail or wholesale outlets, including vending machines in any Federal milk order marketing area, shall be included in such person's nonpool source of supply of milk products:"

§ 1015.3 [Amendment]

5. Add a new § 1015.3(c)(2)(v) as follows:

(v) Any two receiving plants each of which meets the pooling requirements of this subparagraph for at least one of the months of July through November, and which are operated by the same handler, or for which one handler is responsible for the movement of milk to pool plants described in subparagraph (1) of this paragraph, to a producer-handler or to a regulated plant other than a pool plant, may, during the remaining months of August through November, be considered as a unit for the single purpose of having shipments therefrom to plants described in such subparagraph (1), to a producer-handler or to a regulated plant other than a pool plant combined for determining pool plant status pursuant to this subparagraph: *Provided*, That the operator of such plants submits written notice to the market administrator on or before the 15th day of the month for which such status is first intended to apply specifying the plants to be considered as a unit and the period during which such consideration should apply. A receiving plant that is a pool plant as part of a unit pursuant to this subparagraph may be a nonpool plant if the operator of such plant submits a written request to the market administrator to withdraw such plant from pool plant status, and shall be a nonpool plant if fully regulated under another Federal order pursuant to § 1015.47. Such request shall be submitted on or before the 15th day of the month to which such nonpool status is to apply. Such nonpool status shall be effective until the receiving plant requalifies as a pool plant on the basis of shipments as provided in this section. Such plant shall not be included in a unit prior to the next following August: *And provided also*, That if such combined shipments of the unit are less than would be required to qualify each of the plants separately under this subparagraph, the individual plants may regain pool plant status on the basis of shipments as provided in this section, but shall not be included in a unit prior to the next following August.

§ 1015.4 [Amendment]

6. Delete § 1015.4(e) and substitute:

(e) "Fluid milk product" means milk, skim milk, flavored milk or flavored skim milk (including that marketed as a liquid dietary weight control product), cultured skim milk, buttermilk, concentrated milk in fluid form, and any mixture in fluid form of milk, skim milk and cream containing less than 12 percent of butterfat (except eggnog, yogurt, ice cream mix, ice milk mix, milk shake base mix, evaporated or condensed milk or skim milk (plain or sweetened), and sterilized products in hermetically sealed containers).

7. Delete § 1015.4(f) and substitute therefor the following:

(f) "Producer milk" means only that skim milk and butterfat contained in milk which during the month was (1) received at a pool plant directly from producers, or (2) diverted from a pool plant in accordance with the conditions set forth in § 1015.2(e): *Provided*, That milk which is moved from the farm in a tank truck and which is subsequently received at a pool plant or diverted in accordance with the conditions set forth in § 1015.2(e) shall be considered as having been received as of the date the milk was taken into the truck: *And provided further*, That in instances where it can be established, to the satisfaction of the market administrator, that milk was transferred by a handler (including a cooperative association) or his agent from the producer's farm tank into a tank truck during the month, and such milk was not delivered to any plant because of loss or destruction by accident or faulty equipment enroute to the plant, such milk shall be accounted for (i) as a receipt of producer milk at the pool plant of the handler where milk from the same farm was received as producer milk during the month whenever the milk was transferred from the producer's farm tank by that handler or his agent, or (ii) as a receipt of producer milk by the cooperative association of producers (at the same plant zone location as the pool plant at which milk from the same farm was received as producer milk during the month) whenever the milk was transferred from the producer's farm tank by the cooperative association of producers.

8. Delete § 1015.4(h)(1) and substitute the following:

(1) Receipts (including any Class II milk product produced in the handler's plant during a prior month), in a form other than fluid milk products, which are reprocessed, converted or combined into another product during the month, including any disappearances of nonfat milk products not otherwise accounted for, and

§ 1015.22 [Amendment]

9. Delete § 1015.22(a)(2) and substitute the following:

(2) As Class I milk if transferred in bulk from a pool plant to another pool plant and a Class II use is not indicated in writing to the market administrator by the operators of both plants on or before the 10th day after the end of the month within which such transfer was made: *Provided*, That the skim milk or butterfat classified in either class shall not exceed the remainder of use in such class at the plant of the transferee-handler after the subtraction of other source milk pursuant to § 1015.24(b)(8), and the comparable steps in § 1015.24(c): *And provided also*, That in the case of transfers from a plant subject to a zone price differential, the quantity classified as Class II milk shall be the quantity on which the Class II zone price differential is applicable pursuant to § 1015.42(b).

§ 1015.24 [Amendment]

10. Delete the proviso in § 1015.24(a) and substitute the following: "*Provided*, That when nonfat milk solids derived from nonfat dry milk, condensed skim milk or any other product condensed from milk or skim milk are utilized or unaccounted for by the handler, the total pounds of skim milk computed shall reflect a volume equivalent to the skim milk used to produce such nonfat milk solids, except that for dietary weight control products and milk, skim milk and buttermilk fortified, the actual weight of any such products shall be included in computing the total product weight; and"

11. Delete § 1015.24(b)(1) through (15) and substitute the following:

(1) Subtract from the pounds of skim milk in Class I milk, the pounds of skim milk received during the month as exempt milk.

(2) Subtract from the remaining pounds of skim milk in Class I milk, the pounds of skim milk received during the month as packaged fluid milk products from fully regulated plants under the provisions of another Federal order.

(3) Subtract from the total pounds of skim milk in Class II milk, the pounds of skim milk shrinkage allocated pursuant to § 1015.21(b)(5).

(4) Subtract from the remaining pounds of skim milk in each class, beginning with Class II milk, the pounds of skim milk received during the month in other source milk in a form other than fluid milk products.

(5) Subtract from the remaining pounds of skim milk in each class, beginning with Class II milk, the pounds of skim milk in other source milk in the form of fluid milk products received during the month from other than fully regulated plants under the provisions of another Federal order.

(6) Subtract from the remaining pounds of skim milk in Class II milk, the pounds of skim milk in inventory of fluid milk products on hand at the end of the month.

(7) During the months of July through November, subtract from the remaining pounds of skim milk in Class II milk, a quantity equal to such remainder or 15 percent of the pounds of skim milk in receipts of producer milk, whichever is less.

(8) Subtract from the remaining pounds of skim milk in Class II milk, a quantity equal to such remainder or the pounds of skim milk in bulk fluid milk products received during the month from fully regulated plants under the provisions of another Federal order, whichever is less.

(9) Subtract from the remaining pounds of skim milk in each class, respectively, the skim milk received from other pool plants and assigned to such class.

(10) Add to the pounds of skim milk remaining in Class II milk, the pounds of skim milk subtracted pursuant to subparagraph (7) of this paragraph.

(11) Subtract from the remaining pounds of skim milk in each class, beginning with Class II milk, the pounds of skim milk in inventory of fluid milk products on hand at the beginning of the month.

(12) Add to the remaining pounds of skim milk in Class II milk, the pounds of skim milk subtracted pursuant to subparagraph (6) of this paragraph.

(13) Subtract from the remaining pounds of skim milk in each class beginning with Class I milk, the pounds of skim milk in bulk fluid milk products received during the month from fully regulated plants under the provisions of another Federal order and not assigned pursuant to subparagraph (8) of this paragraph.

(14) Add to the pounds of skim milk in Class II milk, the pounds of skim milk subtracted pursuant to subparagraph (3) of this paragraph.

(15) If the remaining pounds of skim milk in both classes exceed the pounds of skim milk in the producer milk of such handler, subtract such excess (hereinafter referred to as "overage") from the remaining pounds of skim milk in each class in sequence beginning with Class II milk.

§ 1015.33 [Amendment]

12. Amend § 1015.33(a) by adding a comma between the words "receipts" and "movements".

§ 1015.42 [Amendment]

13. Delete § 1015.42(b) and insert the following:

(b) The zone price differentials for each plant shall be those applicable to its zone location as shown in the table at the end of this paragraph. For the purpose of applying such zone price differentials, transfers of fluid milk products in bulk between pool plants shall be first assigned to any remainder of Class II milk in the transferee-plant after making the calculations prescribed in § 1015.24(b)(8), and the comparable step in (c): *Provided*, That where the transferee-plant is not subject to a zone price differential such remaining Class II milk shall be reduced, during each of the months of December through June, by an amount equal to five percent of Class I utilization at such plant or remaining Class II use, whichever is less, and any amount so subtracted shall be assigned to available direct receipts of producer milk at such transferee-plant and then to transferor-plants in sequence beginning with the plants nearest to Hartford. The assignment of remaining Class II milk to transferor-plants shall be made in sequence according to the zone price differential applicable at each plant beginning with the plant most distant from Hartford.

§ 1015.50 [Amendment]

14. Delete the references to §§ 1015.24 (b)(9) and (b)(11) in § 1015.50(d), and substitute the following, respectively: "§ 1015.24(b)(11)" and "§ 1015.24(b)(13)".

§ 1015.51 [Amendment]

15. Amend § 1015.51(a) by deleting the word "were" and substitute "was".

§ 1015.63 [Amendment]

16. Delete § 1015.63(b) and substitute:

(b) In making payments to producers for milk received from a farm located outside the area described in paragraph (a) of this section, but within that portion of New York State east of the Hudson River and south of the northern boundaries of North Greenbush, Sand Lake and Stephentown townships in Rensselaer County, and that portion of Berkshire County, Massachusetts north of the Massachusetts Turnpike, there shall be added 23 cents per hundredweight.

§ 1015.3 [Amendment]

17. In § 1015.3(c)(2) change the words "subdivision (i) through (iv)" to "subdivision (i) through (v)".

§ 1015.46 [Amendment]

18. In § 1015.46(c) change the numeral "(11)" to "(13)".

§ 1015.30 [Amendment]

19. In the preamble of § 1015.30(a) insert the following immediately after the reference to "§ 1015.2(e),": "or lost or destroyed pursuant to § 1015.4(f),"

20. To § 1015.30(a)(1) add the following:

(vi) The quantity of milk that was lost or destroyed under conditions set forth in § 1015.4(f).

§ 1015.40 [Amendment]

21. In § 1015.40(b)(3) delete the table and substitute the following:

Month:	*Amount*
January and February	$0.701
March and April	.751
May and June	.7785
July	.526
August and September	.591

Chapter I—Immigration and Naturalization Service, Department of Justice

SUBCHAPTER A—GENERAL PROVISIONS

[Order No. 255–61]

PART 3—BOARD OF IMMIGRATION APPEALS

Powers; and Reopening or Reconsideration of Cases

I hereby prescribe the following amendments of the regulations relating to the Board of Immigration Appeals.

1. Section 3.1(d)(1) of Part 3 is amended to read as follows:

§ 3.1 Board of Immigration Appeals.

* * * * * *

(d) *Powers of the Board*—(1) *Generally.* Subject to any specific limitation prescribed by this chapter, in considering and determining cases before it as provided in this part the Board shall exercise such discretion and authority conferred upon the Attorney General by law as is appropriate and necessary for the disposition of the case.

2. Section 3.2 of Part 3 is amended to read as follows:

§ 3.2 Reopening or reconsideration.

The Board may on its own motion reopen or reconsider any case in which it has rendered a decision. Reopening or reconsideration of any case in which a decision has been made by the Board, whether requested by the Commissioner or any other duly authorized officer of the Service, or by the party affected by the decision, shall be only upon written motion to the Board. Motions to reopen in deportation proceedings shall not be granted unless it appears to the Board that evidence sought to be offered is material and was not available and could not have been discovered or presented at the former hearing; nor shall any motion to reopen for the purpose of affording the alien an opportunity to apply for any form of discretionary relief be granted if it appears that the alien's right to apply for such relief was fully explained to him and an opportunity to apply therefor was afforded him at the former hearing unless the relief is sought on the basis of circumstances which have arisen subsequent to the hearing. A motion to reopen or a motion to reconsider shall not be made by or in behalf of a person who is the subject of deportation proceedings subsequent to his departure from the United States. Any departure from the United States of a person who is the subject of deportation proceedings occurring after the making of a motion to reopen or a motion to reconsider shall constitute a withdrawal of such motion. For the purpose of this section, any final decision made by the Commissioner prior to the effective date of the Act with respect to any case within the classes of cases enumerated in § 3.1(b)(1), (2), (3), (4), or (5) shall be regarded as a decision of the Board.

This order shall become effective on January 22, 1962.

Dated: December 28, 1961.

ROBERT F. KENNEDY,
Attorney General.

PART 42—IRREGULAR AIR CARRIER AND OFF-ROUTE RULES

Airborne Weather Radar Equipment Requirements for Airplanes Carrying Passengers; Special Civil Air Regulation

Special Civil Air Regulation No. SR–436A (25 F.R. 6130), which superseded SR–436 (25 F.R. 167), requires the installation of approved airborne weather radar equipment in certain transport category airplanes used for the carriage of passengers under Parts 40, 41 or 42 of the Civil Air Regulations. This requirement is based on the fact that airborne weather radar equipment facilitates the early detection and location by the pilot of certain areas of turbulence and enables him to avoid such areas or to take such other action as may be necessary in the interest of safety.

Section 4 of SR–436A expressly excepts from the provisions of the regulation airplanes used solely within the States of Alaska and Hawaii. These operations were excluded because thunderstorms and other potentially hazardous meteorological conditions detectable by weather radar rarely occur in those areas.

Recently, the Federal Aviation Agency received a request from an air carrier operating in the State of Alaska to amend section 4 of SR–436A to expand the exceptions contained in that section to include certain areas of the Dominion of Canada. In support of its request the air carrier points out that because of the physical shape of the State of Alaska, the use of airways which overfly northwest Canada provide a more direct route between northeast Alaska and southeast Alaska. Moreover, when operating over the Canadian Airways Dawson and Whitehorse, Yukon Territory, Canada, are ideally located and suitably equipped to provide refueling service. However, when carrying passengers under the provisions of Parts 41 or 42, compliance with the present provisions of SR–436A prevents the use of both the more direct airways over Canada and the Canadian refueling stops unless approved airborne weather radar is installed on the airplane being utilized.

At an industry meeting held in the State of Alaska, subsequent to this request, the feasibility of amending SR–436A was discussed. It was suggested at this meeting that if an amendment is made to section 4 of SR–436A it should include all of the Dominion of Canada west of a north-south line which would encompass the city of Edmonton, Alberta, Canada. This would include all of Canada west of longitude 110° W., between the northern coastline of Canada and the northern boundary of the continental United States. This request was based upon a contention that there is light thunderstorm activity in that part of Canada.

As a result of these requests, the Federal Aviation Agency initiated a study into the feasibility of amending section 4 of SR–436A to except airplanes operated in certain parts of Canada from the requirement of installing airborne weather radar. Information was received from the U.S. Weather Bureau that the area of Canada west of longitude 130° W., between latitude 70° N. and latitude 53° N., has meteorological conditions similar to the State of Alaska. This information also shows that thunderstorms and other potentially hazardous meteorological conditions rarely occur in that area. However, in the area of Canada that is east and south of that area and adjacent to the United States northern boundary and which encompasses Edmonton, Alberta, the thunderstorm activity increases considerably and is equal to or greater than that of a large portion of the United States where airborne weather radar is mandatory.

After considering the foregoing, it has been determined that the level of safety in air carrier passenger operations would not be reduced by excluding from the provisions of SR–436A airplanes used for the carriage of passengers within Alaska and that portion of Canada west of longitude 130° W., between latitude 70° N. and latitude 53° N., where thunderstorms and other potentially hazardous weather conditions rarely occur. In addition, such an exclusion would permit the use of more direct routes and refueling stops between northeast and southeast Alaska. Therefore, section 4 of SR–436A is amended to exclude airplanes used within the State of Alaska and that portion of Canada west of longitude 130° W., between latitude 70° N. and latitude 53° N., from the weather radar requirements.

This Special Civil Air Regulation incorporates into one document all of the provisions of SR–436A with amendments to exclude the foregoing portions of Canada. Since it imposes no additional burden on any person and relieves a restriction, I find that notice and public procedure hereon are unnecessary, and that good cause exists for making this regulation effective on less than 30 days' notice.

In consideration of the foregoing, the following Special Civil Air Regulation is hereby adopted:

1. *Airborne weather radar equipment requirement.* After the dates specified, the following transport category airplanes shall not be used for the carriage of passengers under the provisions of Parts 40, 41 or 42 of the Civil Air Regulations, unless approved airborne weather radar equipment is installed in such airplanes:

(a) July 1, 1960, for all turbine-powered airplanes certificated under the transport category rules;

(b) January 1, 1961, for the Douglas DC–7 Series, Douglas DC–6 Series, and Lockheed 1049 and 1649 Series type airplanes; and

(c) January 1, 1962, for all airplanes certificated under the transport category rules, except C–46 type airplanes.

NOTE: Airplanes subject to the provisions of paragraph (c) of this section include, but are not limited to, the following types: Boeing 377; Convair 240, 340, and 440; Lockheed 049 and 749; Martin 202 and 404; and Douglas DC–4.

2. *Schedule for installation of equipment.* (a) Each operator conducting passenger operations under the provisions of Parts 40, 41 or 42 of the Civil Air Regulations with transport category airplanes on which airborne weather radar is not installed, shall establish a schedule for the progressive completion of such radar installations, in accordance with the provisions of section 1 of this regulation. The schedule shall provide for the completion of all required radar installations on or before the dates specified in section 1 of this regulation, and the completion of at least 40 percent of the required installations on or before the following dates:

(1) August 1, 1960, for airplanes of the types specified in section 1(b), and

(2) February 1, 1961, for airplanes of the types specified in section 1(c).

(b) On or before July 1, 1960, a copy of the schedule required by paragraph (a) of this section shall be submitted to an authorized representative of the Administrator, together

with a list of any airplanes the operator intends to discontinue using in the carriage of passengers prior to the date on which radar equipment must be installed.

3. *Requirement for dispatch and continuance of flight.* After the effective date specified in section 6 of this regulation, all transport category airplanes having approved airborne weather radar installed shall be operated in accordance with the following rules when used in passenger operations under Part 40, 41, or 42:

(a) *Dispatch.* No airplane shall be dispatched (or flight of an airplane started under the provisions of Part 42) under IFR or night VFR conditions when current weather reports indicate thunderstorms, or other potentially hazardous weather conditions which can be detected by airborne weather radar, may reasonably be expected to be encountered along the route to be flown, unless approved airborne weather radar equipment installed in the airplane is in a satisfactory operating condition.

(b) *En route.* In the event the airborne weather radar becomes inoperative en route, the airplane shall be operated in accordance with the instructions and procedures specified in the operations manual for such occurrence. After the data specified by section 1 of this regulation for the mandatory installation of approved airborne weather radar on the type of airplane involved, such instructions and procedures shall meet with the approval of an authorized representative of the Administrator.

4. *Exceptions.* The provisions of this regulation shall not apply to airplanes used (a) solely within the State of Hawaii or within the State of Alaska and that portion of the Dominion of Canada west of longitude 130° West, between latitude 70° North and latitude 53° North, or (b) during all-cargo, training, test, or ferry flights.

5. *Electrical power supply.* Contrary provisions of the Civil Air Regulations notwithstanding, an alternate electrical power supply need not be provided for airborne weather radar equipment.

6. *Effective date.* This Special Civil Air Regulation shall become effective on January 5, 1962, and supersedes Special Civil Air Regulation No. SR–436A.

SUBCHAPTER C—AIRCRAFT REGULATIONS

[Reg. Docket No. 1018; Amdt. 382]

PART 507—AIRWORTHINESS DIRECTIVES

Piper J3 Series and PA–11 Aircraft

Airworthiness Directive 51–15–1 (21 F.R. 9506), requires periodic inspection of the wing lift strut fork ends on Piper J3 Series and PA–11 aircraft. A later directive (AD 52–7–3, 21 F.R. 9512), requires rework of the lift strut including replacement of the fork end with a new part which does not need the special periodic inspection. Having AD 51–15–1 still in effect has caused some confusion. Since it no longer is necessary, it is hereby rescinded.

Since this amendment relieves a restriction and imposes no additional burden on any person, notice and public procedure hereon are unnecessary and the amendment may be made effective upon publication in the FEDERAL REGISTER.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (25 F.R. 6489), § 507.10(a) of Part 507 (14 CFR Part 507), is hereby amended by rescinding AD 51–15–1.

This amendment shall become effective January 5, 1962.

SUBCHAPTER E—AIR NAVIGATION REGULATIONS

[Airspace Docket No. 61–LA–17]

PART 600—DESIGNATION OF FEDERAL AIRWAYS

PART 601—DESIGNATION OF CONTROLLED AIRSPACE, REPORTING POINTS, POSITIVE CONTROL ROUTE SEGMENTS, AND POSITIVE CONTROL AREAS

Alteration and Revocation of Federal Airways and Associated Control Areas

On August 2, 1961, a notice of proposed rule making was published in the FEDERAL REGISTER (26 F.R. 6940) stating that the Federal Aviation Agency proposed to revoke the segment of VOR Federal airway No. 23 west alternate between Portland, Oreg., and Seattle, Wash., and to extend VOR Federal airway No. 287 from Portland to Neah Bay, Wash.

No adverse comments were received regarding the proposed amendments.

Interested persons have been afforded an opportunity to participate in the making of the rules herein adopted, and due consideration has been given to all relevant matter presented.

The substance of the proposed amendments having been published, therefore, pursuant to the authority delegated to me by the Administrator (25 F.R. 12582) and for the reasons stated in the Notice, the following actions are taken:

§ 600.6023 [Amendment]

1. In the text of 14 CFR 600.6023 (26 F.R. 572, 26 F.R. 1209, 26 F.R. 4052) the following change is made: "including a west alternate from the Portland VOR to the Seattle VOR via the INT of the Portland VOR 353° and the Olympia VOR 165° radials, the Olympia, Wash., VOR and the point of INT of the Olympia VOR 337° and the Seattle VOR 247° radials;" is deleted.

2. Section 600.6287 (14 CFR 600.6287, 26 F.R. 2082), is amended to read:

§ 600.6287 VOR Federal airway No. 287 (North Bend, Oreg., to Neah Bay, Wash.).

From the North Bend, Oreg., VOR via the Newberg, Oreg., VOR; Portland, Oreg., VORTAC including an E alternate via the Newberg VOR 069° and the Portland VORTAC 196° radials; INT of the Portland VORTAC 353° and the Olympia, Wash., VOR 165° radials; Olympia VOR; INT of the Olympia VOR 010° and the Seattle, Wash., VORTAC 322° radials; INT of the Seattle VORTAC 322° and the Port Angeles, Wash., VOR 090° radials; Port Angeles VOR; to the Neah Bay, Wash., radio range, excluding the portions outside the United States and the portion which coincides with Restricted Area R–6705. The portion which coincides with the McChord AFB Restricted Area/Military Climb Corridor, R–6711 shall be used only after obtaining prior approval from the appropriate authority.

§ 601.6023 [Amendment]

3. The text of § 601.6023 (14 CFR 601.6023, 26 F.R. 572, 26 F.R. 1209, 26 F.R. 4052) is amended to read: "All of VOR Federal airway No. 23 including an E alternate."

§ 601.6287 [Amendment]

4. In § 601.6287 (14 CFR 601.6287, 26 F.R. 2082) the following change is made: In the caption "Portland, Oreg." is deleted and "Neah Bay, Wash." is substituted therefor.

These amendments shall become effective 0001 e.s.t. March 8, 1962.

[Airspace Docket No. 60–WA–203]

PART 601—DESIGNATION OF CONTROLLED AIRSPACE, REPORTING POINTS, POSITIVE CONTROL ROUTE SEGMENTS, AND POSITIVE CONTROL AREAS

Alteration of Rule

On December 7, 1961, Airspace Docket No. 60–WA–203 was published in the FEDERAL REGISTER (26 F.R. 11728) amending in part § 601.5001 of the regulations of the Administrator by altering the description of the Azalea and Gateway intersections to be effective January 11, 1962.

These intersections were described in part via a line bearing 189° from the Wilmington (Carolina Beach), N.C., RBN. Subsequent to publication of the amendment, it was determined that the 189° bearing was in error and that the correct bearing should be 188° from the Wilmington (Carolina Beach) RBN. Therefore, action is taken herein to alter these descriptions accordingly.

Since these amendments are minor in nature, notice and public procedure hereon are unnecessary, and they may be made effective immediately.

In consideration of the foregoing and pursuant to the authority delegated to me by the Administrator (25 F.R. 12582), effective immediately, Airspace Docket No. 60–WA–203 (26 F.R. 11728) is amended by deleting in the text of § 601.5001 (14 CFR 601.5001) items 3(a) and 3(d) "a line bearing 189° from the Wilmington (Carolina Beach), N.C., RBN" and substituting therefor "a line bearing 188° from the Wilmington (Carolina Beach), N.C., RBN".

PART 602—DESIGNATION OF JET ROUTES, JET ADVISORY AREAS, AND HIGH ALTITUDE NAVIGATIONAL AIDS

Alteration of Jet Routes

On October 29, 1960, a notice of proposed rule making was published in the FEDERAL REGISTER (25 F.R. 10439) stating that the Federal Aviation Agency proposed to alter the segment of Jet Route No. 4 from Phoenix, Ariz., to El Paso, Texas.

On August 1, 1961, an Alteration of Proposal was published in the FEDERAL REGISTER (26 F.R. 6861) stating that the Federal Aviation Agency proposed to alter the segment of Jet Route No. 4 from Los Angeles, Calif., to El Paso and the segment of Jet Route No. 65 from Phoenix to Palmdale, Calif.

The Department of the Army objected to the proposed alignment of the segment of J–4 from the Thermal, Calif., VORTAC to the Gila Bend, Ariz., VORTAC. The Army stated that this segment would traverse the eastern portion of Caution Area C–308 in which a very high concentration of military manned and unmanned aircraft (drones) operate. The Army further stated that it feels the operation of drone and commercial aircraft in the same airspace would be an incompatible operation and would create an undue hazard.

On June 2, 1960, a meeting attended by the U.S. Air Force, Army, Navy, Marines and the FAA was held to consider the Army's request that C–308 be made a restricted area. As a result of this meeting it was concluded that there was insufficient justification for the designation of C–308 as a restricted area. The FAA has never considered restricted airspace a requirement for conducting drone operations. In fact, drone flights are currently being conducted outside of restricted areas using radar and control aircraft to insure safety.

The Air Transport Association of America (ATA) concurred in the alignment proposed for Jet Routes Nos. 4 and 65 assuming that the route segments affected would be provided with jet advisory areas. The jet advisory areas presently designated along Jet Routes Nos. 4 and 65 will cover all of the segments which are realigned in this docket except for a segment of J–65 southwest of the Palmdale, Calif., VOR, which is not used by civil turbojet aircraft.

The Department of the Air Force offered no objection to the proposal as modified. No other comments were received regarding the proposed amendments.

Interested persons have been afforded an opportunity to participate in the making of the rules herein adopted, and due consideration has been given to all relevant matter presented.

The substance of the proposed amendments having been published, therefore, pursuant to the authority delegated to me by the Administrator (25 F.R. 12582) and for the reasons stated in the Alteration of Proposal, § 602.100 (26 F.R. 7079) is amended as follows:

1. Jet Route No. 4 is amended to read:

Jet Route No. 4 (Los Angeles, Calif., to Florence, S.C.). From Los Angeles, Calif., via Thermal, Calif., INT of the Thermal 088° and the Gila Bend, Ariz., 315° radials; Gila Bend; INT of the Gila Bend 098° and the San Simon, Ariz., 286° radials; San Simon; El Paso, Tex.; Wink, Tex.; Abilene, Tex.; Dallas, Tex.; Shreveport, La.; Jackson, Miss.; Montgomery Ala.; Augusta, Ga.; Columbia, S.C.; to Florence, S.C.

2. Jet Route No. 65 is amended to read:

Jet Route No. 65 (Phoenix, Ariz., to Red Bluff, Calif.). From Phoenix, Ariz., via the INT of the Phoenix 280° and the Thermal, Calif., 088° radials; Thermal; Palmdale, Calif.; INT of the Palmdale 291° and the Bakersfield, Calif., 149° radials; Bakersfield; Fresno, Calif.; Sacramento, Calif.; to Red Bluff, Calif.

These amendments shall become effective 0001 e.s.t., February 8, 1962.

(Sec. 307, 72 Stat. 749; 49 U.S.C. 1348)

Issued in Washington, D.C., on December 29, 1961.

SUBCHAPTER A—TEST FEE SCHEDULES

PART 202—METROLOGY

Radiometry

In accordance with the provisions of section 4 (a) and (c) of the Administrative Procedure Act, it has been found that notice and hearing on these schedules of fees are unnecessary for the reason that such procedures, because of the nature of these rules, serve no useful purpose. This amendment is effective from December 11, 1961.

1. Part 202 is amended by the addition of a new item (f) to § 202.174 *Radiometry* to read as follows:

Item	Description	Fee
202.174f.....	Standard of total radiance—carbon filament lamp seasoned and calibrated for total irradiance at distance of 2 meters.	$79.00

PART 13—PROHIBITED TRADE PRACTICES

Yakima Fruit & Cold Storage Co.

Subpart—Discriminating in price under section 2, Clayton Act—Payment for services or facilities for processing or sale under 2(d): § 13.824 *Advertising expenses.*

(Sec. 6, 38 Stat. 721; 15 U.S.C. 46. Interprets or applies sec. 2, 49 Stat. 1527; 15 U.S.C. 13) [Cease and desist order, Yakima Fruit & Cold Storage Company, Yakima, Wash., Docket 7718, Sept. 28, 1961]

Order requiring a Yakima, Wash., packer-distributor of apples and other fresh fruit with annual sales approximating $3,000,000, to cease violating section 2(d) of the Clayton Act, by such acts as paying the Houston, Tex., operator of a large chain of retail stores in Texas, Louisiana, and Tennessee, sums of $192.50 and $100 in connection with periodic sales promotion campaigns, while making no comparable payments available to its customers competing with said chain.

The order to cease and desist is as follows:

It is ordered, That respondent, Yakima Fruit & Cold Storage Company, a corporation, its officers, employees, agents or representatives, directly or through any corporate or other device, in or in connection with the sale in commerce, as "commerce" is defined in the Clayton Act, as amended, of fresh fruits or other merchandise, do forthwith cease and desist from:

Making or contracting to make, to or for the benefit of J. Weingarten, Inc., or any other customer, any payment of anything of value as compensation or in consideration for advertising or other services or facilities furnished by or through such customer, in connection with the handling, offering for resale, or resale of the respondent's products, unless such payment is made available

on proportionally equal terms to all other customers competing in the distribution or resale of such products.

By "Order", report of compliance was required as follows:

It is further ordered, That respondent, Yakima Fruit & Cold Storage Company, shall, within sixty (60) days after service upon it of this order, file with the Commission a report, in writing, setting forth in detail the manner and form in which it has complied with the order to cease and desist.

Issued: September 28, 1961.

In the Matter of General Foods Corporation, a Corporation; The Glidden Company, a Corporation; Calvert, Vavasseur & Company, Inc., a Corporation; Red V Coconut Products Company, Inc., a Corporation; and Wood & Selick Coconut Company, Inc., a Corporation

Consent order requiring five companies—which together imported 75 percent of all the Philippine desiccated coconut imported into the United States, processed sweetened coconut, and sold the product to bakeries, candy and confection manufacturers, ice cream makers, and others—to cease carrying out their agreements to fix and maintain identical F.O.B. port of entry base prices for all types of Philippine coconut imported and identical base prices for all types of sweetened coconut sold in the United States; to maintain a system of price differentials composed of freight and handling and storage charges at specified warehouse distribution points to be applied to the aforesaid base prices; to eliminate free delivery and allowances for such services from port of entry, warehouse distribution point, or other selling location; to maintain a price leadership plan whereby General Foods generally announced changes in prices and other selling factors; to hold meetings for the exchange of confidential price information; and to eliminate competition by restricting sources of supply of competing processors, effectuating price squeezes between Philippine desiccated and sweetened coconut, and other unfair practices.

The order to cease and desist is as follows:

It is ordered, That respondents General Foods Corporation, The Glidden Company, Calvert, Vavasseur & Company, Inc., Red V Coconut Products Company, Inc., and Wood & Selick Coconut Company, Inc., corporations (the three last named corporations being considered and treated as a single respondent), their respective officers, agents, representatives and employees, directly or through any corporate or other device, in or in connection with the importation, offering for sale, sale or distribution of Philippine desiccated coconut or sweetened coconut, in commerce, as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from entering into, continuing, cooperating in, or carrying out any planned common course of action, understanding, agreement, combination, or conspiracy between or among any two or more of said respondents, or between any one or more of said respondents and others not parties hereto, to do or perform any of the following acts or practices:

1. Fix, maintain, stabilize or adhere to any prices, terms or conditions of sale or delivery for said products;

2. Adopt, use or maintain any system, employing established base prices or price differentials in calculating or determining prices, terms or conditions of sale for said products, to fix, maintain or stabilize, or where the intent or purpose is to fix, maintain or stabilize, anywhere in the United States, prices, terms or conditions of sale or delivery for said products;

3. Communicate or exchange information relating to present or future prices, terms or conditions of sale or delivery of said products anywhere in the United States to fix, maintain or stabilize, or where the intent or purpose of same is to fix, maintain or stabilize, the prices, terms, or conditions of sale or delivery for said products;

4. Inhibit, restrict or limit independent domestic processors of said products in selling said products;

5. Engage in any acts or practices to effectuate or perpetuate, or for the purpose or with the intent of effectuating or perpetuating, any of the acts or practices prohibited herein:

Provided, however, Nothing herein contained shall be construed or interpreted as prohibiting any single respondent, or subsidiary thereof, from buying, selling, processing or having processed, said products, or from communicating, negotiating, or contracting relative thereto, where the effect of same is not inconsistent with any of the prohibitions of this order.

By "Decision of the Commission", etc., report of compliance was required as follows:

It is ordered, That the above-named respondents shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing, setting forth in detail the manner and form in which they have complied with the order to cease and desist.

Issued: September 25, 1961.

Title 21—FOOD AND DRUGS

Chapter I—Food and Drug Administration, Department of Health, Education, and Welfare

SUBCHAPTER B—FOOD AND FOOD PRODUCTS

PART 120—TOLERANCES AND EXEMPTIONS FROM TOLERANCES FOR PESTICIDE CHEMICALS IN OR ON RAW AGRICULTURAL COMMODITIES

Tolerance for Residues of 1-Methoxycarbonyl-1-Propen-2-yl-Dimethylphosphate and its Beta Isomer

A petition was filed with the Food and Drug Administration by Shell Chemical Company, 110 West Fifty-first Street, New York 20, New York, requesting the establishment of a tolerance for residues of 1-methoxycarbonyl-1-propen-2-yl-dimethylphosphate and its beta isomer in or on grapefruit, lemons, and oranges at 0.25 part per million.

The Secretary of Agriculture has certified that this pesticide chemical is useful for the purposes for which a tolerance is being established.

After consideration of the data submitted in the petition and other relevant material which show that the tolerance established in this order will protect the public health, and by virtue of the authority vested in the Secretary of Health, Education, and Welfare by the Federal Food, Drug, and Cosmetic Act (sec. 408 (d)(2), 68 Stat. 512; 21 U.S.C. 346a(d)(2)) and delegated to the Commissioner of Food and Drugs by the Secretary (25 F.R. 8625), the regulations for tolerances for pesticide chemicals in or on raw agricultural commodities are amended by adding to § 120.157 (21 CFR 120.157; 26 F.R. 24) a tolerance for residues of the subject pesticide chemical in or on grapefruit, lemons, and oranges. As amended, the items under the 0.25 part per million tolerance limitation are changed to read as follows:

§ 120.157 **Tolerances for residues of 1-methoxycarbonyl-1-propen-2-yl-dimethylphosphate and its beta isomer.**

• • • • •

0.25 part per million in or on beans, carrots, corn grain (including field corn, popcorn, sweet corn), cucumbers, eggplant, grapefruit, lemons, okra, onions (green), oranges, peas, peppers, potatoes, summer squash, tomatoes, turnips, walnuts (determined on the nut meats with shell removed).

Any person who will be adversely affected by the forgeoing order may at any time prior to the thirtieth day from the date of its publication in the FEDERAL REGISTER file with the Hearing Clerk, Department of Health, Education, and Welfare, Room 5440, 330 Independence Avenue SW., Washington 25, D.C., written objections thereto. Objections shall show wherein the person filing will be adversely affected by the order and specify with particularity the provisions of the order deemed objectionable and the grounds for the objections. If a hearing is requested, the objections must state the issues for the hearing. A hearing will be granted if the objections are supported by grounds legally sufficient to justify the relief sought. Objections may be accompanied by a memorandum or brief in support thereof. All documents shall be filed in quintuplicate.

Effective date. This order shall be effective on the date of its publication in the FEDERAL REGISTER.

(Sec. 408(d)(2), 68 Stat. 512; 21 U.S.C. 346a(d)(2))

[T.D. 55539]

PART 8—LIABILITY FOR DUTIES; ENTRY OF IMPORTED MERCHANDISE

Invoices and Entry; Manufactures of Cotton and Stainless Steel Table Flatware

The present procedure for reporting statistical data to the Bureau of Census, which necessitates the filing of extra copies of certain entries on customs Form 7501 or 7502, will be altered effective January 1, 1962, and the said extra copies will no longer be required.

The Customs Regulations are amended as follows effective January 1, 1962.

Section 8.27 is amended to read as follows:

§ 8.27 Form of entry.

Entry for consumption shall be made on customs Form 7501. Such entries shall be numbered in two series, one for dutiable consumption entries and the other for free consumption entries. The dutiable entries shall be made in triplicate; the free entries shall be made in duplicate. An additional legible copy of the entry, marked or stamped "For Internal Revenue Purposes," shall be presented for each entry covering tobacco materials, tobacco products, cigarette papers and tubes when the entry of those articles is subject to Part 275 of the regulations of the Internal Revenue Service (26 CFR Part 275) and tax is payable to customs upon release of such articles or if tobacco materials are to be released in accordance with § 11.2(a) of this chapter.

MISCELLANEOUS AMENDMENTS TO CHAPTER

The following miscellaneous amendments have been made to this chapter:

SUBCHAPTER C—MUTUAL MORTGAGE INSURANCE AND INSURED HOME IMPROVEMENT LOANS

PART 203—MUTUAL MORTGAGE INSURANCE AND INSURED HOME IMPROVEMENT LOANS

Subpart A—Eligibility Requirements

Section 203.12 is amended to read as follows:

§ 203.12 Application fee.

The mortgagee shall pay an application fee to cover the cost of processing. This fee shall be paid in accordance with the following requirements:

(a) *Amount of fee.* A fee in the amount of:

(1) $20 shall be paid for an application involving existing construction;

(2) $45 shall be paid for an application involving proposed construction;

(3) $10 shall be paid for an application for insurance of a mortgage of the character described in § 203.43(b)(4); and

(4) $10 shall be paid after insurance of a mortgage processed under the Certified Agency Program.

(b) *Time of payment.* The application fees shall be due and payable by the mortgagee upon receipt from the FHA of a monthly statement covering the related transactions.

(c) *Credit for fee previously charged.* Credit for an application fee previously charged will be allowed the mortgagee under the following conditions:

(1) A credit of $25 will be allowed the mortgagee where a mortgage is endorsed for insurance on the basis of an application and commitment relating to proposed construction.

(2) Credit will be allowed to the mortgagee under such other conditions as the Commissioner may determine.

(d) *No fee required.* A mortgagee will not be required to pay an application fee where:

(1) The application is not accepted for processing; or

(2) The application is made on behalf of a veteran for the insurance of a mortgage to refinance an existing insured mortgage which is in default by reason of his military service, if the Commissioner finds that the charging of such fee would be inequitable under the circumstances of the transaction. For the purposes of this subpart the word "veteran" shall mean a person who has served in the active military or naval service of the United States at any time on or after September 16, 1940, and prior to July 26, 1947, or on or after June 27, 1950, and prior to February 1, 1955.

Section 203.60 is amended to read as follows:

§ 203.60 Application fee.

(a) *Amount of fee.* The lender shall pay an application fee in the amount of $20 to cover the cost of processing. This fee shall be paid in accordance with the requirements of § 203.12(b).

(b) *Credit for fee previously charged.* Credit for an application fee previously charged will be allowed the mortgagee under such circumstances as the Commissioner may determine.

(c) *No fee required.* A mortgagee will not be required to pay an application fee where the application is not accepted for processing.

(Sec. 211, 52 Stat. 23; 12 U.S.C. 1715b. Interpret or apply sec. 203, 52 Stat. 10, as amended; 12 U.S.C. 1709)

SUBCHAPTER L—MORTGAGE INSURANCE FOR INDIVIDUALLY OWNED UNITS IN MULTIFAMILY STRUCTURES

PART 234—CONDOMINIUM OWNERSHIP

Subpart A—Eligibility Requirements

Section 234.13 is amended to read as follows:

§ 234.13 Application fee.

(a) *Amount of fee.* The mortgagee shall pay an application fee in the amount of $20 to cover the cost of processing. This fee shall be paid in accordance with the requirements of § 203.12(b).

(b) *Credit for fee previously charged.* Credit for an application fee previously charged will be allowed a mortgagee under such conditions as the Commissioner may determine.

(c) *No fee required.* No fee shall be required where:

(1) The application is not accepted for processing; or

(2) The application is made on behalf of a veteran for the insurance of a mortgage to refinance an existing insured mortgage which is in default by reason of his military service, if the Commissioner finds that the charging of such fee would be inequitable under the circumstances of the transaction. For the purposes of this subpart the word "veteran" shall mean a person who has served in the active military or naval service of the United States at any time on or after September 16, 1940, and prior to July 26, 1947, or on or after June 27, 1950, and prior to February 1, 1955.

(Sec. 211, 52 Stat. 23; 12 U.S.C. 1715b. Interprets or applies sec. 234, 75 Stat. 160; 12 U.S.C. 1715y)

Issued at Washington, D.C., December 29, 1961.

Title 29—LABOR

Subtitle A—Office of the Secretary of Labor

[Hazardous Occupations Order No. 16]

PART 4—CHILD LABOR REGULATIONS, ORDERS AND STATEMENTS OF INTERPRETATION

Subpart E—Occupations Particularly Hazardous for the Employment of Minors Between 16 and 18 Years of Age or Detrimental to Their Health or Well-Being

ROOFING OPERATIONS

On October 31, 1961, notice was published in the FEDERAL REGISTER (26 F.R. 10180) that the Secretary of Labor proposed to find and by order to declare all occupations in roofing operations to be particularly hazardous for the employment of minors between 16 and 18 years of age and thus to constitute "oppressive child labor" within the meaning of the Fair Labor Standards Act of 1938 (sec. 3(1), 52 Stat. 1060, as amended; 29 U.S.C. 203(1)).

Interested persons were given an opportunity to submit orally and in writing data, views and arguments concerning the proposal. All relevant matter has been considered, and pursuant to section 3(1) of the Fair Labor Standards Act of 1938 (52 Stat. 1060 as amended; 29 U.S.C. 203(1)) Part 4 of Title 29, Code of Federal Regulations is hereby amended, effective February 5, 1962, by adding an additional section thereto reading as follows:

§ 4.67 Occupations in Roofing Operations (Order 16).

(a) *Finding and declaration of fact.* All occupations in roofing operations are particularly hazardous for the employment of minors between 16 and 18 years of age or detrimental to their health.

(b) *Definition of "roofing operations".* The term "roofing operations" shall mean all work performed in connection with the application of weatherproofing materials and substances (such as tar or pitch, asphalt prepared paper, tile, slate, metal, translucent materials, and shingles of asbestos, asphalt or wood) to roofs of buildings or other structures. The term shall also include all work performed in connection with: (1) The installation of roofs, including related metal work such as flashing and (2) alterations, additions, maintenance, and repair, including painting and coating, of existing roofs. The term shall not include gutter and downspout work; the construction of the sheathing or base of roofs; or the installation of television antennas, air conditioners, exhaust and ventilating equipment, or similar appliances attached to roofs.

(c) *Exemptions — (1) Apprentices.* This section shall not apply to the employment of an apprentice in the occupations declared particularly hazardous in paragraph (a) of this section: *Provided, however,* That (i) the apprentice is employed in a craft recognized as an apprenticeable trade; (ii) the work of the apprentice in the occupations declared particularly hazardous in paragraph (a) of this section is incidental to the apprentice training; such work is intermittent and for short periods of time, and such work is under the direct and close supervision of a journeyman as a necessary part of such apprentice training; and (iii) the apprentice is registered by the Bureau of Apprenticeship and Training of the United States Department of Labor as employed in accordance with the standards established by that Bureau, or is registered by a State agency as employed in accordance with the standards of the State apprenticeship agency recognized by the Bureau of Apprenticeship and Training, or is employed under a written apprenticeship agreement under conditions which are found by the Secretary of Labor to conform substantially with such Federal or State standards.

(2) *Student-learners.* This section shall not apply to the employment of a student-learner in the occupations declared particularly hazardous in paragraph (a) of this section: *Provided, however,* That such a student-learner is enrolled in a course of study and training in a cooperative vocational training program under a recognized State or local educational authority or in a course of study in a substantially similar program conducted by a private school: *Provided further,* That such student-learner be employed under a written agreement which shall provide: (i) That the work of the student-learner in the occupations declared particularly hazardous in paragraph (a) of this section shall be incidental to his training, that such work shall be intermittent and for short periods of time, and that such work shall be under the direct and close supervision of a qualified and experienced person; (ii) that safety instruction shall be given by the school and correlated by the employer with on-the-job training; and (iii) that a schedule of organized and progressive work processes to be performed on the job shall have been prepared. Such a written agreement shall contain the name of the student-learner, and shall be signed by the employer and the school coordinator or principal. Copies of the agreement shall be kept on file by both the school and the employer. This exemption for the employment of student-learners may be revoked in any individual situation wherein it is found that reasonable precautions have not been observed for the safety of minors employed thereunder.

(d) *Higher standards.* This section shall not justify noncompliance with any Federal or State law or municipal ordinance establishing higher standards than those established in this section.

(Sec. 3(1), 52 Stat. 1060, as amended; 29 U.S.C. 203(1). Interpret or apply sec. 18, 52 Stat. 1069, 29 U.S.C. 218)

Signed at Washington, D.C., this 27th day of December 1961.

W. WILLARD WIRTZ,
Acting Secretary of Labor.

Title 47—TELECOMMUNICATION

Chapter I—Federal Communications Commission

PART 10—PUBLIC SAFETY RADIO SERVICES

Definition of Terms

In the matter of amendment of Part 10 of the Commission's rules to effect certain editorial changes concerning the definition of terms therein.

The Commission having under consideration the need of amending the list of definitions of terms in use in Part 10 of its rules; and

It appearing that, by its second memorandum opinion and order in Docket 13928, released October 25, 1961 (FCC 61-1235), the Commission amended Part 2, inter alia, to make the definitions of terms therein conform to those adopted in Geneva Radio Regulation (1959), and that Part 10 should be amended to conform to Part 2 in that respect, and to make certain other adjustments of an editorial nature; and

It further appearing that, the amendments ordered herein are editorial in nature, hence the notice, procedural and effective date provisions of section 4 of the Administrative Procedures Act are not applicable; and

It further appearing that, the amendments adopted herein are issued pursuant to authority contained in sections 4(i) and 303 of the Communications Act of 1934, as amended, and section 0.341(a) of the Commission's Statement of Organization, Delegations of Authority and Other Information;

It is ordered, This 29th day of December 1961, that effective January 8, 1962, § 10.2, Part 10, is amended as set forth below.

(Sec. 4, 48 Stat. 1066, as amended; 47 U.S.C. 154. Interprets or applies sec. 303, 48 Stat. 1082, as amended; 47 U.S.C. 303)

Released: December 29, 1961.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] BEN F. WAPLE,
Acting Secretary.

In § 10.2 (a), (b), and (c), the definitions for Public Safety Radio Services, Base Station, Land Station, and Harmful Interference are amended and new definitions for Land Mobile Service, Radiolocation, Radiolocation Mobile Station and Safety Service are added in alphabetical order as follows:

§ 10.2 Definitions.

• • • • •

(a) • • •

Land mobile service. A mobile service between base stations and land mobile stations, or between land mobile stations.

• • • • •

Public safety radio services. Any service of radiocommunication essential either to the discharge of non-Federal government functions or the alleviation of an emergency endangering life or property, the radio transmitting facilities of which are defined as fixed, land, mobile, or radiolocation stations.

Radiolocation. Radiodetermination used for purposes other than those of radionavigation. (For the purposes of this part, radiolocation will include speed measuring devices.)

Safety Service. A radiocommunication service used permanently or temporarily for the safeguarding of human life and property.

• • • • •

(b) • • •

Base station. A land station in the land mobile service carrying on a service with land mobile stations.

• • • • •

Land station. A station in the mobile service not intended to be used while in motion.

• • • • •

Radiolocation mobile station. A station in the radiolocation service intended to be used while in motion or during halts at unspecified points.

• • • • •

(c) • • •

Harmful interference. Any emission, radiation or induction which endangers the functioning of a radionavigation service or of other safety services or seriously degrades, obstructs or repeatedly interrupts a radiocommunication service operating in accordance with this chapter.

Title 50—WILDLIFE AND FISHERIES

Chapter I—Bureau of Sport Fisheries and Wildlife, Fish and Wildlife Service, Department of the Interior

SUBCHAPTER B—HUNTING AND POSSESSION OF WILDLIFE

PART 12—AREAS CLOSED TO HUNTING

Certain Lands and Waters Within and Adjacent to Back Bay National Wildlife Refuge, Virginia

On page 4285 of the FEDERAL REGISTER of October 19, 1939, there was published Presidential Proclamation No. 2370, dated October 16, 1939, designating as a closed area certain lands and waters adjacent to the Back Bay Migratory Waterfowl Refuge. The name of the refuge was changed to the Back Bay National Wildlife Refuge by Presidential Proclamation No. 2416, dated July 25, 1940, and published in the FEDERAL REGISTER on July 30, 1940.

Since the closed area was established by Proclamation No. 2370, erosion has so changed the shorelines or island extremities in a number of cases that it has been necessary to resurvey and reestablish the proclamation boundary either with permanent monumentation or references thereto.

Pursuant to the Act of July 3, 1918 (40 Stat. 755, as amended; 16 U.S.C. 704) and the 1939 Reorganization Plan No. II (53 Stat. 1433), certain areas of land and water not now owned by the United States and adjacent to lands of the Back Bay National Wildlife Refuge in Princess Anne County, Virginia, and lying within the boundary as set forth below are hereby designating as closed to the hunting of migratory birds.

The effect of this designation is merely to make a few minor changes in the boundary of the previously established closed area and for this reason it has been deemed unnecessary to publish it as proposed rule making (5 U.S.C. 1003).

This designation shall become effective at the beginning of the 30th calendar day following the date of this publication in the FEDERAL REGISTER.

The text of the designation is as follows:

Having due regard to the zones of temperature and to the distribution, abundance, economic value, breeding habits, and times and lines of migratory flight of migratory birds included in the terms of the Convention between the United States and Great Britain for the protection of migratory birds, concluded August 16, 1916, and the Convention between the United States and the United Mexican States for the protection of migratory birds and game mammals, concluded February 7, 1936, I hereby designate as a closed area in or on which pursuing, hunting, taking, capturing, or killing of migratory birds, or attempting to take, capture, or kill migratory birds is not permitted, an area of land and water in Princess Anne County, Virginia, comprising certain lands and waters adjacent to the Back Bay National Wildlife Refuge, and embraced within the following boundary:

Commencing at U.S. Coast and Geodetic Survey triangulation station CLUB; Geographic Position 36°41'35.53" north latitude and 75°55'28.19" west longitude; thence S. 10°43' W., 1,958.3 feet to Corner 1, an iron pipe, the place of beginning, which is also Corner 6, of United States tract (39), in the eastern part of Deep Creek, at Shipps Bay; thence EAST, across marsh and sand dunes, a distance of approximately 1,550 feet to Corner 2, in the line of mean low water of the Atlantic Ocean; thence southerly along said line of mean low water, approximately 22,416 feet to Corner 3, in said line of mean low water; thence S. 87°59' W., across sand dunes, flats and marsh, at approximately 6,180 feet pass a standard concrete post, and continuing 69.6 feet further a total distance of approximately 6,250.0 feet to Corner 4, an iron pipe, approximately in the line of mean low water on east side of Sand Bay; thence with 10 lines in Sand Bay, S. 89°57' W., 2,979.6 feet to Corner 5, an iron pipe; S. 14°27' W., 952.3 feet to Corner 6, an iron pipe; S. 7°13' E., 288.0 feet to Corner 7, an iron pipe; S. 23°49' E., 1,005.4 feet to Corner 8, an iron pipe; S. 39°31' E., 1,171.3 feet to Corner 9, an iron pipe; S. 8°04' E., 1,146.9 feet to Corner 10, an iron pipe; S. 25°44' W., 1,044.6 feet to Corner 11, an iron pipe; S. 20°03' W., 1,363.4 feet to Corner 12, an iron pipe; S. 31°44' W., 986.9 feet to Corner 13, an iron pipe; N. 89°08' W., approximately 1,500 feet to Corner 14, a wood post, approximately in the line of mean low water of Cedar Island Gap, opposite the most southern point of Ragged Island; thence E. 70°56' W., in Cedar Island Gap, 241.3 feet to Corner 15, a wood post, approximately in the line of mean low water and 16 feet southwesterly from a point of marsh on Ragged Island; thence N. 51°14' W., in Back Bay, 12,026.1 feet to Corner 16, an iron pipe, approximately 40 feet southwesterly from Rock Point, the southwestern point of Haul Over Island; thence W. 9°26' E., between Back Bay and Red Head Bay, 906.7 feet to Corner 17, an iron

pipe, approximately in the line of mean low water at North Point, the most northwesterly point of Haul Over Island; thence N. 56°55' E., in Red Head Bay, 5,189.9 feet to Corner 18, an iron pipe, approximately in the line of mean low water at Heaven Point; thence N. 21°04' W., continuing in Red Head Bay, 2,932.3 feet to Corner 19, an iron pipe, in water and approximately 25 feet from edge of marsh; thence N. 9°26' W., 2,657.1 feet to Corner 20, an iron pipe, in the eastern part of Great Narrows; thence S. 87°86' W., crossing Great Narrows, 1,260.0 feet to Corner 21, an iron pipe, approximately in the line of mean low water on west side of Great Narrows; thence S. 10°49' W., 1,605.9 feet to Corner 22, an iron pipe, approximately in the line of mean low water and 13 feet from edge of marsh at South Point and also at the confluence of the southwest part of Great Narrows with Red Head Bay; thence S. 83°06' W., within Red Head Bay, 2,340.7 feet to Corner 23, an iron pipe, in Red Head Bay, approximately 50.5 feet southerly from Long Point; thence N. 23°40' W., continuing in Red Head Bay, 2,761.0 feet to Corner 24, an iron pipe, approximately in the line of mean low water at the southeast corner of Head Bay Cove; thence N. 63°59' W., between Red Head Bay and Head Bay Cove, 695.5 feet to Corner 25, which is also Corner 4 of United States tract (39a), approximately in the line of mean low water at West Head Bay Point, now monumented with a standard concrete post; thence N. 80°35' W., across marsh, 2,853.8 feet to corner 26, in the line between marsh and high land, now monumented with a standard concrete post; thence along the line between marsh and high land, N. 23°17' E., 736.6 feet to Corner 27, an iron pipe; N. 16°29' W., 785.4 feet to Corner 28, a standard concrete post; thence N. 1°57' W., 155.1 feet to Corner 29, an iron pipe; thence N. 12°58' E., 458.7 feet to Corner 30, an iron pipe, at edge of marsh and high land; thence along line between marsh and high land, N. 2°04' W., 135.3 feet to a point; N. 25°44' W., 163.0 feet to a point; N. 7°38' E., 701.6 feet to a point; N. 25°14' W., 37.0 feet to Corner 31, a standard concrete post; thence across marsh, S. 73°22' E., 2,277.0 feet to Corner 32, an iron pipe; thence S. 74°04' E., 1,057.3 feet to Corner 33, an iron pipe; thence N. 8°00' E., 940.5 feet to Corner 34, a standard concrete post; thence N. 18°35' W., 308.9 feet to Corner 35, an iron pipe, approximately in line of mean low water on the southeast side of Sylvester's Cove; thence N. 57°05' E., a distance of 278.7 feet to Corner 36, a wood post, approximately in line of mean low water opposite small point of marsh and south of Sylvester's Island; thence N. 65°29' E., in the waters of Sylvester's Cove and Shipps Bay, 1,139.0 feet to Corner 37, an iron pipe, approximately in the line of mean low water, 10 feet westerly from point of marsh on the north side of Kemps Creek; thence N. 49°15' E., a distance of 2,197.2 feet to Corner 38, an iron pipe, approximately in the line of mean low water, six feet northeast from small point of marsh; thence N. 64°37' E., in Shipps Bay, 1,593.6 feet to Corner 39, an iron pipe, in water, 40 feet northwest from small point of marsh and about 350 feet southeast from Auger Island; thence N. 33°58' E., in Shipps Bay, 1,632.8 feet to Corner 40, a wood post, approximately in line of mean low water and eight feet northerly from Walkers Island Point; thence N. 66°13' E., continuing in Shipps Bay, 6,794.9 feet to Corner 41, an iron pipe, approximately in the line of mean low water and 18 feet north from the most northerly point of Long Island, from which a standard concrete post marked, "21 WC CORNER 1 TRACT 39F 1937", used for a reference mark, bears S. 43°48' E., 27.7 feet; thence from said Corner 41, N. 89°40' E., crossing Deep Creek, 1,480.6 feet to the place of beginning.

[26 CFR Part 1]

INCOME TAX; TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1953

Filing of Certain Information; Notice of Proposed Rule Making

Notice is hereby given, pursuant to the Administrative Procedure Act, approved June 11, 1946, that the regulations set forth in tentative form below are proposed to be prescribed by the Commissioner of Internal Revenue, with the approval of the Secretary of the Treasury or his delegate. Prior to the final adoption of such regulations, consideration will be given to any comments or suggestions pertaining thereto which are submitted in writing, in duplicate to the Commissioner of Internal Revenue, Attention: T:P, Washington 25, D.C., within the period of 30 days from the date of publication of this notice in the FEDERAL REGISTER. Any person submitting written comments or suggestions who desires an opportunity to comment orally at a public hearing on these proposed regulations should submit his request, in writing, to the Commissioner within the 30-day period. In such a case, a public hearing will be held, and notice of the time, place, and date will be published in a subsequent issue of the FEDERAL REGISTER. The proposed regulations are to be issued under the authority contained in section 7805 of the Internal Revenue Code of 1954.

(68A Stat. 917; 26 U.S.C. 7805)

[SEAL] MORTIMER M. CAPLIN,
Commissioner of Internal Revenue.

In order to require the use of Form 2950 to supply certain information required under § 1.404(a)–2 of the Income Tax Regulations (26 CFR Part 1), to require that such information be filed with the income tax return, and to make certain other administrative changes, paragraphs (a) (7), (8), and (9), (b), (c), (d), and (e) of such section are hereby amended to read as follows:

§ 1.404(a)–2 Information to be furnished by employer claiming deductions.

(a) • • •

(7) If a pension or annuity plan, a detailed description of all the methods, factors, and assumptions used in determining costs and in adjusting the costs for actual experience under the plan (including any loadings, contingency reserves, or special factors and the basis of any insured costs or liabilities involved therein) explaining their source and application in sufficient detail to permit ready analysis and verification thereof, and, in the case of a trust, a detailed description of the basis used in valuing the investments held.

(8) In the case of a pension or annuity plan, a summary of the costs or liabilities and adjustments for the year under the plan based on the application of the methods, factors, and assumptions used under the plan, in sufficient detail to permit ready verification of the reasonableness thereof.

(9) A statement of the contributions paid under the plan for the taxable year showing the date and amount of each payment. Also, a statement of the applicable limitations under section 404 (a) (1), (2), (3), or (7) and an explanation of the method of determining such limitations, a summary of the data, and a statement of computations necessary to determine the allowable deductions for the taxable year.

(b) For taxable years subsequent to the year for which all of the applicable information under paragraph (a) of this section (or corresponding provisions of prior regulations) has been filed, information is to be filed only to the following extent:

(1) If there is any change in the plan, instruments, methods, factors, or assumptions upon which the data and information specified in paragraph (a) (1), (2), or (7) of this section are based, a detailed statement explaining the change and its effect is to be filed only for the taxable year in which the change is put into effect. However, if there is no such change, unless otherwise requested by the district director, merely a statement that there is no such change is to be filed.

(2) The information specified in paragraph (a) (3) of this section which has been filed for a taxable year, unless otherwise requested by the district director and so long as the plan and the method and basis of allocations are not changed, is to be filed for subsequent years only to the extent of showing in the tabulation such information with respect to employees who, at any time in the taxable year, own, directly or indirectly, more than 5 percent of the voting stock, considering stock so owned by an individual's spouse or minor lineal descendant as owned by the individual for this purpose.

(3) The information specified in paragraph (a) (4), (5), (6), (8), and (9) of this section.

In the case of corporate employers, the information required to be submitted by this paragraph shall, except as otherwise provided by the Commissioner, be filed on Form 2950 for taxable years ending on or after December 31, 1961. In the case of other employers, the information required to be submitted by this paragraph shall, except as otherwise provided by the Commissioner, be filed on Form 2950 for taxable years ending on or after December 31, 1962.

(c) If a deduction is claimed under section 404(a)(5) for the taxable year, the taxpayer shall furnish such information as is necessary to show that the deduction is not allowable under the other paragraphs of section 404(a), that the amount paid is an ordinary and necessary expense or an expense for the production of income, and that the employees' rights to, or derived from, such employer's contribution or such compensation were nonforfeitable at the time the contribution or compensation was paid. In the case of corporate employers, the information required to be submitted by this paragraph shall, except as otherwise provided by the Commissioner, be filed on Form 2950 for taxable years ending on or after December 31, 1961. In the case of other employers, the information required to be submitted by this paragraph shall, except as otherwise provided by the Commissioner, be filed on Form 2950 for taxable years ending on or after December 31, 1962.

(d) For the purpose of the information required by this section, contributions paid in a taxable year shall include those deemed to be so paid in accordance with the provisions of section 404(a)(6) and shall exclude those deemed to be paid in the prior taxable year in accordance with such provisions. As used in this section, "taxable year" refers to the taxable year of the employer and, unless otherwise requested by the district director, a "year" which is not specified as a "taxable year" may be taken as the taxable year of the employer or as the plan, trust, valuation, or group contract year with respect to which deductions are being claimed provided the same rule is followed consistently so that there is no gap or overlap in the information furnished for each item. In any case the date or period to which each item of information furnished relates should be clearly shown. In the case of a taxable year ending on or after December 31, 1962, all the information required by this section shall be filed with the tax return for the taxable year in which the deduction is claimed. In the case of a taxable year ending before December 31, 1962, all the information required by this section should be filed with the tax return for the taxable year in which the deduction is claimed, except that, unless sooner requested by the district director, such information, other than that specified in paragraph (a) (4) (I) and (9) of this section, may be filed within 12 months after the close of the taxable year provided there is filed with the tax return a statement that the information cannot reasonably be filed therewith, setting forth the reasons therefor.

(e) In any case all the information and data required by this section must be filed in the office of the district director in which the employer files his tax returns and must be filed independently of any information and data otherwise submitted in connection with a determination of the qualification of the trust or plan under section 401(a). The district director may, in addition, require any further information that he considers necessary to determine allowable deductions under section 404 or qualification under section 401. For taxable years ending on or before December 31, 1961, the district director may waive the filing of such information required by this section which he finds unnecessary in a particular case. For taxable years ending after December 31, 1961, the Commissioner may waive the filing of such information.

OPERATION AND MAINTENANCE CHARGES

Colorado River Indian Irrigation Project, Arizona

Basis and purpose. Notice is hereby given that pursuant to the authority vested in the Secretary of the Interior by the acts of August 1, 1914, and March 7, 1928 (38 Stat. 583, 45 Stat. 210; 25 USC 385–387), it is proposed to amend § 221.8 of Title 25, Code of Federal Regulations, as set forth below. The purpose of the amendment is to permit the payment of 50 percent of the annual operation and maintenance assessment on February 1 and the remaining 50 percent on or before July 1 of each year.

It is the policy of the Department of the Interior, whenever practicable, to afford the public an opportunity to participate in the rule making process. Accordingly, interested persons may submit written comments, suggestions or objections with respect to the proposed amendments to the Bureau of Indian Affairs, Washington 25, D.C., within thirty days of the date of publication of this notice in the FEDERAL REGISTER.

The introductory paragraph of § 221.8 is amended to read as follows:

§ 221.8 Payment.

One-half the basic water charge fixed in § 221.6 shall become due and payable on February 1 of each year, which entitles the water user to not more than one-half of the total basic water allotment prior to July 1, on which date the second half of the basic water charge shall be paid. Water delivery will not be continued for any tract after July 1 of any year unless and until the remaining half of the basic water charge shall have been paid. To all charges assessed against Indian lands under lease which are not paid on or before July 1 of each year there shall be added a penalty of one-half of one percent per month or fraction thereof from February 1 until paid. Water will not be delivered to any tract of land in succeeding years until full payment of the previous years' operation and maintenance assessments, inclusive of penalties, has been made, or unless arrangements have been made under paragraph (a), (b) or (c) of this section.

FROZEN FLOUNDER AND SOLE FILLETS

United States Standards for Grades

Notice is hereby given that pursuant to the authority vested in the Secretary of the Interior by section 6(a) of the Fish and Wildlife Act of August 8, 1956 (16 U.S.C. 742e), it is proposed to amend Title 50 Code of Federal Regulations by the addition of a new Part 274. The purpose of this amendment is to issue standards for grades of frozen flounder and sole fillets in accordance with the authority contained in Title II of the Agricultural Marketing Act of August 14, 1946, as amended (7 U.S.C. 1621–1627). These regulations, if made effective, will be the first issued by the Department of the Interior prescribing Government standards for this commodity.

It is the policy of the Department of the Interior whenever practicable, to afford the public an opportunity to participate in the rule making process. Accordingly, interested persons may submit written comments, suggestions, or objections with respect to the proposed amendment to the Director, Bureau of Commercial Fisheries, U.S. Fish and Wildlife Service, Washington 25, D.C., within thirty days of the date of publication of this notice in the FEDERAL REGISTER.

PART 274—UNITED STATES STANDARD FOR GRADES OF FROZEN FLOUNDER AND SOLE FILLETS [1]

274.1 Description of the product.
274.2 Styles of frozen flounder and sole fillets.
274.3 Grades of frozen flounder and sole fillets.
274.11 Determination of the grade.
274.21 Definitions.
274.25 Tolerances for certification of officially drawn samples.

[1] Compliance with the provisions of this standard shall not excuse failure to comply with the provisions of the Federal Food, Drug, and Cosmetic Act.

§ 274.1 Description of the product.

Frozen flounder and sole fillets consist of clean, wholesome fillets processed and frozen in accordance with good commercial practice and maintained at temperatures necessary for their preservation. The fillets may be cut transversely or longitudinally into subunits.

NOTE: This standard does not provide for the grading of units of fish flesh cut from previously frozen fish blocks, slabs, or similar material.

The product covered by this standard is prepared from the following species only:

SOLE

Dover sole (Microstomus pacificus)
English sole (Parophrys vetulus)
Gray sole (Glyptocephalus cynoglossus)
Petrale sole (Eopsetta jordani)
Lemon sole (Pseudopleuronectes americanus, over 3½ pounds)
Rock sole (Lepidopsetta bilineata)
Sand sole (Psettichthys melanostictus)

FLOUNDER

Blackback (Pseudopleuronectes americanus, less than 3½ pounds)
Yellowtail flounder (Limanda ferruginea)
Dab, plaice (Hippoglossoides platessoides)
Fluke (Paralichthys dentatus)
Starry flounder (Platichthys stellatus)

§ 274.2 Styles of frozen flounder and sole fillets.

(a) *Style I—Solid pack.* Fillets are frozen together. Individual fillets can be separated only by thawing the entire package or part of the package, depending on absence or presence of separators.

(1) *Substyle A.* Fillets are packed into a single solid block.

(2) *Substyle B.* Fillets are subpacked with separators into smaller weight units.

(b) *Style II—Individually-quick-frozen pack (IQF).* Fillets are individually quick frozen. Individual fillets can be separated without thawing.

§ 274.3 Grades of frozen flounder and sole fillets.

(a) "U.S. Grade A" is the quality of frozen flounder or sole fillets for which the total score is not less than 85 points, when the fillets are rated in accordance with the scoring system outlined in the following sections.

(b) "U.S. Grade B" is the quality of frozen flounder or sole fillets for which the total score is less than 85 points but is not less than 70 points, when the fillets are rated in accordance with the scoring system outlined in the following sections.

(c) "Substandard" is the quality of frozen flounder or sole fillets that fail to meet the requirements of the U.S. Grade B.

§ 274.11 Determination of the grade.

The grade is determined by observing the product in the frozen, thawed, and cooked states and is evaluated by numerical scoring. Points are deducted for variations of quality for each factor in accordance with the schedule in table 1. The total of the points deducted is subtracted from 100 to obtain the score. The maximum score is 100; the minimum score is 0.

§ 274.21 Definitions.

(a) "Slight" refers to a condition that is scarcely noticeable but that does affect the appearance, desirability, and/or eating quality of the fillets.

(b) "Moderate" refers to a condition that is conspicuously noticeable but that does not seriously affect the appearance, desirability, and/or eating quality of the fillets.

(c) "Excessive" refers to a condition that is conspicuously noticeable and that does seriously affect the appearance, desirability, and/or eating quality of the fillets.

(d) "Bones normally removed" refers to (1) nape membrane bones (adjacent to visceral cavity) and to (2) radial bones (adjacent to fins and lace area).

(e) "Determined by grid" means that a transparent grid of 1-inch squares is placed over the defect area, and points are deducted (as specified in table 1) for each square of affected area under the grid, each square being counted as one whether it is full or fractional.

(f) "Thawed state" means that the frozen product has been placed within a film-type pouch and warmed to an internal temperature of about 32° F by immersing the pouch in running tap water of about 50° to 70° F. Thawing time usually takes 25 to 45 minutes for a 1-pound package.

(g) "Cooked state" means that the thawed, unseasoned product has been placed within a boilable film-type pouch and heated to an internal temperature of about 160° F by immersing the pouch in boiling water. Cooking time usually ranges from 3 to 5 minutes for single fillets and from 7 to 10 minutes for 1-pound packages of fillets.

(h) "Actual net weight" means the weight of the fish flesh within the package after all packaging material, ice glaze, or other protective coating have been removed. ("Actual net weight" of frozen glazed fillets is determined as follows: (1) Rapidly remove excessive ice layers or pockets with running tap water or nozzle-type water spray. (2) Rapidly thaw remaining surfaces of frozen fish sufficiently with tap water or spray to prevent refreezing free surface water. (3) Gently wipe off all free water with a moisture-saturated paper towel. (4) Weigh the fish to obtain "actual net weight").

(i) "Abnormal condition" means that the normal physical and/or chemical structure of the fish flesh has been sufficiently altered so that the usability and/or desirability of the fillet is adversely affected. It includes, but is not limited to, the following examples:

(1) "Jellied" refers to the abnormal condition wherein a fillet is partly or wholly characterized by a gelatinous, glossy, translucent appearance, feels slimy to the touch, and retains its gelatinous, slimy properties in the cooked state.

(2) "Milky" refers to the abnormal condition wherein a fillet is partly or wholly characterized by a milky-white, excessively mushy, pasty, or fluidized appearance.

(3) "Chalky" refers to the abnormal condition wherein a fillet is partly or wholly characterized by a dry, chalky, granular appearance and fiberless structure.

(j) "Odor and flavor" is classified as follows:

(1) "Very good": Fish in this category have essentially the full, good typical odor, and flavor of the indicated species.

(2) "Good": Fish in this category show a noticeable decrease of the good, typical odor and flavor of the indicated species, and/or may have certain less acceptable natural environmental odors and flavors of slight intensity (iodoform-type, phenolic-type, feed-type, etc.), but may have no off odors and flavors.

(3) "Reasonably good": Fish in this category may be flat, or completely lacking in the good typical odor and flavor of the indicated species, and/or may have certain less acceptable natural environmental odors and flavors of moderate intensity (iodoform-type, phenolic-type, feed-type, etc.) but may have no objectionable odors and flavors.

(4) "Substandard": Fish in this category have odors and flavors that are objectionable.

LOT CERTIFICATION TOLERANCES

§ 274.25 Tolerances for certification of officially drawn samples.

The sample rate and grades of specific lots shall be certified in accordance with Part 260 of this chapter (Regulations Governing Processed Fishery Products, Vol. 25 F.R. 8427 Sept. 1, 1960).

ONIONS GROWN IN SOUTH TEXAS

Notice of Recommended Decision and Opportunity To File Written Exceptions With Respect to Proposed Amendments to Marketing Agreement and Order

Pursuant to the rules of practice and procedure, as amended, governing proceedings to formulate marketing agreements and marketing orders (7 CFR Part 900), notice is hereby given of the filing with the Hearing Clerk, United States Department of Agriculture, of this recommended decision with respect to proposed amendments to Marketing Agreement No. 143 and Order No. 133 (7 CFR Part 959 (formerly Part 1033)), regulating the handling of onions grown in designated counties in South Texas (the Counties of Val Verde, Kinney, Uvalde, Medina, Wilson, Karnes, Goliad, Victoria, Calhoun, Maverick, Zavala, Frio, Atascosa, Dimmit, La Salle, McMullen, Live Oak, Bee, Refugio, Webb, Duval, Jim Wells, San Patricio, Nueces, Zapata, Jim Hogg, Brooks, Kleberg, Kenedy, Starr, De Witt, Aransas, Hidalgo, Willacy, and Cameron). This regulatory program is effective pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (secs. 1-19, 48 Stat. 31, as amended; 7 U.S.C. 601-674) hereinafter called the "act."

Interested persons may file exceptions to this recommended decision with the Hearing Clerk, Room 112, Administration Building, United States Department of Agriculture, Washington 25, D.C., not later than the close of business on the 10th day after its publication in the FEDERAL REGISTER. Exceptions should be filed in quadruplicate.

Preliminary statement. A public hearing was held on November 28, 1961, at Edinburg, Texas, to consider proposed amendments to Marketing Agreement No. 143 and Order No. 133 (hereinafter referred to as the present order). This hearing was held pursuant to notice thereof which was published in the November 17, 1961, FEDERAL REGISTER (26 F.R. 10772). Such notice set forth the proposed amendments.

Material issues. The material issues presented on the record of hearing are as follows:

(1) The amendment of § 959.7, *Handle*, to extend its applicability to shipments of onions within the production area;

(2) The amendment of § 959.12, *Pack;*

(3) The amendment of § 959.31, *Alternate members;*

(4) The amendment of § 959.52, *Issuance of regulations*, to authorize the establishment of "shipping holidays"; and

(5) The amendment of such other sections as are necessary to conform the present order to the proposed amendments.

Findings and conclusions. The findings and conclusions on the material issues, all of which are based upon the evidence presented at the hearing and the record thereof, are as follows:

(1) The term "handle," as defined in the present order, is synonymous with "ship" and means to package, sell, transport, or in any way to place onions in the current of the commerce between the production area and any point outside thereof. Such term shall not include the transportation, sale, or delivery of onions to a person in the production area who is a registered handler.

The proposed amendment to this section adds "within the production area" to the commerce in onions which may be regulated as handling within terms of the order. It excludes only "field-run" onions delivered or sold to a registered handler from the definition of "handle" instead of "onions" as provided in the present order.

A million people or more, according to the record evidence, live in the production area. They comprise an important portion of the consuming public and a substantial market for all onions, including South Texas onions.

The market within the production area should be protected against the sale of off-grade and poor quality onions, the same as markets outside the production area. The practice of selling culls and off-grades within the production area has, according to the record, practically eliminated markets in Texas from receiving good quality Texas onions. Consumers, shippers, and growers alike have been adversely affected since cull onions give only little, if any, satisfaction to consumers, while they depress prices of better quality onions which they displace in the market. In addition, and most important, they return little or nothing to the producer.

During the 1960-61 marketing season, the first period of operation under the present order, shipments of onions out of the production area were regulated as to grade, size, quality and condition. However, shipments within the production area, which comprises 35 counties in South Texas, were not regulated. As a result, culls and other off-grade onions were permitted to move freely within the production area. A "cull" in trade terminology is an onion of inferior quality which falls below the requirements of any grade and is not considered suitable for fresh market use from the standpoint of quality.

With no limitations on movement within the production area, cull onions moved freely in volume from packing houses and fields, from one town to another, and from one district to another. In previous years, shippers as a matter of usual marketing, sold pickouts (onions of inferior quality or size, sorted out of the marketable onions of good quality and size) to truckers. Packing house operators frequently engaged someone to haul the culls away for disposal and these culls would find their way to a trucker who would purchase them for a small amount. Occasionally a grower would have a field of onions which could not make grade because of excessive seed stems or other defects. Sometimes these onions would find their way into normal channels of commerce by being sold to a trucker or someone for a small sum as salvage. Some packing house operators have sold pick-outs and cull onions to truckers as a salvage operation. It generally costs about 20 cents a bag to harvest the onions and haul them to the packing house. If a shipper could salvage a part of that cost by selling the culls to a trucker at a nominal sum of $20 to $25 for a load of about 20,000 pounds, this would salvage part of the cost and save the cost of having the culls hauled away for disposal. However, the grower as a rule gets nothing out of the cull onions.

A trucker, for example, could come into the Valley, obtain a load of off-grade onions, transport them past the Valley check points with the declaration that the onions were being transported to another point within the production area, such as Corpus Christi or Eagle Pass, then take the onions outside the production area and sell them at discount prices. Such sales would be in competition with onions properly graded and packed in accordance with regulations in effect under the order.

Cull onions compete with preferred grades and sizes. They find a place on the market and displace the sale of good quality onions. To sell, they must be discounted. Once they are discounted, lower prices are offered for quality onions. This reflects a lower price to the grower, and the grower generally has never received anything for the culls.

South Texas onions are marketed widely in interstate and foreign commerce and in the State of Texas, including the production area. The chief competition at the start of the season comes from old onions in storage which were grown in the northern states. Some onions are imported from Mexico and Chile and these imports compete with South Texas onions. Also, shipments from southern California and from Arizona begin during the Texas marketing period and they compete directly with South Texas onions.

Modern methods of rapid communication enable onion buyers and sellers to be in close touch with each other. When markets are generally overloaded with onions at the receiving end, prices decline and shipments back up resulting in a temporary surplus at shipping points and a weakening of prices. Also, reductions in supplies at shipping points, due to weather or other conditions, are quickly reflected in receiving markets by a strengthening of prices for onions. Prices at shipping points and at terminal markets tend to be closely related because factors affecting supplies at shipping points are soon known and reflected in prices at terminal markets and the reverse is also true.

Production area onions that are shipped to a market within the production area are sometimes diverted to markets outside the production area. It is not always known at the time of shipment whether the onions will be marketed within the production area or outside thereof. On very short notice a shipper can divert onions moving to a particular market to some other market. Such diversions are common in the onion trade.

Because of the interdependence of markets and the effect on all markets of any shipment or sale of onions, whether for distribution within the production area or outside thereof, it is found that all handling, as described herein, is in the current of interstate or foreign commerce, or directly burdens, obstructs, or affects such commerce. Hence, the right to exercise Federal jurisdiction with respect to handling operations within the production area is established.

The transportation, sale, or delivery of field-run onions to a registered handler in the production area for grading and packing should be excepted from the definition of "handle." Such onions

have not yet been prepared for market nor are they in their existing condition being transported to market. Most sellers and buyers do not consider them as yet suitable or appropriate for commercial transactions in the commodity, and as such, they have not yet entered the stream of commerce. Hence, they should be exempted from regulation at this time.

Field-run onions should also be allowed to move freely between registered handlers, since registered handlers occasionally need additional onions of a special variety or size to fill out an order which they customarily obtain from another handler. Packaged onions are also commonly bought, sold, or traded between registered handlers. Usually such packaged onions will have been inspected and move under a transfer certificate which will identify them as meeting the regulations which are in effect.

It is concluded, therefore, that the definition of "handle" should be amended as hereinafter set forth and that such amendment will tend to effectuate the declared policy of the Act.

(2) "Pack," as defined in the existing order means a quantity of onions in any type of container and which falls within specific weight limits, numerical limits, grade limits, size limits, or any combination of these, recommended by the committee and approved by the Secretary.

"Pack" as commonly used in the onion trade means one or more of these factors in combination with the type and condition of the container. "Container" as commonly used by the onion trade, means bright, clean, attractively printed, open mesh bags. This is taken as a matter of course and so understood, in regular trading in onions, as is the 50-pound net weight, unless otherwise specified. For example, a typical pack would be U.S. No. 1 medium Granos in new open mesh 50-pound sacks, with the name or brand of the shipper prominently displayed on the bag.

Some onions have been packed in used burlap bags and in dirty, misshapen, mesh bags. Also, cabbage sacks and "misprints" have been used at times for onion shipments. A "misprint" is a bag which has been misprinted and is sold at a discount to be inverted prior to filling. Onions packed in bags of this type or condition do not present a good appearance and sell for lower prices than onions packed in new mesh bags.

Bags are generally stretched out of shape by previous use so 56 or 57 pounds of onions may be required to fill them the next time. But if they are not filled to capacity they appear to be short weighted and usually are discounted. Yet, any extra weight is most likely to be a gift from the grower, as settlements with the grower usually are on a pack-out basis. This has the same effect as lowering the price of onions.

Some bags are constructed from material providing poor ventilation resulting in poor delivery condition. Onions so packed are discounted in price, often requiring reconditioning and sale to another buyer rather than the original buyer for an even lower price.

When onions are packed in used or unsuitable containers for sale in normal fresh market channels, they are usually discounted in price. Also, if such onions should reach their destination and be rejected they may eventually be sold at drastically reduced prices which would be reflected back to the grower. Since such selling prices are often reported without a description of the special conditions of the sale they often have a depressing effect on the prices of all production area onions.

The grade, size and quality of production area onions are regulated under this program so that only the better quality and preferred sizes will be offered to the trade. To pack such onions in bags other than standard types or condition containers or otherwise unsuitable containers would be detrimental to the pack and would defeat the objectives of the grade and size regulations. Therefore, it is essential that the committee should have authority to recommend, and the Secretary to issue, regulations in terms of packs and to define and establish such packs in terms of the various factors which make up the definition of pack including types and condition of containers. Such authority is necessary to effectuate the other provisions of the order and § 959.12 *Pack*, should be amended to read as hereinafter set forth.

(3) The proposed amendment to § 959.31, *Alternate members*, would add the following provision to this section: "In the event both a member of the committee and his alternate are unable to attend a committee meeting, the member, his alternate, or the committee (in that order) may designate another alternate from the same district and from the same group (handler or grower) to serve in such member's place and stead."

When both a member and his alternate are unable to attend committee meetings the committee is handicapped in its operations. The best interests of the committee, a district, and the group would be served by allowing any other alternate from the same district and group, i.e., handler or grower, to attend in place of the absent member or his designated alternate. This authority would make it easier for the committee to have a quorum at its meetings and would obviate the waste of time and funds resulting from meetings held without enough members present to make up a quorum.

The privilege of designating an alternate to serve in place of a member or his alternate should first be afforded the member, then his alternate, whose place is being filled. In this way the alternate designated to attend the meeting would more likely express opinions similar to those he is replacing. If, however, there is no opportunity for the member or his alternate to name a replacement, the committee should have the authority to do so, provided the alternate named is from the same district and group as the absentee member.

It is concluded, therefore, that § 959.31, *Alternate members*, should be amended to read as hereinafter set forth.

(4) The proposed amendment to § 959.52 would add a new paragraph (b) (5) to provide authority to "establish holidays by prohibiting the packaging and loading of onions on week-ends or other special periods. Special holidays may not be effective for more than 72 hours and not less than seven days may elapse between the termination of such a holiday and the beginning of the next such holiday."

There are times during the marketing season for South Texas onions when more onions are packed and loaded into cars and trucks than can be sold. Usually, these unsold cars are shipped as "rollers," i.e., cars in transit that have not been sold and which are usually consigned to the shipper. Only a few days of heavy shipments of rollers usually result in glutted markets and depressed prices for production area onions. As a consequence, the market becomes demoralized and onion prices often drop below the cost of production, harvesting, and packing. Without some curtailment of loadings there is little recovery from this condition. Past experience has proven that substantial curtailment of loadings, due to weather conditions or other causes, results in fairly rapid market stabilization. The most practical approach to this problem, according to record evidence, would be the establishment of a "holiday" which would completely stop packaging and loading of onions in the production area for a short period of time. In its practical effect, this would mean that the packing sheds would be shut down. The grading, packaging, and loading of onions would be temporarily discontinued. Such a holiday would, however, permit the movement of onions that were already inspected and billed, and would not stop the harvesting of onions in the field or bringing them to the packing house for storage or to the dryer. Also, selling would be permitted during a holiday since shippers would not want to miss any sales. Holiday periods should provide an opportunity to sell unsold cars already in transit and in the terminal markets.

Holidays could be put into effect when the market is glutted, or on week-ends, so as to eliminate the preparation for market and loading of onions when receivers and other buyers in the terminal markets are not open for business. Most terminal markets now operate on a five day week, while some onion shippers in the production area still operate six or seven days a week. Thus week-end holidays, consisting of one or two days a week, as may be recommended by the committee and approved by the Secretary, would tailor shipments of onions from the production area more closely to the ability of receiving markets to accept marketings at reasonable prices.

A period of 72 hours, exclusive of week-end holidays, is an appropriate limit on packaging and loading holidays. Longer periods are not warranted by record evidence. Although holidays could be for 72 hours maximum, they could be limited to one day, two days, or three days, as the committee may recommend.

A minimum of seven days lapse between holidays, exclusive of week-end holidays, is enough to meet accumulated sales obligations.

Growers and shippers would thereby be allowed time to harvest, pack and ship onions after a holiday period. However, intervals between holidays, other than week-end holidays would normally be longer than seven days, since such holidays would be recommended by the committee only on those occasions necessary to alleviate a temporary glut in the markets.

To protect the interests of each district, the committee should require a greater number of concurring votes to recommend a holiday for relieving glutted markets than the usual number required to approve other committee actions.

It is concluded, therefore, that § 959.52 should be amended by the addition of a new paragraph (b) (5) as hereinafter set forth.

The proposal to provide authority to regulate differently for different markets was not supported at the hearing. It, therefore, can not be made a part of the proposed amendments.

(5) Section 959.54. *Safeguards*, of the present order provides authority for the committee to recommend and the Secretary to issue adequate safeguard rules to prevent shipments for special purposes which may be exempted from regulations pursuant to § 959.53, from entering fresh market channels. Such purposes include (a) relief or charity; (b) experimental purposes; (c) export; and (d) other purposes which may be recommended by the committee and approved by the Secretary.

According to the record evidence, onions used for "(d) other purposes" should include the disposition of packing house pick-outs and other culls which should be kept out of fresh market channels. The committee should have the authority, with the approval of the Secretary, to establish safeguard rules to require that pick-outs and other culls be kept out of fresh market channels. Such rules, for example, could require that culls be disposed of in properly guarded places or that they be rendered unfit for fresh market use by multilation or other appropriate means. The authority in § 959.54 *Safeguards*, as supported by these findings, is concluded as adequate for establishing the necessary safeguards essential to effective administration of the marketing order.

Ruling on proposed findings and conclusions. At the conclusion of the hearing the Presiding Officer fixed December 10, 1961, as the latest day on which briefs must be filed with the Hearing Clerk. No brief was filed, hence no ruling is necessary.

General findings. Upon the basis of evidence introduced at the hearing and the record thereof it is found that:

(1) The marketing agreement and the order, as both are hereby proposed to be amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the act with respect to onions produced in the production area, by establishing and maintaining such orderly marketing conditions therefor as will tend to establish, as prices to the producers thereof, parity prices and by protecting the interest of the consumer (i) by approaching the level of prices which it is declared in the act to be the policy of Congress to establish by a gradual correction of the current level of prices at as rapid a rate as the Secretary deems to be in the public interest and feasible in view of the current consumptive demand in domestic and foreign markets, and (ii) by authorizing no action which has for its purpose the maintenance of prices to producers of such onions above the parity level, and (iii) by authorizing the establishment and maintenance of such minimum standards of quality and maturity, and such grading and inspection requirements as may be incidental thereto, as will tend to effectuate such orderly marketing of such onions as will be in the public interest;

(2) The marketing agreement and the order, as both are hereby proposed to be amended, regulate the handling of onions grown in the production area in the same manner as, and are applicable only to persons in the respective classes of industrial and commercial activity specified in, a marketing order upon which hearings have been held;

(3) The said marketing agreement and the order, as both are hereby proposed to be amended, are limited in application to the smallest regional production area which is practicable, consistently with carrying out the declared policy of the act; and the issuance of several orders applicable to subdivisions of the production area would not effectively carry out the declared policy of the act;

(4) The said marketing agreement and the order, as both are hereby proposed to be amended, prescribe, so far as practicable, such different terms, applicable to different parts of the production area, as are necessary to give due recognition to the differences in the production and marketing of onions grown in the production area; and

(5) All handling of onions as defined in this part is in the current of interstate or foreign commerce or directly burdens, obstructs, or affects such commerce.

Recommended amendments to the marketing agreement and order:

The following proposed amendments to the marketing agreement and the order are recommended as the detailed means by which the aforesaid findings and conclusions may be carried out.

1. Amend § 959.7 *Handle* to read as follows:

§ 959.7 Handle.

"Handle" or "ship" means to package, sell, transport, or in any way to place onions in the current of the commerce within the production area or between the production area and any point outside thereof. Such terms shall not include the transportation, sale, or delivery of field-run onions to a person in the production area who is a registered handler.

2. Amend § 959.12 *Pack* to read as follows:

§ 959.12 Pack.

"Pack" means a quantity of onions specified by grade, size, weight, or count, or by type or condition of container, or any combination of these recommended by the committee and approved by the Secretary.

3. Amend § 959.31 *Alternate members* to read as follows:

§ 959.31 Alternate members.

An alternate member of the committee shall act in the place and stead of the member for whom he is an alternate, during such member's absence or when designated to do so by the member for whom he is an alternate. In the event both a member of the committee and his alternate are unable to attend a committee meeting, the member or his alternate or the committee (in that order) may designate another alternate from the same district and the same group (handler or grower) to serve in such member's place and stead. In the event of the death, removal, resignation, or disqualification of a member, his alternate shall act for him until a successor of such member is selected and has qualified. The committee may request the attendance of alternates at any or all meetings, notwithstanding the expected or actual presence of the respective members.

§ 959.52 [Amendment]

4. Amend § 959.52 *Issuance of regulations* by adding a new subparagraph (5) under paragraph (b) as set forth below:

(5) Establish holidays by prohibiting the packaging and loading of onions on week-ends or other special periods. Special holidays may not be effective for more than 72 hours and not less than seven days may elapse between the termination of such a holiday and the beginning of the next such holiday.

Copies of this notice of recommended decision may be obtained from the Hearing Clerk, United States Department of Agriculture, Room 112, Administration Building, Washington 25, D.C., or may be there inspected.

Dated: December 29, 1961.

JAMES T. RALPH,
Assistant Secretary.

IRISH POTATOES GROWN IN MAINE

Decision With Respect to Proposed Amendments to Marketing Agreement and Order; and Referendum Order

Pursuant to the Agricultural Marketing Agreement Act of 1937, as amended (Secs. 1-19, 48 Stat. 31, as amended; 7 U.S.C. 601-674), and the applicable rules of practice and procedure governing proceedings to formulate marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held at Presque Isle, Maine, on August 4, 1961, pursuant to notice thereof, which was published July 28, 1961, in the FEDERAL REGISTER (26 F.R. 6769), upon proposed amendments to Marketing Agreement

No. 122 and Marketing Order No. 950, regulating the handling of Irish potatoes grown in Maine.

On the basis of the evidence introduced at the aforesaid hearing, and the record thereof, a recommended decision was filed November 21, 1961, with the Hearing Clerk, United States Department of Agriculture. The notice of the filing of such recommended decision, affording opportunity to file written exception thereto, was published November 25, 1961, in the FEDERAL REGISTER (26 F.R. 11053).

No exceptions were filed.

Material issues. The material issues presented on the record of hearing are as follows:

(1) The amendment of § 950.7 *Handle or ship* to extend its applicability to shipments of potatoes between points outside the production area;

(2) The addition of a new definition of *Committee* § 950.11 which replaces the current definition § 950.11 *Marketing Committee* and § 950.12 *Administrative Committee;*

(3) The amendment of § 950.17 to redefine *Pack*, and the addition of new definitions § 950.19 *Container*, § 950.20 *Label*, and § 950.21 *Maturity;*

(4) The addition of a new § 950.25 *Establishment and membership* to provide for the establishment of the committee as defined in § 950.11;

(5) The amendment of § 950.31 *Nominations* to require that only one nominee be designated for each committee vacancy and to provide that eligible voters may ballot in a manner they choose in selecting these nominees;

(6) The amendment of § 950.39 *Duties* to reflect the change in committee organization as provided in §§ 950.11 and 950.25;

(7) The amendment of § 950.47 *Refunds* to authorize the establishment of an operating reserve;

(8) The amendment of §§ 950.50 *Marketing policy* and 950.51 *Recommendation for regulations* to provide for proposed changes in § 950.52;

(9) The amendment of § 950.52 *Issuance of regulations* to provide for the issuance of regulations by markets and the authority for labeling and container regulation and to specifically provide authority for maturity regulations;

(10) The amendment of § 950.53 *Modification, suspension, or termination* to provide for modified regulations under this section for potatoes moving to chippers;

(11) The amendment of § 950.65 *Inspection and certification* to require inspection under this section without regulation under §§ 950.52 or 950.53; to provide flexibility in determining the validity period for inspection certificates under this part; to require that evidence of inspection accompany truck shipments, and that containers may be marked to indicate compliance with inspection requirements;

(12) The amendment of § 950.80 *Reports* to more clearly define the types of reports which may be required under this section, to require reports only from those needed, and to establish a definite period for the retention of records under this section.

Findings and conclusions. The findings and conclusions on the material issues, all of which are based upon the evidence adduced at the hearing in the record thereof, are as follows:

(1) The term "handle" as defined in the present order is synonymous with "ship" and means to sell or transport potatoes or cause the sale or transportation of potatoes within the production area or between the production area and any point outside thereof. When the present order was issued in 1954 this definition included the handler activities common at that time, and was found to be adequate for effective administration.

However, upon the basis of evidence introduced at the hearing on the proposed order it is found that (i) operating experiences indicate the definition should be broadened and clarified to include handling activities performed outside the production area, (ii) Maine potatoes which failed to meet regulations in effect at the time of shipment and which were shipped for special purposes have been diverted to tablestock markets, (iii) under the present definition out-of-production area handlers are not subject to the provisions of the present order, (iv) with the increased importance of processing this practice may be expected to become more common, and (v) unless such potatoes are subject to and meet the requirements of the order they can adversely affect prices received by Maine growers.

Therefore, it is concluded that it is necessary and desirable to expand the definition of "handle" to include handling performed outside the production area under the terms of appropriate rules and regulations which may be recommended by the committee and approved by the Secretary. It is further concluded that such potatoes are in the current of commerce between the production area and their final destination in receiving markets, so certain activities by out-of-production area handlers, which will be specified in the rules and regulations, should be subject to the requirements of the program.

This authority is further necessary in view of the proposed amendments with respect to potatoes for special purposes under the provisions of § 950.53 as hereinafter set forth. Section 950.53 of the proposed order would provide that potatoes for chipping do not necessarily have to be conditioned—i.e., stored under heat—to qualify for special consideration. Testimony at the hearing was to the effect that procedures should be established whereby unconditioned potatoes for chipping but which fail to meet current regulations may be shipped and then conditioned outside of the production area. Unless some authority is retained on such potatoes they could be diverted to tablestock outlets.

Since the present order was originally issued in 1954, potato marketing has changed considerably. New methods of processing and transportation and changes in buying and packing practices have been developed. The manufacture of potato chips, potato flakes, and canning or freezing are examples of either new products or outlets of increased importance. Buyers, brokers, and processors located outside the production area may legitimately buy potatoes for such purposes and then for various reasons they may re-sort such potatoes and sell some in fresh markets or occasionally they will simply divert some shipments directly to the fresh market. Unless such potatoes meet the requirements applicable to potatoes handled within the production area or between the production area and any point outside thereof, they can damage the reputation of the properly graded, sized, and packed Maine potatoes with adverse effects on growers' prices.

Under the present order the shipping point handler can act in good faith and comply with all regulations, but can be in violation if the receiver diverts the potatoes. Under the proposed order persons handling Maine potatoes outside the production area would be subject to the conditions of the order if they handled such potatoes contrary to the appropriate rules and regulations recommended by the committee and issued by the Secretary governing such shipments. The receiver would have to agree to comply with regulations before potatoes could be shipped under special purpose conditions, and, in turn, will be fully informed and appraised of his responsibilities if he diverts and such potatoes so received.

Provisions of the present order are such that the burden of compliance with regulations rests with the handler within the production area. As mentioned above, the shipping point handler may be in violation for reasons beyond his control. Therefore persons performing handler functions outside the production area should, under rules and regulations issued pursuant to § 950.56, bear the responsibility of a handler under the proposed order. Extension of this authority will tend to promote more orderly marketing and effectuate the declared policy of the act.

(2) The definition of "committee" in the proposed order is to identify the administrative agency responsible for assisting in the administration of the program. "Committee" means the Maine Potato Marketing Committee as authorized by the act and which is necessary and incidental to the operation of the proposed order. The new definition replaces the definitions of § 950.10 *Marketing Committee* and § 950.11 *Administrative Committee* in the present order.

(3) "Pack" should be defined as set forth in the proposed order as a means for establishing a method of regulation and as the basis for distinguishing among the various units in which potatoes are prepared for market and shipped. The term "pack" is commonly used throughout the potato trade and refers to a combination of factors including the grade, size, maturity, and variety of the potatoes together with the size and type of container. For example, a common or usual pack for Maine is a "U.S. No. 1, 2½ minimum–3½ maximum, Katahdin variety, in 10-pound 'poly' bags."

The State of Maine Department of Agriculture has established standards for certain "packs" of potatoes specifying the grade, size, type of container, etc. In order to cooperate with this agency the committee should have authority to use these pack specifications and pack designations in recommending pack regulations.

The development of new potato packs is continuous. Consumer size packages continue to gain in popularity. A recently developed 50-pound box contains potatoes which are sized and hand packed. The definition should cover other developments in packing as they occur in the future. The committee should be able to recommend such pack regulations as will permit taking advantage of any practice or innovation which will tend to improve growers' returns. The particular packs which may be handled should be specified by recommendation of the committee, with approval of the Secretary, and thereby permit the tailoring of particular regulations to particular packs.

"Container" should be defined in the proposed order as a basis for differentiating among the numerous shipping units in which potatoes may move to market outlets, since authority to regulate by type of container is included in the proposed order.

"Label" as defined in the proposed order means the same as it does in the common use of the trade, namely, to mark, brand, or otherwise designate on containers the grade or size or both of the potatoes contained therein.

Under the proposed order, authority is specifically included for regulating by "maturity." Maturity is considered in the United States Standards for Potatoes in terms of the development or condition of the outer skin of the potatoes. The term as defined in the proposed order conforms with the concept in the standards, and should be included to provide a basis for the authority to regulate by maturity.

(4) The present order provides for a marketing committee and for an administrative committee. The marketing committee consists of 20 members and 5 alternates. The administrative committee is selected from members and alternates of the marketing committee, and must have three or more members. Under the proposed order, only one committee, the Maine Potato Marketing Committee, will be established with the same membership as the marketing committee in the present order.

The proposed committee would assume all the functions of the administrative committee in the present order. No change is proposed in the selection, qualification and present distribution of membership by districts for the proposed committee over the current methods used for selecting the marketing committee. Members of the present marketing committee would continue as members of the initial committee under the proposed order. An administrative committee could become the initial subcommittee of the committee.

Testimony at the hearing shows that the dual committee arrangement has caused some misunderstanding within the industry. Also, there is a delay between the organization of the Maine Potato Marketing Committee and appointment of the Maine Potato Administrative Committee. The proposed arrangement of a single committee should result in more effective administration of the order.

(5) The proposed order would amend paragraph (c) of § 950.31 *Nominations*, so only one nominee must be submitted to the Secretary for each vacancy on the committee. Testimony shows that there is some confusion upon the part of nominees with respect to the current nomination procedure of submitting two names for each position. Nominees have been confused by the submission of their names for consideration for appointment and cannot understand why they are not appointed after being recommended to the Secretary. Also, some qualified persons do not wish to have their names submitted only for consideration with actual appointment going to another, and for that reason do not allow their names to be submitted for nomination. Since the nominee who receives the highest number of votes has always been selected the present procedure serves no useful purpose and should be amended. Several persons are usually nominated for each position, so the procedure of submitting only one name for appointment would not necessarily limit the Secretary in his selection. Therefore, it is found that the provisions of § 950.31 should be amended accordingly.

(6) In the proposed order § 950.39 *Duties* must reflect changes required by the elimination of the administrative committee and marketing committee in the present order and assignment of their duties to the single committee established in the proposed order. All duties currently assigned the administrative committee would be assigned to the new committee but could be reassigned to a subcommittee. The listed duties have proven satisfactory in the present order and should be continued in the proposed order.

(7) Section 950.44 *Refunds* of the present order provides methods for disposing of any excess funds remaining after each fiscal period's expenses have been met. These methods include the crediting of each handler's account with his share of the refund, or by payment to him if demanded. Authority is also included in the present order to set aside some of the excess funds as a reserve for possible liquidation.

Good business practice requires provision for contingencies. The committee should be authorized to set aside some of the funds remaining at the end of each fiscal year after expenses for the period have been met, to be carried over into following periods in a general reserve to be used for operations and for possible liquidation of the affairs of the committee.

The reserve could be built up over a period of years provided it does not exceed approximately one year's operating expenses. This reserve could be used for several purposes. It could be used to allow the committee to function at the beginning of each season prior to the time assessment income is available; to cover any deficits during a fiscal period in which assessment income falls short of expenses; to pay expenses during any period when any or all of the provisions of the order are suspended or are inoperative; or for other expenses authorized under the proposed order.

A reserve fund would be needed in the event of termination; to pay the expenses of winding up committee affairs. Any balance remaining after liquidation should be prorated, to the extent practical, to the persons from whom such funds were collected.

It is concluded, that the revision of § 950.44, authorizing operating reserve, as hereinafter set forth, should be incorporated in the proposed order.

(8) The proposed order contains additional authority in § 950.52 and § 950.53 for recommending regulations. The sections relating to marketing policy, § 950.50, and recommendation for regulations, § 950.51, incorporate these changes. Testimony was given that a marketing policy statement has been prepared each season since 1954 under the provisions of § 950.50. In the event the proposed order is adopted, the Committee would need to consider any changes in the present regulating authority when making recommendations for regulations. Likewise, under § 950.51, the Committee should have authority to recommend any regulations authorized in §§ 950.52 and 950.53.

(9) The types and methods of limiting shipments are contained in §§ 950.52 and 950.53 of the proposed order. These should include all the types and methods in the present order together with certain additional types of regulations and the further defining of other types of regulations contained in the present order.

The record of hearing shows that in considering regulations for the 1960–61 season, the marketing committee gave consideration to the recommendation of a regulation which would allow the shipment of a pack of U.S. No. 1 potatoes, 2 to 2½ inches in diameter; however, it was found this pack, especially in a closed container, could not be distinguished from the regular Maine pack (U.S. No. 1, 2¼ to 4 inches in diameter) of the past few seasons. Authority contained in the proposed order requiring containers be labeled as to grade and size would not only serve to permit the pack of smaller sizes to stand on their own merit and avoid being substituted for the standard pack, but would have given additional recognition to the standard Maine pack. Although a large volume of Maine shipments are U.S. No. 1 grade, some shipments for special purposes or under exemption procedures are of a lesser grade and labels could be used to advantage in distinguishing between grades of certain packs.

The use of the State of Maine's Blue, White and Red trademark in place of grade and size should be recognized. State of Maine packs such as "Chefs Specials," which in themselves have grade and size requirements which are recognized by the trade should be authorized. When handlers are authorized to use such labels and trade names the committee should have authority to recognize such as meeting labeling requirements.

Authority to require labeling upon committee recommendations; of containers for Maine potatoes and to establish this as a standard trade practice would help to promote orderly marketing in that consumers would know what they are purchasing and the potatoes of each quality and size would sell for what they are worth. If lower grades and less acceptable sizes of potatoes are labeled for what they are, they would not be confused with the better quality and sizes which in turn would not adversely affect prices received by growers for the more acceptable grades and sizes.

Labeling authority in the proposed order is incidental to, not inconsistent with, and necessary to effectuate its grade, size, and quality regulations. Such authority is not inconsistent with the other provisions of the order. Authority in the proposed order should be flexible enough to permit the committee, with approval of the Secretary, after careful study, to issue such labeling regulations as would be beneficial to producers and handlers of production area potatoes. It is concluded that the labeling provision, as hereinafter set forth, should be authorized in the proposed order.

Provision is included in the proposed marketing order authorizing different regulations for different markets. It was testified that this provision is intended to distinguish only between markets within the production area and those outside. Markets within the production area, particularly for certain processing uses, are close to source of supply and could at times be allowed to take different grade and sizes of potatoes than those outside the production area, or could be relieved from grade and size regulations if it may be practical to do so in terms of administering the program and helping to promote orderly marketing. At the same time, it would be impractical to consider distinguishing between terminal markets outside the production area.

The present order authorized pack regulations. It is found that this authority should be continued under the proposed order based upon the testimony and evidence with respect to the new definition of *Pack* (§ 950.16 of the proposed order). It is further found that because various factors of a pack affect the price received therefor, it is necessary to authorize regulations covering each of the factors making up a pack. Each of the factors has an influence on price. Testimony introduced at the hearing showed that if one factor of a pack was contrary to the original contract or order, the shipment was usually subject to an adjustment which in turn was reflected in the price received by the grower. More emphasis is being placed upon proper grading and packing now than when the present order was originally considered in 1954. Unless each element of packs is regulated so as to promote orderly marketing, pack regulations under the proposed order would be ineffective in attaining the objectives of the act.

The proposed order provides for the committee to recommend, and the Secretary to fix, through rules and regulations, the size, weight, capacity, dimensions, or pack of the containers which may be used in the packaging or handling of potatoes. This is not a particularly disturbing problem at the present time, but if malpractices should develop, such as the use of off-size or deceptive containers, or with respect to the net weights of containers, it is necessary that authority should be available for the committee, with the approval of the Secretary, to correct any abuses which may develop and to prohibit the use of undesirable or deceptive containers.

Maturity is a quality factor and, as such, is included within the authority of the present order. Testimony was offered at the hearing that the authority to regulate specifically by maturity, in terms of skinning classifications should be provided in the proposed order for clarity and so that all parties concerned will know that such regulations will be in accordance with the aforementioned standards.

The present order authorized the Committee to recommend and the Secretary to establish such minimum standards of quality and maturity and such grading and inspection requirements during any or all periods when potato prices reach the equivalent parity as will be in the public interest. Such authority should be contained under the proposed order.

(10) Authority is contained in § 950.53 of the present order for the marketing committee to recommend, and the Secretary to provide, for the modification, termination or suspension of regulations on shipments for manufacture or conversion into specified products. Testimony was offered at the hearing that potatoes for chipping be added to the outlets listed in § 950.53. Potatoes used for chipping require special cultural practices and early harvest which tend to increase the cost of growing a crop for chippers when compared to tablestock. Potatoes which will make satisfactory chips, although they may not meet tablestock grades and sizes, may be of greater value to chippers than potatoes which meet tablestock grades and sizes that fail to chip satisfactorily. Therefore, chippers' requirements for potatoes differ from those for the tablestock market, with chippers being less interested in the outside or external appearance of the potato, but look for internal factors or conditions which will make good chips. Shipments for chipping reduce the total supply of potatoes available for shipment from the production area to the domestic fresh market; and therefore, such shipments tend to increase the value of the crop. Therefore it is concluded that shipments of potatoes for chipping should be included in the outlets considered under § 950.53.

(11) Provisions are included in the present order for requiring inspection whenever the shipments are limited under the provisions of §§ 950.45, 950.52, and 950.53. In the proposed order the committee may recommend, and the Secretary may issue, regulations requiring inspection even when no regulations are in effect under the aforementioned sections. Testimony was given that some committee activities and functions are necessary even when regulations are not in effect. Inspection is necessary so assessments as provided in § 950.45 may be levied equitably upon all handlers. Inspection certificates would also provide a method whereby statistical information would be available to the committee to assist in preparation of, or review of, the marketing policy statement. The Maine Branding Law requires that all potatoes be labeled as to grade. Inspection under this section would permit the committee to cooperate with the State agency in the administration of this law.

Under the provisions of the present order, § 950.65 authorizes the committee to recommend, and the Secretary to issue, rules limiting the period for which inspection certificates may be valid. At the hearing, testimony was offered that this section in the proposed order should provide for the establishment of this period differently by types of carriers (truck vs. rail), types of inspection certificates (standard vs. lot), and for special outlets established under § 950.53. Such requirement is reasonable and necessary. The validity time in the past has been based upon the maximum period necessary on truck shipments. Experience has shown that this period may be too short for rail shipments. In the case of warehouse or lot inspections, a time could be fixed which would allow adequate opportunity for the handling of all inspected potatoes, thereby accommodating handlers and truckers. Or under this provision a longer period of validity could be established for inspection certificates issued in the case of chipping potatoes placed in storage for conditioning and then shipped out of storage at some later date. Conditioned potatoes are subject to shriveling and sprouting, due to conditioning, which makes inspection difficult at the time of shipment. Shipments of such potatoes could be handled under the provision of § 950.56 *Safeguards* under which a system of registering handlers of such shipments may be used to facilitate its provisions.

In the proposed order, the provisions of § 950.65 are amended to require handlers shipping potatoes by truck to provide the trucker with a copy of the applicable inspection certificate for such shipment, and for the trucker to surrender such certificate to those enforcement authorities designated by the committee. This provision is necessary to determine that requirements are being met. It was testified that most handlers are following this practice now, so this requirement is practical and should not impose any extra burden upon handlers.

The committee should be authorized to recommend, and the Secretary to require, that all lots of potatoes inspected and certified shall be identified by appropriate seals, stamps, or tags to be affixed to each container thereof by the handler thereof, under the direction or supervision of the Federal or Federal-State Inspection Service or the committee. Such identification requirements would result in more efficient and effective administration of the program because compliance problems would be minimized. It would supplement and assist in the administration of the order, particularly if labeling requirements authorized in § 950.52 were in effect. The proposed order should contain such authority.

Other provisions of § 950.65 in the present order would continue unchanged in the proposed order.

(12) Testimony at the hearing supported the proposal for amending §950.80 *Reports* to provide that reports may be requested of individual handlers rather than all handlers in the production area. In the event reports are needed from only one handler or small group of handlers, no useful purpose would be served by requesting reports of all handlers in the production area. For example, if a particular section or district was affected by an unusual circumstance, no purpose would be served in requesting reports of the amount of this damage, to assist in preparation of a marketing policy, from all handlers; rather reports from only those handlers affected would be needed. Also, a time limit was established for which handlers must retain records for this part. A period of 2 years following each fiscal period is established as the length of time records should be retained. Paragraph (a) is included to notify handlers of the types of reports which might be requested under this section. Paragraph (b) is included so that handlers will know that information supplied under this section would receive appropriate protection. General provision for these two paragraphs was established in the 1954 hearing record on the present order. The changes contained in the proposed order specify in detail what may be required in the way of reports to make such requirements more readily available and known.

(13) Changes and modifications in drafting some provisions, including changes in reference numbers and cross-references between sections, are necessary to conform the present order with the proposed amendments. These changes are made and the proposed order conforms with them.

General findings. Upon the basis of evidence introduced at the hearing and the record thereof it is found that:

(1) The marketing agreement and the order, as both are hereby proposed to be amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the act with respect to potatoes produced in the production area, by establishing and maintaining such orderly marketing conditions therefor as will tend to establish, as prices to the producers thereof, parity prices and by protecting the interest of the consumer (i) by approaching the level of prices which it is declared in the act to be the policy of Congress to establish by a gradual correction of the current level of prices at as rapid a rate as the Secretary deems to be in the public interest and feasible in view of the current consumptive demand in domestic and foreign markets, and (ii) by authorizing no action which has for its purpose the maintenance of prices to producers of such potatoes above the parity level, and (iii) by authorizing the establishment and maintenance of such minimum standards of quality and maturity, and such grading and inspection requirements as may be incidental thereto, as will tend to effectuate such orderly marketing of such potatoes as will be in the public interest;

(2) The marketing agreement and the order, as both are hereby proposed to be amended, regulate the handling of potatoes grown in the production area in the same manner as, and are applicable only to persons in the respective classes of industrial and commercial activity specified in, a marketing order upon which hearings have been held;

(3) The said marketing agreement and the order, as both are hereby proposed to be amended, are limited in application to the smallest regional production area which is practicable, consistently with carrying out the declared policy of the act; and the issuance of several orders applicable to subdivisions of the production area would not effectively carry out the declared policy of the act;

(4) The said marketing agreement and the order, as both are hereby proposed to be amended, prescribed, so far as practicable, such different terms, applicable to different parts of the production area, as are necessary to give due recognition to the differences in the production and marketing of potatoes grown in the production area; and

(5) All handling of potatoes as defined in this part is in the current of interstate or foreign commerce or directly burdens, obstructs, or affects such commerce.

Marketing agreement, as amended, and Order, as amended. Annexed hereto and made a part hereof are two documents entitled, respectively, "Marketing Agreement, as Amended, Regulating the Handling of Irish Potatoes Grown in Maine" and "Order, as Amended, Regulating the Handling of Irish Potatoes Grown in Maine" which have been decided upon as the appropriate and detailed means of effectuating the foregoing conclusions. The aforesaid marketing agreement, as amended, and aforesaid order, as amended, shall not become effective unless and until the requirements of § 900.14 of the aforesaid rules of practice and procedure governing proceedings to formulate marketing agreements and marketing orders have been met.

It is hereby ordered, That all of this decision, except the annexed marketing agreement, as amended, be published in the FEDERAL REGISTER. The regulatory provisions of the said marketing agreement, as amended, are identical with those contained in the Order, as amended, which will be published with this decision.

§ 950.0 Findings and determinations.

Findings and determinations hereinafter set forth are supplementary and

in addition to the findings and determinations made in connection with the issuance of the aforesaid order, and all of said previous findings and determinations, are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) *Findings upon the basis of the hearing record.* Pursuant to the Agricultural Marketing Agreement Act of 1937, as amended (secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674), and in accordance with the applicable rules of practice and procedure governing proceedings to formulate marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held in Presque Isle, Maine, on August 4, 1961, upon proposed amendments to Marketing Agreement No. 122 and Order No. 950 (7 CFR Part 950), regulating the handling of Irish potatoes grown in Maine. Upon the basis of evidence introduced at such hearing, and the record thereof, it is found that:

(1) The said order, as hereby amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the act with respect to potatoes produced in the production area by establishing and maintaining such orderly marketing conditions therefor as will tend to establish, as prices to the producers thereof, parity prices and by protecting the interest of the consumer (i) by approaching the level of prices which it is declared in the act to be the policy of Congress to establish by a gradual correction of the current level of prices at as rapid a rate as the Secretary deems to be in the public interest and feasible in view of the current consumptive demand in domestic and foreign markets, and (ii) by authorizing no action which has for its purpose the maintenance of prices to producers of such potatoes above the parity level, and (iii) by authorizing the establishment and maintenance of such minimum standards of quality and maturity, and such grading and inspection requirements as may be incidental thereto, as will tend to effectuate such orderly marketing of such potatoes as will be in the public interest;

(2) The said order, as hereby amended, authorizes regulation of the handling of potatoes grown in the production area in the same manner as, and is applicable only to persons in the respective classes of industrial and commercial activities specified in a marketing order upon which a hearing has been held;

(3) The said order, as hereby amended, is limited in application to the smallest regional production area which is practicable, consistently with carrying out the declared policy of the act; and the issuance of several orders applicable to subdivisions of the production area would not effectively carry out the declared policy of the act;

(4) The said order, as hereby amended, prescribes, so far as practicable, such different terms, applicable to different parts of the production area, as are necessary to give due recognition to the differences in the production and marketing of potatoes grown in the production area; and

(5) All handling of potatoes grown in the production area, as defined in the order, as amended, is in the current of interstate or foreign commerce, or directly burdens, obstructs or affects such commerce.

Order relative to handling. It is, therefore, ordered, that on and after the effective time hereof, the handling of Irish potatoes grown in the production area as defined herein shall be in conformity to, and in compliance with, the terms and conditions of this order, as amended, and such terms and conditions are as follows:

DEFINITIONS

§ 950.1 Secretary.

"Secretary" means the Secretary of Agriculture of the United States or any officer or employee of the United States Department of Agriculture to whom authority has heretofore been delegated, or to whom authority may hereafter be delegated, to act in his stead.

§ 950.2 Act.

"Act" means Public Act No. 10, 73d Congress, as amended and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (48 Stat. 31, as amended; 7 U.S.C. 601 et seq.).

§ 950.3 Person.

"Person" means an individual, partnership, corporation, association, or any other business unit.

§ 950.4 Production area.

"Production area" means all territory included within the boundaries of the State of Maine.

§ 950.5 Potatoes.

"Potatoes" means all varieties of Irish potatoes grown within the production area.

§ 950.6 Handler.

"Handler" is synonymous with "shipper" and means any person (except a common or contract carrier of potatoes owned by another person) who ships potatoes or causes potatoes to be shipped.

§ 950.7 Ship or handle.

"Ship" or "handle" means to sell or transport potatoes within the production area or between the production area, and any point outside thereof, or between points outside the production area.

§ 950.8 Grading.

"Grading" is synonymous with "preparation for market" and means the sorting or separation of potatoes into grades and sizes for market purposes.

§ 950.9 Grade and size.

"Grade" means any one of the officially established grades of potatoes and "size" means any one of the officially established sizes of potatoes, as defined and set forth in:

(a) The United States Standards for Potatoes issued by the United States Department of Agriculture (§§ 51.1540 to 51.1559 of this title) or amendments thereto, or modification thereof, or variations based thereon:

(b) United States Consumer Standards for Potatoes issued by the United States Department of Agriculture (§§51.-1575 to 51.1587 of this title) or amendments thereto, or modifications thereof, or variations based thereon;

(c) State of Maine Standards for Potatoes issued by the State of Maine Commissioner of Agriculture, or amendments thereto, or modifications thereof, or variations based thereon.

§ 950.10 Producer.

"Producer" means any person engaged in the production of potatoes for market.

§ 950.11 Committee.

"Committee" means the Maine Potato Marketing Committee established pursuant to § 950.25.

§ 950.12 Fiscal period.

"Fiscal period" means the period beginning and ending on the dates approved by the Secretary pursuant to recommendations by the committee.

§ 950.13 Varieties.

"Varieties" means and includes all classifications or subdivisions of Irish potatoes according to those definitive characteristics now or hereafter recognized by the United States Department of Agriculture.

§ 950.14 Seed potatoes.

"Seed potatoes" is synonymous with "seed" and means and includes all potatoes officially certified and tagged, marked or otherwise appropriately identified under the supervision of the official seed potato certifying agency of the State of Maine or other seed certification agencies which the Secretary may recognize.

§ 950.15 Table stock potatoes.

"Table stock potatoes" is synonymous with "table stock" and means and includes all potatoes not included within the definition of "seed potatoes."

§ 950.16 Pack.

"Pack" means a quantity of potatoes specified by weight, grade, size, or numerical limits, or by type of container, or any combination of these, recommended by the committee and approved by the Secretary.

§ 950.17 Export.

"Export" means shipment of potatoes beyond the boundaries of continental United States.

§ 950.18 District.

"District" means each one of the geographical divisions of the production area initially established pursuant to § 950.28 or as reestablished pursuant to § 950.29.

§ 950.19 Container.

"Container" means a sack, bag, crate, box, basket, barrel, or bulk load or any other unit used in packaging, transportation, or sale of potatoes.

§ 950.20 Label.

"Label" means to mark, brand, or otherwise designate on containers the grade or size, or both of potatoes therein.

§ 950.21 Maturity.

"Maturity" means the stage of development or condition of the outer skin (epidermis) of the potato determined according to skinning classifications defined by the United States Standards for Potatoes (§§ 51.1540 to 51.1559, inclusive, of this title).

COMMITTEE

§ 950.25 Establishment and membership.

The Maine Potato Marketing Committee, consisting of 20 members, 15 of whom shall be producers and 5 shall be handlers, is hereby established.

§ 950.26 Selection.

Committee members shall be selected on the basis of districts as established in §§ 950.28 or 950.29. From each district, three producers shall be selected as committee members and one producer shall be selected as committee alternate. From each district one handler shall be selected as member and one handler shall be selected as alternate.

§ 950.27 Qualifications for committee membership.

Persons selected as committee members or alternates to represent producers shall be individuals who are producers in the respective district for which selected, or officers or employees of a corporate producer in such district, and such persons shall be residents of the respective district for which selected. Persons selected as committee members or alternates to represent handlers shall be individuals who are handlers in the district for which selected, or officers or employees of a corporate handler, and such persons shall be residents of the district for which selected.

§ 950.28 Districts.

For the purpose of determining the basis for selecting committee members, the following districts of the production area are hereby initially established:

District No. 1. The towns of Hamlin and Cyr, township 17, Range 3, townships 16 and 17, Range 4, townships 14, 15, and 16, Range 5, all townships 14, Ranges 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, and 16, and all area north thereof in Aroostook County, in the State of Maine.

District No. 2. The towns of Fort Fairfield, Caribou, Washburn, Wade, Perham, Woodland, Limestone, Caswell, Connor, New Sweden, Westmanland and Stockholm in Aroostook County, in the State of Maine.

District No. 3. The town of Bridgewater, township D, Range 2, all townships 9, ranges 3, 4, and 5, the town of Oxbow, all townships 9, ranges 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, and 18, and all area north thereof, not included in Districts 1 and 2, in the State of Maine.

District No. 4. The towns of Orient, Haynesville and Glenwood, township 2, Range 2, the towns of Silver Ridge and Benedicta, all townships 2, ranges 6, 7, 8, west of the east line of the State 9, 10, 11, 12, townships 2, 3, and 4, Range 13, townships 4 and 5, Range 14, all townships 5, ranges 15, 16, 17, 18, 19, and 20, and all area north thereof, not included in Districts 1, 2, and 3, in the State of Maine.

District No. 5. All the remaining counties, towns, and townships in the State of Maine not included in Districts 1, 2, 3, and 4.

§ 950.29 Redistricting.

The committee may recommend, and pursuant thereto, the Secretary may approve, the apportionment of members among districts, and the re-establishment of districts within the production area. In recommending any such changes the committee shall give consideration to: (a) Shifts in potato acreage within districts and within the production area during recent years; (b) the importance of new production in its relation to existing districts; (c) the equitable relationship of committee membership and districts; (d) economies to result for producers in promoting efficient administration due to redistricting or reapportionment of members within districts; and (e) other relevant factors. No change in districting or in reapportionment of members within districts may become effective within less than 30 days prior to the date on which terms of office begin each year and no recommendations for such redistricting or reapportionment may be made less than six months prior to such date.

§ 950.30 Term of office.

(a) The terms of office shall begin as of July 1 and end as of June 30. The term of office of producer members shall be for three years. The term of office of the producer members of the initial committee shall be so determined by the Secretary that one-third shall be for term of one year, one-third for term of two years, and one-third for term of three years. The term of office of alternate producer members and of handler members and alternates shall be for one year. No producer member and no handler member shall serve for more than three consecutive years.

(b) Committee members and alternates shall serve during the term of office for which they have been selected and have qualified, or during that portion thereof beginning on the date on which they qualify during such term of office and continuing until the end thereof, and until their successors are selected and have qualified.

§ 950.31 Nomination.

The Secretary may select the committee members and alternates from nominations which may be made in the following manner:

(a) The committee shall hold or cause to be held prior to May 1 of each year a meeting or meetings of producers in each district and a meeting or meetings of handlers shall be held in the production area to nominate members and alternates for the committee.

(b) In arranging for such meetings the committee may, if it deems desirable, utilize the services and facilities of existing organizations and agencies;

(c) At each such meeting at least one nominee shall be designated for each position as member and for each position as alternate member on the committee and eligible voters may ballot to indicate the ranking of their choice for each nominee;

(d) Nominations for committee members and alternates, shall be supplied to the Secretary in such manner and form as he may prescribe, not later than June 1 of each year;

(e) Only producers may participate in designating nominees for producer members and alternates and only handlers may participate in designating nominees for handler members and alternates. Each person who is both a producer and a handler may vote either as a producer or as a handler and he may elect the group in which he votes. In the event a person is engaged in producing or in handling potatoes in more than one district, such person shall elect the district within which he may participate as aforesaid in designating nominees;

(f) Regardless of the number of districts in which a person produces or handles potatoes, each such person is entitled to cast only one vote on behalf of himself, his agents, subsidiaries, affiliates, and representatives in designating nominees for committee members and alternates. An eligible voter's privilege of casting only one vote as aforesaid shall be construed to permit a voter to cast one vote for each position to be filled from the group in the respective district in which he elects to vote.

§ 950.32 Failure to nominate.

If nominations are not made within the time and in the manner specified in § 950.31, the Secretary may, without regard to nominations, select the committee members and alternates, which selection shall be on the basis of the representation provided for in §§ 950.26 through 950.29, inclusive.

§ 950.33 Acceptance.

Any person selected as a committee member or alternate shall qualify by filing a written acceptance with the Secretary within ten days after being notified of such selection.

§ 950.34 Vacancies.

To fill committee vacancies, the Secretary may select such members or alternates from unselected nominees on the current nominee list from the district involved, or from nominations made in the manner specified in § 950.31. If the names of nominees to fill any such vacancy are not made available to the Secretary within 30 days after such vacancy occurs, such vacancy may be filled without regard to nominations, which selection shall be made on the basis of the representation provided for in §§ 950.26 through 950.29 inclusive.

§ 950.35 Alternate members.

In the event any member of the committee is unable to attend a meeting of the committee, the alternate, who was selected from the same district and from the same group as the absent member may act in the place and stead of the absent member. In the event of the death, removal, resignation, or disqualification of a member, a qualified alternate shall act for him until a successor of such member is selected and has qualified.

§ 950.36 Procedure.

(a) A majority of the members of the committee from each of at least four districts shall be necessary to constitute a quorum and a majority of concurring votes of the entire membership of such committee will be required to pass any motion or approve any committee action.

(b) The committee may provide for meeting by telephone, telegraph, or other means of communication and any vote cast at such a meeting shall be confirmed promptly in writing: *Provided*, That if any assembled meeting is held, all votes shall be cast in person.

§ 950.37 Expenses and compensation.

Committee members and alternates shall be reimbursed for expenses necessarily incurred by them in the performance of duties and in the exercise of powers under this part. Committee members and alternates may receive compensation for official services rendered in connection with administration of this part and such compensation shall not be in excess of rates recommended by the committee and approved by the Secretary.

§ 950.38 Powers.

The committee shall have the following powers:

(a) To administer the provisions of this part in accordance with its terms;

(b) To make rules and regulations to effectuate the terms and provisions of this part;

(c) To receive, investigate, and report to the Secretary complaints of violation of the provisions of this part; and

(d) To recommend to the Secretary amendments to this part.

§ 950.39 Duties.

It shall be the duty of the committee:

(a) To meet prior to the beginning of the marketing season each year, to organize, to select from among its membership a chairman and such other officers as may be necessary, and to adopt such rules and regulations for the conduct of its business as it may deem advisable.

(b) To prepare a marketing policy;

(c) To recommend marketing regulations to the Secretary;

(d) To recommend rules and procedures for, and to make determinations in connection with, issuance of certificates of privilege or exemptions, or both;

(e) To establish a subcommittee or subcommittees whose duties, assigned by the committee, may include, but shall not be limited to, any of the following duties of the committee;

(f) To consult, cooperate, and exchange information with other marketing order committees and other individuals or agencies, and to cooperate, and exchange information, in connection with all proper activities and objectives of such committees under this part.

(g) To act as intermediary between the Secretary and any producer or handler;

(h) To furnish to the Secretary such available information as he may request;

(i) To appoint such employees, agents, and representatives as it may deem necessary and to determine the salaries and define the duties of each such person;

(j) To investigate from time to time and to assemble data on the growing, harvesting, shipping, and marketing conditions with respect to potatoes, as may be necessary for administration of this part;

(k) To keep minutes, books, and records which clearly reflect all of the acts and transactions of the committee and such minutes, books, and records shall be subject to examination at any time by the Secretary or his authorized agent or representative;

(l) To make available to producers and handlers committee voting records on recommended regulations and on other matters of policy;

(m) At the beginning of each fiscal period, and as may be requested by the Secretary, to prepare a budget of its expenses and a proposed rate or rates of assessment for such fiscal period, together with a report thereon;

(n) To cause the books of the committee to be audited by a competent accountant at least once each year, and at such other time as such committee may deem necessary or as the Secretary may request. The report of such audit shall show the receipt and expenditure of funds collected pursuant to this part; a copy of each such report shall be furnished to the Secretary and a copy of each such report shall be made available at the principal office of such committee for inspection by producers and handlers; and

(o) To investigate an applicant's claim for exemption under § 950.70.

EXPENSES AND ASSESSMENTS

§ 950.43 Expenses.

The committee is authorized to incur such expenses as the Secretary may find are reasonable and likely to be incurred during each fiscal period for its maintenance and functioning, and for such purposes as the Secretary, pursuant to this subpart, determines to be appropriate. Handlers shall share expenses on the basis of a fiscal period. Each handler's share of such expense shall be proportionate to the ratio between the total quantity of potatoes under regulation handled by the first handler thereof during a fiscal period and the total quantity of potatoes under regulation handled by all handlers as first handlers thereof during such fiscal period.

§ 950.44 Budget.

As soon as practicable after the beginning of each fiscal period and as may be necessary thereafter, the committee shall prepare an estimated budget of income and expenditures necessary for the administration of this part. The committee may recommend a rate of assessment calculated to provide adequate funds to defray its proposed expenditures. The committee shall present such budget to the Secretary with an accompanying report showing the basis for its calculations.

§ 950.45 Assessments.

(a) The funds to cover such expenses shall be acquired by the levying of assessments upon handlers as provided in this subpart. Each handler who first ships potatoes shall pay assessments to the committee upon demand, which assessments shall be in payment of such handler's pro rata share of the agencies' expenses.

(b) Assessments shall be levied upon handlers at rates established by the Secretary. Such rates may be established upon the basis of the committee's recommendations and other available information. Such rates may be applied equitably to each pack or unit.

(c) At any time during, or subsequent to, a given fiscal period the committee may recommend the approval of an amended budget and an increase in the rate of assessment. Upon the basis of such recommendations, or other available information, the Secretary may approve an amended budget and increase the rate of assessment. Such increase shall be applicable to all potatoes which were regulated under this part and which were shipped by the first handler thereof during such fiscal period.

§ 950.46 Accounting.

(a) All funds received by the committee pursuant to the provisions of this subpart shall be used solely for the purposes specified in this part.

(b) The Secretary may at any time require the committee, its members and alternates, employees, agents, and all other persons to account for all receipts and disbursements, funds, property, or records for which they are responsible. Whenever any person ceases to be a member or alternate of the committee he shall account for all receipts, disbursements, funds, and property (including but not being limited to books and other records) pertaining to such committee activities for which he is responsible, and shall execute such assignments and other instruments as may be necessary or appropriate to vest in such successor, agency, or person designated by the Secretary, the right to all of such property and funds and all claims vested in such person.

(c) The committee may make recommendations to the Secretary for one or more of the members thereof, or any other person, to act as a trustee for holding records, funds, or any other property of the committee during periods when regulations are not in effect and, if the Secretary determines such action appropriate, he may direct that such person or persons shall act as trustee or trustees for the committee.

§ 950.47 Refunds.

At the end of each fiscal period, if assessments collected are in excess of expenses incurred such excess shall be accounted for as follows:

(a) Except as provided in paragraphs (b) and (c) of this section, each person entitled to a proportionate refund of any excess assessment shall be credited with such refund against the operation of the following fiscal period unless such person demands repayment thereof, in which event it shall be paid to him. Refunds need not be paid or credited to any handler with outstanding obligations due the committee until his account is settled.

(b) The committee, with the approval of the Secretary, may establish and maintain during one or more fiscal years an operating monetary reserve in an amount not to exceed approximately one fiscal period's operational expenses. Upon approval of the Secretary, funds in such reserve shall be available for use by the committee for all expenses authorized pursuant to § 950.43.

(c) Upon termination of this part, any funds not required to defray the necessary expenses of liquidation shall be disposed of in such manner as the Secretary may determine to be appropriate: *Provided*, That to the extent practical, such funds shall be returned pro rata to the persons from whom such funds were collected.

REGULATIONS

§ 950.50 Marketing policy.

(a) At the beginning of each season, and as the Secretary may require, the committee shall prepare a marketing policy statement. Such policy statement shall indicate the data on potato supplies and demand on which the committee bases its judgments and recommendations. It shall indicate also the kind or types of regulations contemplated during the ensuing season, and, to the extent practical, shall include recommendations for specific regulations. Notice of such marketing policy shall be given to producers, handlers, and other interested parties by bulletins, newspapers, or other appropriate media, and copies thereof shall be submitted to the Secretary and shall be available generally.

(b) Marketing policy statements relating to recommendations for regulations shall give appropriate consideration to potato supplies for the remainder of the season, with special consideration to:

(1) Estimates of total supplies including grade, size, and quality thereof, in the production area;

(2) Estimates of supplies in competing areas;

(3) Market prices by grades, sizes, containers, and packs;

(4) Estimates of supplies of competing commodities;

(5) Anticipated marketing problems;

(6) Level and trend of consumer income; and

(7) Other relevant factors.

§ 950.51 Recommendations for regulations.

Upon complying with the requirements of § 950.50, the committee may recommend regulations to the Secretary whenever it finds that such regulations as are provided for in this subpart will tend to effectuate the declared policy of the Act.

§ 950.52 Issuance of regulations.

(a) The Secretary shall limit by regulation the handling of potatoes whenever he finds from the recommendations and information submitted by the committee, or from other available information, that such regulations would tend to effectuate the declared policy of the Act.

(b) Such regulations may:

(1) Limit in any or all portions of the production area, the handling of particular grades, sizes, qualities, maturities, or packs, or any combination thereof, of any or all varieties of tablestock or of seed potatoes, or both, during any period; or

(2) Limit the handling of particular grades, sizes, or qualities, of potatoes differently, for different varieties, for tablestock or seed, for different portions of the production area, for different markets, for different packs, for different sizes and types of containers, or for any combination of the foregoing, during any period;

(3) Require that containers for potatoes handled hereunder shall be labeled to show the grade or size, or both, thereof;

(4) Fix the size, capacity, weight, dimensions, or pack of the container, or containers, which may be used in the packaging or handling of potatoes, or

(5) Limit the handling of potatoes when parity prices have been established, by establishing and maintaining minimum standards of quality and maturity in terms of grades or sizes.

§ 950.53 Handling for special purposes.

Upon the basis of recommendation and information submitted by the committee, or other available information, the Secretary shall modify, suspend, or terminate regulations issued pursuant to §§ 950.45, 950.52, 950.53, 950.65, or any combination thereof, in order to facilitate shipments of potatoes for the following purposes whenever he finds that it will tend to effectuate the declared policy of the Act;

(a) For grading or storage within the production area;

(b) For planting within the production area;

(c) For export;

(d) For distribution by the Federal Government;

(e) For manufacture or conversion into specified products;

(f) For charitable purposes;

(g) For livestock feed;

(h) For chipping; and

(i) For other purposes which may be specified.

§ 950.54 Minimum quantity regulation.

The committee, with the approval of the Secretary, may establish for any or all portions of the production area, minimum quantities below which shipments will be free from regulations issued pursuant to §§ 950.45, 950.52, 950.53, 950.65, or any combination thereof.

§ 950.55 Notification of regulation.

The Secretary shall notify the committee of any regulations issued or of any modification, suspension, or termination thereof. The committee shall give reasonable notice thereof to handlers.

§ 950.56 Safeguards.

(a) The committee, with the approval of the Secretary, may prescribe adequate safeguards to prevent shipments pursuant to § 950.53 or § 950.54 from entering channels of trade for other than the specific purpose authorized therefor, and rules governing the issuance and the contents of Certificates of Privilege if such certificates are prescribed as safeguards by the committee. Such safeguards may include requirements that:

(1) Handlers shall file applications with the committee to ship potatoes pursuant to §§ 950.53 and 950.54;

(2) Handlers shall obtain inspection provided by § 950.65, or pay the pro rata share of expenses provided by § 950.45, or both, in connection with potato shipments affected under the provisions of § 950.53: *Provided*, That such inspection or payment of expenses may be required at different times than otherwise specified by the aforesaid sections; and

(3) Handlers shall obtain Certificates of Privilege from the committee for shipments of potatoes affected or to be affected under the provisions of §§ 950.53 and 950.54.

(b) The committee may rescind or deny Certificates of Privilege to any shipper if proof is obtained that potatoes shipped by him for the purposes stated in §§ 950.53 and 950.54 were handled contrary to the provisions of this part.

(c) The Secretary shall have the right to modify, change, alter, or rescind any safeguards prescribed and any certificates issued by the committee pursuant to the provisions of this section.

(d) The committee shall make reports to the Secretary, as requested, showing the number of applications for such certificates, the quantity of potatoes covered by such applications, the number of such applications denied and certificates granted, the quantity of potatoes shipped under duly issued certificates, and such other information as may be requested.

INSPECTION

§ 950.65 Inspection and certification.

(a) During any period in which shipments of potatoes are regulated pursuant to §§ 950.45, 950.52, or 950.53, or any combination thereof, or during any period recommended by the committee and approved by the Secretary, no handler shall ship potatoes unless each such shipment is inspected by an authorized representative of the Federal-State Inspection Service, or such other inspection service as the Secretary shall designate, except when relieved from such requirements pursuant to § 950.53 or § 950.54, or both.

(b) Regrading, resorting, or repacking any lot of potatoes shall invalidate any prior inspection certificates insofar as the requirements of this section are concerned. No handler shall ship potatoes after they have been regraded, resorted, repacked, or in any other way further prepared for market, unless each shipment of such potatoes is inspected by an authorized representative of the Federal-State Inspection Service, or such other inspection service as the Secretary shall designate.

(c) Insofar as the requirements of this section are concerned, the length of time for which an inspection certificate is valid may be established by the committee with the approval of the Secretary.

(d) When potatoes are inspected in accordance with the requirements of this section, a copy of each inspection certificate issued shall be made available to the committee by the inspection service.

(e) The committee may recommend and the Secretary may require that no handler shall transport or cause the transportation of potatoes by motor vehicle or by other means unless such shipment is accompanied by a copy of the inspection certificate issued thereon, which certificate shall be surrendered to such authority as may be designated.

(f) Upon recommendation of the committee, and approval of the Secretary, all potatoes inspected and certified shall be identified by appropriate seals, stamps, or tags to be affixed to the container by the handler under rules to be established by the committee.

EXEMPTION

§ 950.70 Policy.

(a) Any producer whose potatoes have been adversely affected by acts beyond his control or by acts beyond reasonable expectation and who, by reason of any regulation issued pursuant to § 950.52, is prevented from shipping during the season, or a specific portion thereof, as large a proportion of his potato crop as the average proportion shipped or to be shipped during comparable portions of the season by all producers in his immediate area of production, may apply to the committee for exemptions from such regulations for the purpose of obtaining equitable treatment under such regulations.

(b) Any handler who has storage holdings of ungraded potatoes acquired during or immediately following the digging season that have been adversely affected by acts beyond the handler's control or by acts beyond reasonable expectation and who, by reason of any regulation issued pursuant to § 950.52 is prevented from shipping as large a proportion of his storage holdings of ungraded potatoes as the average proportion of ungraded storage holdings shipped by all handlers in said handler's immediate shipping area, may apply to the committee for exemptions from such regulations for the purpose of obtaining equitable treatment under such regulations.

§ 950.71 Rules and procedures.

The committee may adopt, with approval of the Secretary, the rules and procedures for handling exemptions. Such rules and procedures should provide for handling applications for exemptions, for issuing certificates of exemption, for committee determinations with respect to areas and averages (as required by § 950.70), and for such other procedures as may be necessary to accomplish policies with respect to exemptions.

§ 950.72 Applications and issuance.

The committee may issue certificates of exemption to any qualified applicant who furnishes adequate evidence to such committee:

(a) That the grade, size, or quality of the applicant's potatoes have been adversely affected by acts beyond the applicant's control and by acts beyond reasonable expectation;

(b) That by reason of regulations issued pursuant to § 950.52 in case of an applicant who is a producer, he will be prevented from shipping as large a proportion of his production as the average proportion of production shipped by all producers in said applicant's immediate area of production during the season, or a specific portion thereof;

(c) That by reason of regulations issued pursuant to § 950.52, in case of an applicant who is a handler who has storage holdings of ungraded potatoes acquired during or immediately following the digging season, he will be prevented from shipping as large a proportion of such storage holdings as the average proportion of similar storage holdings shipped by all handlers in said applicant's immediate shipping area during the season;

(d) Each certificate shall permit the recipient thereof to ship the potatoes described thereon, and evidence of such certificates shall be made available to subsequent handlers thereof.

§ 950.73 Investigation.

The committee shall be permitted at any time to make a thorough investigation of any applicant's claim pertaining to exemptions.

§ 950.74 Appeals.

If any applicant for exemption certificate is dissatisfied with the determination with respect to his application, said applicant may file an appeal with the committee. Such an appeal must be taken promptly after the determination from which the appeal is taken. Any applicant filing an appeal shall furnish evidence satisfactory to such committee for a determination on the appeal. The committe shall thereupon reconsider the application, examine all available evidence, and make a final determination concerning the application. The committee shall notify the appellant of the final determination, and shall furnish the Secretary with a copy of the appeal and a statement of considerations involved in making the final determination.

§ 950.75 Records.

The committee shall maintain a record of all applications submitted for exemption certificates, a record of all exemption certificates issued and denied, the the quantity of potatoes covered by such exemption certificates, a record of the amount of potatoes shipped under exemption certificates, a record of appeals for reconsideration of applications, and such other information as may be requested by the Secretary. Periodic reports on such records shall be compiled and issued by the committee upon request of the Secretary.

MISCELLANEOUS PROVISIONS

§ 950.80 Reports.

(a) Upon the request of the committee with the approval of the Secretary, handlers shall furnish to the committee, in such manner and at such time as may be prescribed, such information as will enable the committee to exercise its powers and perform its duties under this subpart. The Secretary shall have the right to modify, change, or rescind any requests for reports pursuant to this section.

(b) All such reports shall be held under appropriate protective classification and custody by the committee, or duly appointed employees thereof, so that the information contained therein which may adversely affect the competitive position of any handler in relation to other handlers will not be disclosed. Compilations of general reports from data submitted by handlers is authorized, subject to the prohibition of disclosure of individual handlers' identities or operations.

(c) Each handler shall maintain for at least two succeeding years such records of the potatoes received, and of potatoes disposed of, by such handler as may be necessary to verify the reports he submits to the committee pursuant to this section.

§ 950.81 Compliance.

Except as provided in this subpart, no handler shall ship potatoes, the shipment of which has been prohibited by the Secretary in accordance with provisions of this subpart, and no handler shall ship potatoes except in conformity to the provisions of this subpart.

§ 950.82 Right of the Secretary.

The members of the committee (including successors, and alternates), and any agent or employee appointed or employed by such committee, shall be subject to removal or suspension by the Secretary at any time. Each and every order, regulation, decision, determination or other act of the committee shall be subject to the continuing right of the Secretary to disapprove of the same at any time. Upon such disapproval the disapproved action of the said committees shall be deemed null and void, except as to acts done in reliance thereon or in compliance therewith prior to such disapproval by the Secretary.

§ 950.83 Effective time.

The provisions of this subpart shall become effective at such time as the Secretary may declare and shall continue in force until terminated in one of the ways specified in this subpart.

§ 950.84 Termination or suspension.

(a) The Secretary may, at any time, terminate the provisions of this subpart by giving at least one day's notice by means of a press release or in any other manner which he may determine.

(b) The Secretary may terminate or suspend the operation of any or all of the provisions of this subpart whenever he finds that such provisions do not tend to effectuate the declared policy of the act.

(c) The Secretary shall terminate the provisions of this subpart at the end of any fiscal period whenever he finds that such termination is favored by a majority of producers, who during the preceding marketing season, have been engaged in the production for market of potatoes: *Provided*, That such majority has, during such period produced for market more than fifty percent of the volume of such potatoes produced for market; but such termination shall be effective only if announced at least 30 days prior to the end of the then current fiscal period.

(d) The provisions of this subpart shall, in any event, terminate whenever the provisions of the act authorizing them cease to be in effect.

§ 950.85 Proceedings after termination.

(a) Upon the termination of the provisions of this subpart, the members of the committee then functioning shall continue as joint trustees, for the purpose of liquidating the affairs of the committee and of all the funds and property then in the possession of or under control of such committee, including claims for any funds unpaid or property not delivered at the time of such termination. Action by said trusteeship shall require the concurrence of a majority of the said trustees.

(b) The said trustees shall continue in such capacity until discharged by the Secretary; shall, from time to time, account for all receipts and disbursements and deliver all property on hand, together with all books and records of the committee and of the trustees, to such person as the Secretary may direct; and shall upon request of the Secretary, execute such assignments or other instruments necessary or appropriate to vest in such person full title and right to all of the funds, property, and claims vested in the committee or the joint trustees pursuant to this subpart.

(c) Any person to whom funds, property, or claims, have been transferred or delivered by the committee, or its members, pursuant to this section, shall be subject to the same obligations imposed upon the members of such committees and upon the said trustees.

§ 950.86 Effect of termination or amendment.

Unless otherwise expressly provided by the Secretary, the termination of this subpart or any regulation issued pursuant to this subpart or the issuance of any amendments to either thereof, shall not (a) affect or waive any right, duty, obligation, or liability which shall have arisen or which may thereafter arise in connection with any provision of this subpart or any regulation issued under this subpart, or (b) release or extinguish any violation of this subpart or of any regulation issued under this subpart or (c) affect or impair any rights or remedies of the Secretary or of any other person with respect to any such violation.

§ 950.87 Duration of immunities.

The benefits, privileges, and immunities conferred upon any person by virtue of this subpart shall cease upon the termination of this subpart, except with respect to acts done under and during the existence of this subpart.

§ 950.88 Agents.

The Secretary may, by designation in writing, name any person including any officer or employee of the Government, or name any agency in the United States Department of Agriculture, to act as his agent or representative in connection with any of the provisions of this subpart.

§ 950.89 Derogation.

Nothing contained in this subpart is, or shall be construed to be, in derogation or in modification of the rights of the Secretary or of the United States to exercise any powers granted by the act or otherwise, or, in accordance with such powers, to act in the premises whenever such action is deemed advisable.

§ 950.90 Personal liability.

No member or alternate of the committee, nor any employee or agent thereof, shall be held personally responsible, either individually or jointly with others, in any way whatsoever, to any handler or to any other person for errors in judgment, mistakes, or other acts, either of commission or omission, as such member, alternate, employee, or agent except for acts of dishonesty.

§ 950.91 Separability.

If any provision of this subpart is declared invalid, or the applicability thereof to any person, circumstance, or thing is held invalid, the validity of the remainder of this subpart, or the applicability thereof to any other person, circumstance, or thing shall not be affected thereby.

§ 950.92 Amendments.

Amendments to this subpart may be proposed, from time to time, by the committee or by the Secretary.

Referendum order. Pursuant to the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674), it is hereby directed that a referendum be conducted among the producers who, during the period from August 1, 1960, through July 31, 1961 (which is hereby determined to be a representative period for the purpose of such referendum), were engaged, in the production area as defined in Section 950.4 of 7 CFR Part 950, in the production of potatoes for market to ascertain whether such producers approve or favor the issuance of the annexed amended order.

The procedure applicable to the referendum shall be the "Procedure for the Conduct of Referenda Among Producers in Connection with Marketing Orders (Except those Applicable to Milk and its Products) to Become Effective Pursuant to the Agricultural Marketing Agreement Act of 1937, as Amended" (15 F.R. 5176). The ballots used in the referendum shall contain a summary describing the proposed amendments to the order.

R. L. Powers and K. W. Schaible of the Fruit and Vegetable Division, Agricultural Marketing Service, United States Department of Agriculture are hereby designated as agents of the Secretary of Agriculture, to conduct such referendum jointly or severally. Such agents may appoint any person or persons to assist them in performing their functions hereunder.

Copies of the text of the aforesaid annexed order may be examined in the office of the Hearing Clerk, Room 112, Administrative Building, United States Department of Agriculture, Washington, D.C., and at those places in the production area announced by the referendum agents.

Ballots to be cast in the referendum and copies of the text of said annexed order may be obtained from any referendum agent or any appointee hereunder.

Dated: December 29, 1961.

JAMES T. RALPH,
Assistant Secretary.

MILK IN FORT WAYNE, IND., MARKETING AREA

Notice of Hearing on Proposed Amendments to Tentative Marketing Agreement and Order

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), notice is hereby given of a public hearing to be held in the Alsonette Room, Hotel Indiana, Fort Wayne, Indiana, beginning at 10:00 a.m., local time, on February 5, 1962, with respect to proposed amendments to the tentative marketing agreement and to the order, regulating the handling of milk in the Fort Wayne, Indiana, marketing area.

The public hearing is for the purpose of receiving evidence with respect to the economic and marketing conditions which relate to the proposed amendments, hereinafter set forth, and any appropriate modifications thereof, to the tentative marketing agreement and to the order.

The proposal relative to a redefinition of the marketing area raises the issue

whether the provisions of the present order would tend to effectuate the declared policy of the Act, if they are applied to the marketing area as proposed to be redefined and, if not, what modifications of the provisions of the order would be appropriate.

The proposed amendments, set forth below, have not received the approval of the Secretary of Agriculture.

Proposed by the Wayne Cooperative Milk Producers, Inc.:

Proposal No. 1. Extend the marketing area by including the counties of Blackford, Jay and Wabash, all in the State of Indiana.

Proposal No. 2. Delete § 1047.51(b) and substitute the following:

(b) *Class II milk price.* The price for Class II milk of 3.5 percent butterfat content shall be the basic formula price, but in no event shall the Class II price exceed a price computed by adding together the plus amounts pursuant to subparagraphs (1), (2) and (3), as follows:

(1) From the Chicago butter price, subtract 3 cents and then multiply by 4.2;

(2) From the simple average of the weighted averages of the carlot prices per pound of spray and roller process nonfat dry milk solids for human consumption, f.o.b. manufacturing plants in the Chicago area, as published for the period from the 26th day of the immediately preceding month through the 25th day of the current month by the Department, deduct 5.5 cents and multiply by 8.2; and

(3) Add 5 cents.

Proposals No. 3. Amend § 1047.62 (b) (1) (i) by adding thereto the following proviso:

Provided, That this computed amount shall be reduced for each of the months of April, May and June by an amount equal to 8 percent of the Class I price multiplied by the pounds of milk received from dairy farmers and during each of the months of October, November, and December the computed amount shall be increased by one-third of the total of the preceding deductions.

Proposed by the Milk Marketing Orders Division, Agricultural Stabilization and Conservation Service:

Proposal No. 4. Make such changes as may be necessary to make the entire marketing agreement and the order conform with any amendments thereto that may result from this hearing.

Copies of this notice of hearing and the order may be procured from the Market Administrator, Richard J. Connolly, 503 Strauss Building, 809–11 South Calhoun Street, Fort Wayne, Indiana, or from the Hearing Clerk, Room 112, Administration Building, United States Department of Agriculture, Washington 25, D.C., or may be there inspected.

Signed at Washington, D.C., on December 29, 1961.

W. E. UNDERHILL,
Acting Deputy Administrator, Price and Production, Agricultural Stabilization and Conservation Service.

MILK IN INDIANAPOLIS, IND., MARKETING AREA

Notice of Hearing on Proposed Amendments to Tentative Marketing Agreement and Order

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), notice is hereby given of a public hearing to be held in the Gold Room, Washington Hotel, 32 East Washington Street, Indianapolis, Indiana, beginning at 10:00 a.m., local time, on January 30, 1962, with respect to proposed amendments to the tentative marketing agreement and to the order regulating the handling of milk in the Indianapolis, Indiana, marketing area.

The public hearing is for the purpose of receiving evidence with respect to the economic and marketing conditions which relate to the proposed amendments, hereinafter set forth, and any appropriate modifications thereof, to the tentative marketing agreement and to the order.

The proposal relative to a redefinition of the marketing area raises the issue whether the provisions of the present order would tend to effectuate the declared policy of the Act, if they are applied to the marketing area as proposed to be redefined and, if not, what modifications of the provisions of the order would be appropriate.

The proposed amendments set forth below have not received the approval of the Secretary of Agriculture.

Proposed by Central Indiana Dairy Association, Independent Milk Producers Association, Howard County Milk Producers, Inc., Miami Valley Milk Producers Association, Vigo County Milk Producers Association, Danville Producers Dairy and Wayne Cooperative Milk Producers, Inc.:

Proposal No. 1. Amend § 1049.6 by adding the following counties: Vigo, Clay, Owen and Monroe, all in the State of Indiana.

Proposal No. 2. Amend § 1049.12(a) to read as follows:

(a) A distributing plant from which not less than 50 percent of the Grade A milk received at such plant from dairy farmers and other plants is disposed of during the month on routes and not less than 10 percent of such receipts is disposed of on routes in the marketing area: *Provided*, That a pool distributing plant qualified pursuant to this paragraph in each of the immediately preceding months of September through May shall be a pool plant for each of the months of June through August in which it disposes of any milk on routes in the marketing area: *And provided further*, That only those dairy farmers whose milk was received by the handler at his pool plant in each of the three preceding months of March, April and May will be accorded producer status for a plant qualifying under this above proviso.

Proposal No. 3. Amend § 1049.12(b) to read as follows:

(b) A supply plant from which not less than 50 percent of the Grade A milk received at such plant from dairy farmers during the month is shipped as fluid milk products to pool plants qualified pursuant to paragraph (a) of this section: *Provided*, That a pool plant qualified pursuant to this paragraph in each of the immediately preceding months of September through January shall be a pool plant for the months of April through August unless written application is filed with the market administrator on or before the first day of any such month to be designated a nonpool plant for such month and for each subsequent month through August during which it would otherwise not qualify as a pool plant: *And provided further*, That a supply plant will not be credited with meeting requirements for pool plant status under this paragraph on shipments to a plant qualified under the second proviso in paragraph (a) of this section.

Proposal No. 4. Amend the second proviso in § 1049.16 by deleting "July" and substituting therefor "September".

Proposal No. 5. Amend § 1049.32(j)(2) by deleting the phrase "the 10th day" and substituting therefor the phrase "the 11th day".

Proposal No. 6. Amend § 1049.35 by deleting the phrase "the 8th day" and substituting therefor the phrase "the 7th day".

Proposal No. 7. Amend § 1049.44(d) to read as follows:

(d) As Class I milk, if transferred or diverted in bulk either in the form of milk or skim milk to a nonpool plant not more than 275 miles from Monument Circle, Indianapolis, Indiana, by the shortest highway distance as determined by the market administrator, or in the form of cream to any nonpool plant unless:

Proposal No. 8. Amend §§ 1049.53(a) and 1049.72(a) by deleting the phrase "70 miles" and substituting therefor the phrase "75 miles".

Proposal No. 9. Amend §§ 1049.53(b) and 1049.72(b) by deleting the phrases "70 miles" and "80 miles" and substituting therefor, respectively, the phrases "75 miles" and "85 miles".

Proposal No. 10. Amend § 1049.70(a)(2) by deleting the phrase "the 15th day" and substituting therefor the phrase "the 17th day".

Proposed by Dean Milk Company:

Proposal No. 11. Amend § 1049.35 by changing the reporting date from the 8th day after the end of the month to the 9th day after the end of the month and making corresponding changes in §§ 1049.32(j)(2) and 1049.70 to extend the date one day and any other sections which may be affected by such date change.

Proposal No. 12. Amend § 1049.44(d) by extending the 150 mile limitation on milk transfers to include plants located at a greater distance and normally receiving milk from regulated plants under Order No. 125.

Proposal No. 13. Amend § 1049.45 so that nonfat milk solids used for fortification purposes be accounted for on an actual weight basis and change other sections to correspond to such amendment.

Proposal No. 14. Amend § 1049.51(b) by changing the Class II price formula to a closer relationship with the South Bend and Fort Wayne price for milk used in the lowest price class.

Proposed by the Beatrice Foods Company:

Proposal No. 15. Amend § 1049.45 by deleting the proviso or as an alternative, classify as Class I only that portion of a fluid milk product to which concentrated nonfat milk solids have been added an amount equal to the actual weight of a similar fluid milk product of the same butterfat content and the difference between the actual weight of the product and the milk equivalent to be classified in the lowest use class.

Proposal No. 16. Amend § 1049.44 by providing in paragraph (d) when either skim milk or butterfat is moved in any form to a nonpool plant fully regulated by another Federal order, that such milk when so moved shall be assigned to the same use class to which it is assigned by the market administrator of the other order.

Proposed by the Thompson Dairy Company, Inc., Thompson Dairy, Inc., Thompson-Glass Dairy Company, Inc., and Bedford Dairy, Inc.:

Proposal No. 17. Amend § 1049.6 by extending the marketing area to include the entire geographical limits of the counties of Bartholomew, Brown, Dearborn, Decatur, Jackson, Jefferson, Jennings, Lawrence, Monroe, Ohio, Ripley, Scott and Switzerland, all in the State of Indiana.

Proposed by Med-O-Bloom Dairy:

Proposal No. 18. Amend § 1049.16 to provide diversion of milk between pool plants.

Proposal No. 19. Amend §§ 1049.41 and 1049.45 to provide Class II classification of skim milk used for fortification.

Proposal No. 20. Amend § 1049.51(a) by changing $1.25 to $1.20.

Proposal No. 21. Delete § 1049.53(a).

Proposal No. 22. Amend § 1049.51 and any other necessary sections to provide a lower price for skim milk and butterfat classified under § 1049.41(b)(3).

Proposed by East Side Jersey Dairy, Inc.:

Proposal No. 23. Delete §§ 1049.53 and 1049.72, relating to location differentials.

Proposal No. 24. Amend § 1049.45, relating to reconstituted nonfat solids, by classifying into two groups, (a) fortification and (b) reconstitution, only the pounds of nonfat solids to be accounted for in Class I.

Proposal No. 25. Amend § 1049.16 to provide unlimited diversion to nonpool plants.

Proposal No. 26. Amend § 1049.78 by changing "4 cents" to "2 cents".

Proposed by The Kroger Company:

Proposal No. 27. Reconsider the shrinkage allowance provided for in § 1049.42.

Proposed by the Milk Foundation of Indianapolis, Inc.:

Proposal No. 28. Delete § 1049.21.

Proposal No. 29. Delete § 1049.41 and substitute the following:

Subject to the conditions set forth in § 1049.44, the classes of utilization shall be as follows:

(a) *Class I milk.* Class I milk shall be all skim milk and butterfat:

(1) Disposed of in the form of fluid milk products except those classified pursuant to paragraph (b) (2), (3) and (4) of this section, except that fluid milk products that are fortified with nonfat solids shall be Class I in an amount equal only to the weight of an equal volume of an unmodified fluid milk product of the same nature and butterfat content, and

(2) Not specifically accounted for as Class II or Class III milk.

(b) *Class II milk.* Class II milk shall be all skim milk and butterfat:

(1) Used to produce eggnog, milk shake mix and sour cream;

(2) Disposed of for livestock feed;

(3) Dumped if the market administrator has been notified in advance and afforded the opportunity to verify such dumping;

(4) Contained in that portion of "fortified" fluid milk products not classified as Class I pursuant to paragraph (a)(1) of this section;

(5) Disposed of in fluid milk products delivered in bulk to and used at commercial food establishments devoted exclusively to the manufacture of bakery products, candy, or processed foods packaged in hermetically sealed containers;

(6) In inventory of fluid milk products on hand at the end of the month; and

(7) In shrinkage allocated to producer milk that is not in excess of 2 percent of the receipts of skim milk and butterfat, respectively, in producer milk, plus 1.5 percent of receipts of skim milk and butterfat, respectively, received in bulk tank lots from pool plants, less 1.5 percent of skim milk and butterfat, respectively, disposed of in bulk tank lots to pool plants.

(c) *Class III milk.* Class III milk shall be all skim milk and butterfat:

(1) Used to produce a product other than a fluid milk product or a Class II product.

Proposal No. 30. Amend § 1049.51 by adding thereto the following:

(c) *Class III price.* The price for Class III milk shall be the Minnesota-Wisconsin average price per hundredweight for manufacturing grade milk f.o.b. plants, less 15 cents per hundredweight.

Proposal No. 31. Amend § 1049.52 by adding thereto the following:

(c) *Class III price.* Multiply the butter price for the month by 0.113.

Proposal No. 32. Delete § 1049.53(a).

Proposal No. 33. Delete § 1049.72(s).

Proposal No. 34. Amend § 1049.78 by substituting one and one-half cents per hundredweight, where 4 cents per hundredweight now appears.

Proposed by Frazier's Dairy:

Proposal No. 35. Amend § 1049.41(b)(5) by changing 0.5 percent and 1.5 percent, respectively, wherever such percentages appear and inserting 1.0 percent and 2.0 percent, respectively.

Proposal No. 36. Amend § 1049.45 by adding to the last sentence the following: When such powder or product is used for fortifying it will be charged for at actual pounds used.

Proposal No. 37. Delete § 1049.50(a).

Proposal No. 38. Delete § 1049.51(b) and substitute:

(b) The Class II price shall be the manufacturing price for 3.5 percent milk in the Minnesota-Wisconsin area.

Proposal No. 39. Amend § 1049.41 by adding a Class III utilization to cover the surplus skim milk and butterfat diverted to a nonpool plant during April, May, June and July.

Proposal No. 40. Amend § 1049.51 by adding a new paragraph (c) as follows:

(c) The price for Class III milk shall be the Minnesota-Wisconsin area manufacturing cost for 3.5 percent milk reduced by 30 cents per hundredweight.

Proposed by Miller Dairy Division, Miller Corporation:

Proposal No. 41. Amend § 1049.32 to provide audit of handlers' records at regular intervals so that at no time will a handler's records be over four months in arrears.

Proposal No. 42. Extend the marketing area to include the counties of Union, Franklin, Ripley and Decatur, all in the State of Indiana.

Proposed by Wayne Dairy Products, Inc.:

Proposal No. 43. Extend the marketing area to include the following additional counties: Randolph, Union, Franklin and Decatur, all in the State of Indiana.

Proposal No. 44. Amend § 1049.8 to read as follows:

FOREIGN-TRADE ZONES BOARD

FOREIGN-TRADE ZONE NO. 5, SEATTLE, WASH.

Extension of Time for Permanent Relocation

Mr. H. M. Burke, General Manager, Port of Seattle, Seattle, Washington, as representative of the zone grantee, on October 27, 1961, advised the Foreign-Trade Zones Board of their inability to accomplish the permanent relocation of Foreign-Trade Zone No. 5 by the date established in Memorandum Order, dated June 2, 1960, and requests an extension of time to June 30, 1963.

The Committee of Alternates has reviewed the circumstances in this case and unanimously recommend that the request for an extension of time from December 31, 1961, to June 30, 1963, be granted.

Upon consideration the Board concurs in the Committee's recommendation and hereby adopts the following resolution: The Foreign-Trade Zones Board, after consideration of the request from the Port of Seattle Commission, Grantee, Foreign-Trade Zone No. 5 for an extension of time from December 31, 1961, to June 30, 1963, to permanently relocate the zone, approves the request.

The Executive Secretary of the Foreign-Trade Zones Board is directed to incorporate this Memorandum, the letters from the Assistant Secretary of the Treasury A. Gilmore Flues, dated December 18, 1961, and Colonel Carl H. Bronn, Department of the Army, dated December 8, 1961, approving the foregoing Resolution in the official records of the Foreign-Trade Zones Board. The Executive Secretary will publish the foregoing resolution in the FEDERAL REGISTER.

Dated: December 27, 1961.

LUTHER H. HODGES,
Secretary of Commerce, Chairman and Executive Officer, Foreign-Trade Zones Board.

FEDERAL AVIATION AGENCY

PLAN FOR STANDARD INSTRUMENT DEPARTURES

Revision

Notice is hereby given, pursuant to the provisions of the Federal Aviation Act of 1958, as amended, of the Federal Aviation Agency plan for the establishment and use of Standard Instrument Departures (SIDs).

A. A Standard Instrument Departure is a means of simplifying air traffic control clearances and relay and delivery procedures, and presents such air traffic control clearance to the pilot in pictorial and/or narrative form.

B. The Agency plans to establish Standard Instrument Departures at:

1. Civil airports for the most frequently-used departure routes, if their establishment would be advantageous to both the users and air traffic control and if the Standard Instrument Departure will materially reduce the verbiage of an air traffic control clearance; and

2. Military airports for the most frequently-used departure routes, regardless of the simplicity or complexity of the air traffic control clearance.

C. Application of the Standard Instrument Departure program will be limited to those flights where the pilots file in a proposed instrument flight plan a request for a specific Standard Instrument Departure or any Standard Instrument Departure available for the airport of departure.

D. The filing of a specific Standard Instrument Departure or any Standard Instrument Departure for the airport of departure in a proposed instrument flight plan or any request by the pilot, prior to take-off, for a specific or any Standard Instrument Departure will be considered by the Agency as a statement by the pilot that he is familiar with, and has available, the necessary charts and/or narrative of all the Standard Instrument Departures pertinent to his operation from the airport of departure.

E. Participation in this program is voluntary on the part of the pilot. However, an accepted SID must be complied with as provided in Civil Air Regulations, § 60.21 (14 CFR 60.21).

Issued in Washington, D.C., December 28, 1961.

LEE E. WARREN,
Acting Director, Air Traffic Service.

At a session of the Federal Communications Commission held at its offices in Washington, D.C., on the 27th day of December, 1961;

The Commission having under consideration the applications Rochester Area Educational Television Association, Inc. (BPCT-2943), Star Television, Inc. (BPCT-2948), Community Broadcasting, Inc. (BPCT-2953), Heritage Radio and Television Broadcasting Co. (BPCT-2961), Ivy Broadcasting Company, Inc. (BPCT-2963), Main Broadcasting Company, Inc. (BPCT-2964), Federal Broadcasting System, Inc. (BPCT-2966), Citizen's Television Corporation (BPCT-2967), Rochester Broadcasting Corporation (BPCT-2972), Rochester Telecasters, Inc. (BPCT-2974), captioned above, each requesting a construction permit for a new television broadcast station to operate on Channel 13 in Rochester, New York; and

It appearing, that on November 21, 1961, the Commission designated for hearing two applications (BPCT-2929 and BPCT-2944), each requesting a construction permit for Channel 13 in Rochester, New York (FCC-61-1367, Docket Nos. 14394 and 14395); and

It further appearing, that the above-captioned applications (BPCT-2943, 2948, 2953, 2961, 2963, 2964, 2966, 2967, 2972, 2974), were on file on November 20, 1961, the day preceding the date on which the prior applications were designated for hearing, and are mutually exclusive and entitled to comparative consideration therewith; and

It further appearing, that the above-captioned applications propose antenna locations in the vicinity of the antennas of Standard Broadcast Stations WBBF, WVET, WHEC, and WSAY; that the installation and operation of the television antennas as proposed are possible and feasible without adversely affecting the ability of the Station WBBF, WVET, WHEC, and WSAY to operate in accordance with the terms of their licenses, but that appropriate proof thereof should be submitted after installation of any of the proposed antennas; and that a grant, if made, of any of the above-captioned applications should be subject to the condition in this respect as follows:

The construction authorized herein is subject to the condition that the ability of Standard Broadcast Stations WBBF, WVET, WHEC, and WSAY to operate in accordance with the terms of their licenses shall not be adversely affected thereby, particularly with respect to their radiation patterns, and that at least five field intensity measurements on each radial established during the last proof of performance for each of these standard broadcast stations shall be submitted with the television application for license to prove that such patterns have not been materially affected.

It further appearing, that Rochester Area Educational Television Association, Inc., and Rochester Telecasters, Inc., propose a share-time operation; and

It further appearing, that the above-captioned applications are mutually exclusive with the exception that the applications of Rochester Area Educational Television Association, Inc., and Rochester Telecasters, Inc., are complementary and mutually contingent and considered together are mutually exclusive with the other applications; and

It further appearing, that the following matters are to be considered in connection with the issues specified below:

(a) The proposal of Star Television, Inc. (BPCT-2948).

Based on information contained in the application, it appears that cash in the approximate amount of $981,000 will be required for construction and initial operation of the proposed station. It appears that construction and operation will be financed, in part, by means of a line of credit from the Central Trust Bank in the amount of $1,000,000. This loan is subject to the condition that the applicant has paid in capital and loans by stockholders of not less than $600,000. This condition has not been met and, therefore, it cannot be determined that Star Television, Inc., is financially qualified.

(b) The proposal of Ivy Broadcasting Company, Inc. (BPCT-2963).

1. The applicant has pending an application (BPCT-2949) for a construction permit for a new television broadcast station to operate on Channel 9 in Syracuse, New York. In the event both applications were to be granted, it appears that substantial overlap would result. Under such circumstances and assuming a grant of the Syracuse application, it appears appropriate to consider the size, extent and location of the areas served and to be served; the extent of the overlap involved; the number of persons served; the number of persons residing within the overlap area; the extent of other competitive service to the areas in question; the extent to which the stations will rely on the same revenue and program sources; the nature of the programming that the stations will present, with particular reference to the particular need of the communities they are designed to serve; the advertising practices of the stations; the source of program material and talent for each station; and such other factors as will tend to demonstrate that the overlap involved will not be in contravention of § 3.636(a)(1) of the Commission's rules.

2. Based on information contained in the application, it appears that cash in the approximate amount of $1,310,000 will be required for construction and initial operation of the proposed station. Applicant proposes to finance the costs of construction and operation by means of a bank loan of $1,000,000 and existing capital of $75,000. With respect to existing capital, the applicant's balance sheet shows that current assets exceed current liabilities by only $10,000. In addition, it appears that current liabilities are understated since Commission records show that the current portion of long term debts has not been included as a current liability. Moreover, the applicant has pending an application (BPCT-2949) for a permit to construct a television broadcast station on Channel 9 in Syracuse, New York and in connection therewith proposes the use of existing capital for financing the cost of construction and initial operation. In view of the foregoing, it cannot be determined that Ivy Broadcasting, Inc., is financially qualified to construct and operate the proposed station.

(c) The proposal of Main Broadcasting Company, Inc. (BPCT-2964).

1. Based on information contained in the application, it appears that cash in the approximate amount of $570,000 will be required for construction and initial operation of the proposed station. The applicant proposes to finance the construction and initial operation by means of a bank loan of $500,000 and stock subscriptions of $100,000 from the four stockholders. The balance sheets submitted for the stockholders do not disclose current and liquid assets in excess of current liabilities sufficient in amount to meet their commitments. Consequently, it cannot be determined that applicant is financially qualified to construct and operate the proposed television broadcast station.

2. The electrical center and gain for the type antenna proposed do not correspond with data filed with the Commission by the manufacturer. It is necessary, therefore, to determine the correct antenna gain and/or electrical center of the proposed antenna.

(d) Federal Broadcasting System, Inc. (BPCT-2966).

It appears that the site elevation figure utilized in determining the antenna height above average terrain and the

antenna height above sea level and the heights affected thereby is in error.

It further appearing, that upon due consideration of the above-captioned applications (BPCT–2943, 2948, 2953, 2961, 2963, 2964, 2966, 2967, 2972, and 2974), the Commission finds that Rochester Area Educational Television Association, Inc., is legally, financially, technically and otherwise qualified to construct, own and operate the proposed television broadcast station; that Star Television, Inc. is legally and technically qualified to construct, own and operate the proposed television broadcast station and is otherwise qualified except with respect to issue "1" below; that Community Broadcasting, Inc. is legally, financially, technically and otherwise qualified to construct, own and operate the proposed television broadcast station; that Heritage Radio and Television Broadcasting Company is legally, financially, technically and otherwise qualified to construct, own and operate the proposed television broadcast station; that Ivy Broadcasting Company, Inc., is legally and technically qualified to construct, own and operate the proposed television broadcast station and is otherwise qualified except with respect to issues "2" and "3" below; that Main Broadcast Company, Inc., is legally qualified to construct, own and operate the proposed television broadcast station, is technically so qualified except with respect to issue "4" below and is otherwise qualified except with respect to issue "5" below; that Federal Broadcasting System, Inc., is legally and financially qualified to construct, own and operate the proposed television broadcast station and is technically and otherwise qualified except with respect to issue "6" below; that Citizen's Television Corporation is legally, financially, technically and otherwise qualified to construct, own and operate the proposed television broadcast station; that Rochester Broadcasting Corporation is legally, financially, technically and otherwise qualified to construct, own and operate the proposed television broadcast station; and that Rochester Telecasters, Inc. is legally, financially, technically and otherwise qualified to construct, own and operate the proposed television broadcast station.

It is ordered, That pursuant to section 309(3) of the Communications Act of 1934, as amended, the above-captioned applications (BPCT–2943, 2948, 2953, 2961, 2963, 2964, 2966, 2967, 2972, and 2974) are designated for hearing and consolidated into the pending proceeding in Docket Nos. 14394 and 14395 upon the following issues:

1. To determine whether Star Television, Inc., is financially qualified to construct, own and operate the proposed television broadcast station.

2. To determine whether Ivy Broadcasting Company, Inc., is financially qualified to construct, own and operate the proposed television broadcast station.

3. To determine, assuming a grant of Ivy Broadcasting Company's application (BPCT–2949) for Channel 9, Syracuse, New York, whether a grant of the subject application would contravene the provisions of Section 3.636 of the Commission's Rules.

4. To determine the correct antenna gain and/or electrical center of the antenna proposed by Main Broadcasting Company, Inc.

5. To determine whether Main Broadcasting Company, Inc., is financially qualified to construct, own and operate the proposed television broadcast station.

6. To determine the exact elevation above mean sea level of the antenna site proposed by Federal Broadcasting System, Inc., and other elevations that would be affected thereby.

7. To determine on a comparative basis which of the mutually exclusive operations proposed in the above-captioned applications would best serve the public interest, convenience and necessity in light of the significant differences among the applicants as to:

(a) The background and experience of each bearing on its ability to own and operate the proposed television broadcast station.

(b) The proposals of each with respect to the management and operation of the proposed television station.

(c) The programming service proposed in each of the above-captioned applications.

8. To determine, in light of the evidence adduced pursuant to the foregoing issues, which of the applications should be granted.

It is further ordered, That issues "7" and "8" of this order shall supersede the issues specified in the Commission's Order of November 15, 1961 (FCC 61–1367), in Docket Nos. 14394 and 14395.

It is further ordered, That the time and place of the consolidated hearing will be specified in a subsequent order.

It is further ordered, That the issues in the above-entitled proceeding may be enlarged by the Examiner on his own motion or on petition properly filed by a party to the proceeding and upon sufficient allegations of fact in support thereof, by the addition of the following issue:

To determine whether the funds available to the applicants will give reasonable assurance that the proposals set forth in the applications will be effectuated.

It is further ordered, That to avail themselves of the opportunity to be heard, the applicants, pursuant to § 1.140 of the Commission's rules, in person or by attorney, shall, within twenty (20) days of the mailing of this order, file with the Commission in triplicate a written appearance stating an intention to appear on the date fixed for the hearing and present evidence on the issues specified in this order.

It is further ordered, That the applicants herein and the applicants previously designated for hearing in Docket Nos. 14394 and 14395 shall, pursuant to section 311(a)(2) of the Communications Act of 1934, as amended, and § 1.362(b) of the Commission's rules, give notice of the hearing, either individually or, if feasible, jointly, within the time and in the manner prescribed in such rule, and shall advise the Commission of the publication of such notice as required by § 1.362(c) of the rules.

Released: January 2, 1962.
